Special Features

Learn about your mobile device’s special features.
Users
Share this tablet with multiple people by creating User accounts.
For more information, see “Users” on page 132.

Media Volume Limiter
Limit the maximum output of the device’s volume.
For more information, see “Media Volume Limiter” on page 98.

Multi Window
Multitask by using two applications at the same time.
For more information, see “Multi Window” on page 23.

Smart Stay
Prevent screen timeout for extended viewing sessions through facial detection with the front camera.
For more information, see “Smart Stay” on page 108.
Getting Started

Learn about your mobile device hardware, assembly procedures, and how to get started using your new device.
Set Up Your Device

Learn how to set up your device for the first time.
Assemble Your Device

Install a SIM card and an optional memory card (not included), and charge your device before using.

Install the SIM Card

When you subscribe to a cellular network, you are provided with a SIM card. You may be able to use your previous SIM card. Contact your service provider for more details.

Warning: Small components such as SIM cards can pose a choking risk. Please be careful when handling these cards to avoid damaging them.

1. With the tablet’s screen facing up, locate and open the SIM card slot cover.
2. Carefully slide the SIM card into the SIM card slot (as shown) until it clicks into place.
3. Close the SIM card slot cover.
Install a Memory Card

You can also install an optional microSD™ memory card (not included) to add more memory space to your device. A memory card can be installed at any time. It is not necessary to install it prior to using the device.

**Warning**: Small components such as memory cards can pose a choking risk. Please be careful when handling these cards to avoid damaging them.

1. With the tablet’s screen facing up, locate and open the memory card slot cover and turn to expose the slot.
2. Carefully slide the memory card into the memory card slot (as shown) until it clicks into place.
3. Close the memory card slot cover.

Charge the Battery

Your device is powered by a rechargeable battery. A charging head and USB cable are included with the device for charging the battery from any standard outlet.

The battery comes partially charged. You can use the device while charging.

**Caution**: Use only charging devices that are approved by Samsung. Samsung accessories are designed for your device to maximize battery life. Using other accessories may void your warranty and may cause damage.
1. Insert the USB cable into the USB charger/Accessory port.

2. Connect the USB cable to the charging head, and then plug the charging head into a standard outlet.

3. Unplug the charging head from the outlet and remove the USB cable from the device when charging is complete.

While charging, the device and the charger may become hot. This does not affect the device’s lifespan or performance and is in the device’s normal range of operation.

The charger may stop charging if the battery becomes too hot.

If the device heats up while charging the battery:

1. Disconnect the charger from the device and close any running apps.

2. Wait for the device to cool down, and then begin charging the device again.

   - If the lower part of the device overheats, check for damage to the connected USB cable. Replace the damaged USB cable with a new Samsung-approved cable.
Start Using Your Device

Turn Your Device On or Off
The instructions below explain how to turn your device on or off.

To turn the device on:
► Press and hold the Power key until the device turns on.

To turn the device off:
1. Press and hold the Power key.
2. Tap Power off, and confirm when prompted.

Use the Setup Wizard
The first time you turn your device on, the Setup Wizard guides you through the basics of setting up your device.

Follow the prompts to choose a default language, connect to a Wi-Fi® network, set up accounts, choose location services, learn about your device’s features, and more.

Lock or Unlock Your Device
Use your device’s screen lock features to secure your device. By default, the device locks automatically when the screen times out.

To lock the device:
► Press the Power key.

The default Screen lock on your device is Swipe. To choose a more secure screen lock, see “Set a Secure Screen Lock” on page 122.
To unlock the device:

► Press the **Power** key or **Home** key, and then drag your finger across the screen.

### Add a Google Account

Your new device uses your Google™ Account to fully utilize its Android™ features.

1. From a Home screen, swipe up to access **Apps**.
2. Tap **Settings > Cloud and accounts > Accounts**.
3. Tap **Add account > Google**.

**Note:** When you sign in to a Google Account, Factory Reset Protection (FRP) is activated. FRP requires your Google Account information when resetting to factory settings. For more information, see “**Factory Reset Protection**” on page 119.

### Add a Samsung Account

Create a Samsung account for access to Samsung content and apps on your device.

1. From a Home screen, swipe up to access **Apps**.
2. Tap **Settings > Cloud and accounts > Accounts**.
3. Tap **Add account > Samsung account**.

### Add an Email Account

View and manage all of your email accounts.

