- You can download these programs from www.samsung.com/gear360.
- The Gear 360 ActionDirector program provides the video editing feature.

Safety information

Read all safety information before using the device to ensure safe and proper use.

Warning

Follow the warning information provided below to prevent incidents such as the fire.

- Do not touch the device with wet hands. Also, do not use the device in humid environments, such as near swimming pools or water-based activities, such as surfing.
- If any part of the device is cracked or broken, stop using the device immediately.

Follow the warnings below to prevent injury to people or damage to the device.

1. Do not allow children or animals to chew or suck the device.
2. Do not drop or step on the device.
3. Do not use the device in humid environments, such as near swimming pools or water-based activities, such as surfing.
4. Do not immerse the device in water.
5. Do not use the device in wet areas or in the rain.
6. Do not leave the device near or in heaters, microwaves, hot cooking equipment, or high frequencies.
7. Do not use the device outdoor during a thunderstorm.
8. Do not expose the device to direct sunlight.
9. Do not use the device in extremely cold or hot environments.
10. Do not expose the device to high humidity or corrosive environments.
11. Do not expose the device to places with high pressure.
12. Do not expose the device to extreme temperatures.
13. Do not expose the device to extreme altitudes.
14. Do not expose the device to extreme vibrations.
15. Do not expose the device to extreme mechanical shocks.
16. Do not expose the device to strong magnetic fields.
17. Do not expose the device to extreme electromagnetic fields.
18. Do not expose the device to extreme radioactivity.
19. Do not expose the device to extreme ultraviolet radiation.
20. Do not expose the device to extreme ionizing radiation.
21. Do not expose the device to extreme cosmic radiation.
22. Do not expose the device to extreme space radiation.
23. Do not expose the device to extreme nuclear radiation.
24. Do not expose the device to extreme sound radiation.
25. Do not expose the device to extreme seismic radiation.
26. Do not expose the device to extreme solar radiation.
27. Do not expose the device to extreme lunar radiation.
28. Do not expose the device to extreme galactic radiation.
29. Do not expose the device to extreme interstellar radiation.
30. Do not expose the device to extreme intergalactic radiation.
31. Do not expose the device to extreme extragalactic radiation.
32. Do not expose the device to extreme interplanetary radiation.
33. Do not expose the device to extreme interstellar radiation.
34. Do not expose the device to extreme intergalactic radiation.
35. Do not expose the device to extreme extragalactic radiation.
36. Do not expose the device to extreme interstellar radiation.
37. Do not expose the device to extreme intergalactic radiation.
38. Do not expose the device to extreme extragalactic radiation.
39. Do not expose the device to extreme interstellar radiation.
40. Do not expose the device to extreme intergalactic radiation.
41. Do not expose the device to extreme extragalactic radiation.
42. Do not expose the device to extreme interstellar radiation.
43. Do not expose the device to extreme intergalactic radiation.
44. Do not expose the device to extreme extragalactic radiation.
45. Do not expose the device to extreme interstellar radiation.
46. Do not expose the device to extreme intergalactic radiation.
47. Do not expose the device to extreme extragalactic radiation.
48. Do not expose the device to extreme interstellar radiation.
49. Do not expose the device to extreme intergalactic radiation.
50. Do not expose the device to extreme extragalactic radiation.

FCC Warning Statement

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

FCC Part 15.211

Any changes or modifications (including the addition of accessories) made to this device that are not expressly approved by the manufacturer may void the user’s authority to operate the equipment.

Part 15.105 (b)

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Modifications not expressly approved by the manufacturer could void the user’s authority to operate the equipment under FCC rules.
