

# WAM250 S/W Update Method by USB Flash Drive

## Preparation :

1. Visit [www.samsung.com](http://www.samsung.com)
2. Download the latest USB software update zip archive to the computer.
3. Unzip the zip archive to the computer.  
You should have a bin file with the same name as the zip file.
4. Copy the file to a USB flash drive root.

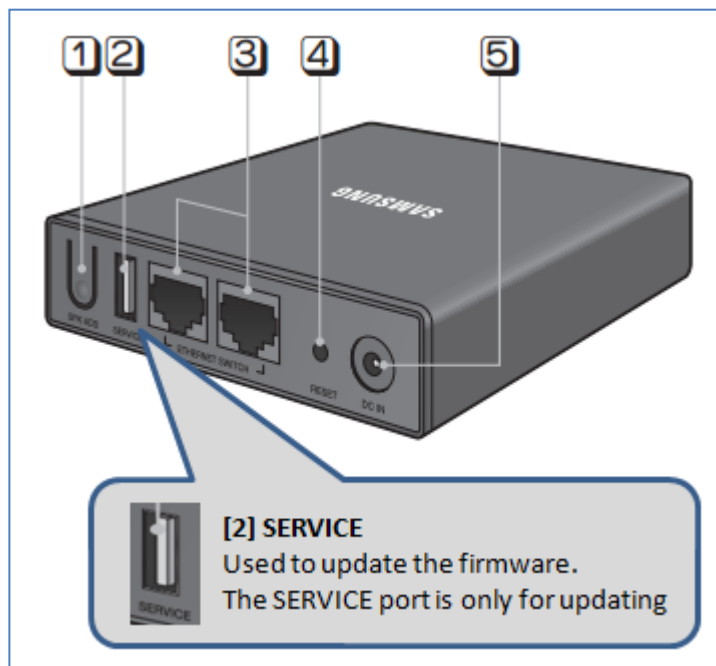

## Warning :

The following events may interrupt the update process and  
MAY RESULT IN PERMANENT DAMAGE TO THE UNIT.

1. Unplugging the power cord
2. Power Outage.

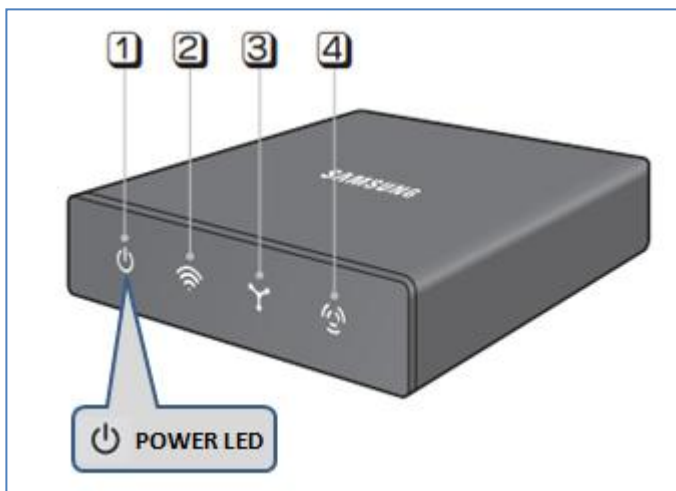

## How to Update the WAM250 HUB by USB :

1. Power on the HUB
2. Insert the USB flash drive into the SERVICE port of the HUB.

3. The HUB automatically downloads new software from USB.

4. Power LED on the front of the HUB blinks and a HUB update may take up to more than 2 minutes.

5. After completing the update, Power LED turns off and then the HUB turns on automatically.