1. From a Home screen, swipe up to access **Apps**.
2. Tap **Settings > Cloud and accounts > Accounts**.
3. Tap **Add account > Email**.
Learn About Your Device

Learn About Your Device

Devices and software are constantly evolving — the illustrations you see here are for reference only.
Navigation
Learn the basics for navigating through your device.

Touchscreen Navigation
Please note that a touchscreen responds best to a light touch from the pad of your finger or a capacitive stylus. Using excessive force or a metallic object on the touchscreen may damage the tempered glass surface and void the warranty.

Tap
Lightly tap items to select or launch them.
- Tap the keyboard to enter characters or text.
- Tap an item to select it.
- Tap an app shortcut to launch the application.

Double-Tap
Lightly tap items twice to select or launch them.
- Double-tap an image to zoom in or out.

Touch and Hold
Touch and hold items on the screen to activate them.
- Touch and hold a field to display a pop-up menu of options.

Swipe
Lightly drag your finger vertically or horizontally across the screen.
- Swipe the screen to unlock the device.
- Swipe the screen to scroll through the Home screens or menu options.
Drag
Touch and hold an item, and then move it to a new location.
• Drag an app shortcut to add it to a Home screen.
• Drag a widget to place it in a new location on a Home screen.

Pinch and Spread
Pinch the screen using your thumb and forefinger or spread by moving your fingers apart.
• Pinch the screen to zoom out while viewing a picture or a web page.
• Spread your fingers on the screen to zoom in while viewing a picture or a web page.

Common Options
Many of the following common options are usually available on various screens:
• More options: Tap to view more menu options for a screen. This often allows you to select items to delete or share.
• Delete: Tap to select items to delete.
• Share: Tap to select items to share, and then choose a sharing method.
• Edit: Tap to customize the screen.
• On/Off: Tap to turn the option on (_on) or off (_off).
• Menu: Tap to view available options for the field.
Home Screen

Devices and software are constantly evolving — the illustrations you see here are for reference only.
Status Bar
The Status bar at the top of a Home screen provides device information on the right side and notification alerts on the left.

Status Icons
- Battery full
- Battery low
- Battery charging
- Vibrate mode
- Mute mode
- 4G LTE™ active
- Signal strength
- Network not available
- Wi-Fi active
- GPS active

Notification Icons
- New email
- New Gmail™
- File download in progress
- File upload in progress
- Wi-Fi available
- App updates available
- App updates complete
Customize Your Home Screen

Screens
Your device comes with multiple Home screens to hold app shortcuts and widgets. You can add, remove, change the order of screens, as well as choose a different main Home screen.

1. From a Home screen, pinch the screen.
2. Use these options to manage screens:
   - To align shortcuts into a line at the top of a screen, tap Align top.
   - To align shortcuts into a line at the bottom of a screen, tap Align bottom.
   - To remove a Home screen, tap Remove.
   - To set a screen as the main Home screen, tap Main. This screen is displayed when you press the Home key.
   - To change the order of screens, touch and hold a screen, and then drag it to a new position.
   - To add a screen, swipe to the end of the screens, and then tap Add.
   - To find the Flipboard Briefing screen, swipe to the left of the screens. To activate this feature, tap On/Off at the top of the screen.

App Shortcuts
You can use app shortcuts to launch an app from any Home screen.

To add a shortcut:
1. From a Home screen, swipe up to access Apps.
2. Touch and hold an app shortcut to open the options menu.
3. Tap Add shortcut to home.
To remove a shortcut:
1. Touch and hold an app shortcut to open the options menu.
2. Tap Remove shortcut.
   • Removing a shortcut does not delete the app, it just removes the shortcut from a Home screen.

To move a shortcut from one Home screen to another:
1. Touch and hold an app shortcut to release it.
2. Drag the app shortcut to a new Home screen, and then release it.

Use Folders
You can organize App shortcuts in folders on an Apps list screen and Home screen.

For more information, see “Create and Use Folders” on page 31.

Wallpapers
Change the look of the Home and Lock screens with wallpaper. You can display a favorite picture or choose from preloaded wallpapers.
1. From a Home screen, pinch the screen.
2. Tap Wallpapers to customize.
3. Tap From Gallery to see additional wallpaper images.
4. Tap an image to choose it, and then select which screen you want to use it for.
5. Tap Set as wallpaper.
**Widgets**

Widgets are simple application extensions that run on a Home screen.

