Please read this manual before operating your device and keep it for future reference.
**Warning:** This product contains chemicals known to the State of California to cause cancer and reproductive toxicity. For more information, please call 1-800-SAMSUNG (726-7864).

**Intellectual Property**

All Intellectual Property, as defined below, owned by or which is otherwise the property of Samsung or its respective suppliers relating to the SAMSUNG mobile device, including but not limited to, accessories, parts, or software relating thereto (the “mobile device”), is proprietary to Samsung and protected under federal laws, state laws, and international treaty provisions. Intellectual Property includes, but is not limited to, inventions (patentable or unpatentable), patents, trade secrets, copyrights, software, computer programs, and related documentation and other works of authorship. You may not infringe or otherwise violate the rights secured by the Intellectual Property. Moreover, you agree that you will not (and will not attempt to) modify, prepare derivative works of, reverse engineer, decompile, disassemble, or otherwise attempt to create source code from the software. No title to or ownership in the Intellectual Property is transferred to you. All applicable rights of the Intellectual Property shall remain with SAMSUNG and its suppliers.

**Open Source Software**

Some software components of this product incorporate source code covered under GNU General Public License (GPL), GNU Lesser General Public License (LGPL), OpenSSL License, BSD License and other open source licenses. To obtain the source code covered under the open source licenses, please visit: opensource.samsung.com.

**Disclaimer of Warranties; Exclusion of Liability**

EXCEPT AS SET FORTH IN THE EXPRESS WARRANTY CONTAINED ON THE WARRANTY PAGE ENCLOSED WITH THE PRODUCT, THE PURCHASER TAKES THE PRODUCT “AS IS”, AND SAMSUNG MAKES NO EXPRESS OR IMPLIED WARRANTY OF ANY KIND WHATSOEVER WITH RESPECT TO THE PRODUCT, INCLUDING BUT NOT LIMITED TO THE MERCHANTABILITY OF THE PRODUCT OR ITS FITNESS FOR ANY PARTICULAR PURPOSE OR USE; THE DESIGN, CONDITION OR QUALITY OF THE PRODUCT; THE PERFORMANCE OF THE PRODUCT; THE WORKMANSHIP OF THE PRODUCT OR THE COMPONENTS CONTAINED THEREIN; OR COMPLIANCE OF THE PRODUCT WITH THE REQUIREMENTS OF ANY LAW, RULE, SPECIFICATION OR CONTRACT PERTAINING THERETO. NOTHING CONTAINED IN THE INSTRUCTION MANUAL SHALL BE CONSTRUED TO CREATE AN EXPRESS OR IMPLIED WARRANTY OF ANY KIND WHATSOEVER WITH RESPECT TO THE PRODUCT. IN ADDITION, SAMSUNG SHALL NOT BE LIABLE FOR ANY DAMAGES OF ANY KIND RESULTING FROM THE PURCHASE OR USE OF THE PRODUCT OR ARISING FROM THE BREACH OF THE EXPRESS WARRANTY, INCLUDING INCIDENTAL, SPECIAL OR CONSEQUENTIAL DAMAGES, OR LOSS OF ANTICIPATED PROFITS OR BENEFITS.

**Modification of Software**

SAMSUNG IS NOT LIABLE FOR PERFORMANCE ISSUES OR INCOMPATIBILITIES CAUSED BY YOUR EDITING OF REGISTRY SETTINGS, OR YOUR MODIFICATION OF OPERATING SYSTEM SOFTWARE.

USING CUSTOM OPERATING SYSTEM SOFTWARE MAY CAUSE YOUR DEVICE AND APPLICATIONS TO WORK IMPROPERLY. YOUR CARRIER MAY NOT PERMIT USERS TO DOWNLOAD CERTAIN SOFTWARE, SUCH AS CUSTOM OS.

Getting Started

Learn about your mobile device hardware, assembly procedures, and how to get started using your new device.
Front View

Light sensors

Front camera

Microphone

Memory card slot

SIM card slot

Recent

Back

Home key

• **Back**: Tap to return to the previous screen, or to close a dialog box, menu, or keyboard.

• **Front camera**: Take pictures and record videos of yourself.

• **Home key**: Press to return to the Home screen. Activate the Fingerprint security feature.

• **Light sensors**: Detects the presence of objects near the device.

• **Memory card slot**: Install an optional memory card (not included) for storage of files.

• **Microphone**: Records audio and detects voice commands.

• **Recent**: Tap to display recent apps or touch and hold for Home screen options.

• **SIM card slot**: Install your SIM card here.
Back View

- **Headset jack**: Connect an optional headset (not included).
- **Power key**: Press and hold to turn the device on or off. Press to lock or wake up the screen. Press and hold to turn the device off or restart it, or for quick access to Airplane Mode.
- **Rear camera**: Take pictures and record videos.
- **Simple clickers**: These retractable circles attach optional covers securely to your device (not included).
- **Speaker**: Plays music and other sounds.
- **USB charger/Accessory port**: Connect the Charger/USB cable (included), and other optional accessories (not included).
- **Volume key**: Press to adjust the volume of your device’s sounds.
This section helps you to assemble your device.

Install the SIM Card

When you subscribe to a cellular network, you are provided with a plug-in SIM card. During activation, your SIM card will be loaded with your subscription details, such as your PIN, available optional services, and other features.

Warning: Please be careful when handling the SIM card to avoid damaging it. Keep all SIM cards out of reach of small children.

Caution: If the card is not inserted correctly, the device will not detect the SIM card. Re-orient the card and place it back into the slot if the SIM is not detected.

Install a Memory Card

You can install an optional microSD or microSDHC memory card (not included) to expand available memory space.

Note: A memory card can be installed at any time; it is not necessary to install it prior to using the device.

For more information on installing a memory card, see Install a Memory Card.

1. Open the SIM card slot cover and turn to expose the slot.
2. Carefully slide the SIM card into the SIM card slot until the card locks into place.

   Make sure that the card’s gold contacts face into the device and that the upper-left angled corner of the card is positioned as shown.
Charge the Battery

Your device is powered by a rechargeable, standard Li-Ion battery. A Wall/USB Charger (charging head and USB cable) is included with the device for charging the battery.

The battery comes partially charged. A fully discharged battery requires up to four hours of charge time. You can use the device while charging.

**Caution:** Use only Samsung-approved charging devices and batteries. Samsung accessories are designed to maximize battery life. Using other accessories may invalidate your warranty and may cause damage.

1. Insert the USB cable into the port.

2. Connect the USB cable to the charging head, then plug the charging head into a standard AC power outlet.

3. When charging is complete, unplug the charging head from the power outlet and remove the USB cable from the device.

**Caution:** Failure to unplug the wall charger before you remove the battery can cause damage to the device.

When to Charge the Battery

When the battery is weak and only a few minutes of operation remain, the device sounds a warning tone at regular intervals.

In this condition, your device conserves its remaining battery power by dimming the screen.

When the battery level becomes too low, the device automatically turns off.

▶ For a quick check of your battery level, view the battery charge indicator located in the upper-right corner of your device’s display. A solid color ( maxLength18400 ) indicates a full charge.

You can also choose to display a percentage value. Viewing a percentage value can provide a better idea of the remaining charge on the battery. For more information, see Battery.
Set Up Your Device

Turn Your Device On or Off

Turn the Device On

► Press and hold the **Power** key until the device starts up.

Turn the Device Off

1. Press and hold the **Power** key until the device options menu displays.

2. Tap **Power off**.

Welcome Screen

The first time you turn your device on, the Welcome Screen displays. It will guide you through the basics of setting up your device.

Follow the prompts to choose a default language, connect to a Wi-Fi network, set up accounts, choose location services, learn about your device’s features, and more.

Secure Your Device

Use your device’s screen lock features to secure your device.

Lock the Device

By default, the device locks automatically when the screen times out.

To lock the device:

► Press the **Power** key.

Unlock the Device

The default screen lock on your device is Swipe.

To unlock your device:

► Press the **Power** key or **Home** key, and then touch and drag your finger across the screen.

Set Up a Secure Screen Lock

The default Screen lock is Swipe, which offers no security. To choose a more secure screen lock, see Set a Screen Lock.
Set Up Accounts on Your Device

Google Account
Your new device uses your Google Account to fully utilize its Android features, including Gmail, Google Hangouts, and the Google Play store.

When you turn on your device for the first time, set up your existing Google Account or create a new Google Account.

– or –

To create a new Google Account or set up your Google Account on your device at any time, use Accounts settings. For more information, see Accounts.

► From a Home screen, tap Apps > Settings > Accounts > Add account > Google.

Samsung Account
Create a Samsung account, for access to Samsung content and apps on your device.

When you turn on your device for the first time, set up your existing Samsung account or create a new Samsung account.

– or –

To create a new Samsung account or set up your Samsung account on your device at any time, use Accounts settings. For more information, see Accounts.

► From a Home screen, tap Apps > Settings > Accounts > Add account > Samsung account.
Know Your Device

Learn some of the key features of your mobile device, including the screens and icons, as well as how to navigate the device and enter text using the keyboard.

**Warning:** Please note that a touch screen responds best to a light touch from the pad of your finger or a non-metallic stylus. Using excessive force or a metallic object when pressing on the touch screen may damage the tempered glass surface and void the warranty.
• **App folders**: For your convenience, there are several applications that are grouped into folders on the main Home screen.

• **App shortcuts**: Shortcuts to your favorite applications.

• **Apps screen**: Allows quick access to all of your applications.

• **Home screen indicator**: Indicates which Home screen is presently displayed.

• **Notification icons**: Displays new messages and emails, notifications, available software updates, and so on.

• **Status bar**: Displays device status icons (right) and notification icons (left).

• **Status icons**: Display information about the device, such as the network signal strength, battery level, the time, and so on.

• **Widget**: Self-contained application (not a shortcut) that runs on a Home screen.
The Home screen is the starting point for using your device.

Customize your Home screen by adding application shortcuts, widgets, folders, and using wallpapers.

To access Home Screen Manager:
► From a Home screen, pinch the screen.
– or –
Touch and hold an empty space on the screen.

Manage Home Screens
Your device comes with multiple Home screens to hold apps and widgets. You can rearrange the Home screens in a different order.

1. From a Home screen, pinch the screen.
2. Use these options to manage screens:
   • Add a screen: Scroll to the end of the screens, and then tap Add.
   • Remove a screen: Touch and hold on a screen, and then drag it to Remove.
   • Set a screen as the main Home screen: Tap Main Home screen at the top of a screen. This screen displays when you press the Home key.
   • Change the order of screens: Touch and hold on a screen, and then drag to a new position.
   • Flipboard Briefing: Scroll to the left of the screens to find the Flipboard Briefing screen. To activate this feature, tap the check box at the top center of the screen.

Wallpapers
Change the look of the Home and Lock screens with wallpaper. You can display a favorite picture or choose from preloaded wallpapers.

1. From a Home screen, pinch the screen.
2. Tap Wallpapers.

For more information, see Wallpaper Settings in Settings.

To access Wallpaper settings:
► From a Home screen, tap Apps > Settings > Wallpaper.

Widgets
Widgets are self-contained apps that run on a Home screen. There are all kinds of widgets, including links to a specific contact, Internet bookmarks, Gmail and email accounts, and many others.

Add a Widget to a Home Screen
1. Touch and hold an empty space on the screen, and then tap Widgets.
2. Touch and hold a widget, drag it to a Home screen, and then release it.

Remove a Widget
1. From a Home screen, touch and hold a widget to release it.
2. Drag the widget to Remove and release it.

Note: Removing a widget does not delete the widget, it just removes the widget from the Home screen.
App Shortcuts
You can use app shortcuts to launch an app from any Home screen.

Add a Shortcut to a Home Screen
1. From a Home screen, tap Apps.
2. Touch and hold an app shortcut, drag it to a Home screen, and then release it.

Remove a Shortcut
1. Touch and hold an app shortcut to release it.
2. Drag the app shortcut to Remove and release it.

Note: Removing a shortcut does not delete the app, it just removes the shortcut from the Home screen.

Folders
Place folders on a Home screen to organize items.

Create a Folder
You can create app folder on a Home screen.

1. Touch and hold an app icon and drag it on top of another app until a highlighted box appears.
2. Release the app icon to create the folder.
   • Tap Enter folder name to enter a name for the folder.
   • Tap Palette to change the color.
3. Tap anywhere outside of the folder to close it.
   • To add more apps, touch and hold an app icon and drag it to the folder.

Add a Folder to a Home Screen
1. From a Home screen, tap Apps.
2. Touch and hold a folder, drag it to a Home screen, and then release it.

Remove a Folder from a Home Screen
1. Touch and hold the folder until it detaches.
2. Drag the folder to Remove and release it.
The Status bar at the top of the Home screen provides device information (such as network status, battery charge, and time) on the right side and notification alerts on the left.

