Samsung

GALAXY S5 ACTIVE™

SMARTPHONE

User Manual

Please read this manual before operating your device and keep it for future reference.
WARNING! This product contains chemicals known to the State of California to cause cancer, birth defects, or other reproductive harm. For more information, please call 1-800-SAMSUNG (726-7864).

Note: Water-resistant and dust-resistant based on IP67 rating, which tests submersion up to 1.0 meters for up to 30 minutes.

Note: This device passed military specification (MIL-STD-810G) testing against a subset of 20 specific environmental conditions, including temperature, dust and sand, shock/vibration, and low pressure/high altitude. Device may not perform as shown in all extreme conditions.

Intellectual Property

All Intellectual Property, as defined below, owned by or which is otherwise the property of Samsung or its respective suppliers relating to the SAMSUNG Phone, including but not limited to, accessories, parts, or software relating there to (the “Phone System”), is proprietary to Samsung and protected under federal laws, state laws, and international treaty provisions. Intellectual Property includes, but is not limited to, inventions (patentable or unpatentable), patents, trade secrets, copyrights, software, computer programs, and related documentation and other works of authorship. You may not infringe or otherwise violate the rights secured by the Intellectual Property. Moreover, you agree that you will not (and will not attempt to) modify, prepare derivative works of, reverse engineer, decompile, disassemble, or otherwise attempt to create source code from the software. No title to or ownership in the Intellectual Property is transferred to you. All applicable rights of the Intellectual Property shall remain with SAMSUNG and its suppliers.

Open Source Software

Some software components of this product incorporate source code covered under GNU General Public License (GPL), GNU Lesser General Public License (LGPL), OpenSSL License, BSD License and other open source licenses. To obtain the source code covered under the open source licenses, please visit: opensource.samsung.com

Disclaimer of Warranties; Exclusion of Liability

EXCEPT AS SET FORTH IN THE EXPRESS WARRANTY CONTAINED ON THE WARRANTY PAGE ENCLOSED WITH THE PRODUCT, THE PURCHASER TAKES THE PRODUCT “AS IS”, AND SAMSUNG MAKES NO EXPRESS OR IMPLIED WARRANTY OF ANY KIND WHATSOEVER WITH RESPECT TO THE PRODUCT, INCLUDING BUT NOT LIMITED TO THE MERCHANTABILITY OF THE PRODUCT OR ITS FITNESS FOR ANY PARTICULAR PURPOSE OR USE; THE DESIGN, CONDITION OR QUALITY OF THE PRODUCT; THE PERFORMANCE OF THE PRODUCT; THE WORKMANSHIP OF THE PRODUCT OR THE COMPONENTS CONTAINED THEREIN; OR COMPLIANCE OF THE PRODUCT WITH THE REQUIREMENTS OF ANY LAW, RULE, SPECIFICATION OR CONTRACT PERTAINING THERETO. NOTHING CONTAINED IN THE INSTRUCTION MANUAL SHALL BE CONSTRUED TO CREATE AN EXPRESS OR IMPLIED WARRANTY OF ANY KIND WHATSOEVER WITH RESPECT TO THE PRODUCT. IN ADDITION, SAMSUNG SHALL NOT BE LIABLE FOR ANY DAMAGES OF ANY KIND RESULTING FROM THE PURCHASE OR USE OF THE PRODUCT OR ARISING FROM THE BREACH OF THE EXPRESS WARRANTY, INCLUDING INCIDENTAL, SPECIAL OR CONSEQUENTIAL DAMAGES, OR LOSS OF ANTICIPATED PROFITS OR BENEFITS.
Modification of Software

SAMSUNG IS NOT LIABLE FOR PERFORMANCE ISSUES OR INCOMPATIBILITIES CAUSED BY YOUR EDITING OF REGISTRY SETTINGS, OR YOUR MODIFICATION OF OPERATING SYSTEM SOFTWARE.

USING CUSTOM OPERATING SYSTEM SOFTWARE MAY CAUSE YOUR DEVICE AND APPLICATIONS TO WORK IMPROPERLY. YOUR CARRIER MAY NOT PERMIT USERS TO DOWNLOAD CERTAIN SOFTWARE, SUCH AS CUSTOM OS.

IF YOUR CARRIER PROHIBITS THIS, IF YOU ATTEMPT TO DOWNLOAD SOFTWARE ONTO THE DEVICE WITHOUT AUTHORIZATION, YOU WILL BE NOTIFIED ON THE SCREEN THAT UNAUTHORIZED SOFTWARE HAS BEEN DETECTED. YOU SHOULD THEN POWER DOWN THE DEVICE AND CONTACT YOUR CARRIER TO RESTORE THE DEVICE TO THE CARRIER AUTHORIZED SETTINGS.

Diagnostic Software

This device is equipped with diagnostic software reporting usage and performance information used solely to deliver improved network quality and overall device experience to AT&T customers. Please refer to your AT&T Wireless Customer Agreement and/or the AT&T Privacy Policy (att.com/privacy) for more information.

Notice from AT&T

This device is intended for use exclusively on AT&T’s system. You agree that you won’t make any modifications to the Equipment or programming to enable the Equipment to operate on any other system. A voice plan is required on all voice-capable devices, unless specifically noted otherwise in the terms governing your agreement. Some devices or plans may require you to subscribe to a data plan.

Your device is designed to make it easy for you to access a wide variety of content. For your protection, AT&T wants you to be aware that some applications that you enable may involve the location of your device being shared. For applications available through AT&T, AT&T offers privacy controls that let you decide how an application may use the location of your device and other devices on your account. However, AT&T’s privacy tools do not apply to applications available outside of AT&T. Please review the terms and conditions and the associated privacy policy for each location-based service to learn how location information will be used and protected.

Your device may be used to access the Internet and to download, and/or purchase goods, applications, and services from AT&T or elsewhere from third parties. AT&T provides tools for you to control access to the Internet and certain Internet content. These controls may not be available for certain devices which bypass AT&T controls.

AT&T may collect certain types of information from your device when you use AT&T services to provide customer support and to improve its services. For more information on AT&T’s Privacy Policy, visit att.com/privacy [013016]

Getting Started

Learn about your mobile device hardware, assembly procedures, and how to get started using your new device.
• **Proximity sensors**: Detect the presence of objects near the device.

• **Front camera**: Take self-portraits and record videos of yourself.

• **Power key**: Press and hold to turn the device on or off, restart it, or for quick access to Airplane and Emergency modes. Press to lock or wake up the screen.

• **Back key**: Return to the previous screen, or close a dialog box, menu, or keyboard. Press and hold for Multi window™.

• **Home key**: Return to the Home screen.

• **Recent key**: Tap to display recent apps, or press and hold for Home screen options.

• **Volume key**: Adjust the volume of your device’s sounds and audio playback.

• **Active key**: Quickly launch features or applications with one touch.

• **Status light**: Display a light when the battery is charging or fully charged, when a notification arrives, or when recording voice.

• **Earpiece**: Listen to a call.
- **Infrared transmitter**: Controls external devices using infrared light.

- **Microphone**: Record audio and detect voice commands.

- **Rear camera**: Take pictures and record videos.

- **Heart rate sensor**: Measure your heart rate using your fingertip when using the S Health™ app. For more information, see [S Health](#).

- **USB charger/Accessory port**: Connect the USB charger (included) and other optional accessories (not included).

- **Speaker**: Play music and other sounds.

- **Flash**: Illuminate subjects in low-light environments when taking a photo or recording video.

- **Headset jack**: Connect an optional headset (not included).
Assemble Your Device

This section helps you to assemble your device.

Remove the Back Cover
To remove the back cover:

1. Use the slot at the top of the back cover.

2. Lift the cover up and away from the phone.

Caution: Do not remove the rubber seal from the inside of the back cover. Doing so can cause water damage to the device if it gets wet.

Warning: Do not bend or twist the back cover excessively. Doing so may damage the cover.

Replace the SIM Card
When you subscribe to a cellular network, you are provided with a plug-in SIM card. During activation, your SIM card is loaded with your subscription details, such as your Personal Identification Number (PIN), available optional services, and other features.

Warning: Please be careful when handling the SIM card to avoid damaging it. Keep all SIM cards out of reach of small children.

Note: The SIM card slot is located below the micro SD card slot.

► Carefully slide the SIM card into the SIM card slot.

• Make sure that the card's gold contacts face down into the device and that the card is positioned as shown.

Caution: If the SIM card is not inserted correctly, the device cannot detect it. Reorient the SIM card and place it back into the slot if it is not detected.
Install a Memory Card

You can install an optional microSD™ or microSDHC™ memory card (not included) to add more memory space to your device.

**Note:** To improve performance and reliability with high-definition video recording and playback, it is recommended you use a memory card (SD card) that is both rated as at least a Class 10 and provides a high read speed.

**Note:** A memory card can be installed at any time; it is not necessary to install it prior to using the device.

**Note:** The micro SD card slot is located above the SIM card slot.

► With the gold contacts facing down, carefully slide the memory card into the slot.

Caution: If the memory card is not inserted correctly, the device cannot detect it. Reorient the memory card and place it back into the slot if it is not detected.

Install the Battery

You can install a replacement battery.

1. Insert the battery into the opening on the back of the device, making sure the connectors align.

2. Gently press down to secure the battery.

Replace the Back Cover

Close the back cover before using the device.

1. Place the back cover onto the back of the device and press down.

2. Press along the edge of the back cover until you have a secure seal.
Maintaining Water and Dust Resistance

This device is rated IP67 using the Ingress Protection rating system.

Your device has been tested in a controlled environment and shown to be water and dust resistant in certain circumstances (meets requirements of classification IP67 as described by the international standard IEC 60529 - Degrees of Protection provided by Enclosures [IP Code]; test conditions: 15-35°C, 86-106 kPa, 1.0 meters, for 30 minutes). Despite this classification, your device is not impervious to water damage in any situation. It is important that all compartments are closed tightly.

Follow these tips carefully to prevent damage to the device.

- Whenever your device gets wet, dry it thoroughly with a clean, soft cloth.

- Do not expose the device to salt water or ionized water, or to water over 1.0 meters deep for more than 30 minutes. If your device is exposed to fresh water, dry it thoroughly with a clean, soft cloth. If the device is exposed to any liquid other than fresh water, rinse the device with fresh water immediately and dry it thoroughly with a clean, soft cloth. Failure to rinse the device in fresh water and dry it as instructed may cause the device to suffer from operability or cosmetic issues.

- Do not expose the device to water at high pressure.

- If the device is dropped or receives an impact, the water and dust resistant features of the device may be damaged.

- The touchscreen and other features may not work properly if the device is used in water or in other liquids. [040616]

Charge the Battery

Your device is powered by a rechargeable, standard Li-Ion battery. A USB charger (charging head and USB cable) is included with the device for charging the battery from any standard outlet.

The battery comes partially charged. A fully discharged battery requires up to four hours of charge time. You can use the device while charging.

Note: It is recommended you fully charge the battery before using your device for the first time.

Caution: Use only charging devices and batteries approved by Samsung. Samsung accessories are designed for your device to maximize battery life. Using other accessories may invalidate your warranty and may cause damage.

Note: You should dry the inside of the charging port before inserting a power connector to charge your device. If the charging port is not fully dry, your device may operate abnormally. For example, it may charge more slowly or overheat.

Important: Remove any dust within the port to prevent water and dust from breaking the seal and then entering the device, and ensure the cover is closed tightly.

1. Insert the USB cable into the USB charger/Accessory port.

2. Connect the USB cable to the charging head, and then plug the charging head into a standard outlet.

3. Unplug the charging head from the outlet and remove the USB cable from the device when charging is complete.

Caution: Failure to unplug the wall charger before you remove the battery can cause damage to the device.
When to Charge the Battery

When the battery is low and only a few minutes of operation remain, the device sounds a warning tone at regular intervals.

In this condition, your device conserves its remaining battery power by dimming the screen.

When the battery level becomes too low, the device automatically turns off.

For a quick check of your battery level:

► View the battery charge indicator located in the top right corner of your device’s display. A solid color (▌) indicates a full charge.

You can also choose to display a percentage value. Viewing a percentage value can provide a better idea of the remaining charge on the battery. For more information, see Battery.
Set Up Your Device

Turn Your Device On or Off
The instructions below explain how to turn your device on or off.

Turn the Device On
To turn the device on:
► Press and hold the Power key until the device turns on.

Turn the Device Off
To turn the device off:
1. Press and hold the Power key until the Device options menu is displayed.
2. Tap Power off, and confirm if prompted.

Restart a Non-Responsive Device
If your device stops responding to taps or finger gestures and you are unable to turn it off, you can restart your device.
► Press and hold the Power key and the Volume down key at the same time for more than seven seconds.

Initial Set Up
The first time you turn your device on, a Welcome screen is displayed. It guides you through the basics of setting up your device.
Follow the prompts to choose a default language, connect to a Wi-Fi® network, set up accounts, choose location services, learn about your device’s features, and more.

Setup and Transfer
During initial setup, the Setup & Transfer screen displays. It guides you through the basics of setting up your device.
Follow the prompts to choose a default language, connect to a Wi-Fi network, set up accounts, choose location services, learn about your device’s features, and more.

Note: If you tap not now > exit, you can set up your device later.

To access AT&T Setup & Transfer at any time:
► From a Home screen, tap Apps > Setup & Transfer.

Secure Your Device
Use your device’s screen lock features to secure your device.

Lock the Device
By default, the device locks automatically when the screen times out.
To lock the device:
► Press the Power key.

Unlock the Device
The default Screen lock on your device is Swipe.

Note: To choose a more secure screen lock, see Set a Screen Lock.

To unlock the device:
► Press the Power key or Home key, and then drag your finger across the screen.
Set Up Accounts on Your Device

Samsung Account

Create a Samsung account for access to Samsung content and apps on your device. When you turn on your device for the first time, set up your existing Samsung account or create a new Samsung account.

– or –

To create a new Samsung account or set up your Samsung account on your device at any time, use Accounts settings. For more information, see Accounts.

1. From a Home screen, tap Apps > Settings > General > Accounts.
2. Tap Add account > Samsung account.

Google Account

Your new device uses your Google™ Account to fully utilize its Android™ features, including Gmail™, Google Hangouts™, and the Google Play™ store.

When you turn on your device for the first time, set up your existing Google Account or create a new Google Account.

– or –

To create a new Google Account or set up your Google Account on your device at any time, use Accounts settings. For more information, see Accounts.

1. From a Home screen, tap Apps > Settings > General > Accounts.
2. Tap Add account > Google.
Know Your Device

Learn some of the key features of your mobile device, including the screens and icons, as well as how to navigate the device and enter text using the keyboard.

Warning: Please note that a touch screen responds best to a light touch from the pad of your finger or a capacitive stylus. Using excessive force or a metallic object when pressing on the touch screen may damage the tempered glass surface and void the warranty.
The Home screen is the starting point for using your device.

- **Status bar**: Displays device status icons (right) and notification icons (left). For more information, see Status Bar.
- **App folder**: Groups multiple apps into a folder.
- **Apps list**: Allows quick access to all of your applications.
- **Primary app shortcuts**: Displays these shortcuts on all Home screens.
- **Home screen indicator**: Indicates which Home screen is currently visible.
- **App shortcuts**: Launches your favorite applications.
- **Widget**: Runs as a simple application extension (not a shortcut) on a Home screen.
Customize your Home screens by adding application shortcuts, widgets, and folders, and using wallpapers.

To access Home screen manager:
► From a Home screen, pinch the screen.
– or –
Touch and hold an empty space on the screen.
– or –
Press and hold  Recent.

Manage Home Screens
Your device comes with multiple Home screens to hold app shortcuts and widgets. You can add, remove, and change the order of screens, as well as choose a different main Home screen.

1. From a Home screen, pinch the screen.
2. Use these options to manage screens:
   • Add a screen: Swipe to the end of the screens, and then tap  Add.
   • Remove a screen: Touch and hold on a screen, and then drag it to  Remove.
   • Set a screen as the main Home screen: Tap  Main Home screen at the top of a screen. This screen is displayed when you press the Home key.
   • Change the order of screens: Touch and hold a screen, and then drag it to a new position.
   • Tap Home screen settings, and then tap an option to customize:
     – Transition effect: Select a transition to use when swiping between screens.
     – Flipboard Briefing: To enable or disable this feature, tap  Flipboard Briefing. Swipe to the left of the Home screens to find the Flipboard Briefing screen.

Wallpapers
Change the look of the Home and Lock screens with wallpaper. You can display a favorite picture or choose from preloaded wallpapers.

1. From a Home screen, pinch the screen.
2. Tap Wallpapers to customize.

For more information, see Wallpaper Settings.

To access Wallpaper settings:
► From a Home screen, tap Apps > Settings > Device > Wallpaper.

Widgets
Widgets are simple application extensions that run on a Home screen. There are many kinds of widgets, including links to a specific contact, Internet bookmarks, Gmail and email accounts, and many others.

Add a Widget to a Home Screen
You can add a widget to a Home screen.

1. From a Home screen, pinch the screen.
2. Tap Widgets.
3. Touch and hold a widget, drag it to a Home screen, and release it.

Remove a Widget
You can remove a widget that you added to a Home screen.

1. From a Home screen, touch and hold a widget to release it.
2. Drag the widget to  Remove and release it.

Note: Removing a widget does not delete the widget, it just removes the widget from the Home screen.
App Shortcuts
You can use app shortcuts to launch an app from any Home screen.

Add a Shortcut to a Home Screen
You can add a shortcut to a Home screen.
1. From a Home screen, tap Apps.
2. Touch and hold an app shortcut, drag it to a Home screen, and then release it.

Remove a Shortcut
You can remove a shortcut that you added to a Home screen.
1. Touch and hold an app shortcut to release it.
2. Drag the app shortcut to Remove and release it.

Note: Removing a shortcut does not delete the app, it just removes the shortcut from the Home screen.

Folders
Place folders on a Home screen to organize items.

Create a Folder
You can create an app folder on a Home screen.
1. From a Home screen, touch and hold an app shortcut.
2. Drag the shortcut onto Create folder and release.
   - Enter folder name: Enter a name for the folder.
   - Palette: Change the color.
   - Add application: Place more apps in the folder. Tap apps to select them, and then tap Done.
3. Tap anywhere outside of the folder to close it.
   - To add more apps, touch and hold an app shortcut and drag it to the folder.

Add a Folder to a Home Screen
To add a folder to a Home screen:
1. From a Home screen, tap Apps.
2. Touch and hold a folder, drag it to a Home screen, and then release it.

Use Folders
- To open a folder and access the shortcuts inside, tap it.
- To add app shortcuts to a folder, touch and hold the app shortcut, and then drag it onto the folder and release.
- To change the folder’s color scheme, tap Palette.