To add a widget to a Home screen:

1. From a Home screen, pinch the screen.
2. Tap **Widgets**.
3. Touch and hold a widget, drag it to a Home screen, and release it.

To remove a widget from a Home screen:

1. From a Home screen, touch and hold a widget to open the options menu.
2. Tap **Remove**.

**Home Screen Settings**

Customize your Home and Apps screens.

1. From a Home screen, pinch the screen.
2. Tap **Home screen settings** to customize:
   - **Home screen layout**: Set your device to have a Home and Apps screen, or only a Home screen where all apps are located.
   - **Apps button**: Add an apps button to the Home screen for easy access to the Apps screen.
   - **Quick-open notification panel**: Swipe down to open the notification panel from a Home screen.
   - **Hide apps**: Select apps to hide.
   - **About Home screen**: View version information.

**Notification cards**

Learn About Your Device
View the Notification Panel

You can access the Notification panel from any screen.

1. Drag the Status bar down to display the Notification panel.
   - To open an item, tap it.
   - To clear a single notification, drag the notification left or right.
   - To clear all notifications, tap Clear all.

2. Drag upward from the bottom of the screen or tap Back to close the Notification panel.

Quick Settings

The Notification panel provides quick access to device functions, allowing you to quickly turn them on or off.

1. Drag the Status bar down to display the Notification panel.

2. Drag View all downward.
   - Tap a setting to turn it on or off.
   - Tap More options to reorder Quick settings or to change the button layout.

3. Drag View all upward to close Quick settings.
Multi Window

Multitask by using two applications at the same time. Apps that support Multi window can be displayed together on a split screen. You can switch between the apps and adjust the sizes of their windows.

1. From any screen, touch and hold Recent apps.

2. Tap Multi window in the title bar to launch an application in split screen view.
   - Recently opened apps are displayed in the lower window. Apps that support Multi window have the Multi window icon in their title bar.
   - If there are no recently opened apps that support Multi window, or if you want to launch a different app, tap App list.

3. Tap an app in the lower window to add it to the split screen view.

Devices and software are constantly evolving — the illustrations you see here are for reference only.
Window Controls
The Window controls modify the way app windows are displayed in split screen view.

- Tap the middle of the window border to display the following options:
  - 🔄 **Switch windows**: Swap the two windows.
  - ✗ **Close app**: Close the selected app.

Split Screen View Action
The Recent apps key can be configured to switch between full screen view and split screen view.

1. From a Home screen, swipe up to access **Apps**.
2. Tap **Settings** > **Advanced features** > **Multi window**, and then tap **On/Off** to enable **Split screen view action**.
   - To change the current app from full screen view to split screen view, touch and hold **Recent apps**.
   - While in split screen view, touch and hold **Recent apps** to close the app on the bottom.
Enter Text
Text can be entered using either an on-screen keyboard or your voice.

Option Keys
Use these special keys when entering text.

- From the Samsung keyboard, touch and hold the Options key for the following:
  - **Voice input**: Enter text using Google Voice™ typing.
  - **Handwriting**: Use your handwriting to enter text.
  - **Emoticon**: Insert an emoticon.
  - **Keyboard types**: Change the layout of the keyboard.
  - **Keyboard settings**: Access keyboard settings.

**Note**: The Options key displays the last option used.

- Tap a text field to display the Samsung keyboard.
  - Tap **Symbol** to insert symbols.
  - Touch and hold **Control** for quick access to cut (x), copy (c), paste (v), undo (z), redo (y), and select all (a).

Learn About Your Device 25
Configure the Samsung Keyboard

Set customized options for the Samsung keyboard.

1. From the Samsung keyboard, touch and hold the Options key.

2. Tap Keyboard Settings for options:
   
   • **Languages and types**: Set the keyboard type and choose which languages are available on the keyboard.
     
     To switch between languages, slide the Space bar sideways.
   
   • **Smart typing**: Use predictive text and auto-correction features to prevent common typing mistakes. Type by swiping between letters.

   • **Customization**: Use alternative characters, text shortcuts, change the keyboard size, or use a high contrast keyboard.

   • **Other settings**: Reset keyboard settings, clear personalized data, and view information about the Samsung keyboard.
Use Google Voice Typing
Instead of typing, enter text by speaking.

1. From the Samsung keyboard, tap Voice input.
2. Tap the screen and speak your text.

Configure Google Voice Typing
Set customized options for Google Voice typing.