**Status Icons**

- Battery is fully charged.
- Battery is low.
- Battery is charging.
- The device is connected to a 4G LTE wireless network.
- Signal strength.
- Wi-Fi is active.
- No wireless network is available.

**Notification Icons**

- New email has arrived.
- New Gmail has arrived.
- New voicemail message has been received.
- New text or multimedia message has arrived.
- Download of a file or app is in progress.
- File is being uploaded or sent.
- Location service (GPS) is active.
- App updates are available from the Google Play store.
- App updates are complete.
- Keyboard is in use.
Learn the basics for how to navigate through your device, and basics for how to customize screens by editing, sharing, and deleting items.

**Touchscreen Navigation**

Use the following motions and gestures on your touchscreen to navigate the device.

**Tap**

Lightly tap items to select or launch them.
- Tap the onscreen keyboard to enter characters or text.
- Tap an item to select it.
- Tap an app icon to launch the application.

**Touch and Hold**

Touch and hold onscreen items to activate them.
- Touch and hold a widget on the Home screen to move it.
- Touch and hold a field to display a pop-up menu of options.

**Swipe**

Lightly drag your finger vertically or horizontally across the screen.
- Swipe the screen to unlock the device.
- Swipe the screen to scroll through the Home screens or menu options.

**Drag**

Touch and hold an item, and then drag to move it to a new location.
- Drag an app shortcut to add it to a Home screen.
- Drag a widget to place it in a new location on a Home screen.

**Pinch and Spread**

Pinch the screen using your thumb and forefinger or spread by moving your fingers apart.
- Pinch the screen to zoom in while viewing a picture or a web page.
- Spread your fingers on the screen to zoom out while viewing a picture or a web page.

**Motions and Gestures**

Control your device by making specific gestures with your hand above the device’s screen. For more information, see Motions and Gestures in Settings.

To access the Motions and Gestures settings:

- From a Home screen, tap Apps > Settings > Motions and Gestures.
Common Options

The device uses basic command options to perform common actions.

- **MORE**: Tap to view more menu options for a screen. This will usually also allow you to select items to delete or share.

- **DELETE**: Tap to select items to delete. Often you can tap a check box at the top of the screen to select all.

- **SHARE**: Tap to select items to share, and a sharing method. Often you can tap a check box at the top of the screen to select all.

- **EDIT**: Tap to customize the screen.
Notification icons on the Status bar display calendar events, device status, and more. For details, open the Notification panel.

- **Clear notifications**: Tap to clear all notifications.
- **Edit Notification panel**: Tap to change settings for the Notification panel, including which Quick settings buttons are visible.
- **Manage Users**: Tap to switch users or access user settings.
- **Notification card**: Tap to see details about a notification. Swipe a notification card to the right to dismiss it.
- **Quick settings**: Tap to quickly enable or disable a feature. Swipe to the left to see more settings.
- **Screen brightness**: Drag the slider to adjust screen brightness. Tap **Auto** to have the phone set the screen brightness using its light sensor.
- **Settings**: Tap to open the Settings screen.
View the Notification Panel
1. Swipe down on the Status bar to display the Notification panel.
2. Swipe the list of notifications to see details.
   - Tap an item to open it.
   - To clear a single notification, drag the notification left or right. Tap Clear to clear all notifications.
3. To close the Notification panel, swipe upward from the bottom of the screen or tap Back.

Quick Settings
In addition to notifications, the Notification panel provides quick access to device functions such as Wi-Fi, allowing you to quickly turn them on or off.

To view additional Quick settings:
► On the Notification panel, swipe left or right across the visible icons.

To customize the Quick settings that appear:
► On the Notification panel, tap EDIT.

S Finder
Search your device for apps, contacts, messages, email, files, settings, and more.
1. Swipe down on the Status bar to display the Notification panel.
2. Tap S Finder.
3. Tap the Search bar and type what you are searching for.
   You can narrow the search by tapping Category, Time, Location or Tag and using preset search options. Items that match your search will appear below.
4. Tap items to open them.

Quick Connect
Search for nearby devices automatically to connect to them quickly and easily.
1. Swipe down on the Status bar to display the Notification panel.
2. Tap Quick connect > TURN ON QUICK CONNECT. Your device automatically scans for compatible devices.
   - Tap REFRESH to manually scan.
3. Tap a device from a list, and select an option:
   - Share content: Choose a file to share with the device.
   - Share Wi-Fi profile: Share available Wi-Fi profiles with the device.

Customize Your Quick Connect
1. Swipe down on the Status bar to display the Notification panel.
2. Tap Quick connect.
3. Tap MORE > Set device visibility, and choose an option.
**Multi Window**

*Multitask by using multiple applications at the same time.*

**Activate Multi Window**

Apps that support Multi window display together on a split screen. You can switch between the apps, adjust the size of their display on the screen, and copy information from one app to the other.

**Note:** Multi window is not available for all apps.

1. From any screen, touch and hold Recent.
2. If you are currently using an app that supports Multi window, tap another app to add it in split screen view.
   - or -
   Tap two apps that support Multi window to open them in split screen view.
You can also launch recently used apps directly into Multi window view:

1. Tap Recent.

2. Recently used apps that support Multi window have a Multi window icon in their title bar. Tap the Multi window icon in the title bar to launch the application in split screen view.

3. Other recently used apps that support Multi window appear below the launched app. Tap the app icon to add it to the split screen view.

Note: Only applications that support Multi window have the Multi window icon.

Window Controls

Select an application window and tap Controls in the middle of the window border.

**Controls**

- **Switch windows**: Switch locations between Multi window applications.

- **Drag and drop content**: Move items between the application windows. Drag an item to share from one window to another. Not all applications support this feature.

- **Minimize window**: Minimize the selected app window. This turns the app into a circular, movable icon that can be opened by tapping on it.

- **Maximize window**: Open the selected app window in full screen view.

- **Close app**: Close the selected application.
Enter Text

Text can be entered using an onscreen keyboard or by speaking.

Use the Samsung Keyboard
Enter text using a QWERTY keyboard.

Special Keys

<table>
<thead>
<tr>
<th>Key</th>
<th>Function</th>
</tr>
</thead>
<tbody>
<tr>
<td>Sym</td>
<td>Tap to insert numbers and symbols.</td>
</tr>
</tbody>
</table>

Touch and hold Options to:

- Use Google Voice Typing.
- Use your handwriting to enter text.
- Access the clipboard.
- Insert an emoticon.
- Change the layout of the keyboard.
- Access keyboard settings.

Predictive Text

Predictive text suggest words matching your text entries, and, optionally, completes common words automatically. Predictive text can learn your personal writing style from your contacts, messages, email, and social networking sites—improving its accuracy of predicting your text entries.

Configure the Samsung Keyboard

To customize the Samsung Keyboard:

1. From a Home screen, tap Apps > Settings > Language and input.
2. Tap Samsung keyboard for options.
Use Google Voice Typing

Instead of typing, enter text by speaking.

   • You may need to touch and hold Options (left of the Space key) to find it.

2. Speak your text.

   Note: Tap Languages to download additional languages for use with Google voice typing.

Configure Google Voice Typing

To customize Google Voice Typing:

1. From a Home screen, tap Apps > Settings > Language and input.

2. Tap Google voice typing for options.
Applications

The Apps list displays all applications installed on your device, both preloaded apps and apps you download and install yourself.

Learn how to change the way apps appear, organize apps into folders, and uninstall or disable apps.
The Apps list shows all preloaded apps and apps that you downloaded. You can uninstall, disable, or hide apps from view.

Shortcuts to apps can be placed on any of the Home screens. For more information, see Add a Shortcut to a Home Screen.

Access Applications
1. From a Home screen, tap Apps.
2. Tap an application’s icon to launch it.
3. To return to the main Home screen, press the Home key.

Download and Install New Apps
Find new apps to download and install on your device.
- Play Store: Download new apps from the Google Play store. Visit play.google.com/store/apps to learn more.
- Galaxy Apps: View and download Samsung apps that are optimized for use with Galaxy devices. Visit samsung.com/levant/apps/mobile/galaxyapps to learn more.

Uninstall or Disable Apps
You can uninstall or disable apps you download and install.
- Preloaded apps cannot be uninstalled.
- Apps that are disabled are turned off and hidden from view.

To uninstall or disable an app:
1. From a Home screen, tap Apps.
2. Tap EDIT. Apps that can be uninstalled or disabled show Uninstall/Disable on their icon.
3. Tap Uninstall/Disable and follow the prompts to either uninstall or disable the app.

To enable apps after disabling them:
1. From a Home screen, tap Apps > Settings > Applications > Application manager.
2. Swipe to the DISABLED screen and tap the app you want to enable.
3. Tap ENABLE. The app will appear again in the Apps list.
Organize Your Apps

The Apps icons can be organized into folders and rearranged in a custom order.

Change the Order Apps Are Listed

1. From a Home screen, tap Apps.
2. Tap EDIT.
3. Touch and hold an app icon or folder and drag it to a new location.
4. Tap DONE when finished.

To alphabetize apps:

► From a Home screen, tap Apps > A-Z.

Use Folders to Organize Apps

1. From a Home screen, tap Apps > EDIT.
2. Touch and hold an app icon and drag it on top of another app until a highlighted box appears.
3. Release the app icon to create the folder.
   • Tap Enter folder name to name the folder.
   • Tap Palette to change the folder color.
4. Tap anywhere outside of the folder to close it.
   • To add more apps, touch an hold an app icon and drag it to the folder.
5. Tap DONE when you are finished.
Google Apps

Enjoy these apps from Google.

**Note:** Certain apps require a Google account. Visit google.com to learn more.

### Chrome
Use Google Chrome to browse the Internet and bring your open tabs, bookmarks and address bar data from your computer to your mobile device.
Visit google.com/chrome/browser/mobile to learn more.

### Drive
Open, view, rename, and share your Google Docs and files.
Visit drive.google.com to learn more.

### Gmail
Send and receive email with Gmail, Google’s web-based email service.
Visit gmail.com to learn more.

### Google
Search not only the Internet, but also the apps and contents of your device.

### Google Now
Google Now works in the background to collect information you regularly look up and organize it into convenient cards that appear when you need them.
Visit google.com/landing/now to learn more.
Press and hold the Home key.
**Note:** When Google Now is enabled, you can also access it by touching 8.

### Google Settings
Quickly and easily change Google app settings to suit your preferences.
**Note:** You must be signed in to the application you want to configure. For example, sign in to Google+ to configure Google+ settings.

### Hangouts
Hangouts is an online place to meet friends and family, share photos, and host video calls.
Visit google.com/hangouts to learn more.

### Maps
Use Google Maps to find your current location, get directions, and other location-based information.
**Note:** You must enable location services to use Maps. For more information, see Location.
Visit google.com/maps to learn more.

### Photos
This application automatically backs up your photos and videos to your Google+ account.
Visit google.com/+learnmore/photos to learn more.

### Play Movies & TV
Watch movies and TV shows purchased from Google Play. You can stream them instantly, or download them for viewing when you are not connected to the Internet. You can also view videos saved on your device.
Visit play.google.com/store/movies to learn more.
Play Music
With Google Play Music, you can play music and audio files on your device.
Visit play.google.com/about/music to learn more.

Play Store
Find new apps, movies and TV shows, music, books, magazines, and games in Google Play store.
Visit play.google.com to learn more.

Voice Search
Use voice commands to search the web with Google.

YouTube
View and upload YouTube videos right from your device.
Visit youtube.com to learn more.
Enjoy these apps from T-Mobile.

Note: Certain apps require a data plan or paid subscription. Visit t-mobile.com to learn more, or contact your service provider for additional information.

**Connect Me**
This application provides tools for managing your T-Mobile Mobile Internet account. You can activate a new Mobile Internet line, change your plan, view data usage, and more.

**T-Mobile My Account**
This application provides you online access to account information such as your current activity, billing information, service plans, downloads, and more.

**Mobile HotSpot**
This application allows you to use your phone as a Mobile HotSpot.
Other Apps

There are other apps, including several Samsung apps, preloaded on your device.

Amazon
Shop at Amazon.com from your device.

Excel
The Excel app provides a core experience for viewing, creating and editing documents on your smart device. You can unlock the full Excel experience with an Office 365 subscription.

Help
View information on using your device’s basic features and settings.

Lookout
Lookout Mobile Security provides key security options, such as anti-virus and anti-malware technology, a lost and stolen device locator service, an application privacy adviser, and a backup service.

Milk Music
Exclusive to Galaxy owners, Milk Music is a radio service that gives you more of the music you love, curated by top DJs and industry pros and all for free.

OneDrive
OneDrive is a place to easily store and share photos, videos, documents, and more, which you can then access from your personal computer, tablet, or phone.