Remove a Folder from a Home Screen
You can remove a folder that you added to a Home screen.
1. Touch and hold the folder until it detaches.
2. Drag the folder to Remove and release it.
The Status bar at the top of the Home screen provides device information (such as network status, battery charge, and time) on the right side and notification alerts on the left.

### Status Icons

- **Battery full**: Battery is fully charged.
- **Battery low**: Battery is low.
- **Battery charging**: Battery is charging.
- **Vibrate mode**: Vibrate mode is enabled.
- **Mute mode**: Mute mode is enabled.
- **4G LTE active**: The device is connected to a 4G LTE® wireless network.
- **Signal strength**: Cellular network signal strength.
- **Network not available**: No wireless network is available.
- **Wi-Fi active**: Wi-Fi is active.
- **Wi-Fi available**: A Wi-Fi network is available.
- **NFC enabled**: NFC (Near Field Communication) is enabled.

### Notification Icons

- **Missed call**: A call has been missed.
- **Call in progress**: A call is in progress.
- **Call on hold**: A call is on hold.
- **New email**: New email has arrived.
- **New Gmail**: New Gmail has arrived.
- **New voicemail**: New voicemail message has been received.
- **New message**: New text or multimedia message has arrived.
- **File download in progress**: Download of a file or app is in progress.
- **File upload in progress**: File is being uploaded or sent.
- **GPS active**: Location service (GPS) is active and acquiring a signal.
- **App updates available**: App updates are available from the Google Play store.
- **App updates complete**: App installation or updates are complete.
Learn the basics for how to navigate through your device.

**Touchscreen Navigation**

Use the following motions and gestures on your touchscreen to navigate the device.

**Tap**

Lightly tap items to select or launch them.
- Tap the keyboard to enter characters or text.
- Tap an item to select it.
- Tap an app shortcut to launch the application.

**Touch and Hold**

Touch and hold items on the screen to activate them.
- Touch and hold a widget on a Home screen to move it.
- Touch and hold a field to display a pop-up menu of options.

**Swipe**

Lightly drag your finger vertically or horizontally across the screen.
- Swipe the screen to unlock the device.
- Swipe the screen to scroll through the Home screens or menu options.

**Drag**

Touch and hold an item, and then move it to a new location.
- Drag an app shortcut to add it to a Home screen.
- Drag a widget to place it in a new location on a Home screen.

**Pinch and Spread**

Pinch the screen using your thumb and forefinger or spread by moving your fingers apart.
- Pinch the screen to zoom out while viewing a picture or a web page.
- Spread your fingers on the screen to zoom in while viewing a picture or a web page.

**Motions and Gestures**

Control your device by making specific gestures with your hand above the device’s screen.

To access the Motions and gestures settings:

► From a Home screen, tap Apps > Settings > Controls > Motions and gestures.

For more information, see Motions and Gestures.
Common Options

The device uses basic command options to perform common actions.

- **More options**: Tap to view more menu options for a screen. This often allows you to select items to delete or share.

- **Delete**: Tap to select items to delete.

- **Share**: Tap to select items to share, and then choose a sharing method.

- **Edit**: Tap to customize the screen.

- **On/Off button**: Tap to turn the option on (ON) or off (OFF).

- **Checkbox**: Tap to enable or select. When enabled, a checkmark is displayed. You can often tap a checkbox at the top of the screen to select all.

- **Menu**: Tap to view available options for the field.
Notification icons on the Status bar display calendar events, device status, and more. For details, open the Notification panel.

- **Settings**: Display the Settings screen.
- **View all**: See all available Quick settings.
- **Clear notifications**: Clear all notifications.
- **Notification card**: View details about a notification.

- **Screen brightness**: Adjust screen brightness.
- **Quick settings**: Quickly enable or disable a feature.
View the Notification Panel

You can access the Notification panel from any Home screen.

1. Drag the Status bar down to display the Notification panel.

2. Swipe down the list to see notification details.
   • To open an item, tap it.
   • To clear a single notification, drag the notification left or right.
   • To clear all notifications, tap **Clear**.

3. Drag upward from the bottom of the screen or press ➔ Back to close the Notification panel.

Quick Settings

In addition to notifications, the Notification panel also provides quick access to device functions such as Wi-Fi, allowing you to quickly turn them on or off.

To view additional Quick settings:

1. Drag the Status bar down to display the Notification panel.

2. Swipe left or right across the visible icons.
   – or –
   Tap ➔ View all.

Notification Panel Settings

To customize the Notification panel:

► From a Home screen, tap ➔ Apps > ☰ Settings > Device > Notification panel.

For more information, see Notification Panel Settings.
Multi Window

Multitask by using multiple applications at the same time.

Activate Multi Window

Apps that support Multi window display together on a split screen. You can switch between the apps, adjust the size of their display on the screen, and copy information from one app to the other.

**Note:** Multi window is not available for all apps.

1. From a Home screen, tap 📱 Apps > ⚙ Settings > Device > Multi window.
2. Tap On/Off to activate.
3. Tap the following option to activate it:
   - **Open in Multi window view:** Automatically view content in Multi window when you open files from My Files or Video player, or attachments from email.

**Note:** You can also activate Multi window from the Notification panel.
Use Multi Window

After enabling Multi window, you can use it to run multiple apps at the same time.

**Note:** Only apps located on the Multi window tray can be used together.

- Press and hold Back to display the Multi window tray, and then drag apps to the windows.

You can also launch recently used apps directly into Multi window view:

1. Press Recent.
   - Recently used apps that support Multi window have a Multi window icon in their title bar.
2. Tap Multi window in the title bar to launch an application in split screen view.
   - Other recently used apps that support Multi window display below the launched app.
3. Tap an app icon to add it to the split screen view.

**Note:** Only applications that support Multi window have the Multi window icon.

Customize Multi Window

You can customize Multi window to suit your preferences.

Create a Window Group

If you use certain apps together in Multi window often, you can create a window group to quickly display the two apps in Multi window.

The window group is stored in the Multi window tray, so you can choose it any time to display the two apps.

1. Press and hold Back to display the tray, and then drag apps to the windows.
2. Scroll to the bottom of the Multi window tray, and then tap Tray controls > Create.

Choose Apps to Display in the Multi Window Tray

You can choose the apps you want to display in the Multi window tray.

1. Press and hold Back to display the Multi window tray.
2. Tap Tray controls > Edit for options:
   - To remove an app from the tray, tap and drag it off of the tray and place it in the storage area.
   - To add an app to the tray, tap and drag it from the storage area to the tray.
   - To relocate an app, tap and drag it to a new location.

Multi Window Settings

To customize Multi window:

- From a Home screen, tap Apps > Settings > Device > Multi window.

For more information, see Multi Window Settings.
Enter Text

Text can be entered using a keyboard or by speaking.

Use the Samsung Keyboard
Enter text using a QWERTY keyboard.

Special Keys

- **Keyboard settings**: Access keyboard settings.
- **Emoticon**: Insert an emoticon at the cursor position.
- **Keyboard layout**: Change the layout of the keyboard.

Note: Available options depend on the app in use. Not all options are available for all apps.

Predictive Text

Predictive text suggests words that match your text entries, and can automatically complete common words. Predictive text can learn your personal writing style from your contacts, messages, email, and social networking sites — improving the accuracy of predicting your text entries.

Configure the Samsung Keyboard

To customize the Samsung keyboard:
1. From a Home screen, tap **Apps > Settings > General**.
2. Tap **Language and input**.
3. Tap **Samsung keyboard** for options.

For more information, see Samsung Keyboard.
Use Google Voice Typing

Instead of typing, enter text by speaking.

To enable Google voice typing:

1. Tap ❯ Voice input on the Samsung keyboard.
   - You may need to touch and hold Options (left of the Space bar) to find it.
2. Speak your text.

Note: Tap Settings > Languages to download additional languages for use with Google voice typing.

Configure Google Voice Typing

To customize Google voice typing:

1. From a Home screen, tap Apps > Settings > General.
2. Tap Language and input.
3. Tap Google voice typing for options.

For more information, see Google Voice Typing.

Use Swype

Swype™ is a text input method that makes it possible to enter a word by sliding your finger from letter to letter, lifting your finger between words.

For example, to enter the word “this”, simply slide your finger across t-h-i-s.

Enable Swype

To enable the Swype keyboard while entering text:

1. Drag down on the Status bar to display the Notification panel.
2. Tap Select keyboard.
3. Tap Swype.

Configure Swype

To customize Swype:

1. From a Home screen, tap Apps > Settings > General.
2. Tap Language and input.
3. Tap Swype for options.

For more information, see Swype Keyboard.
Emergency Mode

Emergency mode conserves your device’s remaining power when you are in an emergency situation.

Emergency mode saves battery power by:

• Changing the color of the screen to grayscale.
• Restricting application usage to only essential applications and those you select.
• Turning off Mobile data when the screen is off.
• Turning off connectivity features such as Wi-Fi and Bluetooth®.

Note: When Emergency mode is turned off, the Location settings may stay the same as they were in Emergency mode.

Activate Emergency Mode

To activate Emergency mode:

1. Press and hold the Power key to display the Device options window.
2. Tap Emergency mode.
   • When accessing for the first time, read the Terms and conditions. If you accept them, tap the Checkbox, and then tap Agree. Confirm when prompted.
3. Tap Turn on.

Turn Off Emergency Mode

From the Emergency mode Home screen, tap More options > Turn off Emergency mode.

Use Emergency Mode

While in Emergency mode, your device conserves power. The following apps and features are available on the Home screen:

• Flashlight: Use the device’s flash as a steady source of light.
• Emergency alarm: Sound an audible siren.
• Share my location: Send your location information to your emergency contacts.
• Phone: Launch the call screen.
• Internet: Launch the Web browser.
• Add: Add other available apps.
   • Maps: Launch Google Maps™.
• Battery charge: Display estimated battery charge remaining.
• Estimated usage time remaining: Display estimated standby time that can be reached based on current battery charge and usage.
• Emergency call: Dial the emergency telephone number (for example, 911). This kind of call can be made even without activated cellular service.
• **More options:**

  - **Turn off Emergency mode:** Disable Emergency mode and return to standard mode.

  - **Remove:** Choose apps to remove from the screen.

  - **Manage emergency contacts:** Add emergency contacts if none have been set in Safety Assistance.

  - **Settings:** Configure the available settings. Only a limited number of settings are enabled in Emergency mode.
Make telephone calls using a variety of calling features and services.
Phone Screen

Use the Phone screen to access the dialer keypad, recent calls, favorites, and contacts.

- **More options**: Access Speed dial and Call settings.
- **Delete**: Delete the numbers entered.
- **Video call**: Make video calls.
- **Call**: Make a call.
- **Voicemail**: Set up and check your voicemail. For more information, see Set Up and Access Voicemail.
- **Keypad**: Dial the number that you want to call.
- **Tabs**: Display a log of all dialed, received, and missed calls. Display contacts marked as favorites. Display your contacts and select a contact to call.
Access Phone

There are a couple of ways to access Phone.

► From a Home screen, tap téléphone Phone.

– or –

From a Home screen, tap Apps > Phone.

Display Your Phone Number

Your phone number can be found in Settings.

► From a Home screen, tap Apps > Settings > General > About device > Status.

• Your phone number is displayed in the My phone number field.

Call Settings

There are a couple of ways to access the Call settings menu.

► From a Home screen, tap Phone > More options > Settings > Call.

– or –

From a Home screen, tap Apps > Settings > Apps > Call.
Make and Answer Calls

Learn how to make or answer a call. Explore features and functionality associated with making or answering a call.

Make a Call
You can make a call from a Home screen.

1. From a Home screen, tap 📞 Phone.
2. Enter a number on the keypad and tap ✆️ Dial or 🎥 Video call.
   • Tap Keypad if the keypad is not displayed.

Note: Not all devices support video calling.

Dial a Number from Your Contacts List
You can quickly dial a phone number from your Contacts list.

1. From a Home screen, tap 📱 Apps > 🌐 Contacts.
   – or –
   From a Home screen, tap 📞 Phone > Contacts.
2. Swipe your finger across a contact to the right to call the contact.

Dial a Recent Number
All incoming, outgoing, and missed calls are recorded in the Call log. If the number or caller is listed in your contacts list, the associated name is also displayed.

1. From a Home screen, tap 📞 Phone.
2. Tap 📞 Log. A list of recent calls is displayed.
3. Tap a contact, and then tap ✆️ Call.

Video Calls
To make Video calls:

1. From a Home screen, tap 📞 Phone.
2. Enter a number and tap 🎥 Video call.

Note: Not all devices support video calling. The caller has the option to accept the video call or answer the call as a regular voice call.

To switch from a Phone call to a Video call after dialing:

➤ Tap 🎥 Video call to request two-way video calling.
Answer a Call

When a call is received, the phone rings and the caller’s phone number or name is displayed, if it is stored in the Contacts list.

► At the incoming call screen:
  • Drag Answer to the right to answer the call.
  • Drag Video answer to the right to answer the call as a video call.
  • Drag Reject to the left to reject the call and send it to your voicemail.
  • Drag Reject call with message upward and select a message.

If you are using an app, a pop-up screen is displayed for the incoming call.

► On the incoming call pop-up screen:
  • Tap Answer to answer the call.
  • Tap Reject to reject the call and send it to your voicemail.
  • Tap Expand to view the main call screen.

End a Call

To finish your call:

► Tap End when you are ready to end your call.

Multitask While on a Call

If you exit the call screen and return to a Home screen, your active call is indicated by Call on the Status bar.

This lets you continue with your current call and do something else, such as access the contacts list, view a recent email, or locate a picture.

To return to the call screen:

► Tap Reactivate to return to the call screen.

To end a call from any application:

► Drag the Status bar down to display the Notification panel, and then tap End call.

Options During a Call

Your phone provides several options that you can use during a call.

Adjust the Call Volume

► Press the Volume key to increase or decrease the volume.

  – or –

  Tap More options > Extra volume to quickly add more volume to the incoming audio.

Listen with the Speaker or Bluetooth Headset

Listen to the call using the speaker or through a Bluetooth headset (not included).

► Tap Speaker to hear the caller using the speaker.

  – or –

  Tap Bluetooth to hear the caller using a Bluetooth headset.
Place a New Call While on a Call

If your service plan supports this feature, you can make another call while a call is in progress.

1. From the active call, tap \( \text{Add call} \) to dial the second call.
2. Dial the new number and tap \( \text{Dial} \). When the call is answered:
   - Tap \( \text{Merge} \) to hear both callers at once (multi conferencing).
   - Tap \( \text{Swap} \) to switch between the two calls.

Video Call Options

To change the call type during a video call:

- Tap \( \text{Call type} \). The following options are available:
  - \( \text{Show me} \) or \( \text{Hide me} \): Turn your camera on or off.
    - The option depends on whether your camera is currently on or off.
  - \( \text{Voice call} \): Change the video call to a voice-only call.
  - \( \text{Cancel} \): Do not change the call type.

Call Waiting

If your service plan supports this feature, you can answer an incoming call while you have a call in progress. You are notified of an incoming call by a call waiting tone.

To answer a new call while you have a call in progress:

1. Drag \( \text{Answer} \) in any direction to answer the new call.
2. Tap an option:
   - \( \text{Put [caller] on hold} \) to place the previous caller on hold while you answer the new incoming call.
   - \( \text{Merge with [caller]} \) to add the new caller to the current call.
   - \( \text{End call with [caller]} \) to end the previous call and answer the new call.
3. Select \( \text{Swap} \) to switch between the two calls. This places the new caller on hold and activates the previous call.

Call Log

The numbers of the calls you have dialed, received, or missed are stored in the Call log.

1. From a Home screen, tap \( \text{Phone} \).
2. Tap \( \text{Log} \). A list of recent calls is displayed. If the caller is in your Contacts list, the caller’s name is displayed.

Save a Recent Call to Your Contacts List

Use recent call information to create a contact or update your Contacts list.

1. From a Home screen, tap \( \text{Phone} \).
2. Tap \( \text{Log} \).
3. Tap the call that contains the information that you want to save to your Contacts list.
4. Tap \( \text{Create contact} \).
   - or -
   If you want to replace the number for an existing contact, tap \( \text{Update existing} \).
Delete a Call from the Call Log

To delete Call log entries:

1. From a Home screen, tap Phone.
2. Tap Log.
3. Touch and hold the call you want to delete from the Call log.
4. Tap Delete. Confirm when prompted.

Add a Call to the Reject List

By adding a caller to your Reject list, future calls from this number are sent directly to your voicemail.

1. From a Home screen, tap Phone.
2. Tap Log.
3. Tap the caller you want to add to the Reject list.
4. Tap More options > Add to auto reject list.
Speed Dial

You can assign a shortcut number to a contact for speed dialing their default number.

Create a Speed Dial

You can assign 100 speed dial numbers.

1. From a Home screen, tap Phone.
   • Tap Keypad if the keypad is not displayed.
2. Tap More options > Speed dial. The Speed dial screen displays the numbers 1 through 100. Number 1 is reserved for Voicemail.
3. Tap an unassigned number (Add contact).
4. Tap a contact to assign to the number.
   • The selected contact is displayed in the Speed dial number box.

Use Speed Dial to Make a Call

You can make a call using Speed dial.

1. From a Home screen, tap Phone.
   • Tap Keypad if the keypad is not displayed.
2. Touch and hold the Speed dial number.
   • If the Speed dial number is more than one digit long, enter the first digits, and then hold the last digit.

Remove a Speed Dial Number Assignment

You can remove an assigned Speed dial number.

1. From a Home screen, tap Phone.
   • Tap Keypad if the keypad is not displayed.
2. Tap More options > Speed dial.
3. Find the contact to remove from Speed dial.
4. Tap Remove.
Emergency Calls

You can dial the emergency telephone number in your region regardless of the phone’s cellular service status.

Make an Emergency Call

You can dial the emergency telephone number from your phone whether or not cellular service has been activated. If your phone is not activated, you can only make an emergency call.

1. From a Home screen, tap Phone.
2. Enter the emergency telephone number (911 in North America) and tap Dial.
3. Complete your call. During this type of call, you have access to most in-call features.

Call Emergency Services from a Locked Screen

The emergency telephone number can be dialed even if the phone is locked, allowing anyone to use your phone to call for help in an emergency. When accessed from a locked screen, only the emergency calling feature is accessible to the caller. The rest of the phone remains secured.

1. Drag Phone upward to open the call screen.
   - or -
   Swipe across the screen to unlock it, and then tap Phone.
2. Enter the emergency telephone number (911 in North America) and tap Dial.
3. Complete your call. During this type of call, you have access to most in-call features.

Swipe Lock Screen

If the Lock screen is set to Swipe, you can access the call screen in a couple of ways.

