1. Accessories and Cables

- Remote Control & Batteries (AAA x 2)
- Power Cord
- HDMI Cable
- Wall Mount Adapter (HEA)
- A/C-DC Adapter
- Component/VGA Cable
- Optical Audio Cable
- Digital AV Cable
- DVI-D Cable
- Coaxial (RF)
- Composite AV Cable

2. Important Safety Instructions

CAUTION
RISK OF ELECTRIC SHOCK DO NOT OPEN
This symbol indicates that high voltage is present inside. It is dangerous to make any kind of contact with any internal part of the product.

This symbol indicates that important literature concerning safety and maintenance has been included with the product.

Make sure you have the correct cable before plugging it in. Illustrations of common plugs and jacks are below.

Be careful when you contact the TV because some parts can be somewhat hot. When using a stand or wall-mount, use parts provided by Samsung Electronics only.

Installing Batteries into the Remote (Battery size: AAA)

- Make sure the orientation of the plug is correct before plugging it in.
- Do not plug a cable in upside down.
- Make sure the polarity of the battery matches the symbols in the battery compartment.
- Match the polarity of the plug to the symbols in the plug.
- Do not short-circuit, disassemble or overheat the batteries.
- Do not drop or apply any shock to the product. If the product is damaged, disconnect the power cord and contact a service center.
- Do not install the product in an unstable location such as a shaky self, a slanted floor or a location exposed to vibration.
- Store the accessories (battery, etc.) in a location safely out of the reach of children.
- Do not leave the remote control or batteries within the reach of children. If swallowed, seek medical advice immediately.
- Place the remote control out of the reach of children.
- Do not put batteries of different types or brands in the remote control. This may result in a battery failure.
- Do not put any objects on the remote control.
- Do not put batteries with different usage times in the remote control.
- The remote control may not function properly in direct sunlight or near fluorescent lights or neon signs.
- If this apparatus does not operate normally - in particular, if there are any unusual sounds or smells coming from it - unplug it immediately and disconnect the power cord from the wall outlet.
- If the product is to remain unused for an extended period of time (especially when children, elderly or disabled people will be left alone in the house), unplug it from the power outlet.
- When cleaning this apparatus, unplug the power cord from the wall outlet and wipe the product using a soft, dry cloth. Do not use any chemicals such as benzene, thinners or insecticide as this may damage the surface of the product.
- Do not place vessels (vases, etc.) containing water on this apparatus, as this can result in a fire or electric shock.
- Do not expose this apparatus to rain or place it near water (near a bathtub, washbowl, kitchen sink, or laundry tub, in a wet basement, or near a swimming pool). This apparatus is not resistant to moisture.
- Do not install the product in a confined space, such as an oven or close to a radiator.
- The slots and openings in the cabinet and in the back or bottom are provided for necessary ventilation. To ensure reliable operation of this apparatus and to protect it from overheating, these slots and openings must not be blocked or covered.
- Do not place the apparatus near a heat source such as a radiator, stove or other appliance (including amplifiers) that produces heat.
- Do not place the apparatus near or over a heat source such as a television, heat lamp, or radiator, or near a window, etc. if the apparatus gets too hot, it can result in fire or equipment failure.
- Do not expose this apparatus to rain or place it near water (near a bathtub, washbowl, kitchen sink, or laundry tub, in a wet basement, or near a swimming pool) as this apparatus is not resistant to moisture.
- Do not place this apparatus in high humidity, such as in a bathroom, or where it will operate 24 hours a day such as in an airport, a train station, etc. Failing to do so may cause a dangerous situation due to heat or moisture. If moisture enters the product, sudden temperature changes can cause condensation, which can cause a dangerous situation.

3. Getting Started

Provide Ventilation for Your TV

- When you install your TV, maintain a distance of at least 4 inches between the TV and other objects (cabinets, wall, etc.) to ensure proper ventilation. Failing to maintain proper ventilation may result in a fire or a problem with the product caused by an increase in its internal temperature.

Installation with a stand.

- Be careful when you contact the TV because some parts can be somewhat hot.
- Use the remote control within 23 feet of the TV.

Installation with a wall-mount.

- Connect your TV to an antenna or cable connection, and then connect your peripherals. When done, connect the power cord to the wall outlet. Always pull on the power cord's plug not on the cord itself.

Installing Batteries into the Remote (Battery size: AAA)

- Use the remote control within 23 feet of the TV.
- Bright light may affect the performance of the remote control. Avoid use when near fluorescent lights or neon signs.
- The color and shape of the remote may vary depending on the model.

4. Making Connections

Connect your TV to an antenna or cable connection, and then connect your peripherals. When done, connect the power cord to the TV and then connect the power cord to an AC wall outlet. If you are connecting your TV to a cable or satellite box using HDMI, Component, or Composite connections, you do not need to connect the ANT IN jack to an antenna or a cable connection.

For the best picture and audio quality, connect digital devices (Blu-ray players, DVD players, etc.) to your TV using an HDMI cable. If you connect external digital devices to the TV that uses an older version of HDMI, the video and audio may not work. If this occurs, ask the manufacturer of the device about the HDMI version and, if it is not out of date, request an upgrade.

Be sure to connect both HDMI IN 1 (STB) and HDMI IN 2 (DVI) to your external devices.

For an HDMI to DVI cable connection, you must use the HDMI IN (DVI) port.

Connecting through the HDMI cable may not be supported depending on the PC.

For the best box connection using HDMI cables, we highly recommend you to connect the HDMI IN 1 (STB) port.
5. The Remote Control
Learn where the function buttons are on your remote. Especially note POWER, SOURCE, VOL, OH, MENU, TOOLS, ENTER, OH LIST, RETURN and EXIT.

Displays and selects the available video sources.
Press to access channels directly.
Selects additional digital channels being broadcast by the same digital station. For example, to select channel "54-3" press "54", then press "+" and "3".
Adjusts the volume.
Displays the channel list on the screen.
Displays frequently used functions.
Moves the cursor, selects the on-screen menu item, and changes the value seen on the TV's menu.
Returns to the previous menu.
PIC SIZE: Changes the picture size.
MTL: Changes a program's audio to mono, stereo, or Separate Audio Program (SAP broadcast).
CC: Controls the caption decoder and displays captions on the screen.

The buttons above may differ from the actual names.
Some buttons on the remote may not be available.
This remote control has Braille points on the Power, Channel, and Volume buttons and can be used by visually impaired persons.

9. Using the TV's Controller
The TV's Controller on the bottom right side of the TV, lets you control the TV without the remote control.

To select a menu option in one of the categories, press the button or the button when the category name is highlighted in the color of the button.

Remote control/TV Controller

The product color and shape may vary depending on the model.
You cannot input the numbers by pressing the TV's controller.
If you press it first, the control menu appears. You can select the function by pressing and holding the TV's controller.
With the TV's Controller, you cannot perform other operations except for turning the TV on or off, changing the channel, adjusting the volume, and switching the input source.

10. Important Safety Information
Caution: Pulling, pushing, or climbing onto the TV may cause the TV to fall. In particular, ensure that your children do not hang over or destabilize the TV. Doing so may cause the TV to tip over resulting in serious injuries or death. Follow all safety precautions provided on the included Safety Flyer.