OneNote
You can stay organized using text, pictures, or audio notes. Create Quick Notes or review and edit shared OneNote notebooks using OneDrive.

PowerPoint
The PowerPoint app provides a core experience for viewing, creating and editing documents on your smart device. You can unlock the full PowerPoint experience with an Office 365 subscription.

Samsung+
Get live help, discover new features, and unlock promotions for your Samsung device.

SideSync
SideSync is a PC-Mobile solution that enables the screens, windows, and data to be shared easily between a PC and Samsung Android Device.

Skype
Use free Skype to hold video and voice calls, as well as send instant messages to anyone around the world.
Smart Manager
This apps provides shortcuts to your Battery, RAM, Storage, and Device security information.

Word
The Microsoft Word app provides a core experience for viewing, creating and editing docs on your smart device. You can unlock the full Word experience with an Office 365 subscription.
The Calculator provides basic and advanced arithmetic functions.

Basic Operation
1. From a Home screen, tap Apps > Calculator.
2. Enter the first number using the numeric keys.
3. Tap the appropriate arithmetic function key.
4. Enter the next number.
5. To view the result, tap the Equals key.

Additional Functions
To clear the results:
► Tap Clear key.

To clear the calculator history:
► Tap CLEAR HISTORY.

To copy all or part of the calculation to the clipboard:
► Touch and hold an entry in the display field.

Scientific Calculator
You can also use advanced arithmetic functions, such as sin, cos, and tan.
Manage your calendar events and tasks.

Create an Event
1. From a Home screen, tap Apps > Calendar.
2. Tap Add to add an event.
3. Enter details for the event, and then tap SAVE.

Delete an Event
1. From a Home screen, tap Apps > Calendar.
2. Tap an event to view it, and then tap DELETE.

Share an Event
1. From a Home screen, tap Apps > Calendar.
2. Tap an event to view it.
3. Tap SHARE and tap a sharing format.
4. In the Share via window, tap a sharing method and follow the prompts.

Create a Task
Tasks are items you add to the calendar to be accomplished on a certain day. A task appears as a checklist item and is removed once you mark the task as complete.

1. From a Home screen, tap Apps > Calendar.
2. Tap the TASKS tab.
3. Tap the Enter new task field to enter a new task.
4. You can choose to set the task for TODAY, TOMORROW, or tap Expand to set the following options:
   - Due date: Tap ON/OFF to select a date on the calendar for the task.
   - Reminder: Tap to set a reminder alert.
   - Notes: Tap to save a note with your task.
   - Priority: Tap to assign a priority to the task.
5. Tap SAVE to save the task.

Delete a Task
1. From a Home screen, tap Apps > Calendar.
2. Tap the TASKS tab.
3. Tap the check box by the task to mark it as complete and remove it from the calendar.
4. To delete the task permanently, tap the task to open it, and then tap DELETE.
Calendar Settings

These settings allow you to modify settings associated with using the Calendar.

1. From a Home screen, tap Apps > Calendar.

2. Tap MORE > Settings.

3. Tap an option and follow the prompts.
Camera and Video

Take pictures and videos with the Camera app.

- **Camera settings**: Tap to change camera settings.
- **Gallery**: Tap to open the Gallery to view photos and videos.
- **Quick settings**: Quick access to select camera settings or options.
- **Record video**: Tap to record a video.
- **Shooting mode**: Tap to change the shooting mode.
- **Switch cameras**: Tap to switch between the rear and front cameras.
- **Capture picture**: Tap to take a picture.
Take Pictures
Take pictures with your device’s front or back camera, or combine shots with Dual mode.

1. From a Home screen, tap \Apps > Camera.

2. Using the display screen as a viewfinder, compose your shot by aiming the camera at the subject. While composing your picture, use the onscreen options or these gestures:
   - Touch the screen with two fingers and pinch or spread them on the screen to zoom in or out.
   - Tap the screen to focus on the area you touched.

3. If desired, before taking the photo, you can touch onscreen icons to access various camera options and settings. You can also touch the screen to move the focus field to the area you touch.

4. Tap \Capture to take the picture.

   Note: You can also press the Volume key up or down to take a picture. This is the default action of the Volume key. You can also set the Volume key to act as the video record key or as a zoom key.

Shooting Mode
Several visual effects are available. Modes differ by which camera is active (front or rear facing).

1. From a Home screen, tap \Apps > Camera.

2. Tap MODE to view the following options. Each section indicates which camera (front or rear) the modes are available for.

   **Both cameras**
   - **Auto**: Allow the camera to evaluate the surroundings and determine the ideal mode for the picture.
   - **Beauty face**: Take portrait pictures with an airbrushed effect.
   - **Sound & shot**: Enrich your pictures by adding a few seconds of background sound.

   **Rear camera**
   - **Panorama**: Create a linear image by taking pictures in either a horizontal or vertical direction.
   - **Continuous shot**: Take pictures continuously by pressing and holding the Capture button.
   - **Sports**: Take clearer pictures of fast moving subjects.

   **Front camera**
   - **Interval shot**: Select the best pictures from a series of continuous shots taken at set intervals.
Camera Settings

1. From a Home screen, tap Apps > Camera.

2. Quick settings are listed across one side of the camera view finder. Available options vary depending on the camera or recording mode used. Default settings include:
   - **Timer**: Take time-delayed pictures or videos.
   - **EFFECT**: Add special graphical effects. (Rear camera only.)

3. Tap SETTINGS to configure settings for Camera. Available options vary depending on the camera/recording mode used.

**Both cameras**
- **Picture size**: Select a resolution. Use higher resolution for higher quality. Higher resolution pictures take up more memory.
- **Grid lines**: Display viewfinder grid lines to help composition when selecting subjects.
- **Location tags**: Attach a GPS location tag to the picture.
- **Review pictures**: Set to show pictures after taking them.
- **Storage location**: Save images to your device or to the Memory card.
- **Volume keys function**: Use the Volume key as the camera key, the record key, or as a zoom key.
- **Shutter sound**: Enable or disable a shutter sound when pictures are taken.
- **Reset settings**: Reset the camera settings.
- **Help**: View information on using the camera.

**Rear camera**
- **Video size**: Select a resolution. Use higher resolution for higher quality. Higher resolution videos take up more memory.
- **View mode**: Choose between full screen and standard.

**Front camera**
- **Gesture control**: Detect palm and automatically take a picture two seconds later.
- **Save as previewed**: Save the self-portrait or self-recording as it appears on the screen.
The Clock app offers features for keeping track of time and setting alarms.

1. From a Home screen, tap Apps > Clock.
2. Tap a tab to use a feature:
   - **ALARM**: This feature allows you to set an alarm to ring at a specific time.
   - **WORLD CLOCK**: View the time of day or night in other parts of the world. World Clock displays time in hundreds of different cities, within all 24 time zones around the world.
   - **STOPWATCH**: You can use this option to measure intervals of time.
   - **TIMER**: You can use this option to set a countdown timer. Use a timer to count down to an event based on a preset time length (hours, minutes, and seconds).

**Create an Alarm**

Create an alarm event. You can set one-time or recurring alarms, and choose options for how to be notified.

1. From a Home screen, tap Apps > Clock.
2. Tap the following items to configure an alarm:
   - **Date**: Choose the day for this alarm.
   - **Time**: Set a time for the alarm.
   - **Repeat weekly**: Choose when to repeat the alarm, if so desired.
   - **OPTIONS**: Tap to view and set the following options:
     - **Alarm type**: Choose whether the alarm will use sound, vibration, or vibration and sound to alert you.
     - **Volume**: Drag the slider to set the volume of the alarm.
     - **Alarm tone**: Choose a sound to play for the alarm.
     - **Snooze**: Allow snoozing, and set interval and repeat values for the alarm while snoozing.
     - **Increasing volume**: Start playing the alarm tone at a low volume at an interval before the alarm time, and slowly increase in volume. Available when you have chosen an alarm type that includes sound.
     - **Alarm name**: Enter a name for the alarm.
3. Tap SAVE to save the alarm.

**Delete an Alarm**

1. From a Home screen, tap Apps > Clock.
2. Find the alarm in the alarm list (under the Alarm tab), and then tap Delete in the upper right corner of the alarm entry.
World Clock

The world clock lets you keep track of the current time in multiple cities around the globe.

1. From a Home screen, tap Apps > Clock.
2. Tap WORLD CLOCK.
3. Tap the Search bar and enter the name of a city.
4. Tap the city to add it to your World clock.
   - Repeat to add multiple cities.

Stopwatch

The stopwatch lets you time events down to the hundredth of a second.

1. From a Home screen, tap Apps > Clock.
2. Tap STOPWATCH.
3. Tap START to begin timing.
4. Tap STOP to stop timing.
   - Additional options include LAP to keep track of laps, RESUME to continue timing, and RESET to reset the stopwatch to zero.

Timer

The timer provides a countdown timer for up to 99 hours, 59 minutes, and 59 seconds.

1. From a Home screen, tap Apps > Clock.
2. Tap TIMER.
3. Use the keypad to set the length of the timer.
4. Tap START to begin the timer.
Contacts

Store and manage your contacts with the Contacts app, which can be synchronized with a variety of your existing personal accounts, including Google, Email, Facebook, and your Samsung account.

For more information on connecting with and managing your accounts through your device, see Accounts.

**Note:** The Contacts app is different from the CONTACTS tab in the Phone app. Although both list the contacts in your phone and accounts, the available options and functions are different.

Manage Contacts

Access your list of contacts by using the Contacts app. To access your Contacts list:

- From a Home screen, tap Apps > Contacts.

Find a Contact

You can search for a contact, or scroll the list to find one by name.

1. From a Home screen, tap Apps > Contacts.
2. Tap the Search bar, and then enter characters to find contacts that match.
   - or -
   Tap a letter on the side of the list to jump directly to that letter in the alphabetical list. You can also press and slide across the alphabetical list to select a letter with better precision.

Add a Contact

Use the following procedure to add a new contact.

1. From a Home screen, tap Apps > Contacts.
2. Tap Add, and then tap contact fields to enter information.
   - Choose a storage account for the contact. You can store the contact on the device, your SIM card, or sync it with an account.
   - Tap Contact photo to assign a picture to the new contact.
   - Enter a name, phone number, email address, and assign the contact to a group. Tap the ADD ANOTHER FIELD to add additional contact information.
     - Tap Add to enter additional entries.
     - Tap Remove to remove an entry.
     - Tap Expand for additional fields.
     - Tap the label to the right of an entry to choose a label for the field (for example, Home or Work).
3. Tap SAVE.

Edit a Contact

When editing a contact, you can tap a field and change or delete the information, or you can add additional fields to the contact’s list of information.

1. From a Home screen, tap Apps > Contacts.
2. Tap the contact to display it, and then tap EDIT.
3. Tap any of the fields to add, change, or delete information.
4. Tap SAVE.
Share Contact

When you share a name card, the contact’s information is sent as a vCard file (.vcf). You can share a vCard via Bluetooth or Wi-Fi Direct, attach it to a message, or save it to a storage location.

1. From a Home screen, tap Apps > Contacts.
2. Tap a contact to display it, and then tap MORE > Share contact.
3. Choose a sharing method and follow the prompts.

Link Contacts

When you have contacts from various sources (Gmail, Facebook, and so on), you may have multiple similar entries for a single contact. Contacts lets you link multiple entries into a single contact.

1. From a Home screen, tap Apps > Contacts.
2. Tap the contact to display it, and then tap Link.
3. Tap LINK ANOTHER CONTACT, and then select contact(s) to link to the original contact.
4. Tap LINK.

Unlink Contacts

1. From a Home screen, tap Apps > Contacts.
2. Tap the contact to display it, and then tap Link.
3. Tap Remove beside contacts to unlink them from the main contact.

Delete Contacts

You can delete a single contact, or choose multiple contacts to delete.

1. From a Home screen, tap Apps > Contacts.
2. Touch and hold a contact to select it. You can also tap other contacts, or tap the check box at the top of the screen to select all.
3. Tap DELETE.

Create a Shortcut to a Contact

You can create a shortcut to a contact on a Home screen to access their information directly from a Home screen.

1. From a Home screen, tap Apps > Contacts.
2. Touch and hold a contact to select it.
3. Tap MORE > Add shortcut to Home screen. The new shortcut displays in an empty area of the home screen.

Favorites

When you mark contacts as favorites, they are easily accessible from other apps.

Mark Contacts as Favorites

1. From a Home screen, tap Apps > Contacts.
2. Tap a contact to display it, and then tap Favorite (the star turns gold ⭐).

Remove Contacts from Favorites

1. From a Home screen, tap Apps > Contacts.
2. Tap a contact to display it, and then tap Favorite (the star loses the gold color ⭐).
Groups

You can use groups to organize your contacts. Your device comes with preloaded groups, and you can create your own. You might create a group for your family, for coworkers, or a team. Groups make it easy to find contacts, and you can send messages to the members of a group.

