Charging the battery

1. Plug the small end of the charger into a multipurpose jack of the device, and plug the large end of the charger into an electric socket.
2. After fully charging, disconnect the device from the charger. First unplug the charger from the device, and then unplug it from the electric socket.

Making or answering a call

To make a call, enter a phone number and press [→]. To answer an incoming call, press [<].

Sending and viewing messages

- To make a call, enter a phone number and press [→].
- To send a call, press [ ].
- To call a recently dialed number, press [→], to select a number, and press [→] again to dial the number.
- To make a call using the phonebook, press [ Menu ] → Contacts → Contact list, select a contact and press [→].
- To answer an incoming call, press [→].

Managing contacts

Save data, such as names, phone numbers and personal information in the device memory or SIM card.

Sending messages

1. Press Create message
2. Press Options → Add recipients → Contact list to open the phonebook.
3. Select a contact and press Options → Add. Or, enter a contact number.
4. Scroll down and enter a text message. See "Editing messages".
5. Press Options → Send.

Accessing menus

1. To access the device’s menus or options, press Menu button. Press and hold [ ], and then enter the PIN and press [OK], if necessary.

Sending messages

1. Press Create message
2. Press Options → Add recipients → Contact list to open the phonebook.
3. Select a contact and press Options → Add. Or, enter a contact number.
4. Scroll down and enter a text message. See "Editing messages".
5. Press Options → Send.

Changing the message alert tone

1. Press Create message
2. Press Options → Add recipients → Contact list to open the phonebook.
3. Select a contact and press Options → Add. Or, enter a contact number.
4. Scroll down and enter a text message. See "Editing messages".
5. Press Options → Add recipients.
6. Select a contact and press Options → Add recipients.
7. Press Options → Send.

Deactivating the mobile tracker

1. Press the Confirm button to select 2.
2. Press OK to select 2.
3. Enter password and press [→].

Deactivating alarms

1. Press Create message
2. Press Options → Add recipients → Contact list to open the phonebook.
3. Select a contact and press Options → Add. Or, enter a contact number.
4. Scroll down and enter a text message. See "Editing messages".
5. Press Options → Add recipients.
6. Select a contact and press Options → Add recipients.
7. Press Options → Send.

Deactivating the mobile tracker

1. Press the Confirm button to select 2.
2. Press OK to select 2.
3. Enter password and press [→].

Using the mobile tracker

The mobile tracker feature helps locate and recover the device if it is stolen or lost. When someone inserts a different SIM card, a tracking message will be sent to preset recipients. This feature might be unavailable due to certain features supported by the service provider.

Using shortcuts

- Press OK to select 2.
- Enter password and press [→].
- Press the Confirm button to select 2.
- Enter recipient and sender details.
- Press Save → Accept.
- Press the Confirm button to select 2.

Installing the SIM card and battery

1. Remove the back cover and insert the SIM card.
2. Insert the battery and replace the back cover.
Warning

Failure to comply with safety warnings and regulations can cause serious injury or death.

Do not use damaged power cords or plugs, or loose electrical sockets. Loose contacts may cause electric shock or fire.

Do not touch the power cord with wet hands. Do not unplug the device while touching the power cord. Doing so may result in a fire or electric shock.

Do not bend or damage the power cord. Doing so may result in fire.

Do not use your device while it is charging or touch your device with wet hands. Doing so may cause electric shock or fire.

Do not short-circuit the charger or the device. Doing so may cause electric shock or fire, the battery may malfunction or explode.

Do not use your device outdoors during a thunderstorm. Doing so may result in electric shock or device malfunction.

Use manufacturer-approved batteries, chargers, and accessories. Using generic batteries or chargers may cause the battery to overheat, catch fire, or explode.

Using generic batteries or chargers may shorten the life of your device. It may also cause the battery to overheat, catch fire, or explode. Always use Samsung-approved battery and charger specifically designed for your device. Incompatible battery and charger can cause serious injury or death. Samsung cannot be responsible for the safety of using accessories that are not approved by Samsung.

Always replace the battery cover and do not use your device if the cover is damaged.

Handle and dispose of the device and charger with care. Do not disassemble, modify, or repair your device or charger. Doing so may cause electric shock or fire.

Do not store your device near or in heating elements, hot cooking equipment, or high pressure containers, such as cylinders. Doing so may damage the device.

Do not use or store your device in areas with high concentrations of dust or irritants materials. Dust or foreign materials can cause your device to malfunction or may result in electric shock.

Do not take pictures or record videos in privacy locations such as health facilities, places of worship, or funerals.

Do not disassemble or modify your device. Do not attempt to repair your device by removing any parts or openings in the enclosure.

Do not use your device in spaces with high concentrations of dust or irritants materials. Dust or foreign materials can cause your device to malfunction or may result in electric shock.

Do not drop your device or cause impacts to your device. Do not drop your device or cause impacts to your device. Doing so may result in a malfunction or the device may be damaged.

Care and use your mobile device properly

Keep your dry device

Avoid storing your device for more than a week, as this may result in damage to your device or cause the battery to lose its capacity.

Over time, unused device will discharge and must be recharged. Your device may not be recharged as expected if the battery is not recharged for a long time. Recharge the battery at least once every two months to prevent damage.

Do not leave your device in a hot place or expose it to high temperatures. Doing so may cause the battery to explode.

Do not use your device near electronic equipment such as televisions, radios, or loudspeakers. Doing so may cause electric shock or fire.

Do not store your device in very hot or very cold areas. It is recommended to use your device at a temperature of 32°F to 95°F (0°C to 35°C).

Do not use your device near metal objects such as a metal box or refrigerator. Doing so may cause the battery to overheat and you may suffer from electric shock.

Do not leave your device to dry out for extended periods of time (e.g., on the dashboard of a car). Doing so may cause the battery to overheat.

Do not use your device on extended periods of time if you have very dry hands, as this may result in skin irritation.

If anyone related to you has experienced seizures or blackouts while using a similar device, consult a physician before using your device.

Avoid using your device while driving a car. You may be scratched or may malfunction.

Do not store your device near magnetic fields

Avoid storing your device near high magnetic fields, as this may result in damage to your device or cause the battery to lose its capacity.

Do not store your device in places where you may be exposed to magnetic fields. Doing so may result in damage to your device or cause the battery to lose its capacity.

Do not store your device near magnets. Magnetic fields can cause the battery to lose its capacity.

Do not store your device near magnets. Magnetic fields can cause the battery to lose its capacity.

Do not store your device in places where you may be exposed to magnetic fields. Doing so may result in damage to your device or cause the battery to lose its capacity.