1. Drag Phone upward to open the call screen.
2. Enter the emergency telephone number (911 in North America) and tap Dial.
3. Complete your call. During this type of call, you have access to most in-call features.

Secure Lock Screens

You can make calls even if your phone has a secure lock screen.

1. Drag Phone upward to open the call screen.
2. Tap Emergency call to display the Emergency dialer.
3. Enter the emergency telephone number (911 in North America) and tap Dial.
4. Complete your call. During this type of call, you have access to most in-call features.
Set Up and Access Voicemail

Set up and configure your voicemail.

Set Up Your Voicemail

You can access your voicemail from a Home screen.

1. From the Home screen, tap ✆ Phone, and then tap ☎️ Voicemail.
2. Follow the tutorial to create a password, record a greeting, and record your name.

Note: These steps may be different depending on your network.

Access Your Voicemail

You can access your voicemail from a Home screen.

1. From the Home screen, tap ✆ Phone, and then tap ☎️ Voicemail.
   • You may be prompted to enter a password.
2. Follow the voice prompts from the voicemail center.

Access Your Voicemail from Another Phone

You can access your voicemail from another phone.

1. From another phone, dial your wireless phone number. Wait until you hear your voicemail greeting.
2. Press the asterisk or star (*) key on the phone you are using.
3. Enter your password and you are connected to your voicemail.
Applications

Learn how to change the way apps are displayed, organize apps into folders, and uninstall or disable apps.
The Apps list displays all preloaded apps and apps that you downloaded. You can uninstall, disable, or hide apps from view.

Shortcuts to apps can be placed on any of the Home screens. For more information, see Add a Shortcut to a Home Screen.

Access Apps
You can access and launch all applications from the Apps list.

1. From a Home screen, tap Apps.
2. Tap an app’s shortcut to launch it.
   - To return to the main Home screen, press the Home key.

Download and Install New Apps
Find new apps to download and install on your device.

- Play Store: Download new apps from the Google Play store. Visit play.google.com/store/apps to learn more.
- Galaxy Apps: View and download Samsung apps that are optimized for use with Galaxy devices. Visit samsung.com/levant/apps/mobile/galaxyapps to learn more.

View Your Downloaded Apps
You can view all of the apps you have downloaded and installed on your device.

1. From a Home screen, tap Apps.
2. Tap More options > Downloaded apps.

Uninstall or Disable Apps
You can uninstall or disable apps you download and install.

- Preloaded apps cannot be uninstalled.
- Apps that are disabled are turned off and hidden from view.

To uninstall or disable an app:
1. From a Home screen, tap Apps.
2. Tap More options > Uninstall/disable apps. Apps that can be uninstalled or disabled display Uninstall/disable on their shortcut.
3. Tap Uninstall/disable and follow the prompts to either uninstall or disable the app.

To enable apps after disabling them:
1. From a Home screen, tap Apps > Settings > Apps > Application manager.
2. Tap All apps and choose Turned off, and then tap the app you want to enable.
3. Tap Enable. The app is displayed again in the Apps list.
Organize Your Apps

The Apps shortcuts can be listed alphabetically or in your own custom order.

To change the order Apps are listed:
1. From a Home screen, tap Apps.
3. Tap an option:
   - Custom: Touch and hold, and then drag app icons to arrange them in any order.
   - Alphabetical order: App icons are arranged in alphabetical order.

Add a Folder to a Home Screen

To add a folder to a Home screen:
1. From a Home screen, tap Apps.
2. Touch and hold a folder, drag it to a Home screen, and then release it.

Use Folders to Organize Apps

You can organize Apps in a folder on an Apps list screen.

1. From a Home screen, tap Apps.
2. Tap More options > Create folder.
   - Enter folder name: Name the folder.
   - Palette: Change the folder color.
   - Add application: Place more apps in the folder. Tap apps to select them, and then tap Done.
3. Tap anywhere outside of the folder to close it.

To launch apps in a folder:
► Tap a folder, and then tap an app shortcut to launch it.

To delete a folder:
1. From a Home screen, tap Apps.
2. Tap More options > Remove folder.
3. Tap the folder to delete, and then tap Done. Confirm when prompted.

Hide or Show Apps

Hide Apps from View

You can hide (rather than uninstall or disable) any apps you do not want to see on the Apps list.
1. From a Home screen, tap Apps.
2. Tap More options > Hide apps.
3. Tap apps to hide, and then tap Done.

Show Hidden Apps

You can unhide apps you have hidden and put them back on the Apps list.
1. From a Home screen, tap Apps.
2. Tap More options > Show hidden apps.
3. Tap apps to unhide, and then tap Done.
Apps List Options

1. From a Home screen, tap Apps.

2. Tap More options for these options:

   - **Edit**: Touch and hold an app shortcut then drag it to:
     - Create page: Move the app to a new page.
     - Create folder to create a new folder.
     - App info to view information about this app.
     - Turn off: Disable the app.
     - Uninstall: Uninstall the downloaded app. Preloaded apps cannot be uninstalled.

   - **Create folder**: Create a new folder to hold apps.

   - **Remove folder**: Remove folders that you have created. This option is displayed only if folders have been created.

   - **Sort by**: Choose how apps are listed.

   - **Downloaded apps**: View downloaded apps. Tap a shortcut on the Downloaded apps screen to launch the app.

   - **Uninstall/disable apps**: Uninstall an app that you downloaded to your device or disable a preloaded app (preloaded apps cannot be uninstalled). Tap Uninstall/disable to remove or disable the selected app.

   - **Hide apps**: Hide apps from the Apps list.

   - **Show disabled apps**: Display disabled apps. This option is displayed only if apps have been disabled.

   - **Show hidden apps**: Display hidden apps. This option is displayed only if apps have been hidden.

   - **Galaxy Essentials**: View and download Samsung apps that are optimized for use with Galaxy devices.

   - **Help**: View information about your device.
Enjoy these apps from Google.

**Note:** Certain apps require a Google Account. Visit google.com to learn more.

### Chrome
Browse the Internet and bring your open tabs, bookmarks and address bar data from your computer to your mobile device.

Visit google.com/chrome/mobile to learn more about Chrome™.

AT&T Apps

Enjoy these apps from AT&T.

Note: Certain apps require a data plan or paid subscription. Visit att.com to learn more or contact your service provider for additional information.

AT&T FamilyMap
Conveniently locate a family member from your wireless device or PC, and know that your family’s location information is secure and private using AT&T FamilyMap®.

AT&T FamilyMap requires a paid subscription.

Visit att.com/familymap for more information or contact your AT&T Customer Service Representative.

AT&T Locker
Store, share, and sync all of your photos, videos, and documents in one safe, convenient place: the AT&T cloud.

AT&T Mail
Instantly get your mail anytime, anywhere. Read, respond to, and organize your messages quickly, whether you are at home or on the go.

AT&T Navigator
Access real-time GPS-driven applications. These programs not only allow you to achieve turn-by-turn navigation, but also access local searches.

Note: You must have a data plan to use this feature. These services require the purchase of a subscription.

AT&T Protect Plus
Access the Mobile Protection Pack and with a paid subscription, replace your device if it is lost or damaged, locate your device if it is lost, and receive backup and device support. You must purchase the Mobile Protection Pack within 30 days of purchase/activation of a new device.

Device Help
Access online information to help with your device questions.

DriveMode
Auto reply when you are driving and do not want to answer the phone. You can auto reply to messages, emails, and phone calls. You can also allow up to five of your contacts to contact you while using DriveMode®.

Messages
Send and receive text and picture messages from your phone, tablet or computer. Your messages are stored in the network so you can continue the conversation even when you switch devices. AT&T Messages uses your AT&T mobile number, so whether you send messages from a phone, tablet, or computer, everyone knows the message is from you.

Mobile Hotspot
Share your device’s mobile data connection using a USB cable or as a portable Wi-Fi hotspot.
**Mobile TV**
Watch your favorite TV shows using your device with this subscription service.

**myAT&T**
Manage your AT&T account. You can review and pay your bill, check minutes and data usage, upgrade to a new device, or change your plan.

**Setup & Transfer**
Transfer your contacts, call logs, messages and media when switching phones.
There are additional apps, including several Samsung apps, preloaded on your device.

**Caller Name ID**
Subscribe to Caller Name ID to identify unknown callers by name, picture, city, and state. Caller Name ID requires a subscription.

*Note: Caller Name ID requires a subscription.*

**Flipboard**
Access your personalized magazines.

Visit [flipboard.com](http://flipboard.com) to learn more.

**Lookout**
Configure and manage key security options, such as anti-virus and anti-malware technology, a lost and stolen device locator service, an application privacy adviser, and a backup service.

**Peel Smart Remote**
Control select Wi-Fi-enabled Samsung TV models using your Samsung Galaxy device. Now you can control all of your TV's settings, such as on and off functions, channel navigation, and volume control from the same Samsung device you already know.

**POLARIS Office 5**
Manage your documents online or offline with a Microsoft® Office-compatible office suite. POLARIS Office™ 5 can also open Adobe PDF (Portable Document Format) files.

**Samsung Milk Music**
Stream music with Samsung Milk Music™, a radio service that offers a simple way to find the music that is right for you. With a library of over 13 million songs and 200+ stations, the interactive dial makes it easy to skim through stations to find the perfect soundtrack for the moment.

**Samsung+**
Get live help, discover new features, and unlock promotions for your Samsung device.

**Uber**
Hire a private driver in more than 130 cities and 30 countries. Uber is an entirely new and modern way to travel.

**Usage Manager**
Manage your data using this shortcut to your battery, apps, and data usage settings.

For more information, see [Data Usage](#).
YP
Use Yellow Pages to tap into local businesses, locations, and events, and connect to your search in real-time. Provides quick and ready access to businesses, map locations, and storage of your favorite searches.
Activity Zone

Enjoy the outdoors even when you only have one hand free.

With a compass, a stopwatch, and more, Activity Zone makes being outside easier.

To launch all your outdoor activity-related features, all on one application screen:

1. Press the **Active** key on the side of your device.
   - or –

   From a Home screen, tap **Apps > Activity Zone**.

   • The Activity Zone screen displays.

2. Follow the prompts to use each feature. The following features are available:

   • **Barometer**: displays your elevation and atmospheric pressure
   
   • **Compass**: displays the compass heading that your device is pointing to and also your latitude and longitude.
   
   • **Flashlight**: allows you to use your device as a flash light. You can also set it to blink and adjust the brightness.
   
   • **Stopwatch**: allows you to use your device as a stopwatch. You can also set multiple lap times.

3. Tap **Menu** to navigate Activity Zone. Tap Exercise to launch the S Health app. For more information, see **S Health**.

4. Tap **More options** for the following option:

   • **Terms and conditions**: View the terms and conditions for the Active Zone.
The Calculator provides basic and advanced arithmetic functions.

**Basic Operation**

You can use your calculator to perform basic operations.

1. From a Home screen, tap Apps > Calculator.
2. Enter the first number using the numeric keys.
3. Tap the appropriate arithmetic function key.
4. Enter the next number.
5. Tap Equals to view the result.
6. Tap Clear to clear the results.

**Additional Functions**

You can perform additional functions on your calculator.

To clear the calculator history:

- Tap History > Clear history.

To copy all or part of the calculation to the clipboard:

- Touch and hold an entry in the display field, and then tap Copy.

**Scientific Calculator**

The Calculator app also provides advanced arithmetic functions, such as $\sin$, $\cos$, and $\tan$.

To use the Scientific calculator:

- When Screen rotation is enabled, turn the device to landscape.

**Note:** Screen rotation is found in the Quick settings on the Notification panel. For more information, see Quick Settings.
Calendar

Manage your events and tasks.

Calendar View
To choose a calendar view:

1. From a Home screen, tap Apps > Calendar.
2. Tap Menu, and then tap one of the following:
   • Year: Display all twelve months of this year. Swipe across the screen to display another year.
   • Month: Display the current month. Swipe across the screen to display another month.
   • Month and agenda: Display the current month. Swipe across the screen to display another month. Events and tasks are also displayed.
   • Week: Display the current week. Swipe across the screen to display another week.
   • Day: Display today’s schedule by hour. Swipe across the screen to display another day.
   • Agenda: Display all tasks.
3. Tap Today to return to the current date.

Create an Event or Task
You can use your Calendar to create events or tasks.

1. From a Home screen, tap Apps > Calendar.
2. Tap + Add and use one of the following methods:
   • Add event: Enter an event with an optional repeat setting.
   • Add task: Enter a task with an optional priority setting.
3. Enter details for the event or task, and then tap Save. Confirm if prompted.

Share an Event
You can share events you create from your Calendar.

1. From a Home screen, tap Apps > Calendar.
2. Tap an event or task to view it.
3. Tap Share via, choose a sharing method, and follow the prompts.
Delete an Event or Task

You can delete events or tasks you create from your Calendar.

1. From a Home screen, tap Apps > Calendar.
2. Tap an event or task to view it.
3. Tap Delete. Confirm if prompted.

To delete multiple events or tasks:
1. From a Home screen, tap Apps > Calendar.
2. Tap More options > Delete.
3. Tap events or tasks to select them.
4. Tap Done. Confirm if prompted.

Calendar Settings

These settings allow you to modify settings associated with using the Calendar.

1. From a Home screen, tap Apps > Calendar.
2. Tap More options > Settings.
3. Tap an option and follow the prompts.
Camera and Video

Take pictures and record videos with the Camera app.

- **Record video**: Record a video.
- **Take a picture**: Take a picture.
- **Shooting mode**: Change the shooting mode.
- **Gallery**: Open the Gallery to view photos and videos.
- **Camera settings**: Change other camera settings.
- **Quick settings**: Select camera settings or options.
- **Switch cameras**: Switch between the rear and front cameras.
- **Current shooting mode**: Indicates which shooting mode is active.
Take Pictures

Take pictures with your device’s front or rear camera or combine shots with Dual camera.

**Note:** Prior to using the camera, remove the plastic protective covering from the camera lens.

1. From a Home screen, tap Apps > Camera.

2. Using the display screen as a viewfinder, compose your shot by aiming the camera at the subject. While composing your picture, use the available options or these gestures:
   - Touch the screen with two fingers and pinch or spread them on the screen to zoom in or out.
   - Tap the screen to focus on the area you touched.

3. Before taking the photo, you can tap the icons to access various camera options and settings.

4. Tap \( \text{Take a picture} \) to take the picture.

**Note:** You can also press the Volume key up or down to take a picture. This is the default action of the Volume key while the camera is active. You can also set the Volume key to act as the video record key or as a zoom key.

Quick Settings

Reorganize shortcuts for easy access to the camera’s various options.

1. From a Home screen, tap Apps > Camera.

2. Tap Settings to quickly change Camera settings. The available options vary by mode.

3. Touch and hold a settings icon and drag it to the left side of the screen.

4. Touch and drag a Quick setting icon to change the position of the icon or to change which Quick settings to use.

Shooting Mode

Several visual effects are available. Some modes are not available when taking self-portraits.

1. From a Home screen, tap Apps > Camera.

2. Tap Mode to view the following options. Each section indicates which camera (front or rear) the modes are available for.
   - **Auto:** Allow the camera to evaluate the surroundings and determine the ideal mode for the picture.
   - **Beauty face:** Take a picture with lightened faces for gentler images.
   - **Panorama:** Create a linear image by taking pictures in either a horizontal or vertical direction.
   - **Virtual tour:** Create interactive virtual tours of your surroundings.
   - **Shot & more:** Take a quick burst of pictures and apply effects to them.
   - **Dual camera:** Take pictures and record videos using the front and rear cameras at the same time. A variety of picture-in-picture styles are available.
   - **Manage modes:** Select which shooting modes to display when you tap Mode.
   - **Download:** Download additional shooting modes.
Camera and Video Settings

Use Camera settings to configure the camera.

1. From a Home screen, tap Apps > Camera.

2. Quick settings are listed across one side of the camera view finder. Available options vary depending on the camera or recording mode used. Default settings include:
   - **Picture size**: Select a resolution. Use higher resolution for higher quality. Higher resolution pictures take up more memory.
   - **Burst shots**: Take a series of pictures of moving subjects.
   - **Low-light detection**: Take brighter and clearer pictures without using the flash at night.
   - **Face detection**: Detect faces in pictures for tagging with the person's name.
   - **ISO**: Select an ISO value. This controls camera light sensitivity. It is measured in film-camera equivalents. Low values are for stationary or brightly-lit objects. Higher values are for fast-moving or poorly-lit objects.
   - **Metering modes**: Select a metering method. This determines how light values are calculated. Center-weighted measures background light in the center of the scene. Spot measures the light value at a specific location. Matrix averages the entire scene.
   - **Tap to take pics**: Tap the image on the preview screen to take pictures.
   - **Selective focus**: Make objects stand out from the background. They must be within 1.5 feet from you, and at least 3 times this distance from the background.
   - **Video size**: Select a resolution. Use higher resolution for higher quality. Higher resolution videos take up more memory.
   - **Recording mode**: Select Normal, Limit for MMS, Slow motion, Fast motion, or Smooth motion.
   - **Video stabilization**: Activate anti-shake. Anti-shake helps to keep the focus steady when the camera is moving.
   - **Audio zoom**: While recording videos, zooming in on an object amplifies sound from that area and diminishes the surrounding sound.
   - **Effects**: Add special graphical effects.
   - **Flash**: Activate or deactivate the flash.
   - **Timer**: Take time-delayed pictures or videos.
   - **HDR (rich tone)**: Enables the light sensitivity and color depth features of the device to produce a brighter and richer picture.
   - **Location tags**: Attach a GPS location tag to the picture.
   - **Save as flipped**: Automatically save images as flipped in the Gallery.
     - This option is only available for the Front camera.
   - **Storage location**: Select the memory location for storage.
   - **Review pics/videos**: Set to show pictures or videos after taking them.
   - **Remote viewfinder**: Take pictures using the viewfinder of a connected device. Wi-Fi Direct is required.
   - **White balance**: Select an appropriate white balance, so images have a true-to-life color range. The settings are designed for specific lighting situations. These settings are similar to the heat range for white-balance exposure in professional cameras.
   - **Exposure value**: Change the exposure value. This determines how much light the camera's sensor receives. For low light situations, use a higher exposure.
   - **Grid lines**: Display viewfinder grid lines to help composition when selecting subjects.
   - **Shutter sound**: Enable or disable a shutter sound when pictures are taken.
   - **The Volume key**: Use the Volume key as the camera key, the record key, or as a zoom key.
   - **Voice control**: Set the camera to take pictures with voice commands.
   - **Help**: View information on using the camera.
   - **Reset settings**: Reset the camera settings.
The Clock app offers features for keeping track of time and setting alarms.