Create a Group

1. From a Home screen, tap Apps > Contacts.
2. Tap GROUPS, and then tap ADD.
3. Tap fields to enter information about the group:
   - Tap Create group in [location] to choose where to save the group. You can save it to a specific account, to the device memory, or to all accounts. Tap the entries to select or unselect them.
   - Tap Group name to enter a name for the new group.
   - Tap Add member and select contact(s) to add to the new group, and then tap DONE.
4. Tap SAVE.

Rename a Group

1. From a Home screen, tap Apps > Contacts.
2. Tap GROUPS, and then tap a group.
3. Tap MORE > Edit group and enter a new name.
4. Tap SAVE.

Add Contacts to a Group

1. From a Home screen, tap Apps > Contacts.
2. Tap GROUPS, and then tap a group.
3. Tap ADD, and then tap the contacts you want to add.
4. Tap DONE.

Send a Message or Email to a Group

You can send a text message or an email to members of a group.

1. From a Home screen, tap Apps > Contacts.
2. Tap GROUPS, and then tap a group.
3. Tap MORE > Send message or email.
4. Tap Message or Email.
   - Tap contacts to select them, or tap the selected check box at the top of the screen to select all, and then tap DONE. You will only see group members that have an email or phone number in their records.
5. Follow the prompts to send your message or email.

Delete a Group

Preset groups, such as Family, cannot be deleted.

1. From a Home screen, tap Apps > Contacts.
2. Tap GROUPS.
3. Tap DELETE.
   - Tap the group category to open.
   - Tap the groups to select them or tap the check box at the top of the screen to select all.
4. Tap DELETE.
   - Tap Group only to only delete the group, or tap Groups and members to delete the groups and the contacts in the groups.
Contact Settings

These settings allow you to modify settings associated with using the Contacts app.

1. From a Home screen, tap Apps > Contacts.

2. Tap MORE > Settings.

3. Tap an option and follow the onscreen instructions.
Email

Use the Email app to view and manage all your email accounts in one application.

To access Email:

► From a Home screen, tap Apps > Email.

Configure Email Accounts
You can configure Email for most accounts in just a few steps.

1. From a Home screen, tap Apps > Email.
2. Follow the instructions to set up your email account.

To add an Email account:

1. From a Home screen, tap Apps > Email.
2. Tap MORE > Settings > Add account.
3. Enter your email address and password.

The device communicates with the appropriate server to set up your account and synchronize your email. When complete, your email appears in the Inbox for the account.

Note: To configure email account settings at any time, tap MORE > Settings. Tap the email account to manage to display its settings.

View Your Email Accounts
You can view email you receive for all accounts on the Combined view screen or you can view email accounts individually.

1. From a Home screen, tap Apps > Email.
2. Tap the drop-down menu at the top left of the screen to view the current account mailbox.
3. Tap on the account name to view:
   
   • Combined inbox: View all email in a combined inbox.
   
   • [Account Name]: View email for only one email account.

Manage Your Inbox
There are several tools available from the Inbox screen.

► From a Home screen, tap Apps > Email.

• Tap a message to read and reply or forward it.
• Tap SEARCH to search for key words in your email inbox.
• Tap MORE for additional message options like sorting, deleting, sharing and more.
Create and Send an Email

This section describes how to create a send an email using the Email app.

1. From a Home screen, tap Apps > Email > Compose.

2. Tap the To field to manually add an email address, or tap Add Recipient to select a recipient from Contacts or Groups.
   - If manually entering recipients, enter additional recipients by separating each entry with a semicolon (;). More recipients can be added at any time before the message is sent.
   - If adding a recipient from your Contacts, tap the contact to place a check mark then tap DONE. The contact will be placed in the recipients field.
   - Tap More to add Cc and Bcc fields.

3. Tap the Subject and Message fields and use the onscreen keypad to enter text.
   - Tap ATTACH to add Files, Images, Audio, and more to your email.
   - Tap MORE for additional email options.

4. Review your message and tap SEND.

Delete Email Accounts

This section describes how to delete an email account.

1. From a Home screen, tap Apps > Email.

2. Tap MORE > Settings.

3. Tap the account you want to remove.

4. Tap REMOVE. Confirm by tapping REMOVE on the prompt.

Email Settings

These settings allow you to modify settings associated with using the Email app.

1. From a Home screen, tap Apps > Email.

2. Tap MORE > Settings.

3. Tap an option and follow the instructions.
Samsung Galaxy Apps is a free storefront that provides a quick and easy way to find and download free premium apps that are compatible with your Galaxy device.

To access the Samsung Galaxy Apps website:
► From a Home screen, tap Apps > Galaxy Apps.

To access Galaxy Essentials:
1. Swipe across the Home screens and locate and tap the Galaxy Essentials widget.
2. Follow the instructions to download Galaxy Essentials apps specially chosen from Galaxy Apps.

Note: A Samsung account is required to download apps.
View, edit, and manage images and videos.

Note: Some functions described in this section are only available if there are images or videos in the Gallery.

View Images and Videos
Launching Gallery displays available folders. When another application, such as Email, saves an image, a Download folder is automatically created to contain the image. Likewise, capturing a screenshot automatically creates a Screenshots folder.

1. From a Home screen, tap Apps > Gallery.
2. Tap the drop-down menu in the upper left corner, and then tap an option to choose the way items display.
   - In Album view, you can create albums to organize your images. On the drop down menu, tap Albums, and then tap MORE > Create album.
3. Depending on the view mode selected, either tap an image or video to view it, or first tap an album or folder and then tap an image or video.
4. When viewing an image or video, you can scroll left or right to view the next or previous image or video.

Zoom In and Out
Use one of the following methods to zoom in or out on an image:
   - Double-tap anywhere on the screen to zoom in or zoom out.
   - Spread two fingers apart on any place to zoom in. Pinch the screen to zoom out.

Play Videos
1. From a Home screen, tap Apps > Gallery.
2. Tap a folder or category to open it.
3. Tap a video to view it.
4. Tap Play to play the video.

Edit Images
1. While viewing an image, tap the screen once to see the image options.
2. Tap Edit to view and use the editing tools.

Delete Images
1. From a Home screen, tap Apps > Gallery.
2. Tap a folder or category to open it.
3. Tap MORE > Edit.
4. Tap images to select them.
5. Tap DELETE.
Share Images

Use one of the following methods:

1. From a Home screen, tap Apps > Gallery.
2. Tap a folder or category to open it.
3. Tap MORE > Share.
4. Tap images to select them, and then tap SHARE.
5. Tap a sharing service and follow the prompts to send the image or images.
Access the Internet with a fully-featured web browser.

To access the Internet:
► From a Home screen, tap Apps > Internet.

Command Keys
The following command keys are available on the browser window:
• Back or Back to return to the previous page.
• Forward to go forward to a recent page.
• HOME to display your Internet Home screen.
• BOOKMARKS to manage bookmarked pages, saved pages, and history.
• Refresh to refresh or reload the current Web page.

View a Web Site
To view a web site:
► Tap the address field, enter the web address, and then tap Go on the keyboard.

To zoom in or out:
► Tap the screen twice or pinch the screen to zoom out. Stretch the screen to zoom in.

Browser Tabs
Use tabs to open multiple web pages at the same time.

To open a new tab:
► Tap Add

To close a tab:
► Tap Close tab.

Bookmarks Page
The Bookmarks page stores Bookmarks, Saved pages, and History.

Save and Open Bookmarks
Bookmarking a web page saves the web address so that you can access it quickly.

To bookmark the current web page:
1. Tap BOOKMARKS > ADD.
2. Type a title for the bookmark and tap SAVE.

To open a bookmarked web page:
1. Tap BOOKMARKS.
2. Tap a bookmark entry.
Saved Web Pages

Saving a web page stores the web page content on your device so that you can access it offline.

To save the current web page:
► Tap MORE > Save web page.

To view saved web pages:
1. Tap BOOKMARKS > SAVED PAGES.
2. Tap a saved page to open it in the browser.

View History

To view a list of recently visited web pages:
► Tap BOOKMARKS > HISTORY.

Share a Web Page

You can share the current web page with others and even print using the Share option.
1. Tap MORE > Share.
2. Tap a sharing method and follow the prompts.

Secret Mode

Pages viewed in secret mode do not appear within your browser history or search history, and leave no traces (such as cookies) on your device. Secret tabs are a darker shade than the normal tab windows.

Note: Any downloaded files will remain on your device after you close a secret tab.

To open a new secret tab:
► Tap MORE > New secret tab.

Internet Settings

These settings allow you to modify settings associated with using the Internet app.

1. From a Home screen, tap Apps > Internet.
2. Tap MORE > Settings.
3. Tap an option and follow the instructions.
Memo

Use the Memo app to write and save notes on your device.

Compose a Memo
1. From a Home screen, tap Apps > Memo.
2. Tap + Create memo and type a memo.
   • To change the category, tap Category.
   • To insert an image into the memo, tap Image.
   • To use your voice to insert text into the memo, tap Voice.
   • To add tasks, tap Tasks.
3. When finished creating your memo, tap SAVE.

Edit Memos
1. From a Home screen, tap Apps > Memo.
2. Tap a memo to view it.
3. Tap the content and make edits. When you are finished tap SAVE.

Browse Memos
1. From a Home screen, tap Apps > Memo.
   • Browse memo entries by swiping up or down.
   • To search for a memo, tap SEARCH.

Memo Options
1. From a Home screen, tap Apps > Memo.
2. While browsing memos, tap MORE for the following options:
   • Edit: Select notes to delete or move.
   • Share: Share memos.
   • Manage categories: Create and manage categories to organize your memos.
Learn how to send and receive different messages using the default messaging app on your phone.

Types of Messages

Your default Messaging app provides the following message types:

- Text Messages (SMS)
- Multimedia Messages (MMS)

The Short Message Service (SMS) lets you send and receive text messages to and from other mobile phones or email addresses. To use this feature, you may need to subscribe to your service provider’s message service.

The Multimedia Messaging Service (MMS) lets you send and receive multimedia messages (such as picture, video, and audio messages) to and from other mobile phones or email addresses. To use this feature, you may need to subscribe to your service provider’s multimedia message service.

Messaging icons are displayed at the top of the screen and indicate when messages are received and their type.

Create and Send Messages

This section describes how to create a send a message using the Messages app.

1. From a Home screen, tap 📬 Messages > 📦 Compose.

2. Tap the Enter recipients field to manually enter a recipient or tap 📞 Add Recipient to select a recipient from your Contacts or Groups.
   - If manually entering recipients, enter additional recipients by separating each entry with a semicolon (;). More recipients can be added at any time before the message is sent.
   - If adding a recipient from your Contacts, tap the contact to place a check mark then tap DONE. The contact will be placed in the recipients field.
   - For the Group option, if the number of recipients is less than 10, all members in the group can be added by placing a check mark by the contacts, and then tapping DONE.

3. Tap the Enter message field enter a message.
   - Tap 📥 Attach to add files to your messages.
   - Tap 😁 Add emoticon to choose an available emoticon from an onscreen list and then add it into your message (at the cursor location) if desired.

4. Review your message and tap ✉️ SEND.

**Note:** If you exit a message before you send it, the message is automatically saved as a draft.
View New Messages

When you receive a new message, a new message icon appears on the Status bar.

To view the message:
► Open the Notification panel and select the message. For more information, please see Notification Panel.
– or –
From a Home screen, tap Messages, and then tap the new message to view it.
• To play a multimedia message (audio or video), tap Play.
• To scroll through the list of messages, tap the screen and scroll up or down the page.

Delete Messages

To delete messages, follow these steps.
1. From a Home screen, tap Messages.
2. Tap MORE > Delete.
3. Tap each message you want to delete.
4. Tap DELETE.

Message Search

You can search through your messages by using the Message Search feature.
1. From a Home screen, tap Messages.
2. Tap SEARCH.
3. Enter a word or phrase to search for, and then tap Search on the keyboard.

Messages Settings

Configure the settings for text messages, multimedia messages, push messages, and so on.
► From a Home screen, tap Apps > Messages > MORE > Settings.

Emergency Alerts

This device is designed to receive wireless emergency alerts from the Commercial Mobile Alerting System (CMAS) which may also be known as the Personal Localized Alerting Network (PLAN). For more information, please contact your wireless provider.

Emergency alerts allows customers to receive geographically-targeted messages. Alert messages are provided by the US Department of Homeland Security and will alert customers of imminent threats to their safety within their area. There is no charge for receiving an Emergency alert message.

There are three types of Emergency alerts:
• Alerts issued by the President
• Alerts involving imminent threats to safety of life (Extreme and Severe)
• AMBER alerts (missing child alert)
Listen to your favorite songs with the Music player. Navigate through your music library, play songs, and create customized playlists.