1. From a Home screen, swipe up to access Apps.
2. Tap Settings > General management > Language and input > On-screen keyboard > Google voice typing.
   - Languages: Select languages for Google voice typing.
   - “Ok Google” detection: Launch a Google search whenever you say “OK Google.”
   - Hands-free: Allow requests with the device locked.
   - Speech output: Select options for spoken feedback.
- **Offline speech recognition**: Download and install speech recognition engines, allowing you to use voice input while not connected to the network.

- **Block offensive words**: Hide search results that contain offensive words.

- **Bluetooth headset**: Use audio input from a Bluetooth® headset (not included) if one is connected.
Learn how to change the way apps are displayed, organize apps into folders, and install, uninstall, or disable apps.
Use Apps

The Apps list displays all preloaded and downloaded apps. You can uninstall, disable, or hide apps from view.

Access Apps

Access and launch all applications from the Apps list.

1. From a Home screen, swipe up to access Apps.
2. Tap an app’s shortcut to launch it.
   * To return to the main Home screen, press the Home key.

Add an Apps Shortcut

In addition to swiping to access apps, you can add an Apps button to the Home screen.

1. From a Home screen, swipe up to access Apps.
2. Tap More options > Settings > Apps button.
3. Tap Show Apps button > Apply.

Galaxy Essentials

View and download Samsung apps that are optimized for use with Galaxy devices.

1. From a Home screen, swipe up to access Apps.
2. Tap More options > Galaxy Essentials.

Uninstall or Disable Apps

Uninstall or disable apps you download and install.

1. From a Home screen, swipe up to access Apps.
2. Touch and hold an app to open the options menu.
   * To uninstall an app, tap Uninstall.
   * To disable an app, tap Disable.

Note: Some preloaded apps can only be disabled, not uninstalled. Apps that are disabled are turned off and hidden from view.
Sort Apps
App shortcuts can be listed alphabetically or in your own custom order.

1. From a Home screen, swipe up to access Apps.
2. Tap More options > Sort.
   - Alphabetical order: Sort apps alphabetically.
   - Custom order: Arrange apps manually.
   - To remove empty spaces between apps, tap More options > Clean up pages.

Create and Use Folders
Create a folder to organize App shortcuts on an Apps list screen.

1. From a Home screen, swipe up to access Apps.
2. Touch and hold an app shortcut, and then drag it on top of another app shortcut until it is highlighted.
3. Release the app shortcut to create the folder.
   - Enter folder name: Name the folder.
   - Palette: Change the folder color.
   - Add apps: Place more apps in the folder. Tap apps to select them, and then tap Add.
4. Tap Back to close the folder.
Copy a Folder to a Home Screen
Create a folder and copy it to a Home screen.
1. From a Home screen, swipe up to access Apps.
2. Touch and hold a folder, and then drag it to the top or bottom of the screen.
3. Drag the folder to the desired location on the Home screen, and then release it.

Delete a Folder
When you delete a folder, the app shortcuts are returned to the Apps list screen.
1. From a Home screen, swipe up to access Apps.
2. Touch and hold a folder to delete.
3. Tap Delete folder, and confirm when prompted.

Apps Settings
Manage your downloaded and preloaded apps.
1. From a Home screen, swipe up to access Apps.
2. Tap Settings > Apps.
3. Tap Menu to set which apps to view, and then choose All apps, Enabled, or Disabled.
4. Tap More options for the following options:
   - Sort by size/name: Sort the apps by size or name.
   - Default apps: Choose or change apps that are used by default for certain features, like email or browsing the Internet.
   - App permissions: Control which apps have permissions to use certain features of your device.
• **Show/Hide system apps**: Show or hide system (background) apps.

• **Special access**: Select which apps can have special access permissions to features on your device.

• **Reset app preferences**: Reset options that have been changed. Existing app data is not deleted.

5. Tap an app to view and update information about the app. The following options may be displayed:

• **Uninstall/Disable**: Uninstall or disable the app. Preloaded apps can only be disabled.

• **Force stop**: Stop an app that is not working correctly.

• **Mobile data**: View mobile data usage.

• **Battery**: View battery usage since the last full charge.

• **Storage**: Manage the app’s storage usage.

• **Memory**: View memory usage.

• **Notifications**: Configure notifications from the app.

• **Permissions**: View permissions granted to the app for access to your device’s information.

• **Set as default**: Set the app as a default for a certain category of apps.
Calculator

The Calculator provides basic and advanced arithmetic functions.