1. From a Home screen, tap Apps > Clock.
2. Tap a tab to use a feature:
   - Alarm: Set an alarm to ring at a specific time.
   - World clock: View the time of day or night in other parts of the world. World clock displays time in hundreds of different cities, within all 24 time zones around the world.
   - Stopwatch: Measure intervals of time.
   - Timer: Use a timer to count down to an event based on a preset time length (hours, minutes, and seconds).

Alarm
Set an alarm to ring at a specific time.

Create an Alarm
Create an alarm event. You can set one-time or recurring alarms, and choose options for how to be notified.

1. From a Home screen, tap Apps > Clock.
2. Tap Alarm.
3. Tap Create alarm:
   - Time: Set a time for the alarm.
   - Days: Choose the days to use this alarm.
   - Repeat weekly: Repeat the alarm every week.
   - Alarm type: Choose whether the alarm uses sound, vibration, or vibration and sound to alert you.
   - Alarm tone: If you have chosen an alarm type that includes sound, choose a sound to play for the alarm.
   - Volume: If you have chosen an alarm type that includes sound, drag the slider to set the volume of the alarm.
   - Snooze: Allow snoozing. Set a time interval and number of repeats for snoozing.
   - Smart alarm: When on, the alarm starts playing a tone at a low volume at an interval before the alarm time, and slowly increases in volume. Choose a time interval and a tone to use with smart alarm. This option is available when you have chosen an alarm type that includes sound.
   - Name: Enter a name for the alarm.
4. Tap Done.

Delete an Alarm
To delete an alarm:
1. From a Home screen, tap Apps > Clock.
2. Touch and hold an alarm, and then tap Delete.
World Clock

The World clock lets you keep track of the current time in multiple cities around the globe.

1. From a Home screen, tap Apps > Clock.
2. Tap World clock.

To list a city on the main World clock screen:
1. Tap Add city and tap a city.
2. Repeat to add more cities.

To remove a city from the main World clock screen:
1. Tap More options > Delete.
2. Tap a city entry, and then tap Done.

Stopwatch

The Stopwatch lets you time events down to the hundredth of a second.

1. From a Home screen, tap Apps > Clock.
2. Tap Stopwatch and use the following options:
   - Start: Begin timing.
   - Stop: Stop timing.
   - Lap: Keep track of lap times.
   - Resume: Continue timing after stopping the clock.
   - Reset: Reset the Stopwatch to zero.

Timer

The Timer provides a countdown timer for up to 99 hours, 59 minutes, and 59 seconds.

1. From a Home screen, tap Apps > Clock.
2. Tap Timer.
3. Use the keypad and tap Hours, Minutes, and Seconds to set the length of the Timer. The following options are available:
   - Start: Begin the Timer.
   - Stop: Pause the Timer.
   - Resume: Resume the Timer.
   - Reset: Reset the Timer.
Contacts

Store and manage your contacts with the Contacts app, which can be synchronized with a variety of your existing personal accounts.

For more information on connecting with and managing your accounts through your device, see Accounts.

Manage Contacts

Access your list of contacts by using the Contacts app, which is a shortcut to the Contacts tab. To access your Contacts list:

► From a Home screen, tap Apps > Contacts.

Find a Contact

You can search for a contact or scroll the list to find one by name.

1. From a Home screen, tap Apps > Contacts.
2. Tap the Search field, and then enter characters to find contacts that match.
   - or -
   Tap a letter on the side of the list to jump directly to that letter in the alphabetical list. You can also slide your finger across the alphabetical list to select a letter with better precision.

Add a Contact

Use the following procedure to add a new contact.

1. From a Home screen, tap Apps > Contacts.
2. Tap + Create contact, and then tap contact fields to enter information.
   - Choose a storage account for the contact. You can store the contact on the device, your SIM card, or sync it with an account.
   - Tap + Contact photo to assign a picture to the new contact.
   - Enter a name, phone number, email address, and assign the contact to a group, and choose a default ringtone.
     - Tap + Add to enter additional entries.
     - Tap — Remove to remove an entry.
     - Tap ▼ Expand for additional fields.
     - Tap ▼ Label to choose a label for the field.
   - Tap Add another field to add more contact information.
3. Tap Save.

Edit a Contact

When editing a contact, you can tap a field and change or delete the information, or you can add more fields to the contact’s list of information.

1. From a Home screen, tap Apps > Contacts.
2. Tap the contact to display it, and then tap Edit.
3. Tap any of the fields to add, change, or delete information.
4. Tap Save.
Share a Name Card

When you share a name card, the contact’s information is sent as a vCard file (.vcf) or text file. You can share a vCard using Bluetooth or Wi-Fi Direct, attach it to a message, or save it to a storage location.

1. From a Home screen, tap Apps > Contacts.
2. Tap a contact to display it, and then tap More options > Share name card.
3. Choose whether to send the contact as a vCard file (.vcf) or text file.
4. Choose a sharing method and follow the prompts.

Link Contacts

When you have contacts from various accounts, you may have multiple similar entries for a single contact. Contacts lets you link multiple entries into a single contact.

1. From a Home screen, tap Apps > Contacts.
2. Tap the contact to display it.
3. Tap More options > Link contacts.
4. Tap contacts to link to the original contact.
5. Tap Done.

Unlink Contacts

To unlink contacts:

1. From a Home screen, tap Apps > Contacts.
2. Tap the contact to display it.
3. Tap More options > Unlink contacts.
4. Tap Separate beside contacts to unlink them from the main contact.

Delete Contacts

You can delete a single contact or choose multiple contacts to delete.

1. From a Home screen, tap Apps > Contacts.
2. Touch and hold a contact to select it. You can also tap other contacts or tap the selected checkbox at the top of the screen to select all contacts.
3. Tap Delete, and then confirm when prompted.

Favorites

When you mark contacts as favorites, they are easily accessible from other apps. Favorites display together on the Favorites tab in Contacts.

Mark Contacts as Favorites

To mark a contact as a favorite:

1. From a Home screen, tap Apps > Contacts.
2. Tap a contact to display it, and then tap Add to Favorites (the star brightens ★).

Remove Contacts from Favorites

To remove one or more contacts from favorites list:

1. From a Home screen, tap Apps > Contacts.
2. Tap a contact to display it, and then tap Remove from Favorites (the star dims ★).
Create a Shortcut to a Favorite

You can create a shortcut to a favorite on the Home screen, to access their information directly from the Home screen.

1. From a Home screen, tap Apps > Contacts.
2. Tap Favorites, and then touch and hold a contact to select it.

Groups

You can use groups to organize your contacts. Your device comes with preloaded groups, and you can create your own. You might create a group for your family, for coworkers, or a team. Groups make it easy to find contacts, and you can send messages to the members of a group.

Create a Group

To create a group:

1. From a Home screen, tap Apps > Contacts.
2. Tap Groups, and then tap Create group.
3. Tap fields to enter information about the group:
   - Create group in: Choose where to save the group. You can save it to a specific account, to the device memory, or to all accounts.
   - Group name: Enter a name for the new group.
   - Group ringtone, Group message tone, and Group vibration pattern: Customize the sounds for the group.
   - Add member: Select contacts to add to the new group, and then tap Done.
4. Tap Save.

Rename a Group

To rename a group:

1. From a Home screen, tap Apps > Contacts.
2. Tap Groups, and then tap a group.
3. Tap More options > Edit group and enter a new name.
4. Tap Save.

Add Contacts to a Group

To add contacts to a group:

1. From a Home screen, tap Apps > Contacts.
2. Tap Groups, and then tap a group.
3. Tap More options > Add member, and then tap the contacts you want to add.
4. Tap Done.

Send a Message to a Group

To send a text message to members of a group:

1. From a Home screen, tap Apps > Contacts.
2. Tap Groups, and then tap a group.
3. Tap More options > Send message or email.
4. Tap Message.
5. Type your message and tap Send.
Send an Email to a Group

To send an email to members of a group:

1. From a Home screen, tap Apps > Contacts.
2. Tap Groups, and then tap a group.
3. Tap More options > Send message or email.
4. Tap Email.
5. Tap contacts to select them, or tap the selected checkbox at the top of the screen to select all, and then tap Done.
   - Only group members that have an email address in their records are displayed.
6. Choose an email account and follow the prompts.
7. Type your message and tap Send.

Delete a Group

Preset groups cannot be deleted.

1. From a Home screen, tap Apps > Contacts.
2. Tap Groups.
3. Tap More options > Delete group.
4. Tap groups to select them or tap the selected checkbox to select all, and then tap Delete.
5. Tap Group only to only delete the group or tap Group and members to delete the group and the contacts in the group.

Contacts Settings

These settings allow you to modify settings associated with using the Contacts app.

1. From a Home screen, tap Apps > Contacts.
2. Tap More options > Settings > Contacts.
3. Tap an option and follow the prompts.
Use the Email app to view and manage all your email accounts in one app.

To access Email:
► From a Home screen, tap Apps > Email.

Configure Email Accounts
You can configure Email for most accounts in just a few steps.

1. From a Home screen, tap Apps > Email.
2. Follow the prompts to set up your email account.

To add another Email account:
1. From a Home screen, tap Apps > Email.
2. Tap Menu > Manage accounts > Add account.
3. Enter your email address and password.

The device communicates with the appropriate server to set up your account and synchronize your email. When complete, your email is displayed in the Inbox for the account.

Note: To configure email account settings at any time, tap More options > Settings. Tap the email account to display its settings.

View Multiple Email Accounts
You can view email you receive for multiple accounts on the Combined view screen or you can view email accounts individually.

1. From a Home screen, tap Apps > Email.
2. Tap Menu at the top left of the screen to view the current account mailbox.
3. Tap the account name to view:
   • Combined inbox: View all email in a combined inbox.
   • [Account name]: View email for only one email account.

Manage Your Inbox
There are several tools available from the inbox screen:
► From a Home screen, tap Apps > Email.
   • Tap a message to read and reply or forward it.
   • Tap Refresh to update your email accounts.
   • Tap Search to search for key words in your email inbox.
   • Tap More options for additional message options like filtering, deleting, settings and more.
Create and Send an Email

This section describes how to create and send an email using the Email app.

1. From a Home screen, tap Apps > Email > Compose.

2. Tap the To field to manually add an email address or tap Add recipient to select a recipient from Favorites, Contacts, or Groups.
   - If manually entering recipients, enter additional recipients by separating each entry with a semicolon (;). More recipients can be added at any time before the message is sent.
   - If adding a recipient from your Contacts, tap the contact to place a checkmark, and then tap Done. The contact is displayed in the recipients field.
   - Tap More to add Cc and Bcc fields.

3. Tap the Subject and Message fields to enter text.
   - Tap Attach to add files, images, audio, and more to your email.
   - Tap More options for additional email options.

4. Review your message and tap Send.

Email Settings

These settings allow you to modify settings associated with using the Email app.

1. From a Home screen, tap Apps > Email.

2. Tap More options > Settings.

3. Under General settings, tap an option, and then follow the prompts.

4. Tap Manage accounts, and then tap an email account to adjust the settings.

Remove Email Accounts

To remove an email account:

1. From a Home screen, tap Apps > Email.

2. Tap More options > Settings > Manage accounts.

3. Tap Remove account.

4. Tap the accounts you want to remove.

5. Tap Done. Confirm when prompted.
Samsung Galaxy Apps provides a quick and easy way to find and download free premium apps that are compatible with your Galaxy device.

To access the Samsung Galaxy Apps website:

► From a Home screen, tap Apps > Galaxy Apps.

Galaxy Essentials

Galaxy Essentials is a collection of specially chosen apps available through Samsung Apps.

From Galaxy Essentials, you can access and download a collection of premium content, free of charge.

To access Galaxy Essentials:

1. Swipe across the Galaxy Apps screen and then tap Galaxy Essentials.

   – or –

   Swipe across the Home screens and locate and tap the Galaxy Essentials widget.

2. Follow the prompts to download Galaxy Essentials apps.

   Note: A Samsung account is required to purchase and download apps.
View, edit, and manage pictures and videos

Note: Some functions described in this section are only available if there are images or videos in the Gallery.

View Images and Videos
Launching Gallery displays available folders. When another app, such as Email, saves an image, a Download folder is automatically created to contain the image. Likewise, capturing a screenshot automatically creates a Screenshots folder.

1. From a Home screen, tap Apps > Gallery.
2. Tap Menu, and then tap Time or Album to choose the way items display.
   • In Album view, you can create albums to organize your images. Tap Menu > Album, and then tap More options > Create album.
   • Tap Camera to launch the Camera app.
   • When in Album view, tap an album to open it.
3. Tap an album or folder, and then tap an image or video.
   • When viewing an image or video, you can swipe left or right to view the next or previous image or video.

Zoom In or Out
Use one of the following methods to zoom in or out on an image:
• Double-tap anywhere on the screen to zoom in or zoom out.
• Spread two fingers apart on any place to zoom in. Pinch the screen to zoom out.

Play Videos
To play a video in the Gallery app:
1. From a Home screen, tap Apps > Gallery.
2. Tap a folder to open it.
3. Tap a video to view it.
4. Tap Play to play the video.

Trim Segments of a Video
You can trim segments of a video.
1. Select a video, and then tap the screen once to see the video options.
2. Tap Trim.
3. Use the sliders at the bottom of the screen to trim the video. Move the left bracket to the desired starting point, and then move the right bracket to the desired ending point.
4. Tap Done to save the video.
Edit Images
You can edit images stored on your device.

► While viewing an image, tap : More options:
  • Edit: Use basic tools to edit your picture.
  • More info: View image details.
  • Studio: Edit your picture with advanced tools.
  • Rotate left: Rotate the picture counter-clockwise.
  • Rotate right: Rotate the picture clockwise.
  • Crop: Resize the frame to crop the image.
  • Rename: Rename the file.
  • Slideshow: Start a slideshow with the images and videos in the current folder.
  • Add tag: Add a tag to your image.
  • Set as: Set the image as wallpaper or as a contact’s photo.
  • Print: Print the image using a USB or Wi-Fi connection. Some printers may not be compatible with the device.
  • Settings: Change the Gallery settings.

Share Images and Videos
You can share images and videos from your Gallery.

1. From a Home screen, tap Apps > Gallery.
2. Tap a folder to open it.
3. In a folder, tap : More options > Select, select images and videos, and then tap \Share via\ to send them to others or share them with social network services.

– or –

While viewing a single image or video, tap \Share via\ to send it to others or share it with social network services.

Tag Buddy
Tag buddy automatically tags your photos and videos with the date and time it was taken, and optionally adds the location it was taken, if Location services are enabled (for more information, see Location Services).

You can view these tags by tapping : More options > More info while viewing the photo or video.

To enable Tag buddy:
1. From a Home screen, tap Apps > Gallery.
2. Tap : More options > Settings > Tag buddy.
3. Tap On/Off to turn the feature on.

Face Tags
Face tags allow you to add a contact name to people in your photos. Using face tags lets you filter your photos by people’s names in the Gallery app and other apps which support face tags.

While viewing photos, face tags display that identify your contacts. Tap a face tag to call or message the contact.

To enable Face tags:
1. From a Home screen, tap Apps > Gallery.
2. Tap More options > Settings.
3. Tap Face tag to turn the feature on.

To use Face tags:
1. From a Home screen, tap Apps > Gallery.
2. Tap an image to view it in full screen mode.
   • Whenever possible, the Gallery app identifies faces with a circle. Tap the circle to add a contact’s name.
   • To manually add a face tag, touch and hold the photo where you want the tag. Move and crop the box if desired, and tap Save. Select a contact.
   • If the contact you select does not currently have a contact photo, you are asked if you would like to use this photo as the contact’s photo.
Delete Images and Videos

You can delete images stored on your device.

1. From a Home screen, tap 📲 Apps > 📷 Gallery.
2. Tap a folder to open it.
3. In a folder, tap ⚙️ More options > Delete, select images and videos, and then tap Done.
   – or –
   When viewing a single image or video, tap 🗑️ Delete.

Gallery Settings

These settings allow you to modify settings associated with using your Gallery.

1. From a Home screen, tap 📲 Apps > 📷 Gallery.
2. Tap ⚙️ More options > Settings.
3. Tap an option and follow the prompts.
4. Tap ⚙️ More options > Add account to add a Samsung, Dropbox™, Google, or Facebook™ account.
Access the Internet with a fully-featured web browser.

Access the Internet
► From a Home screen, tap Apps > Internet.

Command Keys
The following command keys are available:

- **Back** or **Back**: Return to the previous page.
- **Forward**: Go forward to a recent page.
- **Home**: Display your Internet Home screen.
- **Bookmarks**: Manage bookmarked pages, saved pages, and history.
- **Tabs**: Manage open tabs. The number on the icon indicates the number of tabs that are currently open.
- **Refresh**: Refresh or reload the current web page.

View a Web Site
To view a web site:
► Tap the address field, enter the web address, and then tap Go on the keyboard.

To share, save, or print the current web page:
► Tap More.

To zoom in or out:
► Tap the screen twice or pinch the screen to zoom out. Stretch the screen to zoom in.

Browser Tabs
Use tabs to view multiple web pages at the same time.

To open a new tab:
► Tap Tabs > New tab.

To close a tab:
1. Tap Tabs.
2. Tap Close by the tabs you want to close.

Bookmarks
The Bookmarks page stores Bookmarks, Saved pages, and History.

Save and Open Bookmarks
Bookmarking a web page saves the web address so that you can access it quickly.

To bookmark the current web page:
1. Tap Bookmarks > Add.
2. Type a title for the bookmark and tap Save.

To open a bookmarked web page:
1. Tap Bookmarks > Bookmarks.
2. Tap a bookmark entry.
Saved Pages

Saving a web page stores the web page content on your device so that you can access it offline.

To save the current web page:
► Tap More > Save web page.

To view saved web pages:
1. Tap Bookmarks > Saved pages.
2. Tap a saved page to open it in the browser.

View History

To view a list of recently visited web pages:
► Tap Bookmarks > History.

Share Pages

To share a web page address with others:
► Tap More > Share, and follow the prompts.

Secret Mode

Pages viewed in Secret mode are not listed in your browser history or search history, and leave no traces (such as cookies) on your device. Secret tabs are a darker shade than the normal tab windows.

Note: Any downloaded files remain on your device after you close the secret tab.

To enable Secret mode:
1. From a Home screen, tap Apps > Internet.
2. Tap Tabs.
3. Tap Turn on secret.
4. Tap Create password to protect your Secret mode data with a password.
   – or –
   Tap Do not use password.

To turn off Secret mode:
1. From a Home screen, tap Apps > Internet.
2. Tap Tabs.
3. Tap Turn off secret.

Internet Settings

These settings allow you to modify settings associated with using the Internet app.

1. From a Home screen, tap Apps > Internet.
2. Tap More > Settings.
3. Tap an option and follow the prompts.
Use the Memo app to write and save notes on your device.