- **More options**: Tap to view more options.
- **Playback controls**: Tap the icons to change shuffle or repeat modes, fast-forward or rewind, or play or pause the current song.
- **Playback position**: Drag to skip to another part of the current song.
- **Song length**: The length of the song.
- **Song queue**: Tap to view the current song list being played.
- **Time elapsed**: The time elapsed for the current song.
- **Volume**: Tap to adjust the volume.
Listen to Music

1. From a Home screen, tap Apps > Music.

2. Tap a category at the top left of the screen to view your music files.

3. Scroll through the list of songs and tap a song to begin playback.

4. While playing music, use these controls:
   - Tap Pause to pause playback. To start playback again, tap Play.
   - Tap Rewind to move to the previous song. Tap Fast-forward to move to the next song.
   - Tap the repeat button to control playback. Choose Repeat off to play all songs once. Choose Repeat all to repeat all songs. Choose Repeat 1 to repeat the current song.
   - Tap the shuffle button to control the order songs are played. Choose Shuffle off to play songs in the order they appear in the list. Choose Shuffle on to play songs in random order.
   - Tap Favorite to mark a song as a favorite. Whenever a song is a favorite, the star is bright gold. Favorite songs are included in the Favorites playlist.
   - Tap Volume to set the volume. You can also set volume by pressing the Volume key on the side of the phone.

**Note:** When you close the Music screen, playback will continue in the background, allowing you to listen to music while using other features of your phone. When music is playing in the background, you can access playback controls from the Notification panel.
Access files stored on your device, including images, videos, songs, and sound clips.

To view files in My Files:
1. From a Home screen, tap Apps > My Files.
2. Tap a category to view the relevant files or folders.
3. Tap a file or folder to open it.

Manage Files
Files stored in the device are organized into the following groups:

- **Recent files**: View recently accessed files.
- **Category**: Files are grouped into the following categories:
  - **Images**: View image files.
  - **Videos**: View video files.
  - **Audio**: View audio files.
  - **Documents**: View document files.
  - **Download history**: View all apps and files that have been downloaded to the device.
- **Local storage**: View folders and files in their storage locations.
  - **Device storage**: View folders and files located on the device.
- **Cloud storage**: Contains shortcuts to FTP servers or other cloud storage locations that you have added.
  - **Google Drive**: Sign in to view folders and files located in your Google Drive account.

My Files Options
From a Home screen, tap Apps > My Files. The following options are available:

- **SEARCH**: Search for a file or folder.
- **MORE**: Tap for the following options:
  - **Edit**: Edit files shown in Recent files.
  - **Clear recent file history**: Clear the Recent files category.
  - **Show/Conceal hidden files**: Show or conceal hidden files.
- **STORAGE USAGE**: Tap to view memory information for your device.

Category Options
1. From a Home screen, tap Apps > My Files.
2. After tapping on a category, the following options are available:

- **SEARCH**: Search for a file in the selected category.
- **VIEW AS**: Change the appearance of the files or folders.
- **MORE**: Tap for the following options:
  - **Edit**: Select files or folders.
  - **Share**: Select files to share.
  - **Create folder**: Add a folder to organize files.
  - **Add shortcut**: Add a shortcut on the main My Files screen.
  - **Sort by**: Change the sort order of the files.
  - **Show/Conceal hidden files**: Show or conceal hidden files.
Options for Selected Files and Folders

1. From a Home screen, tap Apps > My Files.
2. Tap MORE > Edit.
3. Tap a file or folder to select it, and then select one of these functions:
   - **DELETE**: Delete files or folders.
   - **MOVE**: Move files or folders to another folder.
   - **MORE**: Select one of the following options:
     - **Copy**: Copy files or folders to another folder
     - **Rename**: Rename a file or folder. This option only appears when just one file or folder is selected.
     - **Add shortcut on Home screen**: Add a shortcut the Home screen.
     - **Compress**: Create a zip folder containing the selected files. This option only appears in Local Storage categories. A selected zip folder has the additional options of Extract and Extract to current folder.
     - **Details**: View details of the selected file(s) or folder(s).
Video Player

Play and manage videos stored on your device.

- **Fast-forward**: Tap to skip to the next video. Touch and hold to fast-forward the current video.
- **File name**: The name of the video file.
- **More options**: Tap to view more options.
- **Pause or Play**: Tap to pause or play the current video.
- **Playback position**: Drag to skip to another part of the video.
- **Pop-up player**: Tap to open the video in the pop-up player window.
- **Rewind**: Tap to restart the video or skip to a previous video. Touch and hold to rewind the video.
- **Screen ratio**: Change the screen ratio.
- **Time elapsed**: The time elapsed for the current video.
- **Video length**: The total length of the video.
- **Volume**: Adjust the volume.
Access the Video Player

1. From a Home screen, tap Apps > Video.

2. Scroll through the videos stored on your device. After a few seconds, each video thumbnail begins playing a preview of the clip.

3. Tap a video to view it.

Use Pop-up Player

Multitask with Pop-up player by transforming your video player into a pop-up window. The video will continue to play, and the pop-up player can be resized or moved anywhere on the screen.

1. From a Home screen, tap Apps > Video.

2. Tap a video to view it.

3. Tap Pop-up player to continue playing the video in a floating window.
   - Drag the window to any location on the screen.
   - Use two fingers to pinch or spread to resize the floating window.

Change the Video Screen Size

You can change the size of the video is several ways during video playback.

1. From a Home screen, tap Apps > Video.

2. Tap a video to view it.

3. Tap the screen ratio icon to cycle through the screen size options:
   - Full-screen view: The entire screen is used, which may cause some minor distortion.
   - Fit to screen: The video will be played in its original size.
   - Full: The video is enlarged to fit the screen without becoming distorted.
Configure your device's connections and settings, add accounts, and customize the home screen, apps, and features.

Some options use an ON/OFF button to turn the option on (ON) or off (OFF).

For some options, you must tap a field, such as Email address, to display and set options.

Some options are enabled or disabled by tapping a check box. When enabled, a check mark displays. Tap the check mark to remove it and disable the option.
Access Settings

► From a Home screen, tap Apps > Settings.

– or –

From a Home screen, drag down from the Status bar to display the Notification panel, and then tap Settings.

Categories of Settings

Settings are grouped into four categories.

- **Connections**: Wi-Fi, Bluetooth, VPN, Mobile networks, and other connections.

- **Device**: Display, Sounds and notifications, and other device settings.

- **Personal**: Accounts, Lock screen and security, and other personal settings.

- **System**: Language and input, Date and time, Battery, Storage, and other system settings.

Search for Settings

If you are not sure exactly where to find a certain setting, you can use the Search feature.

1. From a Home screen, tap Apps > Settings.
2. Tap SEARCH.

- Enter a word or words in the Search bar. As you type, settings that match will appear on the screen.

- Tap an entry to go to that setting.
Wi-Fi

Wi-Fi is a term used for certain types of Wireless Local Area Networks (WLAN). Wi-Fi communication requires access to a Wireless Access Point (WAP).

Wi-Fi Direct creates a direct connection between two or more devices using Wi-Fi.

Turn Wi-Fi On or Off

Turning Wi-Fi on makes your device able to discover and connect to compatible in-range WAPs.

1. From a Home screen, tap Apps > Settings.
2. Tap Wi-Fi, and then tap ON/OFF to turn Wi-Fi on or off.

Scan and Connect to a Wi-Fi Network

1. From a Home screen, tap Apps > Settings.
2. Tap Wi-Fi, and then tap ON/OFF to turn Wi-Fi on. When Wi-Fi is turned on, your device will automatically scan for available networks and display them.
3. Tap the network you want to connect to. When you select an open network, you are automatically connected to the network. Otherwise, enter a password to connect.

Manually Connect to a Wi-Fi Network

1. From a Home screen, tap Apps > Settings.
2. Tap Wi-Fi, and then tap ON/OFF to turn Wi-Fi on.
3. Tap MORE > Add network.
4. Enter information about the Wi-Fi network:
   - Tap Enter network name to enter the name of the Wi-Fi network.
   - Tap the Security field and select a security option and enter your password.
   - Tap Show advanced options if you need to add advanced options such as IP settings and Proxy settings.
5. Tap CONNECT to store the new information and connect to your target WAP.
Wi-Fi Options

The Wi-Fi settings menu allows you to set up many of your device’s advanced Wi-Fi services.

1. From a Home screen, tap Apps > Settings.
2. Tap Wi-Fi, and then tap ON/OFF to turn Wi-Fi on.
3. Tap MORE for options:
   - **Add network**: Manually add a Wi-Fi network.
   - **WPS push button**: Set up a connection to a WPS (Wi-Fi Protected Setup) router or other equipment.
   - **WPS PIN entry**: View the PIN used by your device to set up a PIN-secured connection to a Wi-Fi router or other equipment (not configurable).
   - **Smart network switch**: Tap to enable this feature, which automatically switches to a mobile network if the Wi-Fi connection becomes unstable.
   - **Advanced**:
     - **Network notification**: Receive a notification when new Wireless Access Points (WAPs) are available.
     - **Passpoint**: Connect to passpoint enabled Wi-Fi Access Points automatically.
     - **Keep Wi-Fi on during sleep**: Specify when to disconnect from Wi-Fi.
     - **Always allow scanning**: Allow Google location service and other apps to scan for networks, even when Wi-Fi is turned off.
     - **Install network certificates**: Install authentication certificates.
     - **MAC address**: View your device’s MAC address, which is required when connecting to some secured networks (not configurable).
     - **IP address**: View your device’s IP address (not configurable).
   - **Help**: Learn about setting up and using Wi-Fi networks, and other settings.

Wi-Fi Status Indicators

Status Bar icons show your current Wi-Fi connection status:

- When Wi-Fi is connected, active, and communicating with a Wireless Access Point (WAP), displays.
- If a Wi-Fi access point is available, but your device is not connected to it, displays. It may also display if there is a communication issue with the target Wireless Access Point (WAP).

Wi-Fi Direct

Wi-Fi Direct allows direct device-to-device connections via Wi-Fi, without having to connect to a Wi-Fi network.

1. From a Home screen, tap Apps > Settings.
2. Tap Wi-Fi, and then tap ON/OFF to turn Wi-Fi on. Wi-Fi must be on to configure settings.
3. Tap Wi-Fi Direct. Your device automatically scans for nearby Wi-Fi Direct devices.
4. After scanning for devices, select a device, and then follow the prompts to complete the connection.

Wi-Fi Direct Status Indicator

When your device is connected to another device using Wi-Fi Direct, displays in the Status bar.
Bluetooth

Bluetooth is a short-range communications technology that allows you to connect wirelessly to a number of Bluetooth devices, such as headsets and hands-free car Bluetooth systems, and Bluetooth-enabled computers, printers, and wireless devices.

**Note:** The Bluetooth communication range is approximately 30 feet.

**Turn Bluetooth On or Off**

1. From a Home screen, tap Apps > Settings.
2. Tap Bluetooth, and then tap ON/OFF to turn Bluetooth on or off.

**Bluetooth Status Indicator**

When Bluetooth is turned on, displays in the Status Bar.

**Scan for Bluetooth Devices**

When you want to pair with another Bluetooth device, you can scan for nearby devices that are visible.

1. From a Home screen, tap Apps > Settings.
2. Tap Bluetooth, and then tap ON/OFF to turn on Bluetooth.
3. When Bluetooth is first turned on, it scans for nearby Bluetooth devices and displays them.
   - Tap SCAN to manually perform a new scan.
Pair Bluetooth Devices

The Bluetooth pairing process allows you to establish trusted connections between your device and another Bluetooth device.

Pairing between two Bluetooth devices is a one-time process. Once a pairing is created, the devices will continue to recognize their partnership and exchange information without having to re-enter a passcode.

1. From a Home screen, tap Apps > Settings.
2. Tap Bluetooth, and then tap ON/OFF to turn on Bluetooth.
3. Make sure that the target device is discoverable, so that your device can find it. Refer to the instructions that came with the device to find out how to set it to discoverable mode.
4. Tap SCAN. Your device will start to scan for Bluetooth devices within range.
5. When you see the name of the target device displayed in the Bluetooth devices section, tap the name. Your device then automatically tries to pair with the target device. If automatic pairing fails, enter the passcode supplied with the target device.

Note: Due to different specifications and features of other Bluetooth-compatible devices, display and operations may be different, and functions such as transfer or exchange may not be possible with all Bluetooth compatible devices.

Delete a Paired Device (Unpair)

When you unpair from a Bluetooth device, the two devices will no longer recognize each other. To connect again, you’d need to pair the devices.