1. From a Home screen, swipe up to access Apps.

2. Tap 📚Calculator, and enter the first number using the numeric keys.

3. Tap the appropriate arithmetic function key, and enter the next number.

4. Tap ❌Equals to view the result.

5. Tap 🗑Clear to clear the results.

View Calculator History

View and clear your Calculator history.

1. From a Home screen, swipe up to access Apps.

2. Tap 📚Calculator.
   - To view all Calculator history, swipe up or down on the history area of the screen.
   - To clear the Calculator history, tap Clear history.
Calendar View

There are several ways the calendar can be viewed.

1. From a Home screen, swipe up to access Apps.

2. Tap Calendar > View, and then tap an option:
   - **Year**: Display all twelve months of this year. Swipe across the screen to display another year.
   - **Month**: Display the current month. Swipe across the screen to display another month. Events and tasks are also displayed.
   - **Week**: Display the current week. Swipe across the screen to display another week.
   - **Day**: Display today's schedule by hour. Swipe across the screen to display another day.
   - **Tasks**: Display all tasks.

3. Tap Today to return to the current date.
Create an Event
Use your Calendar to create events.
1. From a Home screen, swipe up to access Apps.
2. Tap Calendar > + Add to add an event.
3. Enter details for the event, and then tap Save.

Share an Event
Share events from your Calendar.
1. From a Home screen, swipe up to access Apps.
2. Tap Calendar, tap an event, and tap again to edit it.
3. Tap Share, choose a sharing method, and follow the prompts.

Delete an Event
Delete events from your Calendar.
1. From a Home screen, swipe up to access Apps.
2. Tap Calendar, tap an event, and tap again to edit it.
3. Tap Delete, and confirm when prompted.

Create a Task
Use your Calendar to create tasks. Tasks are items you add to the calendar to be accomplished on a certain day. A task is displayed as a checklist item and is removed once you mark the task as complete.
1. From a Home screen, swipe up to access Apps.
2. Tap Calendar > View > Tasks.
3. Tap + Add to add a task.
4. Enter details for the task, and then tap Save.
Delete a Task
Delete tasks from your Calendar.

1. From a Home screen, swipe up to access Apps.
2. Tap Calendar, and tap a day on the calendar to view the tasks for the day, or tap View > Tasks.
3. Tap the Checkbox by the task to mark it as complete and remove it from the calendar.
   • To delete a task, tap the task to open it, tap Delete, and confirm when prompted.

Calendar Settings
Use Calendar settings to customize your calendar.

1. From a Home screen, swipe up to access Apps.
2. Tap Calendar > More options > Settings.
3. Tap an option and follow the prompts.
Camera and Video

- Settings
- Gallery
- Take a picture
- Record video
- Switch cameras
- Modes, camera, or effects

Devices and software are constantly evolving — the illustrations you see here are for reference only.
**Take Pictures**

Take pictures with your device’s front or rear camera.

1. From a Home screen, swipe up to access Apps.
2. Tap 📸 Camera.
3. Use the display screen as a viewfinder by aiming the camera at the subject. While composing your picture, use the available options or these gestures:
   - To focus the shot, tap the screen. When you tap the screen, a brightness scale is displayed. Slide the light bulb up or down to adjust the brightness.
   - To add an effects filter, swipe to the left and tap a filter to apply it to the screen.
   - To add a shooting mode, swipe to the right and select a mode.
   - To quickly switch between the front and rear cameras, swipe the screen up or down.
4. Tap 📷 Take a picture.

**Record Videos**

Record high-quality videos using your device.

1. From a Home screen, swipe up to access Apps.
2. Tap 📸 Camera and aim the camera at your subject.
3. Tap 🔴 Record to begin recording a video.
   - To temporarily stop recording, tap 🕳️ Pause. To continue recording, tap 🔴 Resume.
4. Tap ■ Stop when you are finished recording.
Configure Shooting Mode

Allow the camera to determine the ideal mode for your pictures or choose from several shooting modes.

1. From a Home screen, swipe up to access Apps.

2. Tap 📷 Camera, and swipe to the right to display the Mode options. Each section indicates which camera (front or rear) the modes are available for, and which options are common to both.

Rear camera
- **Auto**: Allow the camera to determine the ideal mode for the picture.
- **Pro**: Manually adjust the ISO sensitivity, exposure value, white balance, and color tone while taking pictures.
- **Panorama**: Create a linear image by taking pictures in either a horizontal or vertical direction.