Compose a Memo
You can create memos using the Memo app.

1. From a Home screen, tap Apps > Memo.
2. Tap Create memo and type a memo. Available options are:
   - Category: Add or change the category.
   - Insert: Insert an image into the memo.
   - Voice: Use your voice to insert text into the memo.
3. Tap Save when finished.

Manage Memos
You can edit, share, print, and delete memos you create.

Browse Memos
You can browse memos you create.

- From a Home screen, tap Apps > Memo.
  - Browse memo entries by swiping up or down.
  - To search for a memo, tap Search.

Memo Options
While browsing memo entries:

- Tap More options for the following options:
  - Select: Select notes to share, print, or delete.
  - Delete: Delete memos.
  - Account: Back up your memos to your Samsung account.
Messages

Learn how to send and receive different messages using the Samsung Messages app on your device.

Types of Messages
The Samsung Messages app provides the following message types:

- Text Messages (SMS)
- Multimedia Messages (MMS)

The Short Message Service (SMS) lets you send and receive text messages to and from other mobile phones or email addresses. To use this feature, you may need to subscribe to your service provider’s message service.

The Multimedia Messaging Service (MMS) lets you send and receive multimedia messages (such as picture, video, and audio messages) to and from other mobile phones or email addresses. To use this feature, you may need to subscribe to your service provider’s multimedia message service.

Messaging icons are displayed at the top of the screen and indicate when messages are received and their type.

Create and Send Messages
This section describes how to create and send a message using the Messages app.

1. From a Home screen, tap Apps > Messages.
2. Tap Compose.
3. Tap the Enter recipients field to manually enter a recipient or tap Add recipient to select a recipient from your Contacts. You can also select the recipient based on Groups, Favorites, or Logs.
   - If adding a recipient from your Contacts, tap the contact to place a checkmark, and then tap Done. The contact is placed in the recipients field.
   - Enter additional recipients by separating each entry with a semicolon (;) and then using the previous procedure. More recipients can be added at any time before the message is sent.
4. Tap the Enter message field to enter a message.
   - Attachment: Add images, audio, and more to your message.
   - Add emoji: Choose an available emoji from the list and then add it into your message at the cursor location.
5. Review the message and tap Send.

Note: If you exit a message before you send it, the message is automatically saved as a draft.
View New Messages

When you receive a new message, a new message icon is displayed on the Status bar.

To view the message:
► Open the Notification panel and tap the message. For more information, please see Notification Panel.

– or –

From a Home screen, tap Apps > Messages, and then tap the new message to view it.

• To play a multimedia message attachment (audio or video), tap Play.
• To scroll through the list of messages, swipe up or down the page.

Delete Messages

To delete messages, follow these steps:
1. From a Home screen, tap Apps > Messages.
2. Tap More options > Select.
3. Tap each message you want to delete or tap the checkbox at the top of the screen to select all messages.
4. Tap Delete. Confirm when prompted.

Message Search

1. You can search through your messages by using the Message Search feature.
2. From a Home screen, tap Apps > Messages.
3. Tap Search.
4. Enter a word or phrase to search for, and then tap Search on the keyboard.

Messages Settings

Configure the settings for text messages, multimedia messages, push messages, and more.
1. From a Home screen, tap Apps > Messages.
2. Tap More options > Settings.

Emergency Alerts

This device is designed to receive wireless emergency alerts from the Commercial Mobile Alerting System (CMAS), which may also be known as the Personal Localized Alerting Network (PLAN). For more information, please contact your wireless provider.

Emergency alerts allows customers to receive geographically-targeted messages. Alert messages notify customers of imminent threats to their safety within their area. There is no charge for receiving an Emergency alert message.

There are three types of Emergency alerts:
• Alerts issued by the President
• Alerts involving imminent threats to safety of life (extreme and severe)
• AMBER alerts (missing child alert)

Users may choose not to receive Imminent alerts (extreme and severe) and AMBER alerts.

Note: Alerts issued by the President cannot be disabled.
To disable Imminent and AMBER alerts, follow the instructions below:

1. From a Home screen, tap Apps > Messages.

2. Tap More options > Settings > Emergency alerts.

3. Tap Emergency alerts.
   - All alerts are enabled (on) by default.

4. Tap an alert option to disable it.
Music Player

Listen to your favorite songs with the Music player. Navigate through your music library, play songs, and create customized playlists.

- **Volume**: Adjust the volume.
- **More options**: View more options.
- **Adjust volume**: Control the volume level.
- **Sound quality and effects**: Configure sound quality and effects options.
- **Repeat**: Repeat the current song or playlist.
- **Song length**: View the total length of the song.
- **Playback controls**: Change shuffle or repeat modes, fast-forward or rewind, or play or pause the current song.
- **Time elapsed**: View the time elapsed for the current song.
- **Shuffle**: Shuffle songs in the current playlist.
- **Playback position**: Skip to another part of the current song.
- **Favorite**: Tag this song as a favorite.
- **Change player**: Play the song on a connected device.
Listen to Music

1. From a Home screen, tap Apps > Music.

2. Tap a category at the top left of the screen to view your music files.

3. Swipe through the list of songs and tap an entry to begin playback.

4. While playing music, use these controls:
   - Tap Pause to pause playback. To start playback again, tap Play.
   - Tap Rewind to move to the previous song. Touch and hold Rewind to rewind through the song. Tap Fast-forward to move to the next song. Touch and hold Fast-forward to move forward through the song.
   - Tap the repeat button to control playback. Choose Play once to play all songs once, Repeat all to repeat all songs, or Repeat 1 to repeat the current song.
   - Tap the shuffle button to control the order songs are played. Choose Shuffle off to play songs in the order they display in the list or Shuffle on to play songs in random order.

Note: When you close the Music screen, playback continues in the background, allowing you to listen to music while using other features of your device. When music is playing in the background, you can access playback controls from the Notification panel.
Access files stored on your device, including images, videos, music, and sound clips.

To access My Files:

1. From a Home screen, tap Apps > My Files.
2. Tap a category to view the relevant files or folders.
3. Tap a file or folder to open it.

File Groups

Files stored in the device are organized into the following groups:

- Recent files: View recently saved files.
- Images: View image files.
- Videos: View video files.
- Audio: View audio files.
- Documents: View document files.
- Downloaded apps: View downloaded apps.
- Download history: View all apps and files that have been downloaded to the device.

Local Storage

To view folders and files located on the device:

▶ Tap Device storage.

To view folders and files located on the memory card (if installed):

▶ Tap SD card.

Cloud Storage

When you add shortcuts to FTP servers or other cloud storage locations, FTP is displayed on the main My Files screen.

▶ Touch and hold a shortcut to rename or delete the shortcut.

Note: This option is displayed if you have added shortcuts to the My Files main screen.

My Files Options

On the main My Files screen:

1. Tap Search, and then enter search criteria.
2. Tap Storage usage to view memory information for your device and memory card (if installed).
3. Tap More options for these options:
   - Add shortcut: Add a shortcut to a folder on the My Files main screen.
   - Add FTP server: Add an FTP server shortcut on the My Files main screen.
   - Scan for nearby devices: Search for devices that have media sharing activated.
   - Settings: Change the settings for viewing files.

Shortcuts

When you add shortcuts folders, Shortcuts is displayed on the main My Files screen.

▶ Touch and hold a shortcut to rename or delete the shortcut.

Note: This option is displayed if you have added shortcuts to the My Files main screen.
Group Options

After selecting a group:

1. Tap  Home to return to the main My Files screen.
2. Tap  Search, and then enter search criteria.
3. Tap  More options for options:
   - **Select**: Select files or folders.
   - **Delete**: Select and delete files or folders.
   - **Create folder**: Add a folder to the current list.
     - This option is displayed in Local storage categories only.
   - **View as**: Change the appearance of the files or folders.
   - **Sort by**: Change the sort order of the files.
   - **Add shortcut**: Add a shortcut to the current location on either a Home screen or the My Files main screen.
     - This option is displayed in Local storage categories only.
   - **Settings**: Change the settings for viewing files.

   Note: Available options vary by category.

File Options

1. Tap a folder to open it.
2. Tap files to select them or tap  More options > Select, select files, and then use one of these functions:
   - **Share via**: Send files to others or share them.
   - **Delete**: Delete files or folders.
   - **More options**:
     - **Move**: Move files or folders to another folder.
     - **Copy**: Copy files or folders to another folder
     - **Rename**: Rename a file or folder. This option is displayed only when just one file or folder is selected.
     - **Add shortcut**: Add a shortcut to the folder on the main My Files screen.
     - **Zip**: Create a zip folder containing the selected files. This option is displayed only in Local Storage categories. A selected zip folder has the additional options of Extract and Extract to current folder.
     - **Details**: View details of the selected files or folders.

   Note: Available options vary by category.
Use S Health to plan, track, and manage your health goals and activities, including exercise, sleep, and meals.

**Caution:** The information gathered from this device, S Health, or related software is not intended for use in the diagnosis of disease or other conditions, or in the cure, mitigation, treatment or prevention of disease.

The accuracy of the information and data provided by this device and its related software, including heart rate readings, may be affected by factors such as environmental conditions, skin condition, specific activity performed while using/wearing the device, settings of the device, user configuration/user-provided information, placement of the sensor on the body, and other end-user interactions. For more information on proper wear and use, see samsung.com/us/heartratesensor.

To access S Health:
1. From a Home screen, tap Apps > S Health.
2. Read and accept the terms and conditions.
3. Set up your health profile and goals.

**Before You Start Exercising**

This app can be used to monitor your exercise. While moderate physical activity, such as brisk walking, is safe for most people, health experts suggest that you talk with your doctor before you start an exercise program, particularly if you have any of the following conditions:

- Heart disease;
- Asthma or lung disease;
- Diabetes, or liver or kidney disease;
- Arthritis.

You should also check with your doctor if you have symptoms suggestive of heart, lung, or other serious disease, such as:

- Pain or discomfort in your chest, neck, jaw, or arms during physical activity;
- Dizziness or loss of consciousness;
- Shortness of breath with mild exertion or at rest, or when lying down or going to bed;
- Ankle swelling, especially at night;
- A heart murmur or a rapid or pronounced heartbeat;
- Muscle pain when walking upstairs or up a hill that goes away when you rest.

Finally, the American College of Sports Medicine recommends that you see your doctor before engaging in vigorous exercise if two or more of the following apply:

- You are a man older than age 45 or a woman older than age 55;
- You have a family history of heart disease before age 55;
- You smoke or quit smoking in the past six months;
- You have not exercised for three months or more;
- You are overweight or obese;
- You have high blood pressure or high cholesterol;
- You have impaired glucose tolerance, also called prediabetes.
When in Doubt — Check It Out

If you are unsure of your health status, have several health problems, or are pregnant, you should speak with your doctor before starting a new exercise program. Working with your doctor ahead of time is a good way to plan an exercise program that is right and safe for you. Consider it the first step on your path to physical fitness.
S Voice

Speak commands to perform operations on your device, and to speak criteria for searches and other operations.

Access S Voice
You can access S Voice™ from the Apps list.

1. From a Home screen, tap Apps > S Voice.
2. Speak a command.
3. Tap Microphone, if the device does not hear you, or to give it another command.

Note: Tap More options for example commands and to view a tutorial.

S Voice Settings
These settings allow you to modify settings associated with using the S Voice app.

1. From a Home screen, tap Apps > S Voice.
2. Tap More options > Settings.
3. Tap an option and follow the prompts.
Video Player

Play and manage videos stored on your device.

- **Volume**: Adjust the volume.
- **More options**: View more options.
- **Video length**: View the total length of the video.
- **Pop-up**: Open the video in a pop-up player window.
- **Fast-forward**: Skip to the next video or fast-forward through the current video.
- **Pause or Play**: Pause or play the current video.
- **Rewind**: Restart the video, skip to a previous video, or rewind the video.
- **Screen ratio**: Change the screen ratio.
- **Time elapsed**: View the time elapsed for the current video.
- **Playback position**: Skip to another part of the video.
- **File name**: View the name of the video file.
- **Change players**: Play the video on nearby devices.
Access the Video Player

Use Video Player to access and play videos stored on your device.

1. From a Home screen, tap Apps > Video.
2. Scroll through the videos stored on your device. After a few seconds, each video thumbnail begins playing a preview of the clip.
3. Tap a video to view it.

Use Pop-Up Play

Multitask with Pop-up player by transforming your video player into a pop-up window. The video continues to play, and the pop-up window can be resized or moved anywhere on the screen.

1. From a Home screen, tap Apps > Video.
2. Tap a video to view it.
3. Tap Pop-up to continue playing the video in a floating window.
   - Drag the window to any location on the screen.
   - Use two fingers to pinch or spread to resize the floating window.

Change the Video Screen Size

You can change the size of the video during video playback.

1. From a Home screen, tap Apps > Video.
2. Tap a video to view it.
3. Tap the screen ratio icon to cycle through the screen size options:
   - Fit to height: The video is enlarged as much as possible without becoming distorted.
   - Overlook aspect ratio: The entire screen is used, which may cause some minor distortion.
   - Original size: The video is played in its original size.
   - Keep aspect ratio: The video is enlarged to fit the screen without becoming distorted.
Voice Recorder

Record voice memos and notes.

Create a Voice Recording

To create a voice recording:

1. From a Home screen, tap Apps > Voice Recorder.

2. Tap More options > Settings > Recording quality to adjust the recording quality.

3. Tap Select mode to choose the appropriate recording mode:
   - Normal: This recording mode picks up any sounds detected by the microphones.
   - Interview: The top and bottom microphones are used for two-directional recording. The top and bottom of the device pick up equal amounts of sound. Microphones can be muted during recording and playback.
   - Conversation: The microphones are sensitive to sound from all directions and can distinguish up to eight sources of sound. Sound sources can be muted during recording and playback.
   - Voice memo: Voice input is converted to text on screen. The maximum recording time is five minutes.

Manage Recordings

To display a list of recordings:

1. From a Home screen, tap Apps > Voice Recorder.

2. Tap List.

To search through available recordings:

1. Tap Search.

To delete one or more voice recordings:

1. Tap Delete.

2. Tap each recording you want to select or tap the selected checkbox at the top of the screen to select all recordings.

3. Tap Done.

To share one or more voice recordings:

1. Tap More options > Select.

2. Tap each recording you want to select or tap the selected checkbox at the top of the screen to select all recordings.

3. Tap Share via, select a sharing method, and follow the prompts.

The following additional controls are available:

- Record: Record an audio file.
- Pause: Pause the recording of an audio file.
- Stop: Stop recording. The file is automatically saved.
- Cancel: Cancel the recording of an audio file.
- Bookmark: Bookmark the current position of the recording.
For additional options:

► Tap More options.

- **Select**: Choose desired recordings.
- **Sort by**: Sort the list of recordings.
- **Filter by category**: Filter entries by category.
- **Edit categories**: Modify your categories.
- **Settings**: Configure Voice Recorder.
Configure your device's connections and settings, add accounts, and customize the Home screens, apps, and features.
How to Use Settings

Access Settings
There are a couple of ways to access your device settings.

► From a Home screen, tap Apps > Settings.

– or –
From a Home screen, drag down from the Status bar to display the Notification panel, and then tap Settings.

Search for Settings
If you are not sure exactly where to find a certain setting, you can use the Search feature.

1. From a Home screen, tap Apps > Settings.

2. Tap Search.
   • Enter a word or words in the Search field. As you type, settings that match display on the screen.
   • Tap an entry to go to that setting.

Change How Settings Are Listed
Settings can be listed in a grid, list, or tab view.

1. From a Home screen, tap Apps > Settings.

2. Tap More options > View as.

3. Select a different view.

Customize Quick Settings
Quick settings are the settings that you are most likely to frequently use. When you first access the Settings menu, the Quick settings are set to a default list of settings.

To edit the Quick settings list:

1. From a Home screen, tap Apps > Settings.

2. Tap More options > Edit quick settings.
   • Select additional settings to display in your Quick settings menu. Settings that are already in the Quick settings menu are checked.
   • Uncheck a setting to remove it from the Quick settings list.

3. Tap Done to save your new Quick settings menu.
Wi-Fi Settings

Wi-Fi is a term used for certain types of Wireless Local Area Networks (WLAN). Wi-Fi communication requires access to a wireless Access Point (AP).

Turn Wi-Fi On or Off
Turning Wi-Fi on makes your device able to discover and connect to compatible in-range APs.

1. From a Home screen, tap Apps > Settings > Connections.
2. Tap Wi-Fi, and then tap On/Off to turn Wi-Fi on or off.

Wi-Fi Status Indicators
Status bar icons indicate your current Wi-Fi connection status:

- When Wi-Fi is connected, active, and communicating with a wireless Access Point, Wi-Fi active is displayed in the Status bar.
- If a Wi-Fi access point is available, but your device is not connected to it, Wi-Fi available is displayed. It may also display if there is a communication issue with the target wireless Access Point.

Wi-Fi Networks
To scan for a Wi-Fi network and connect to it:

1. From a Home screen, tap Apps > Settings > Connections.
2. Tap Wi-Fi, and then tap On/Off to turn Wi-Fi on.
   - When Wi-Fi is turned on, your device automatically scans for available networks and displays them.
3. Tap the network you want to connect to.
   - When you select an open network, you are automatically connected to the network. Otherwise, enter a password to connect.
4. To manually scan for networks, tap More options > Scan.

Manually Connect to a Wi-Fi Network
To manually connect to a Wi-Fi network:

1. From a Home screen, tap Apps > Settings > Connections.
2. Tap Wi-Fi, and then tap On/Off to turn Wi-Fi on.
3. Swipe to the bottom of the screen and tap Add Wi-Fi network.
4. Enter information about the Wi-Fi network:
   - Network SSID: Enter the name of the Wi-Fi network.
   - Security: Select a security option and enter your password.
   - Show advanced options: Add advanced options such as IP settings and Proxy settings.
5. Tap Connect to store the new information and connect to your target wireless Access Point.
Wi-Fi Options

The Wi-Fi settings menu allows you to set up many of your device’s advanced Wi-Fi services.

1. From a Home screen, tap Apps > Settings > Connections.

2. Tap Wi-Fi, and then tap On/Off to turn Wi-Fi on.
   - Smart network switch: Connect automatically to a mobile network to connection when the Wi-Fi connection is unstable.

3. Tap More options for options:
   - Scan: Start another scan for nearby Wi-Fi networks.
   - Wi-Fi Direct: Configure a Wi-Fi Direct connection with a nearby device.