1. Verify your Bluetooth is active.
2. From the Bluetooth settings page, tap Settings next to the previously paired device, and then tap Unpair to delete the paired device.
Airplane Mode

Airplane mode disconnects your device from all networks and turns off connectivity features, such as phone calls and Wi-Fi.

While in airplane mode, you can use other features, such as playing music, watching videos, and other online applications.

1. From a Home screen, tap Apps > Settings.
2. Tap Airplane mode, and then tap ON/OFF to enable or disable the option.

Note: You can also control Airplane mode from the Device options menu. Press and hold the Power key, and then tap Airplane mode.
Use Mobile HotSpot to share your device’s Internet connection with other devices using your device as a portable Wi-Fi hotspot.

Share your device’s Internet connection with a computer that connects to your device using a USB cable or via Bluetooth.

Use Your Device as a Mobile HotSpot

**Note**: You must have a tethering plan on your service account in order to use the Mobile HotSpot.

**Warning**: Mobile HotSpot consumes battery power and uses data service.

Turn Mobile HotSpot On or Off

Activate your device’s Mobile HotSpot application to allow other devices to use your device’s Internet connection.

1. From a Home screen, tap Apps > Settings > Mobile HotSpot and Tethering.
2. Tap Mobile HotSpot.
3. Tap ON/OFF to turn the feature on or off.

**Warning**: By default, your device’s Mobile HotSpot has no security applied, and any device can connect. For more information, see Configure Mobile Hotspot Settings.

Connect a Device to Your Mobile Hotspot

Use the other device’s Wi-Fi control to connect to your device’s Mobile HotSpot.

1. From a Home screen, tap Apps > Settings > Mobile HotSpot and Tethering.
2. Tap Mobile HotSpot, and tap ON/OFF to enable.
3. Activate Wi-Fi on the target device.
4. Scan for Wi-Fi hotspots and select the target device from the list.
5. On the target device, enter your device’s Mobile HotSpot password.

Allowed Device List

Control whether devices connect to your Mobile HotSpot with the Allowed device list. After you add devices to the list, they can scan for your device and connect using your device’s Mobile HotSpot name and password.

**Note**: Using your device as a Mobile HotSpot consumes battery power and uses data service. While Mobile HotSpot is active, your device’s applications will use the Mobile HotSpot data service. Roaming while using your device as a Mobile HotSpot will incur extra data charges.

1. From a Home screen, tap Apps > Settings > Mobile HotSpot and Tethering.
2. Tap Mobile HotSpot, and tap ON/OFF to enable.
3. Tap MORE > Allowed devices, and then tap ADD to enter the other device’s Device name and MAC address.
4. Tap OK to add the device.
Change the Portable HotSpot Password

1. From a Home screen, tap Apps > Settings > Mobile HotSpot and Tethering.
2. Tap Mobile HotSpot, and tap ON/OFF to enable.
3. Tap MORE > Configure Mobile HotSpot.
4. Tap the Security field and select WPA2 PSK and enter a new password.

Configure Mobile Hotspot Settings

Manage your Mobile HotSpot security and connecting settings.

1. From a Home screen, tap Apps > Settings > Mobile HotSpot and Tethering.
2. Tap Mobile HotSpot, and tap ON/OFF to enable.
3. Tap MORE > Configure Mobile HotSpot:
   - **Network name**: View and change the name of your Mobile Hotspot.
   - **Broadcast network name (SSID)**: Make your Mobile Hotspot visible to other Wi-Fi devices during a scan. Other devices can still connect to your Mobile Hotspot, but will have to set up the connection manually with your Network SSID and Password.
   - **Security**: Choose the security level for your Mobile Hotspot.
   - **Password**: If you choose a security level that uses a password, enter the password. By default, the password is your device’s phone number.
   - **Show password**: Display your password instead of masking it.
   - **Show advanced options**: Access advanced options, including Broadcast channel, and to specify the channel your device uses for Portable Wi-Fi hotspot.

Use Tethering to Connect Your Device to a Computer

1. From a Home screen, tap Apps > Settings > Mobile HotSpot and Tethering.
2. Connect the computer to the device using the USB cable, and then tap USB tethering to turn tethering on.
Data Usage

Monitor your mobile data usage.

Note: Your service provider may account for data usage differently.

1. From a Home screen, tap Apps > Settings > Data usage for options:
   - **Mobile data**: Enable mobile data. You can also control Mobile Data at the Notification panel.
   - **Set mobile data limit**: Your mobile data connection will be turned off when the specified limit is reached.
   - **Data usage cycle**: Tap the drop-down menu, and then choose a time period for data usage. Data usage for the period displays on the graph, along with usage by application below.
   - **UPGRADE DATA SERVICE**: Explore data plan upgrade options for your rate plan.
   - **By application**: View data usage by application.

2. Tap MORE for the following options:
   - **Restrict background data**: Restrict some apps and services from working unless you are connected to a Wi-Fi network.
   - **Show Wi-Fi usage**: Display a Wi-Fi tab that shows Wi-Fi usage.
   - **Mobile HotSpot**: Select Wi-Fi networks that are mobile hotspots. You can restrict apps from using these networks, and you can configure apps to warn you before using these networks for large downloads.
Mobile Networks

Control your device’s access to networks and mobile data service.

► From a Home screen, tap Apps > Settings > Mobile networks for options:

- **Data roaming**: Allow your device to connect to data services while roaming. Significantly higher charges may result.
- **Access Point Names**: Add and edit APNs.
- **Network mode**: Choose a preferred network mode.
- **Network operators**: Search, select and setup available networks.
More Connection Settings

This option displays additional connectivity information.

Printing
Print images and documents to Samsung printers and other compatible printers (not included).

1. From a Home screen, tap Apps > Settings > More connection settings.
2. Tap Printing.
3. Tap a print service and follow the prompts.

Note: Tap Download plug-in to install additional print service drivers.

Download Booster
Download booster improves download speed by using both Wi-Fi and LTE networks at the same time when downloading files over 30 MB in size.

Note: Download booster uses mobile data services.

To turn on Download Booster:
1. From a Home screen, tap Apps > Settings > More connection settings > Download booster.
2. Tap ON/OFF to turn Download Booster on or off.

Virtual Private Networks (VPN)
Set up and manage your Virtual Private Networks (VPNs).

Note: You must set a screen lock PIN or password before setting up a VPN. For more information, see Lock Screen and Security.

Add a VPN
1. From a Home screen, tap Apps > Settings > More connection settings.
2. Tap VPN.
3. Tap ADD VPN and follow the prompts to set up your VPN.

Connect to a VPN
1. From a Home screen, tap Apps > Settings > More connection settings.
2. Tap VPN.
3. Tap the VPN, enter your log in information, and tap CONNECT.

Edit or Delete a VPN
1. From a Home screen, tap Apps > Settings > More connection settings.
2. Tap VPN.
3. Touch and hold the VPN that you want to edit or delete.
Default Messaging App

If you have multiple messaging apps installed, you can select which app should be your default messaging app.

1. From a Home screen, tap Apps > Settings > More connection settings.
2. Tap Default messaging app to select a default.

Ethernet

Manage your Ethernet connections.

1. From a Home screen, tap Apps > Settings > More connection settings.
2. Tap Ethernet and follow the prompts to connect to an Ethernet network.
Configure the sounds and vibrations used to indicate notifications, screen touches, and other activities.

Change the Sound Mode
You can switch between sound modes, while preserving the individual sound settings you have made.

1. From a Home screen, tap Apps > Settings.
2. Tap Sounds and notifications > Sound mode, and then choose a mode:
   - **Sound**: Your device uses the sounds, vibrations, and volume levels you have chosen in Sound settings for notifications and alerts.
   - **Vibrate**: Your device vibrates for notifications and alerts. This uses the Vibration intensity you choose in Sound settings.
   - **Mute**: Your device mutes all sounds and notifications.

Adjust the Volume
Set the system volume level, and set default volume for call ringtones, notifications, and other audio.

**Tip**: You can also set System volume from the home screen by pressing the Volume key.

1. From a Home screen, tap Apps > Settings.
2. Tap Sounds and notifications > Volume.
3. Drag the sliders to set the default volume for:
   - Notifications
   - Media
   - System

Sounds
Change the Notification Sound
Choose a sound for notifications, such as for new messages and event reminders.

1. From a Home screen, tap Apps > Settings.
2. Tap Sounds and notifications > Sounds > Default notification sound.
3. Tap a sound to hear a preview. Tap OK to select it.
Set Notification Sounds for Samsung Applications

Choose notification alerts for new messages, calendar events, and email.

1. From a Home screen, tap Apps > Settings.
2. Tap Sounds and notification > Sounds, and tap to configure each option:
   - Messages: Configure message notifications.
   - Calendar: Configure event notifications.
   - Email: Configure email account notifications.

System Sounds

Set various other system sound options.

1. From a Home screen, tap Apps > Settings.
2. Tap Sounds and notification > Sounds, and tap to enable each option:
   - Touch sounds: Play tones when you touch or tap the screen to make selections.
   - Screen lock sounds: Play a sound when you unlock the screen.
   - Keyboard sound: Play a sound when the Samsung keyboard is tapped.

Sound Quality and Effects

Choose from advanced sound options to customize your audio experience.

Sound Quality

Find the best sound setting for your preferences

1. From a Home screen, tap Apps > Settings.
2. Tap Sounds and notification > Sound quality and effects.
3. Tap Adapt Sound and follow the prompts to customize your sound settings.

Sound Effects

1. From a Home screen, tap Apps > Settings.
2. Tap Sounds and notification > Sound quality and effects.
3. Tap ON/OFF to enable each option:
   - SoundAlive+: Recreate the effects of rich surround sound.
   - Tube Amp: Simulate the soft timbre of a tube amplifier.

Do Not Disturb

This setting allows you to block all notifications and alerts. The options below determine what notifications can make sounds, and during what time periods you want to enter this mode.

To activate Do Not Disturb mode:

1. From a Home screen, tap Apps > Settings.
2. Tap Sounds and notifications > Do not disturb.
3. Tap ON/OFF to enable this option.

Allow Exceptions

This option lets you customize what notifications are allowed while your phone is in Do not disturb mode.

1. From a Home screen, tap Apps > Settings.
2. Tap Sounds and notifications > Do not disturb.
3. Tap Allow exceptions, and tap ON/OFF to enable the exceptions you want to allow.
Set Schedule
This option allows you to turn Do not disturb mode on and off automatically at scheduled times.

**Note**: Scheduling is not available if Do not disturb mode has been turned on manually.

1. From a Home screen, tap Apps > Settings.
2. Tap Sounds and notifications > Do not disturb.
3. Tap Set schedule, and set the Days, Start time, and End time.

Notifications on Lock Screen
Choose what notifications can display while the device is locked.

1. From a Home screen, tap Apps > Settings.
2. Tap Sounds and notifications > Notifications on lock screen, and choose an option.

App Notifications

1. From a Home screen, tap Apps > Settings.
2. Tap Sounds and notifications > App notifications, and choose an app to enable or disable notifications.
Display Settings

Adjust the Screen Brightness
Adjust the screen brightness to suit your surroundings or personal preference. You may also want to adjust screen brightness to conserve battery power.

1. From a Home screen, tap Apps > Settings > Display.
2. Under Brightness:
   • Tap Auto to allow the device to adjust brightness automatically.
   • To set a custom brightness level, clear the Automatic brightness check mark and drag the Brightness slider.

   **Note:** You can also control Brightness from the Notification panel. Drag down the Status bar at the top of the screen to find the Brightness options.

Set the Screen Timeout Delay
Choose how long the display screen remains lit after you tap the screen or press any key.

1. From a Home screen, tap Apps > Settings > Display.
2. Tap Screen timeout, and then choose a time period.

Smart Stay
Using the front camera to detect your face, the screen will not time out as long as you are facing the screen.

1. From a Home screen, tap Apps > Settings > Display.
2. Tap Smart stay, and tap ON/OFF to turn the feature on.

Change the Font Style and Size
You can set the font style and size for all text that displays on the screen.

1. From a Home screen, tap Apps > Settings > Display.
2. Tap Font to choose a font style and font size.
   • Drag the slider to adjust the font size.
   • Tap a font style to select a font, or tap Download fonts to find new fonts from Galaxy Apps.
3. Tap OK to set the font size and style.
Select a Screen Mode

Choose a screen mode to match your type of viewing. You can choose to have the device automatically adapt the display depending on the type of image being displayed, and other criteria such as battery level.

1. From a Home screen, tap Apps > Settings > Display.

2. Tap Screen mode, and then choose a screen mode.

   • To have your device automatically optimize the display to match the type of image being displayed and other criteria, such as battery level, tap Adaptive display.

   – or –

   Choose a specific type of screen mode based on what your are viewing.

Daydream (Screen Saver)

The Daydream setting controls what the screen displays when the device is docked (dock not included), or while charging. You can choose to display colors, or display photos stored on your device.

1. From a Home screen, tap Apps > Settings > Display.

2. Tap Daydream. Tap ON/OFF to turn Daydream on. Configure options:

   • Colors: Tap the selector to display a changing screen of colors.

   • Photo Frame: Display pictures in a photo frame. Tap Settings for options.

   • Photo Table: Display pictures in a photo table. Tap Settings for options.

   • Photos: Display pictures from your Google+ account. Tap Settings for options.

3. Tap PREVIEW to see a demonstration of Daydream.
Motions and Gestures

Control certain device actions by touching the screen with the palm of your hand.

1. From a Home screen, tap Apps > Settings.

2. Tap Motions and gestures.

3. Tap ON/OFF to enable each of the following:
   - Mute: Mute sounds and video by covering the screen or turning over the device.
   - Palm swipe to capture: Capture an image of the screen when you sweep your hand left or right across the screen.
Applications Settings

Manage settings for applications on your phone.

Application Manager

You can download and install new applications on your device. Use Application manager settings to manage your downloaded and preloaded applications.

Warning: Because this device can be configured with system software not provided by or supported by Google or any other company, you operate this software at your own risk.

Memory Usage

See how memory is being used by Downloaded or Running applications.

1. From a Home screen, tap Apps > Settings > Applications > Application manager.

2. Swipe across the screen to display Downloaded, SD Card, Running, or All to display memory usage for that category of applications.

The graph on the Downloaded tab shows used and free device memory. The graph on the Running tab shows used and free RAM.

Downloaded

Displays apps you have downloaded onto your device.

1. From a Home screen, tap Apps > Settings > Applications > Application manager.

2. Tap Downloaded to view a list of all the downloaded applications on your device.

   • To switch the order of the Downloaded list, tap MORE > Sort by size or Sort by name.
   
   • To reset all of your application preferences, tap MORE > Reset app preferences.
   
   • Tap an application to view and update information about the application, including memory usage, default settings, and permissions. The following options are displayed:

      – FORCE STOP: Stop an app that is misbehaving. Restart your device if stopping an app, process, or service causes your device to stop working correctly.

      – UNINSTALL/UNINSTALL UPDATES: Delete the application from the device or uninstall updates made to apps that cannot be deleted.

      – MOVE TO SD CARD: Move the application to an optional SD card.

      – CLEAR DATA: Clear application data from memory.

      – CLEAR CACHE: Clean an application’s temporary memory storage.

      – CLEAR DEFAULTS: Clear an application’s customization.

      – Permissions: View information about the application’s access to your device and data.
SD Card
Displays apps you have on your SD card.

1. From a Home screen, tap Apps > Settings > Applications > Application manager.
2. Tap SD CARD to view a list of all the downloaded applications on your device.
   • To switch the order of the SD CARD list, tap MORE > Sort by size or Sort by name.
   • To reset all of your application preferences, tap MORE > Reset app preferences.
   • Tap an application to view and update information about the application, including memory usage, default settings, and permissions.

Default Applications
If you have multiple applications of the same type, such as email apps, you can select one app to be the default.

1. From a Home screen, tap Apps > Settings > Applications > Default applications.
2. Your defaults are displayed.
3. To clear defaults you have set up, tap CLEAR.

Application Settings
Shortcuts to the settings for various apps are available in one convenient location.

1. From a Home screen, tap Apps > Settings > Applications.
2. Tap one of the following to display the settings for the selected app:
   • Calendar
   • Camera
   • Contacts
   • Email
   • Internet
   • Messages
   • Music
   • Weather

Note: Options vary by application.

Running Services
View and control services running on your device.

1. From a Home screen, tap Apps > Settings > Applications > Application manager.
2. Tap RUNNING to view a list of running services.
   All the applications that are currently running on the device display.
3. Tap SHOW CACHED PROCESSES to display all the cached processes that are running. Tap SHOW SERVICES IN USE to switch back.
4. Tap one of the applications to view application information.
   • STOP: Stops the application from running on the device. This is usually done prior to uninstalling the application. (Not all services can be stopped. Stopping services may have undesirable consequences on the application or Android System.)
   • REPORT: Report failure and other application information.

Note: Options vary by application.
Share this tablet with multiple people by creating User accounts.

Users have their own space, which they can customize with their own apps, wallpaper, and so on. Users can also adjust tablet settings that affect everyone, such as Wi-Fi.

Restricted profiles allow only limited access to apps and content.

Set Up User Profiles
Set up user profiles and then select one when unlocking the device to use personalized settings.

1. From a Home screen, tap Apps > Settings.
2. Tap Users.
3. Tap Add user or profile and follow the instructions to set up a new user or profile.

Note: You can also add a user profile from the Notification Panel, Manage Users screen.

Delete a User or Profile
1. From a Home screen, tap Apps > Settings.
2. Tap Users.
3. Tap Settings next to a User profile to edit it.
   - Tap Delete to delete the user profile.
   - Tap ON/OFF on options to enable or disable them.

Note: Only the device owner can delete other User accounts.

Use User Profiles
To access the device with a user profile:
1. Swipe down on the Status bar to display the Notification panel.
2. Tap Manage Users, and then tap a profile.

Change User Account Nicknames and Photo IDs
The photo and name each user uses in their personal Contact entry (listed under ME at the top of their Contacts list) is used as their User ID and name.

To change their ID photo and name, each user can edit their personal Contact entry. For more information, see Edit a Contact.
Wallpaper Settings

Change the look of the home and lock screens with wallpaper.

You can display a favorite picture or choose from preloaded wallpapers.

1. From a Home screen, tap Apps > Settings > Wallpaper.

2. Tap HOME SCREEN, LOCK SCREEN, or HOME AND LOCK SCREEN.

3. Tap a image to preview it, and then tap SET AS WALLPAPER.

   • Tap From Gallery for additional wallpapers.
Secure your device and protect your data with Lock Screen and Security settings.

Set a Screen Lock

1. From a Home screen, tap Apps > Settings.

2. Tap Lock screen and security > Screen lock type to select a screen lock and level of security:
   - **Swipe**: Swipe the screen to unlock it. This option provides no security.
   - **Pattern**: A screen unlock pattern is a tap gesture you create and use to unlock your device. This option provides medium security.
   - **PIN**: Select a PIN to use for unlocking the screen. This option provides medium to high security.
   - **Password**: Create a password for unlocking the screen. This option provides high security.
   - **None**: No screen lock.

3. If choosing a secured lock screen option, select your notification settings:
   - **Show content**
   - **Hide content**
   - **Do not show notifications**

4. Choose a screen lock option:
   - **Show information**: Show the dual clock, or information such as the weather information, on the lock screen.
   - **Unlock effect**: Set the visual effect used when unlocking the screen. (This option is available with Swipe only.)
   - **Secure lock settings**: Set your secure lock functions such as Secured lock time, and Smart lock.

**Note**: Options vary based on the screen lock type.
**Device Security**

Configure security for your phone.

1. From a Home screen, tap Apps > Settings.
2. Tap Lock screen and security > Device security.
3. Tap the ON/OFF switch to activate KNOX active protection on your phone.

**Find My Mobile**

Protect your device from loss or theft allowing your device to be locked, tracked, and for your data to be deleted remotely.

► To access your device remotely, visit findmymobile.samsung.com.

**Note:** You must sign up for a Samsung account and enable Google location service to use Find My Mobile.

1. From a Home screen, tap Apps > Settings.
2. Tap Lock screen and security > Find My Mobile.
3. Enter your Samsung account password, or if you are not logged in to your Samsung account, tap Add account and follow the prompts.
4. The following options are available:
   - **Remote controls:** Tap to activate or deactivate Remote controls, which allows you to access your device remotely.
   - **Google location service:** Tap to activate or deactivate Google location service. This service must be on in order to find your phone.
   - **SIM change alert:** Prevent unauthorized changes to your SIM card by being alerted whenever an app or service attempts to change data on your SIM card.

**Unknown Sources**

Enable installation of non-Google Play applications.

1. From a Home screen, tap Apps > Settings.
2. Tap Lock screen and security > Unknown sources to enable this option.

**Warning:** Enabling installation of third-party applications can cause your device and personal data to be more vulnerable to attacks by unknown sources.

**Other Security Settings**

**Encrypt Your Data**

Require a numeric PIN or password to decrypt your device each time you power it on.

1. From a Home screen, tap Apps > Settings.
2. Tap Lock screen and security > Other security settings > Encrypt device, and follow the prompts to encrypt all data on your device.

**Encrypt Your SD Card**

Require a numeric PIN or password to decrypt your SD card.

1. From a Home screen, tap Apps > Settings.
2. Tap Lock screen and security > Other security settings > Encrypt external SD card, and follow the prompts to encrypt all data on your SD card.
Set Up SIM Card Lock

Require both your SIM card PIN and your ordinary screen lock type when unlocking the device.

1. From a Home screen, tap Apps > Settings.
2. Tap Lock screen and security > Other security settings > Set up SIM card lock and follow the prompts.
   • To change your SIM card PIN, tap Change SIM card PIN.

View Passwords

Display password characters briefly as you type them.

1. From a Home screen, tap Apps > Settings.
2. Tap Lock screen and security > Other security settings > Make passwords visible to turn the feature on.

Security Update Service

Automatically receive security updates.

1. From a Home screen, tap Apps > Settings.
2. Tap Lock screen and security > Other security settings for the following Security update service options:
   • Security policy updates: Automatically or manually check for security policy updates.
   • Send security reports: Send security reports to Samsung via Wi-Fi for threat analysis.

Device Administration

Manage your device administrators and application installation privileges.

1. From a Home screen, tap Apps > Settings.
2. Tap Lock screen and security > Other security settings > Device administrators.
3. Tap Android Device Manager to allow it to lock or erase a lost device.

Credential Storage

Manage your security certificates. If a certificate authority (CA) certificate gets compromised or for some other reason you do not trust it, you can disable or remove it.

1. From a Home screen, tap Apps > Settings.
2. Tap Lock screen and security > Other security settings for the following Credential storage options:
   • Storage type: Select a storage location for credential contents.
   • View security certificates: Display certificates in your device’s ROM and other certificates you have installed.
   • Install from device storage: Install a new certificate from storage.
   • Clear credentials: Erase the credential contents from the device and reset the password.
Advanced Security Settings

Use these options to configure advanced security settings.

1. From a Home screen, tap Apps > Settings.

2. Tap Lock screen and security > Other security settings for the following Advanced options:
   
   - **Trust agents**: View or disable trusted agents.
   - **Pin windows**: Pin an app on your device screen, preventing access to other features of your phone.
   - **Usage data access**: View the applications that can access your device’s usage history.
   - **Notification access**: View the applications that can access notifications you receive on your phone.

   **Note**: To view Trust agents, set up a screen lock (pin, password, or pattern). For more information, see Set a Screen Lock.
Choose from various modes designed to hide personal content from being accessed by anyone else using your device, or to aid you in an emergency.

**Note:** A secure screen lock (Pattern, PIN, Fingerprint, or Password) is required to use Private Mode.

**Location**

Some apps, such as Google maps, may require one or more location services be turned on for full functionality.

**Locating Method**

1. From a Home screen, tap Apps > Settings.
2. Tap Privacy > Location.
3. Tap ON/OFF to turn on Location services.
4. Tap Locating method to select how your location is determined:
   - **GPS, Wi-Fi, and mobile networks:** Use GPS, Wi-Fi, and mobile networks.
   - **Wi-Fi and mobile networks:** Use Wi-Fi and mobile networks (no GPS).
   - **GPS only:** Use GPS only.

**Recent Location Requests**

Apps that have requested your location are listed under Recent location requests.

1. From a Home screen, tap Apps > Settings.
2. Tap Privacy > Location.
3. Tap ON/OFF to turn on Location services.
4. Tap an entry under Recent location requests to view the app’s settings.

**Location Reporting**

Google uses Location Reporting to store and use your device’s most recent location data. Google apps, such as Google Maps, can use this data to improve your search results based on places that you have visited.

1. From a Home screen, tap Apps > Settings.
2. Tap Privacy > Location.
3. Tap ON/OFF to turn on Location services.
4. Tap Google Location History and sign in to your Google Account for options.
Accessibility services are special features that make using the device easier for those with certain physical disabilities.

**Note:** You can download additional accessibility applications from the Google Play store.

1. From a Home screen, tap Apps > Settings.

2. Tap Accessibility for options:

**Vision**

- **Voice Assistant:** Speak feedback aloud to help blind and low-vision users.
  - Voice Assistant can collect all of the text you enter, except passwords, including personal data and credit card numbers. It may also log your user interface interactions with the device.
  - You can turn on Voice Assistant from any screen by pressing the Home key quickly three times (triple-press).