   Advanced
   - Network notification: Receive notifications when new wireless Access Points are available.
   - Hotspot 2.0: Automatically connect to Wi-Fi access points that support Hotspot 2.0.
   - Sort by: Choose how detected Wi-Fi networks are listed.
   - Keep Wi-Fi on during sleep: Specify when to disconnect from Wi-Fi.
   - Auto connect: Automatically connect to AT&T Wi-Fi Hotspot when detected.
   - Install certificates: Install authentication certificates.
   - MAC address: View your device’s MAC address, which is required when connecting to some secured networks (not configurable).
   - IP address: View your device’s IP address (not configurable).

   • WPS push button: Set up a connection to a WPS (Wi-Fi Protected Setup) router or other equipment.

   • WPS PIN entry: View the PIN used by your device to set up a PIN-secured connection to a Wi-Fi router or other equipment (not configurable).

   • Share Wi-Fi profile: Share Wi-Fi profiles you have created with others.

   • Help: Learn about setting up and using Wi-Fi networks, and other settings.

Wi-Fi Direct

Wi-Fi Direct allows direct device-to-device connections using Wi-Fi, without having to connect to a Wi-Fi network.

1. From a Home screen, tap Apps > Settings > Connections.

2. Tap Wi-Fi, and then tap On/Off to turn Wi-Fi on.
   - Wi-Fi must be on to configure settings.

3. Tap More options > Wi-Fi Direct. Your device automatically scans for nearby Wi-Fi Direct devices.

4. Select a device, and then follow the prompts to complete the connection.

To rename your device (as seen by other devices):
► Tap More options > Rename device.

To disconnect from a device:
► Tap End connection.

Wi-Fi Direct Status Indicator

Status bar icons indicate your current Wi-Fi Direct connection status:

• When your device is connected to another device using Wi-Fi Direct, Wi-Fi Direct is displayed in the Status bar.
Wi-Fi Calling

Make and receive calls over Wi-Fi with your AT&T account.

With Wi-Fi Calling, you can talk and text over Wi-Fi when cellular coverage is limited or unavailable. With a Wi-Fi connection, you can talk and text in those hard-to-reach places.

To enable and use Wi-Fi Calling:

1. From a Home screen, tap Apps > Settings > Connections.
2. Tap Wi-Fi calling.
3. Tap Get started to enable Wi-Fi Calling.

Once Wi-Fi Calling has been enabled:

► Tap On/Off to enable or disable Wi-Fi Calling.
  
  • Tap About Wi-Fi Calling to learn more.
  
  • Tap Emergency address to update your address. This address is used by emergency services to help find you after a 911 call.
Calling Preference

Set up your calling preference.

1. From a Home screen, tap Apps > Settings > Connections.
2. Tap Calling preference.
3. Tap On/Off, and then choose an option:
   - Wi-Fi preferred: Use Wi-Fi to make calls, if Wi-Fi is available.
   - Mobile network preferred: Use the mobile network to make calls even if a Wi-Fi connection is available.
Bluetooth

Bluetooth is a short-range communications technology that connects your device wirelessly to a number of Bluetooth devices, such as headsets and hands-free car Bluetooth systems, and Bluetooth-enabled computers, printers, and wireless devices.

Note: The Bluetooth communication range is approximately 30 feet.

Turn Bluetooth On or Off
To turn your device’s Bluetooth service on or off:

1. From a Home screen, tap Apps > Settings > Connections.
2. Tap Bluetooth, and then tap On/Off to turn Bluetooth on or off.

Bluetooth Status Indicator
Status bar icons indicate your current Bluetooth connection status:

- When Bluetooth is turned on, Bluetooth is displayed in the Status bar.

Scan for Bluetooth Devices
When you want to pair with another Bluetooth device, you can scan for nearby devices that are visible.

1. From a Home screen, tap Apps > Settings > Connections.

2. Tap Bluetooth, and then tap On/Off to turn on Bluetooth.

- When Bluetooth is first turned on, it scans for nearby Bluetooth devices and displays them.
- To manually perform a new scan, tap Scan.

Pair Bluetooth Devices
The Bluetooth pairing process allows you to establish trusted connections between your device and another Bluetooth device.

Pairing between two Bluetooth devices is a one-time process. Once a pairing is created, the devices continue to recognize their partnership and exchange information without having to re-enter a passcode.

1. From a Home screen, tap Apps > Settings > Connections.

2. Tap Bluetooth, and then tap On/Off to turn on Bluetooth.

- Make sure that the target device is discoverable so that your device can find it. Refer to the instructions that came with the device to find out how to set it to discoverable mode.

3. Tap the name of the target device when you see it displayed in the Bluetooth devices section.

- Your device automatically tries to pair with the target device. If automatic pairing fails, enter the passcode supplied with the target device.

Note: Due to different specifications and features of other Bluetooth-compatible devices, display and operations may be different, and functions such as transfer or exchange may not be possible with all Bluetooth-compatible devices.
Rename a Paired Device
Once you have paired your device to another device, you can rename the paired device to make it easier to recognize.

1. From a Home screen, tapApps > Settings > Connections.
2. Tap Bluetooth, and then tap On/Off to turn on Bluetooth.
3. TapSettings next to the previously paired device, and then tap Rename.
4. Enter a new name, and tap OK.

Delete a Paired Device (Unpair)
When you unpair from a Bluetooth device, the two devices no longer recognize each other. To connect again, you have to pair the devices.

1. From a Home screen, tap Apps > Settings > Connections.
2. Tap Bluetooth, and then tap On/Off to turn on Bluetooth.
3. TapSettings next to the paired device, and then tap Unpair to delete the paired device.

Make Your Device Visible to Other Bluetooth Devices
When you make your device visible, other Bluetooth can find it in a scan and initiate pairing. You can choose the length of time your device remains visible.

1. From a Home screen, tap Apps > Settings > Connections.
2. Tap Bluetooth, and then tap On/Off to turn on Bluetooth.
3. Tap Bluetooth > More options > Visibility timeout.
4. Select a time period for your device to remain visible after you turn on visibility.

Review Files Received Using Bluetooth
When you receive files from another device using Bluetooth, you can access them from Bluetooth settings.

1. From a Home screen, tap Apps > Settings > Connections.
2. Tap Bluetooth > More options > Received files.

Change Your Device's Name
Change the name others use when pairing with your device using Bluetooth.

1. From a Home screen, tap Apps > Settings > Connections.
2. Tap Bluetooth > More options > Rename device.
3. Tap the name field and edit your device name.
Tethering and Mobile Hotspot

Use tethering and Mobile hotspot to share your device’s Internet connection with other devices.

Enable Mobile Hotspot
Activate Mobile hotspot to allow other devices to use your device’s Internet connection.

Note: You must have a tethering plan on your service account in order to use the Mobile hotspot.

Warning: Mobile hotspot consumes battery power and uses data service.

1. From a Home screen, tap Apps > Settings > Connections.
2. Tap Tethering and mobile hotspot > Mobile hotspot.
3. Tap On/Off to turn Mobile hotspot on or off.

Connect a Device to Your Mobile Hotspot
Use the other device’s Wi-Fi control to connect to your device’s Mobile hotspot.

1. From a Home screen, tap Apps > Settings > Connections.
2. Tap Tethering and mobile hotspot > Mobile hotspot.
3. Tap On/Off to turn on Mobile hotspot.
4. Activate Wi-Fi on the target device.
5. Scan for Wi-Fi hotspots and select the target device from the list.
6. Enter your device’s Mobile hotspot password on the target device.

Allowed Devices List
Control whether devices connect to your Mobile hotspot with the Allowed devices list. After you add devices to the list, they can scan for your device and connect using your device’s Mobile hotspot name and password.

Note: Using your device as a Mobile hotspot consumes battery power and uses data service. While Mobile hotspot is active, your device’s applications use the Mobile hotspot data service. Roaming while using your device as a Mobile hotspot incurs extra data charges.

1. From a Home screen, tap Apps > Settings > Connections.
2. Tap Tethering and mobile hotspot > Mobile hotspot.
3. Tap On/Off to turn on Mobile hotspot.
4. Tap More options > Allowed devices, and then tap Add to enter the other device’s Device name and MAC address.
5. Tap OK to add the device.

Change the Mobile Hotspot Password
You can change your Mobile hotspot password.

1. From a Home screen, tap Apps > Settings > Connections.
2. Tap Tethering and mobile hotspot > Mobile hotspot.
3. Tap On/Off to turn on Mobile hotspot.
4. Tap More options > Configure hotspot.
5. Tap the password and enter a new password.
6. Tap Save.
Configure Mobile Hotspot Settings

Manage your Mobile hotspot security and connection settings.

1. From a Home screen, tap Apps > Settings > Connections.
2. Tap Tethering and mobile hotspot > Mobile hotspot.
3. Tap More options > Configure mobile hotspot for the following settings:
   • Network SSID: View and change the name of your Mobile hotspot.
   • Hide my device: Enable to make your Mobile hotspot invisible to other Wi-Fi devices during a scan. When enabled, other devices can still connect to your Mobile hotspot, but have to set up the connection manually with your Network SSID and Password.
   • Security: Choose the security level for your Mobile hotspot.
   • Password: If you choose a security level that uses a password, enter the password.
   • Show password: Display your password instead of masking it.
   • Show advanced options: Access advanced options, including Broadcast channel, and to specify the channel your device uses for Mobile hotspot.

Timeout Settings

Automatically turn off Mobile hotspot if there are no connected devices.

1. From a Home screen, tap Apps > Settings > Connections.
2. Tap Tethering and mobile hotspot > Mobile hotspot.
3. Tap More options > Timeout settings, and then select an interval.

Tethering Your Device

You can use USB tethering to share your device’s Internet connection with a computer.

1. From a Home screen, tap Apps > Settings > Connections.
2. Tap Tethering and mobile hotspot.
3. Connect the computer to the device using the USB cable, and then tap USB tethering to turn tethering on.
Airplane Mode

Airplane mode disconnects your device from all networks and turns off connectivity features, such as phone calls and Wi-Fi.

While in Airplane mode, you can use other features such as playing music, watching videos, and other offline applications.

Enable Airplane Mode

There are a couple of ways to enable or disable Airplane mode.

1. From a Home screen, tap Apps > Settings > Connections.

2. Tap Airplane mode, and then tap On/Off to enable or disable the option.

Note: You can also control Airplane mode from the Device options menu. Press and hold the Power key, and then tap Airplane mode.
Data Usage

Monitor how your data is being used, and set limits and restrictions to conserve it.

Note: Your service provider may account for data usage differently.

1. From a Home screen, tap Apps > Settings > Connections.

2. Tap Data usage for options:
   - Mobile data: Enable mobile data. You can also control Mobile Data at the Notification panel.
   - International data roaming: Enable data roaming on your device.
   - Set mobile data limit: Your mobile data connection is turned off when the specified limit is reached.
   - Data usage cycle: Tap the drop-down menu, and then choose a time period for data usage. Data usage for the period is displayed on the graph, along with usage by application below.
   - By application: View data usage by application.

3. Tap More options:
   - Restrict background data: Restrict some apps and services from working unless you are connected to a Wi-Fi network.
   - Show/Hide Wi-Fi usage: Display a Wi-Fi tab that shows Wi-Fi usage.
   - Mobile hotspots: Select Wi-Fi networks that are mobile hotspots. You can restrict apps from using these networks, and you can configure apps to warn you before using these networks for large downloads.
   - Mobile networks: Add and edit mobile networks. For more information, see Mobile Networks.
Location Settings

Some apps, such as Google Maps, may require one or more location services be turned on for full functionality.

Locating Method

Before using any features that require location assistance, you must enable your device’s location services.

1. From a Home screen, tap Apps > Settings > Connections.
2. Tap Location.
3. Tap On/Off to turn on Location services.
4. Tap Mode to select how your location is determined:
   - **High accuracy**: Uses GPS, Wi-Fi, and mobile networks.
   - **Power saving**: Uses Wi-Fi and mobile networks (no GPS).
   - **GPS only**: Uses GPS only.
5. Tap Improve accuracy to use other connections for determining your location:
   - **Wi-Fi scanning**: Allow apps and services to scan for Wi-Fi networks automatically, even when Wi-Fi is turned off.
   - **Bluetooth scanning**: Allow apps to scan for and connect to nearby devices automatically through Bluetooth, even when Bluetooth is turned off.

Recent Location Requests

Apps that have requested your location are listed under Recent location requests.

1. From a Home screen, tap Apps > Settings > Connections.
2. Tap Location.
3. Tap On/Off to turn on Location services.
4. Tap an entry under Recent location requests to view the app’s settings.

Location Services

Google Location History™ stores and uses your device’s most recent location data. Google apps, such as Google Maps, can use this data to improve your search results based on places that you have visited.

1. From a Home screen, tap Apps > Settings > Connections.
2. Tap Location.
3. Tap On/Off to turn on Location services.
4. Tap Google Location History and sign in to your Google Account for more options.
Location Sources

You can save your favorite locations for use with services that require location information. This information can improve your search results and other location-related activities.

1. From a Home screen, tap Apps > Settings > Connections.
2. Tap Location.
3. Tap On/Off to turn on Location services.
4. Tap My places.
   - Tap Add to add more categories.
   - Tap a category (Home, Work, or Car) to add a location.
   - To delete a custom category, tap More options > Select, tap a category to delete, and then tap Delete.

Note: Home, Work, and Car cannot be deleted.
More Networks

More networks settings allow you to configure a variety of connectivity settings for your device.

Nearby Device Scanning
Scan for nearby devices to connect to and set them up easily. You receive a notification when there are available devices to connect to.

Note: This function uses Bluetooth low energy scanning even if Bluetooth is turned off on your device.

To enable nearby device scanning:
1. From a Home screen, tap Apps > Settings > Connections.
2. Tap More networks > Nearby device scanning.
3. Tap On/Off to enable the feature.

Mobile Networks
Control your device’s access to networks and mobile data service.

1. From a Home screen, tap Apps > Settings > Connections.
2. Tap More networks > Mobile networks and select an option:
   - Mobile data: Allow your device to connect to a mobile data network.
   - International data roaming: Allow your device to connect to data services while roaming. Significantly higher charges may result.
   - Access Point Names: Select the Access Point Name for mobile connection to the Internet.
   - Network operators: Choose available and preferred networks.

AT&T MicroCell
To search for an AT&T MicroCell:
1. From a Home screen, tap Apps > Settings > Connections.
3. Tap Network operators > Search for AT&T MicroCell.

Your AT&T MicroCell must be installed and activated before you can connect to it. For more information, visit att.com/esupport.
Virtual Private Networks (VPN)

Set up and manage your Virtual Private Networks (VPNs).

**Note:** You must set a secured screen lock before setting up a VPN. For more information, see Set a Screen Lock.

Add a VPN

Use the VPN settings menu to add a VPN connection to your device.

1. From a Home screen, tap Apps > Settings > Connections.
2. Tap More networks > VPN.
3. Tap Basic VPN or Advanced IPsec VPN, and follow the prompts to set up your VPN.

Connect to a VPN

To connect to a VPN:

1. From a Home screen, tap Apps > Settings > Connections.
2. Tap More networks > VPN.
3. Tap Basic VPN or Advanced IPsec VPN.
4. Tap the VPN, enter your log in information, and tap Connect.

Disconnect from a VPN

To disconnect from a VPN:

1. From a Home screen, tap Apps > Settings > Connections.
2. Tap More networks > VPN.
3. Tap Basic VPN or Advanced IPsec VPN.
4. Tap the VPN, and tap Disconnect.

Edit or Delete a VPN

Once you have set up a VPN connection, you can edit or delete the connection.

1. From a Home screen, tap Apps > Settings > Connections.
2. Tap More networks > VPN.
3. Tap Basic VPN or Advanced IPsec VPN.
4. Tap Settings next to the VPN that you want to edit or delete.
5. Edit the VPN and tap Save.
   – or –
   Tap Delete to delete the VPN.
NFC (Near Field Communication) allows data exchange when you touch your device with another compatible device. This is used for features like Android Beam.

Enable NFC
Activate NFC to allow your device to exchange data with other NFC devices.

To activate NFC:
1. From a Home screen, tap Apps > Settings > Connections.
2. Tap NFC, and then tap On/Off to turn on NFC.

Android Beam
When Android Beam is activated, you can beam app content to another NFC-capable device by holding the devices close together. You can beam browser pages, YouTube videos, contacts, and more.

1. From a Home screen, tap Apps > Settings > Connections.
2. Tap NFC, and then tap On/Off to turn on NFC.
3. Tap Android Beam, and then tap On/Off to turn on Android Beam.
4. Touch the back of your device with another NFC-capable device to transfer content.

S Beam
When S Beam is activated, you can beam files to another NFC-capable device by holding the devices close together.

You can beam images and videos from your Gallery, music files from your Music app, and more.

1. From a Home screen, tap Apps > Settings > Connections.
2. Tap NFC, and tap On/Off to turn on NFC.
3. Tap S Beam, and then tap On/Off to turn on S Beam.
4. Touch the back of your device with another NFC-capable device to transfer content.

Tap and Pay
Tap and pay allows you to select the default payment application you want to use for making purchases on your device.

1. From a Home screen, tap Apps > Settings > Connections.
2. Tap NFC, and tap On/Off to turn on NFC.
3. Tap Tap and pay.
4. Select the app that you want as your default.
Nearby Devices

Share your media files with nearby devices using Wi-Fi, Wi-Fi Direct, or Mobile hotspot.

**Warning:** If file sharing is enabled, other devices can access your data. Use this option with care.

1. From a Home screen, tap **Apps > Settings > Connections**.
2. Tap **Nearby devices**.
3. Tap **On/Off** to enable Nearby devices.
4. Set the following options:
   - **Content to share**: Select the content to share. Choices are: Videos, Photos, and Music.
   - **Allowed devices**: Indicate the devices accessible to your device.
   - **Denied devices**: Indicate devices not allowed access to your device.
   - **Download to**: Allow downloading of data to your device or optional memory card (not included).
   - **Receive files from other devices**: Warn if a device attempts to upload data to your device.
Print images and documents to Samsung printers and other compatible printers (not included).

1. From a Home screen, tap Apps > Settings > Connections.
2. Tap Printing.
3. Tap a print service and follow the prompts.

**Note:** Tap Download plug-in to install additional print service drivers.
Screen Mirroring

Share your device’s screen with another device.

1. From a Home screen, tap Apps > Settings > Connections.
2. Tap Screen Mirroring.
   - Available devices are listed.
3. Tap Scan to find more devices.
4. Tap a device and follow the prompts to connect.
Sounds and Notifications

Configure the sounds and vibrations used to indicate notifications, screen touches, and other interactions.

Adjust the Volume
Set the system volume level for call ringtones, notifications, and other audio.

Note: You can also set the volume from the Home screen by pressing the Volume key.

1. From a Home screen, tap Apps > Settings > Device.
2. Tap Sounds and notifications, and then drag the sliders to set the default volume for:
   - Ringtone
   - Media
   - Notifications
   - System

Sound Mode
You can switch between sound modes, while preserving the individual sound settings you have made.

1. From a Home screen, tap Apps > Settings > Device.
2. Tap Sounds and notifications > Sound mode, and then choose a mode:
   - Sound: Use the sounds, vibrations, and volume levels you have chosen in sound settings for notifications and alerts.
   - Vibrate: Vibrate for notifications and alerts. This uses the vibration intensity you choose in sound settings.
   - Mute: Mute all sounds and notifications.

Vibration Intensity
Set the vibration intensity of incoming calls, notifications, and Haptic feedback.

1. From a Home screen, tap Apps > Settings > Device.
2. Tap Sounds and notifications > Vibration intensity.
3. Drag the sliders to set the various vibration intensities.
Vibrate When Ringing

Your device can vibrate in addition to ringing when you receive a call.

1. From a Home screen, tap Apps > Settings > Device.
2. Tap Sounds and notifications > Vibrate when ringing to turn the feature on.

**Note:** This feature is only available when the Sound mode is set to Sound.

Ringtones

Choose from preset ringtones or add your own.

1. From a Home screen, tap Apps > Settings > Device.
2. Tap Sounds and notifications > Ringtones.
3. Tap a ringtone to hear a preview, and then tap OK to set it as your default ringtone.
   - or –
   Tap Add to use an audio file as a ringtone.

Vibrations

Choose from preset vibration patterns or create your own pattern.

1. From a Home screen, tap Apps > Settings > Device.
2. Tap Sounds and notifications > Vibrations.
3. Tap a pattern to preview it, and then tap OK to set it as your default vibration pattern.

Notification Ringtone

Choose a sound for notifications, such as for new messages and event reminders.

1. From a Home screen, tap Apps > Settings > Device.
2. Tap Sounds and notifications > Notification ringtone.
3. Tap a sound to preview it, and then tap OK to set it as your default notification sound.

Other Sounds

Set various other sound options.

1. From a Home screen, tap Apps > Settings > Device.
2. Tap Sounds and notifications > Other sounds.
3. Tap the checkbox next to the options under Feedback and Samsung keyboard to indicate whether to enable the sound or vibration.
4. To modify sound settings associated with several frequently used apps, tap one of the following to access the app’s sound settings:
   - **Call:** Configure call notifications and alerts.
   - **Messages:** Configure messaging notifications and alerts.
   - **Email:** Configure email account notifications.
   - **Calendar:** Configure event notifications.
Do Not Disturb

You can set your phone to silence all calls and alerts except for times you schedule.

1. From a Home screen, tap Apps > Settings > Device.
2. Tap Sounds and notifications > Do not disturb.
3. Tap Turn on now to enable this option.

Scheduling

This option allows you to turn Do not disturb mode on or off automatically at scheduled times.

Note: Scheduling is not available if Do not disturb mode has been turned on manually.

1. From a Home screen, tap Apps > Settings > Device.
2. Tap Sounds and notifications > Do not disturb.
3. Tap Turn on as scheduled, and set the Days, Start time, and End time.

Allow Exceptions

This option lets you customize which notifications are allowed while your device is in Do not disturb mode.

1. From a Home screen, tap Apps > Settings > Device.
2. Tap Sounds and notifications > Do not disturb.
3. Tap Allow exceptions, and tap one of the following options:
   - No exceptions
   - Alarms only
   - Custom

Notifications on Lock Screen

To define how notifications should be displayed on your device’s lock screen:

1. From a Home screen, tap Apps > Settings > Device.
2. Tap Sounds and notifications > Notifications on lock screen and choose an option:
   - Show content
   - Hide content
   - Do not show notifications.

Application Notifications

To set whether application notifications are displayed:

1. From a Home screen, tap Apps > Settings > Device.
2. Tap Sounds and notifications > Application notifications.
3. Swipe through the list of apps and tap an app.
4. Tap On/Off to block all notifications from this app, to show priority notifications for the selected app, or to hide sensitive content from the selected app.

Notification Access

Prevent applications from reading notifications.

1. From a Home screen, tap Apps > Settings > Device.
2. Tap Sounds and notifications > Notification access.
3. Swipe through the list of apps and tap On/Off to block apps from reading notifications.
Configure your display’s brightness, screen timeout delay, and other display settings.

Adjust the Screen Brightness
Adjust the screen brightness to suit your surroundings or personal preference. You may also want to adjust screen brightness to conserve battery power.

1. From a Home screen, tap Apps > Settings > Device.
2. Tap Display > Brightness to customize options:
   • Tap Automatic brightness to allow the device to adjust brightness automatically.
   • Drag the Brightness level slider to set a custom brightness level.

Note: You can also control Brightness from the Notification panel. Drag the Status bar down from the top of the screen to find the Brightness option.

Change the Font Style and Size
You can set the font style and size for all text that is displayed on the screen.

1. From a Home screen, tap Apps > Settings > Device.
2. Tap Display > Font to choose a font style and font size.
   • Font style: Choose another font style, or tap Download to find new fonts.
   • Font size: Choose a different font size.

Screen Rotation
Use the front camera to rotate the screen based on the orientation of your device.

1. From a Home screen, tap Apps > Settings > Device.
2. Tap Display > Screen rotation.
3. Tap On/Off, and then tap Smart rotation to turn the feature on.

Smart Stay
Using the front camera to detect your face, the screen does not time out as long as you are facing the screen.

1. From a Home screen, tap Apps > Settings > Device.
2. Tap Display > Smart stay to turn the feature on.

Screen Timeout
Choose how long the display screen remains lit after you tap the screen or press any key.

1. From a Home screen, tap Apps > Settings > Device.
2. Tap Display > Screen timeout and choose a time period.
Screen Mode

Choose a screen mode to match your type of viewing. You can choose to have the device automatically adapt the display depending on the type of image being displayed.

1. From a Home screen, tap Apps > Settings > Device.

2. Tap Display > Screen mode and choose a screen mode:
   - Tap Adapt display if you want your device to automatically optimize the display to match the type of image being displayed and other criteria, such as battery level.
   - or –
   - Choose a specific type of screen mode based on what you are viewing.

Auto Adjust Screen Tone

Your device analyzes the images displayed on the screen and automatically adjusts the brightness to conserve battery power.

1. From a Home screen, tap Apps > Settings > Device.

2. Tap Display > Auto adjust screen tone to turn the feature on.

Daydream

The Daydream™ setting controls what the screen displays when the device is docked (dock not included) or while charging. You can choose to display colors or display photos stored on your device.

1. From a Home screen, tap Apps > Settings > Device.

2. Tap Display > Daydream, and tap On/Off to turn on Daydream.

3. Configure options:
   - Colors: Display a changing screen of colors.
   - Flipboard: Display pictures from Flipboard. Tap Settings for options.
   - Photo table: Display pictures in a photo table. Tap Settings for options.
   - Photo frame: Display pictures in a photo frame. Tap Settings for options.

4. Tap More options for additional options:
   - Preview: See a demonstration of Daydream.

LED Indicator

Light up the LED indicator when charging, voice recording, or receiving notifications.

1. From a Home screen, tap Apps > Settings > Device.

2. Tap Display.

3. Tap LED indicator for options.

Increase Touch Sensitivity

Increase the sensitivity of the touch screen to improve results when wearing gloves.

1. From a Home screen, tap Apps > Settings > Device.

2. Tap Display.

3. Tap Increase touch sensitivity to turn the feature on.
Wallpaper Settings

Change the look of the Home and Lock screens with wallpaper.

You can display a favorite picture or choose from preloaded wallpapers.

1. From a Home screen, tap Apps > Settings > Device.
2. Tap Wallpaper.
3. Tap Menu, and then tap Home screen, Lock screen, or Home and lock screen.
4. Tap an image to preview it, and then tap Set as wallpaper.
   - Tap From Gallery for additional wallpapers.
   - Tap Bubbles or Phase beam for animated wallpaper. Animated wallpaper consumes additional battery power.
   - Tap Travel wallpaper to set up that option (Lock screen only).

For more information, see Wallpapers.
Home Screen Settings

Customize your Home screen by adding application shortcuts, widgets, folders, and using wallpapers.

To customize Home screen:

► From a Home screen, tap Apps > Settings > Home screen.
- or -

From a Home screen, either touch and hold an empty space on a screen or pinch the screen.

For more information, see Home Screen.
Lock Screen

Secure your device and protect your data with Lock Screen settings.

Set a Screen Lock

It is recommended that you secure your device using a Screen lock.

1. From a Home screen, tap Apps > Settings > Device.
2. Tap Lock screen.
3. Tap Screen lock to select a screen lock and level of security:
   - **Swipe**: Swipe the screen to unlock it. This option provides no security.
   - **Pattern**: Create a pattern that you draw on the screen to unlock your device. This option provides medium security.
   - **PIN**: Select a PIN to use for unlocking the screen. This option provides medium to high security.
   - **Password**: Create a password for unlocking the screen. This option provides high security.
   - **None**: Do not lock the screen.
4. Select your notification preferences, if you choose a secured lock screen option:
   - Show content
   - Hide content
   - Do not show notifications
5. Choose a screen lock option:
   - **Swipe Only**
     - **Phone shortcut**: Display a phone shortcut on your Lock screen.
     - **Unlock effect**: Set the visual effect used when unlocking the screen.
     - **Help text**: Show help information on unlocking the screen on the Lock screen.
   - **Pattern Only**
     - **Pattern type**: Select a pattern type.
     - **Make pattern visible**: Display the pattern as you draw it.
     - **Vibration feedback**: Vibrate when the unlock pattern is entered incorrectly.
   - **All Screen Lock Types**
     - **Dual clock**: Display a dual clock on your Lock screen when roaming.
     - **Clock size**: Select the size of the clock that is displayed on your Lock screen.
     - **Show date**: Display the date on the Lock screen.
     - **Camera shortcut**: Display a camera shortcut on your Lock screen.
     - **Owner information**: Show owner information on the Lock screen.
     - **Additional information**: Display Weather information or the step count when Pedometer in S Health is turned on.
     - **Secured lock time**: Lock the screen after 10 minutes of inactivity. (Not on Swipe.)
Multi Window Settings

**Turn on the Multi window feature.**

1. From a Home screen, tap \Apps > \Settings > Device.

2. Tap Multi window.

3. Tap On/Off to enable. The following option is available:

   - **Open in Multi window view**: Automatically view content in a multi window when you open files from My Files or Video, or attachments from email.

For more information, see Use Multi Window.
Notification Panel Settings

Customize which Quick setting buttons display on the Notification panel.

You can also customize which apps display on the Recommended applications menu on the Notification panel when you perform certain actions, such as plugging in earphones.

1. From a Home screen, tap Apps > Settings > Notification panel.
   – or –
   From the Notification panel, tap View all > Edit.

2. The following options are available:
   
   • **Brightness adjustment**: Adjust the screen brightness and volume from the Notification panel.
   
   • **Recommended apps**: Show selected apps on the Notification panel after certain actions, such as connecting earphones.

To customize which quick setting buttons display at the top of the Notification panel:

► Touch and drag buttons to reorder them.

To use the default layout:

► Tap Reset.

---

Recommended Apps

When you perform certain actions, such as plugging in earphones, the Notification panel can display shortcuts to your favorite related apps, such as Music player or Google Play Music.

To customize which shortcuts display on the Recommended apps menu:

1. From a Home screen, tap Apps > Settings > Device.

2. Tap Notification panel > Recommended apps.

3. Tap On/Off to turn the feature on.

4. Tap Edit and choose which apps to display on the Notification panel when you insert earphones.
Toolbox

The Toolbox is a floating shortcut menu that is displayed on every screen, giving you quick access to your favorite apps.

To activate the Toolbox:

1. From a Home screen, tap Apps > Settings > Device.
2. Tap Toolbox.
3. Tap On/Off to enable the feature.
4. Tap Edit to choose up to five apps to display in Toolbox.
One-Handed Operation

Adjust the screen size and layout for easy control of your device with one hand.

To enable One-handed operation features:

1. From a Home screen, tap Apps > Settings > Device.
2. Tap One-handed operation.
3. Tap On/Off to turn it on or off.
   • When activated, hold the device in one hand and swipe from the midpoint to the left or right edge of the screen to the middle and back, in one quick motion.
Easy Mode

Switch between the default screen layout and a simpler layout. The Easy Mode layout has larger text and icons, making for a more straightforward visual experience.

To enable Easy mode:
1. From a Home screen, tap Apps > Settings > Device.
2. Tap Easy mode, and then tap Easy mode to choose this feature.
   • When Easy mode is enabled, you can swipe down the page and select which apps you want to display on the Home screens.
3. Tap the checkbox next to the apps you want to add or remove.
4. Tap Done to save your settings.

To disable Easy mode:
1. From a Home screen, tap Easy settings.
2. Tap Easy mode > Standard mode.
3. Tap Done to confirm.
Accessibility services are special features that make using the device easier for those with certain physical disabilities.

Note: You can download additional accessibility applications from the Google Play store.

1. From a Home screen, tap Apps > Settings > Device.

2. Tap Accessibility for options:

**Vision**

- **Switch access**: Use this option to control your device using configurable key combinations. Tap On/Off to turn the feature on. Tap Settings for more options.

- **TalkBack**: Speak feedback aloud to help blind and low-vision users. Tap On/Off to turn the feature on. Tap Settings for more options.
  - TalkBack can collect all of the text you enter, except passwords, including personal data and credit card numbers. It may also log your user interface interactions with the device.

- **Dark screen**: Keep the screen turned off at all times for privacy. TalkBack must be enabled in order to configure this option.

- **Rapid key input**: Release your finger to enter selection instead of double tapping. TalkBack must be enabled in order to configure this option.

- **Speak passwords**: Read the characters aloud as you enter your passwords. TalkBack must be enabled in order to configure this option.

- **Font size**: Set the font size.

- **High contrast fonts**: Adjust the color and outline of fonts to increase the contrast with the background.

- **Magnification gestures**: Use exaggerated gestures such as triple-tapping, double pinching, and dragging two fingers across the screen.

- **Notification reminder**: Play a beep when a notification for a call, message, and more, has been missed.

- **Negative colors**: Reverse the display of colors from white text on a black background to black text on a white background.

- **Color adjustment**: Adjust the color of the screen if you are color blind or have difficulty reading the display because of the screen color. Tap Color adjustment for options.

- **Accessibility shortcut**: Quickly enable accessibility features in two quick steps. Tap On/Off to turn the feature on.

- **Text-to-speech options**: Set your preferred TTS engine and options. For more information, see Text-To-Speech Options.

**Hearing**

- **Flash notification**: Set your camera light to blink whenever you receive a notification.

- **Turn off all sounds**: Turn off all notifications and audio for privacy.

- ** Hearing aids**: Improve the sound quality for use with hearing aids.

- **Samsung subtitles (CC)**: Use Samsung subtitles with multimedia files when available.

- **Google subtitles (CC)**: Use Google subtitles with multimedia files when available.

- **Sound balance**: Use the slider to set the left and right balance when using a stereo device.

- **Mono audio**: Switch audio from stereo to mono for use with one earphone.

- **Sound detectors**: Vibrate the device to alert you when a crying baby is detected.
**Dexterity and interaction**

- **Assistant menu**: Improve the device accessibility for users with reduced dexterity.

- **Air wake up**: Wake up your device by waving your hand over the sensor.

- **Press and hold delay**: Select a time interval for this action.

- **Interaction control**: Block areas of the screen from touch interaction. Disable Auto rotate screen and hard key functions. Only show application notifications in the Notification panel and the Status bar.

**More settings**

- **Direct access**: Open your accessibility settings by pressing the Home key quickly three times in succession.

- **Answering and ending calls**: Select shortcuts for answering and ending calls.

- **Single tap mode**: Dismiss or snooze alarms, calendar events, and timer alerts, and answer or reject incoming calls with a single tap.

- **Manage accessibility**: Import and export your accessibility settings and share them with another device.

**Services**

Additional accessibility apps may be downloaded from the Google Play store. Certain accessibility services you install may be configured here.
Private Mode

Hide personal content from being accessed by anyone else using your device.

Private mode is only available for certain applications.

Note: A secure screen lock (Pattern, PIN, or Password) is required to use Private Mode.

Set Up Private Mode

1. From a Home screen, tap Apps > Settings > Device.
2. Tap Private mode.
3. Follow the prompts to learn about and set up Private mode.
You can customize the active key to open your favorite applications.

With the dedicated Active key, you can quickly launch your favorite application with one touch. You can set up your active key to activate different apps depending on a short press or a long press of the Active key.

1. From a Home screen, tap Apps > Settings > Device.
2. Tap Active key.
3. Tap Short press.
   - Select the app that you want to be activated whenever you short press the Active key.
   - Select the app that you want to be activated whenever you long press the Active key.

Note: The Active key can be used to take pictures when your camera is open.
Control certain device actions by picking up the device and by touching the screen with the palm of your hand or turning over the device.

1. From a Home screen, tap Apps > Settings > Controls.
2. Tap Motions and gestures.
3. Tap an option, and then tap On/Off to enable each of the following:

   - **Air browse**: Scroll through pages or lists of items by moving your hand over the sensor in the direction that you would like to scroll.

   - **Direct call**: Call the contact whose call log, message, or contact details are currently on the screen by bringing the device close to your ear.

   - **Smart alert**: Set the device to vibrate when you pick it up to notify you about missed calls and messages.

   - **Mute/pause**: Mute or pause sounds and video by covering the screen or turning over the device.

   - **Palm swipe to capture**: Capture an image of the screen when you sweep your hand left or right across the screen.
Air View

*Preview information, extend text, or enlarge pictures by hovering your finger over the screen.*

1. From a Home screen, tap **Apps > Settings > Controls.**
2. Tap **Air view.**
3. Tap **On/Off** to turn the feature on.
Accounts

Set up and manage accounts, including your Google Account, Samsung account, email, and social networking accounts.

Depending on the account, you can choose to synchronize your calendar, contacts, and other types of content.

Add an Account
You can add and manage all your email, social networking, and picture and video sharing accounts.

1. From a Home screen, tap Apps > Settings > General.
2. Tap Accounts > Add account.
3. Tap one of the account types.
4. Follow the prompts to enter your credentials and set up the account.

Synchronize Accounts
You can synchronize your calendar, contacts, and other types of accounts.

1. From a Home screen, tap Apps > Settings > General.
2. Tap Accounts > [Account type].
3. Tap an account to configure that account’s sync settings.
4. Tap individual data items to sync.
5. Tap More options > Sync all or Sync now to synchronize the account.

Note: Sync options and the location of the sync command differ depending on the account type.

Account Settings
Each account has its own set of settings. In addition, you can configure common settings for all accounts of the same type.

Note: Account settings and available features vary between account types and service providers. Contact your service provider for more information on your account’s settings.