- **Voice Assistant help:** Tap for help on using Voice Assistant.

- **Dark screen:** Keep the screen turned off at all times for privacy.

- **Rapid key input:** Release your finger to enter selection instead of double tapping.

- **Speak passwords:** Read the characters aloud as you enter your passwords.

- **Font size:** Set the font size.

- **Magnification gestures:** Use exaggerated gestures such as triple-tapping, double pinching, and dragging two fingers across the screen.

- **Magnifier window:** Magnify content shown on the screen.

- **Grayscale:** Change all colors to gray.

- **Negative colors:** Reverse the display of onscreen colors from White text on a Black background to Black text on a White background.

- **Color adjustment:** Adjust the color of the screen if you are color blind or have difficulty reading the display because of the screen color.

- **Accessibility shortcut:** Quickly enable accessibility features in two quick steps. Tap ON/OFF to turn the feature on.

- **Text-to-speech options:** Set your preferred TTS engine and options.

**Hearing**

- **Turn off all sounds:** For privacy, turn off all notifications and audio.

- **Samsung subtitles (CC):** Use Samsung subtitles with multimedia files when available.

- **Google subtitles (CC):** Use Google subtitles with multimedia files when available.

- **Left/right sound balance:** Use the slider to set the Left and Right balance when using a stereo device.

- **Mono audio:** Switch audio from stereo to mono for use with one earphone.
Dexterity and Interaction

- **Universal switch**: Control your phone with your customized switches.
- **Assistant menu**: Improve the device accessibility for users with reduced dexterity.
- **Press and hold delay**: Select a time interval for this tap gesture.
- **Interaction control**: Block areas of the screen from touch interaction. Disable Auto rotate screen and hard key functions. Only show application notifications in the Notification Panel and the Status bar.

More Settings

- **Direction lock**: Unlock the screen by swiping in a series of four to eight directions.
- **Direct access**: Open your accessibility settings by pressing the Home Key three times in quick succession.
- **Notification reminder**: Beep at set intervals to remind you of any unread notifications.
- **Single tap mode**: Tap to stop/snooze alarms and calendar events.
- **Manage accessibility**: Export your accessibility settings and share them with another device.

Services

- Additional accessibility apps may be downloaded from the Google Play store. Certain accessibility services you install may be configured here.
Set up and manage accounts, including your Google Account, Samsung account, email, and social networking accounts.

Depending on the account, you can choose to synchronize your calendar, contacts, and other types of content.

Add an Account
1. From a Home screen, tap Apps > Settings.
2. Tap Accounts > Add account.
3. Tap one of the account types.
4. Follow the prompts to enter your credentials and set up the account.

Synchronize Accounts
1. From a Home screen, tap Apps > Settings.
2. Tap Accounts > [Account type].
3. Tap an account to view the sync settings for that account.
4. Tap individual data items to sync.
5. Tap MORE > Sync all or Sync now to synchronize the account.

Note: Sync options and the location of the sync command differ depending on the account type.

Account Settings
Each account has its own set of settings. In addition, you can configure common settings for all accounts of the same type.

Note: Account settings and available features vary between account types and service providers. Contact your service provider for more information on your account’s settings.

1. From a Home screen, tap Apps > Settings.
2. Tap Accounts > [Account type].
   - Tap an account to configure that account’s sync settings.
   - Tap other available options for the account.

Delete an Account
1. From a Home screen, tap Apps > Settings.
2. Tap Accounts > [Account type].
3. Tap the account and then tap MORE > Remove account.
Backup and Reset

Back up your data to Google servers. You can also reset your device to its factory defaults.

Backup and Restore Samsung Account
Enable backup of your information to Samsung servers.

1. From a Home screen, tap Apps > Settings.
2. Tap Backup and reset for options:
   - Back up my data: Enable back up of application data, Wi-Fi passwords, and other settings to Google servers.
   - Restore: Enable automatic restoration of settings from Samsung servers. When enabled, backed-up settings are restored when you reinstall an application.

Backup and Restore
Enable backup of your information to Google servers.

1. From a Home screen, tap Apps > Settings.
2. Tap Backup and reset for options:
   - Backup account: Select a Google Account to be used as your backup account.
   - Back up my data: Enable back up of application data, Wi-Fi passwords, and other settings to Google servers.
   - Automatic restore: Enable automatic restoration of settings from Google servers. When enabled, backed-up settings are restored when you reinstall an application.

Factory Data Reset
Return your device to its factory defaults.

Warning: This action permanently erases ALL data from the device, including Google or other account settings, system and application data and settings, downloaded applications, as well as your music, photos, videos, and other files.

1. From a Home screen, tap Apps > Settings.
2. Tap Backup and reset > Factory data reset.
3. Tap RESET DEVICE and follow the prompts to perform the reset.

Collect Diagnostics
Collect diagnostics data for troubleshooting.

1. From a Home screen, tap Apps > Settings.
2. Tap Backup and reset > Collect diagnostics.
3. Tap Diagnostics and read the onscreen information. Choose to enable or disable the feature by checking Allow Diagnostics.
4. Follow the prompts to customize Collect diagnostics.
Language and Input Settings

Configure your device's language and input settings.

Set Your Default Language
1. From a Home screen, tap Apps > Settings.
2. Tap Language and input > Language.
3. Select a language from the list.

Select Your Default Keyboard or Input Method
1. From a Home screen, tap Apps > Settings.
2. Tap Language and input > Default keyboard.
3. Select a keyboard.

Note: Additional keyboards can be downloaded from the Google Play store.

Samsung Keyboard Settings
Configure options for using the Samsung keyboard.

1. From a Home screen, tap Apps > Settings.
2. Tap Language and input.
3. Tap Samsung keyboard for options:

   Input languages
   - English(US): Set the keyboard type: Qwerty keyboard or 3x4 keyboard.
   - + Select input languages: Choose which languages are available on the keyboard. To switch between languages, slide the space bar sideways.

Smart typing
- Predictive text: Allow predictive text to suggest words matching your text entries.
- Auto replace: Complete or replace the word you are typing with the most probable word when you tap the space bar.
- Auto check spelling: Underline spelling errors in red and suggest corrections.
- Text shortcuts: Create shortcuts for your frequently used phrases.
- Auto capitalize: Automatically capitalize the first letter of each sentence.
- Auto spacing: Automatically insert spaces between words.
- Auto punctuate: Automatically insert a full stop by tapping the space bar twice.
- Keyboard swipe: Choose between None, Continuous input, and Cursor control.

Key-tap feedback
- Sound: Tap ON/OFF to enable sounds when you tap the keyboard.
- Character preview: Show a big character bubble when a key is tapped.

Other settings
- Adjust keyboard size: Manually adjust the size of the keyboard.
- Reset settings: Reset setting to their defaults.
Google Voice Typing Settings

Speak rather than type your text entries using Google Voice Typing.

1. From a Home screen, tap Apps > Settings.
2. Tap Language and input.
3. Tap Google voice typing for options:
   - Language: Select languages for Google voice typing.
   - “Ok Google” detection: Tap to launch a Google search whenever you say “Ok Google”.
   - Hands-free: Allow requests with the device locked.
   - Speech output: Select options for spoken feedback.
   - Offline speech recognition: Manage downloaded languages.
   - Block offensive words: Hide words many people find offensive are in results of Google voice searches. Offensive words are replaced in results with a placeholder (####).
   - Bluetooth headset: Use audio input from a Bluetooth headset, if one is connected.

Voice Input

Use Google voice recognition to perform Google searches using spoken commands.

To perform a voice search, tap Voice in the Google search bar or widget. Or say “Ok Google” to launch a Google search (if the hotword detection option is enabled).

1. From a Home screen, tap Apps > Settings.
2. Tap Language and input > Voice input for options.
3. Tap Enhanced Google services for full voice interaction or Basic Google recognition for simple voice recognition.
4. Tap Settings next to the selected option to configure its options.

Text-To-Speech Options

Configure your Text-To-Speech (TTS) options. TTS is used for various accessibility features, such as Voice Assistant. For more information, see Accessibility.

1. From a Home screen, tap Apps > Settings.
2. Tap Language and input > Text-to-speech options for options:
   - Tap Settings next to the Samsung text-to-speech engine for options.
   - Speech rate: Set the speed at which the text is spoken.
   - Default language status: Display the default language in use.

Mouse/Trackpad Settings

Configure settings for using an optional mouse or trackpad (not included).

1. From a Home screen, tap Apps > Settings.
2. Tap Language and input > Pointer speed.
3. Drag the slider to the right to go faster or to the left to go slower.
4. Tap OK to save your setting.
Battery

View how battery power is used for device activities.

1. From a Home screen, tap Apps > Settings.

2. Tap Battery for options:
   - **Power saving mode**: Tap ON/OFF to turn the feature on, and customize options.
   - **Ultra power saving mode**: Tap ON/OFF to turn the feature on.
   - **Display battery percentage**: Display the battery charge percentage next to the battery icon on the Status bar.
   - **Battery Chart**: The battery level displays as a percentage. The amount of time the battery has been used also displays.
   - Tap REFRESH to update the listing.

Apps and OS Usage

Battery usage displays in percentages per application.

1. Tap Screen, Android System, Android OS, or an app to view how they are affecting battery use.

2. Tap REFRESH to update the listing.

**Note**: Other applications may be running that affect battery use.
View the device memory and usage.

Device Memory
View and manage the memory used by the device.

1. From a Home screen, tap Apps > Settings.
2. Tap Storage.
   - The Device memory displays Total space.
   - The amounts of memory used are further divided into System memory, Used space, Cached data, Miscellaneous files, and Available space.

To increase available memory:
1. Tap Cached data to clear cached data for all apps. Tap DELETE to confirm.
2. Tap Miscellaneous files, select unnecessary files individually, or tap SELECT ALL, and then tap DELETE.

Memory Card (SD Card)
Once an optional memory card (not included) has been installed in your device, the card memory displays as Total space and Available space.

Install a Memory Card
You can use an optional microSD or microSDHC card (not included) to add additional memory space to your device.

1. Open the memory card slot cover and turn to expose the slot.
2. With the gold contacts facing down, carefully slide the memory card into the slot, pushing gently until it clicks into place.
3. Close the memory card slot cover.
Mount a Memory Card

When you install an optional memory card, it is automatically mounted (connected to the device) and prepared for use. However, should you unmount the card without removing it from the device, you will need to mount it before it can be accessed.

1. From a Home screen, tap Apps > Settings.
2. Tap Storage > Mount SD card.

Remove a Memory Card

Warning: To prevent damage to information stored on the memory card, unmount the card before removing it from the device.

1. From a Home screen, tap Apps > Settings.
2. Tap Storage > Unmount SD card.
3. Open the memory card slot cover and turn to expose the slot.
4. Gently push the card until it pops out, and carefully pull the card out of the slot.
5. Close the memory card slot cover.

Format a Memory Card

Warning: When formatting an SD card, you should back up your music and photo files that are stored on the card because formatting the SD card deletes all the stored data.

1. From a Home screen, tap Apps > Settings.
2. Tap Storage > Format SD card and follow the prompts.

Settings 93
Configure options when using a book cover (not included).

Flip the cover open to unlock the screen when secure lock is turned off.

1. From a Home screen, tap Apps > Settings.
2. Tap Accessories > Automatic unlock to enable this feature.
Date and Time Settings

By default, your device receives date and time information from the wireless network.

When you are outside network coverage, you may want to set date and time information manually using the date and time settings.

1. From a Home screen, tap Apps > Settings.

2. Tap Date and time.

3. The following options are available:

   • **Automatic date and time**: When enabled, the device takes date and time updates from the wireless network.

   • **Automatic time zone**: When enabled, the device takes the time zone from the wireless network.

   • **Set date**: Enter the current date (only available when Automatic date and time is disabled).

   • **Set time**: Enter the current time (only available when the Automatic setting is disabled).

   • **Select time zone**: Choose your local time zone (only available when the Automatic setting is disabled).

   • **Use 24-hour format**: Set the format for time displays.

   • **Select date format**: Choose how to display the date.
View tips and guidelines for using your device.

1. From a Home screen, tap Apps > Settings.
2. Tap Help for information about:
   - Getting started
   - Applications
   - Settings
About Your Device

View information about your device, including status, legal information, hardware and software versions, and a tutorial.

1. From a Home screen, tap Apps > Settings.

2. Tap About device, and then tap items for more details:
   - Software update: Check for and install available software updates.
   - Status: View the status of the battery, network, and other information about your device.
   - Legal information: View legal notices and other legal information.
   - Device name: View and change your device’s name.
   - Additional device information includes the Model number, Android version, Build number, and more.

Software Updates

Use Software update to update your device’s software.

1. From a Home screen, tap Apps > Settings.

2. Tap About device > Software update.

3. Follow the prompts to check for available software updates to download and install.