1. From a Home screen, tap Apps > Settings > General.
2. Tap Accounts > [Account type].
3. Tap an account to configure that account’s sync settings.
4. Tap other available options for the account.

Remove an Account
You can remove accounts from your device.

1. From a Home screen, tap Apps > Settings > General.
2. Tap Accounts > [Account type].
3. Tap the account, and then tap More options > Remove account. Confirm when prompted.
Configure your device's Google settings.

Customize Google

To customize your Google settings:

1. From a Home screen, tap Apps > Settings > General.

2. Tap Google, and select an option to customize:
   - Ads: Configure your Google advertising profile.
   - Location: Configure your Google location settings.
   - Nearby: Use your device’s sensors to connect with nearby devices.
   - Search & Now: Configure your Google search settings and Google Now settings.
   - Security: Configure the Android Device Manager and apps security settings.
   - Set up nearby device: Set up another device using Wi-Fi and Bluetooth.

Note: These options may change if you are signed in to your Google Account.
Backup and Reset

**Back up your data to Google servers. You can also reset your device to its factory defaults.**

### Backup and Restore
Enable backup of your information to Google servers.

1. From a Home screen, tap 📲 Apps > 🌐 Settings > General.
2. Tap **Backup and reset** for options:
   - **Back up my data**: Enable back up of application data, Wi-Fi passwords, and other settings to Google servers.
   - **Backup account**: Select a Google Account to be used as your backup account.
   - **Automatic restore**: Enable automatic restoration of settings from Google servers. When enabled, backed-up settings are restored when you reinstall an application.

### Personal Data
Restore your device to its default settings.

### Reset Network Settings
You can reset Wi-Fi, Mobile data, and Bluetooth settings with Reset network settings.

1. From a Home screen, tap 📲 Apps > 🌐 Settings > General.
2. Tap **Backup and reset** > **Reset network settings**.
3. Tap **Reset settings**, and confirm when prompted.

### Factory Data Reset
Return your device to its factory defaults, erasing all data from your device.

This action permanently erases ALL data from the device, including Google or other account settings, system and application data and settings, downloaded applications, as well as your music, photos, videos, and other files. Any data stored on an external SD card is not affected.

To reset your device:

1. From a Home screen, tap 📲 Apps > 🌐 Settings > General.
2. Tap **Backup and reset** > **Factory data reset**.
3. Tap **Reset device** and follow the prompts to perform the reset.
Configure your device's language and input settings.

Language
You can select a default language for your device's menus and keyboards.

1. From a Home screen, tap Apps > Settings > General.
2. Tap Language and input > Language.
3. Select a language from the list.

Default Keyboard
You can select a default keyboard or input method.

1. From a Home screen, tap Apps > Settings > General.
2. Tap Language and input > Default.
3. Select a keyboard.

Note: Additional keyboards can be downloaded from the Google Play store.

Samsung Keyboard
Configure options for using the Samsung keyboard.

1. From a Home screen, tap Apps > Settings > General.
2. Tap Language and input.
3. Tap Samsung keyboard for options:
   - **English(US)**: Set the keyboard type to Qwerty keyboard or 3x4 keyboard.
   - **Select input languages**: Choose which languages are available on the keyboard. To switch between languages, slide the Space bar sideways.
   - **Predictive text**: Predictive text suggests words that match your text entries, and can automatically complete common words. Predictive text can learn your personal writing style from your contacts, messages, Gmail, and social networking sites—improving its accuracy of predicting your text entries.
   - Additional keyboard settings provide assistance with capitalization, punctuation, and much more.

Swype Keyboard
Configure options for using the Swype keyboard.

1. From a Home screen, tap Apps > Settings > General.
2. Tap Language and input.
3. Tap Swype for options:
   - **Settings**: Configure basic options.
   - **Themes**: Change the keyboard layout.
   - **My words**: Manage your personal dictionary, new word updates, as well as how Swype can learn from your writing style in various apps.
   - **Languages**: Set the current language. Additional languages can be downloaded.
   - **Gestures**: Learn about using Swype gestures.
   - **Help**: View information on using Swype.
Google Voice Typing

Speak rather than type your text entries using Google voice typing.

1. From a Home screen, tap Apps > Settings > General.
2. Tap Language and input.
3. Tap Google voice typing for options:
   - Languages: Select languages for Google voice typing.
   - “Ok Google” detection: Launch a Google search whenever you say “OK Google”.
   - Hands-free: Allow requests with the device locked.
   - Speech output: Select options for spoken feedback.
   - Offline speech recognition: Download and install speech recognition engines, allowing you to use voice input while not connected to the network.
   - Block offensive words: Hide recognized offensive voice results.
   - Bluetooth headset: Use audio input from a Bluetooth headset (not included), if one is connected.

Text-To-Speech Options

Configure your Text-to-Speech (TTS) options. TTS is used for various accessibility features, such as TalkBack. For more information, see Accessibility.

1. From a Home screen, tap Apps > Settings > General.
2. Tap Language and input > Text-to-speech options for options:
   - Preferred TTS engine: Choose either the Samsung or Google Text-to-speech engine. Tap Settings next to each TTS engine for options.
   - Speech rate: Set the speed at which the text is spoken.
   - Listen to an example: Play a sample of speech synthesis (available if voice data is installed).
   - Default language status: Display the default language in use.

Read New Notifications Aloud

Set the device to read new notifications aloud for incoming calls, messages, and emails, as well as caller or sender information.

1. From a Home screen, tap Apps > Settings > General.
2. Tap Language and input > Read notifications aloud.
3. Tap the checkbox to enable each option.

Pointer Speed

Configure pointer speed for an optional mouse or trackpad (not included).

1. From a Home screen, tap Apps > Settings > General.
2. Tap Language and input > Pointer speed.
3. Drag the slider to the right to go faster or to the left to go slower.
4. Tap OK to save your setting.
By default, your device receives date and time information from the wireless network.

When you are outside network coverage, you may want to set date and time information manually using the date and time settings.

1. From a Home screen, tap Apps > Settings > General.

2. Tap Date and time. The following options are available:

- **Automatic date and time**: Receive date and time updates from the wireless network.

  When Automatic date and time is disabled, the following options are available:

  - **Set date**: Enter the current date.
  
  - **Set time**: Enter the current time.

- **Automatic time zone**: Receive the time zone from the wireless network.

  When Automatic time zone is disabled, the following option is available:

  - **Select time zone**: Choose your local time zone.

- **Use 24-hour format**: Set the format for displaying time.
Safety Assistance

Receive real-time information about emergencies and severe weather conditions.

You can also enable Emergency mode: a power-conserving mode that restricts certain apps and functions while allowing access to Messages, Contacts, and emergency calls.

**Emergency Mode**

Use Emergency mode to conserve battery power during emergencies. Power-hungry apps and functions are disable, but you are still able to send messages, use Contacts, and make emergency calls.

1. From a Home screen, tap Apps > Settings > General.
2. Tap Safety assistance > Emergency mode.
3. Tap On/Off to turn the feature on.

**Geo News**

Receive information about weather, environmental situations, and geological information for your location during emergencies.

1. From a Home screen, tap Apps > Settings > General.
2. Tap Safety assistance > Geo News.
3. Tap On/Off to turn the feature on.
   - Geo News notification pop-ups: Receive pop-up alerts.

**Send Help Messages**

Send a quick alert to your primary contacts when you are in an emergency situation.

To enable this feature:

1. From a Home screen, tap Apps > Settings > General.
2. Tap Safety assistance > Send help messages.
3. Tap On/Off to turn the feature on and configure the following options:
   - Send pictures: Send photos taken with the front and back cameras to your emergency contacts.
   - Send sound recording: Send a short audio message to your emergency contacts.

To send a help message:

► Press the Power key quickly three times.
Manage Primary Contacts

Select contacts or create new ones to be your emergency contacts. These contacts automatically receive your help message.

1. From a Home screen, tap Apps > Settings > General.
2. Tap Safety assistance > Manage primary contacts.
3. Tap Create primary contact and choose one of the following options:
   - Create contact: Enter a name and phone number for a new emergency contact.
   - Select from contacts: Designate a contact to be an emergency contact.
Configure options when using HDMI audio devices (not included).

1. From a Home screen, tap Apps > Settings > General.

2. Tap Accessories for the following option:
   - **Audio output**: Select a sound output format to use when connecting your device to HDMI devices (not included). Some devices may not support the surround sound setting.
Battery

View how battery power is used for device activities.

1. From a Home screen, tap Apps > Settings > General.

2. Tap Battery for options:

   • **Show battery percentage**: Display the battery charge percentage next to the battery icon on the Status bar.

   • **Battery usage**: View battery usage since the battery was last fully charged.

   • **Detail**: View details on apps that have an abnormal amount of battery usage.

3. Tap **More options** for these options:

   • **Optimize battery usage**: Select apps to optimize battery usage and save battery power.

   • **Refresh**: Update the listing.
Power Saving

Conserve battery power by automatically adjusting the screen brightness, limiting the performance of the CPU, and other power reduction activities.

Ultra power saving mode saves even more battery power by using a gray scale theme on the Home screen and limiting the number of usable apps.

1. From a Home screen, tap Apps > Settings > General.
2. Tap Power saving for options:
   - Power saving mode: Save battery power by limiting your device's performance, limiting vibration feedback, and restricting location services and most background data.
   - Ultra power saving mode: Save battery power by applying a simplified grayscale theme to your Home screen and limiting the number of usable apps.

Note: Tap More options > Help to display more information about conserving power.
View the device memory and usage. Mount, unmount, or format an optional memory card (not included).

Device Memory
View and manage the memory used by the device.

1. From a Home screen, tap Apps > Settings > General.
2. Tap Storage.
3. Tap Internal storage, if an optional SD card is installed. Device storage used out of the total space available is displayed.

   The amounts of memory used are further divided into:
   - **Total space**: The total space in your device’s memory.
   - **Available space**: The amount of storage space currently available.
   - **System memory**: The minimum amount of storage space required to run the system.
   - **Used space**: The amount of storage space currently being used.
   - **Other**: The space used by app data, downloaded files, and Android system files.
   - **Cached data**: The amount of data currently cached.

4. Tap Explore to launch My Files to view content stored on your device.

To increase available memory:
1. From a Home screen, tap Apps > Settings > General.
2. Tap Storage.
3. Tap Internal storage, if an optional SD card is installed.
4. Tap Cached data to clear cached data for all apps.
5. Tap Delete to confirm.

Memory Card (SD Card)
Once an optional memory card (not included) has been installed in your device, the card memory is displayed as part of Total space and Available space.

**Note**: The SD card menu only appears when an optional memory card is installed.

For more information on memory card installation, see Install a Memory Card.

Mount a Memory Card
When you install an optional memory card, it is automatically mounted (connected to the device) and prepared for use. However, should you unmount the card without removing it from the device, you need to mount it before it can be accessed.

1. From a Home screen, tap Apps > Settings > General.
2. Tap Storage > SD card.
3. Tap Mount.
Remove a Memory Card

Warning: To prevent damage to information stored on the memory card, unmount the card before removing it from the device.

1. From a Home screen, tap Apps > Settings > General.
2. Tap Storage > SD card.
3. Tap Unmount.
4. Remove the back cover. For more information, see Remove the Back Cover.
5. Slide the card out carefully.
6. Replace the back cover. For more information, see Replace the Back Cover.

Format a Memory Card

Warning: When formatting an SD card, you should back up your music and photo files that are stored on the card because formatting the SD card deletes all the stored data.

1. From a Home screen, tap Apps > Settings > General.
2. Tap Storage > SD card.
3. Tap Format and follow the prompts.
Secure your device and protect your data with Security settings.

Device Administration

Manage your device administrators and application installation privileges.

1. From a Home screen, tap Apps > Settings > General.
2. Tap Security for options:
   • Device administrators: Add or remove device administrators.
   • Unknown sources: Enable installation of non-Google Play applications.

Warning: Enabling installation of third-party applications can cause your device and personal data to be more vulnerable to attacks by unknown sources.

Encryption

Require a numeric PIN or password to decrypt your device each time you power it on or encrypt the data on a memory card (not included) each time it is connected.

1. From a Home screen, tap Apps > Settings > General.
2. Tap Security for options:
   • Encrypt device: Encrypt all data on your device.
   • Encrypt SD card: Encrypt data on a memory card (not included).

Find My Mobile

Protect your device from loss or theft allowing your device to be locked, tracked, and for your data to be deleted remotely.

► To access your device remotely, visit findmymobile.samsung.com.

Note: You must sign up for a Samsung account and enable Google location service to use Find My Mobile.

1. From a Home screen, tap Apps > Settings > General.
2. Tap Security.
3. Under Find my mobile, the following options are available:
   • Remote controls: Lock and erase your data remotely if your device is lost or stolen.
   • SIM change alert: Prevent unauthorized changes to your SIM card by being alerted whenever an app or service attempts to change data on your SIM card.
   • Go to website: Launch the Find My Mobile website.
   • Reactivation lock: Use your Samsung account to stop anyone from reactivating your device without your permission.
## Set Up/Change Password

Protect your device from being reset accidentally by requiring a special password before it can be reset to its factory defaults.

1. From a Home screen, tap 📱 Apps > ⚙ Settings > General.
2. Tap Security.
3. Tap Set up/change password and follow the prompts.

## SIM Card Lock

Require both your SIM card PIN and your ordinary screen lock type when unlocking the device.

1. From a Home screen, tap 📱 Apps > ⚙ Settings > General.
2. Tap Security.
3. Tap Set up SIM card lock and follow the prompts.
4. Tap Lock SIM card to enable the feature.
5. Tap Change SIM PIN to create a new PIN.

## Passwords

Display password characters briefly as you type them.

1. From a Home screen, tap 📱 Apps > ⚙ Settings > General.
2. Tap Security > Make passwords visible to turn the feature on.

## Security Update Service

Automatically receive security updates.

1. From a Home screen, tap 📱 Apps > ⚙ Settings > General.
2. Tap Security for options:
   - **Security policy updates**: Automatically or manually check for security policy updates.
   - **Send security reports**: Send security reports to Samsung using Wi-Fi for threat analysis.

## Credential Storage

Manage your security certificates. If a certificate authority (CA) certificate gets compromised or for some other reason you do not trust it, you can disable or remove it.

1. From a Home screen, tap 📱 Apps > ⚙ Settings > General.
2. Tap Security for options:
   - **Storage type**: Select a storage location for credential contents.
   - **Trusted credentials**: Display certificates in your device’s ROM and other certificates you have installed.
   - **Install from device storage**: Install a new certificate from storage.
   - **Clear credentials**: Erase the credential contents from the device and reset the password.
Advanced Security

Protect your device with these advanced security options.

1. From a Home screen, tap Apps > Settings > General.

2. Tap Security for options:

   - **Trust agents**: Perform selected actions when trusted devices are connected.
     - To view Trust agents, set up a secured screen lock (Password, PIN, or Pattern). For more information, see Set a Screen Lock.

   - **Pin windows**: Pin a specific app on your device screen. Follow the prompts.

   - **Usage data access**: View the applications that can access your device's usage history.

   - **Smart Lock**: Set your device to stay unlocked when you have trusted devices connected or when it's in a trusted place.
     - To view Smart Lock, set up a secured screen lock (Password, PIN, or Pattern). For more information, see Set a Screen Lock.

   - **Do not disturb permission**: View which apps have permission to change the Do not disturb settings.
View tips and guidelines for using your device.

1. From a Home screen, tap Apps > Settings > General.

2. Tap Help for information about:
   - New features
   - Getting started
   - Applications
   - Settings

3. Tap Sort by category to sort the topics by category or alphabetically.

4. Tap Search to search for a topic.
About Device

View information about your device, including current status, legal information, hardware and software versions, and more.

1. From a Home screen, tap Apps > Settings > General.

2. Tap About device, and then tap items for more details:

   - **Software updates**: Check for software updates.
   - **Status**: View the status of the battery, network, and other information about your device.
   - **Legal information**: View legal notices and other legal information, including your embedded Samsung legal information.
   - **Report diagnostic info**: Consent to send diagnostic and usage data about your phone to Samsung.
   - **Device name**: View and change your device's name.
   - Additional device information includes the Model number, Android version, Build number, and more.
You can download and install new applications on your device. Use Application manager settings to manage your downloaded and preloaded applications.

Warning: Because this device can be configured with system software not provided by or supported by Google or any other company, you operate this software at your own risk.

Application Manager Options

If you have disabled apps, you can choose whether to display them.

1. From a Home screen, tap Apps > Settings > Apps.
2. Tap Application manager.
3. If you have disabled applications:
   - Tap All apps at the top left of the screen.
   - Tap All apps, Enabled, or Turned off.
4. Tap More options for the following options:
   - Memory: View memory usage information.
   - Show/Hide system apps: Show or hide system (background) apps.
   - App permissions: Control which apps have permissions to use certain features of your device.
   - Apps that can appear on top: Choose apps that can run on top of other running apps.
   - Change system settings: Select which apps can change system settings.
   - Reset app preferences: Reset options that have been changed. Existing app data is not deleted.

Manage Apps

You can view and update information about an application, including memory usage, default settings, and permissions.

1. From a Home screen, tap Apps > Settings > Apps.
2. Tap Application manager.
3. Tap an application to view and update information about the application. The following options are displayed:
   - Uninstall/Disable: Uninstall or disable the application. Preloaded apps can only be disabled.
   - Force stop: Stop an app that is misbehaving. Restart your device if stopping an app, process, or service causes your device to stop working correctly.
   - Storage: Manage the app’s storage usage.
   - Data usage: View mobile data usage.
   - Permissions: View permissions granted to the app for access to your device’s information.
   - Notifications: Configure notifications from the app.
   - Set as default: Set the app as a default for a certain category of apps.
   - Battery: View battery usage since the last full charge.
   - Memory: View memory usage.

Note: Options may vary by application.
If you have multiple applications of the same type, such as email apps, you can select one app to be the default.

You can also use a simpler Home screen that provides an easier user experience for first-time smartphone users.

1. From a Home screen, tap Apps > Settings > Apps.
2. Tap Default applications.
3. Tap the following to choose default apps:
   - **Browser app**: Choose a default browser app.
   - **Calling app**: Choose a default calling app.
   - **Messaging app**: Choose a default messaging (text and multimedia) app.
   - **Set as default**: Choose default apps for other functions.
   - **Home**: Choose a Home screen type.
   - **Device assistance app**: Choose an app that provides assistance for using your device.
Shortcuts to the settings for various apps are available in one convenient location.

1. From a Home screen, tap Apps > Settings > Apps.

2. Tap one of the following to display the settings for the selected app:
   - Calendar
   - Call
   - Contacts
   - Email
   - Gallery
   - Internet
   - Messages
   - S Voice