Front camera
- **Selfie**: Take selfie shots and apply various effects, such as an airbrushed effect.

Common
- **More options**: See more options for the camera modes.
- **Sound & shot**: Enrich your pictures by adding background sounds for a few seconds.
- **Continuous shot**: Touch and hold the Camera button to take pictures continuously.
- **Beauty face**: Enhance facial features automatically when taking pictures.
- **Sports**: Take fast action photos.
Camera Settings

Use the icons on the main camera screen and the settings menu to configure your camera’s settings.

1. From a Home screen, swipe up to access Apps.

2. Tap Camera > Settings.

Rear camera
- **Picture size**: Select a resolution. Selecting a higher resolution for higher quality requires more memory.

- **Video size**: Select a resolution. Selecting a higher resolution for higher quality requires more memory.

- **Timer**: Take time-delayed pictures or videos.

Front camera
- **Picture size**: Select a resolution. Selecting a higher resolution for higher quality requires more memory.

- **Save pictures as previewed**: Save self-portraits or self-recordings as viewed on the camera screen, not as flipped images.

- **Shooting methods**:
  - **Tap screen**: Tap the screen to take selfies.
  - **Show palm**: Hold the palm of your hand toward the camera to have your picture taken in a few seconds.

- **Timer**: Take time-delayed pictures or videos.

Common
- **Full screen view (16:9)**: Preview pictures and videos using the full screen.

- **Grid lines**: Display viewfinder grid lines to help composition when selecting subjects.

- **Location tags**: Attach a GPS location tag to the picture.

- **Review pictures**: Set to show pictures after taking them.
• **Storage location**: Select the memory location for storage.

  - A memory card (not included) must be installed to view Storage location. For more information, see “Install a Memory Card” on page 6.

• **Floating camera button**: Add an extra camera button that you can move anywhere on the screen in Auto and Selfie modes.

• **Volume key function**: Use the Volume key to take pictures, record video, zoom, or control system volume.

• **Reset settings**: Reset the camera settings.

• **Help**: View information on using the camera.
Clock

The Clock app offers features for keeping track of time and setting alarms.

1. From a Home screen, swipe up to access Apps.
2. Tap Clock, and tap a tab to use a feature.

Alarm

Use the Alarm tab to set one-time or recurring alarms, and choose options for how to be notified.

1. From a Home screen, swipe up to access Apps.
2. Tap Clock > Add alarm.
3. Tap the following items to configure an alarm:
   - Date: Choose the day for this alarm.
   - Time: Set a time for the alarm.
4. Tap Save to save the alarm.

- Repeat: Choose when to repeat the alarm.
- Alarm name: Enter a name for the alarm.
- Snooze: Allow snoozing. Set interval and repeat values for the alarm while snoozing.
- Alarm tone and volume: Choose a sound to play for the alarm, and drag the slider to set the volume of the alarm.
- Vibration: Choose whether the alarm uses vibration alert.
- Read time aloud: Read the time aloud when the alarm rings.
Turn Off Alarm
At the set alarm time, the device sounds the alarm and/or vibrates.

- To stop an alarm, tap **Dismiss**, or swipe **Dismiss** to the left or right.
- To postpone the alarm, tap **Snooze**.

Delete an Alarm
Delete an alarm that you created.

1. From a Home screen, swipe up to access **Apps**.
2. Tap **Clock**, and find the alarm in the alarm list (under **Alarm**), and then touch and hold it to select it.
3. Tap **Delete**.

World Clock
The World clock lets you keep track of the time in multiple cities around the world.

To list a city on the World clock screen:

1. From a Home screen, swipe up to access **Apps**.
2. Tap **Clock > World clock > Add city**.
3. Tap a city, or tap **Search** for more cities.
4. Tap **Add** to add the city to your World clock.
   - To remove a city, touch and hold it, and tap **Delete**.
Stopwatch
Time events down to a hundredth of a second.

1. From a Home screen, swipe up to access Apps.
2. Tap 🕒 Clock > Stopwatch.
3. Tap Start to begin timing.
   - To keep track of lap times, tap Lap.
4. Tap Stop to end timing.
   - To continue timing after stopping the clock, tap Resume.
   - To reset the Stopwatch to zero, tap Reset.

Timer
The Timer provides a countdown timer for up to 99 hours, 59 minutes, and 59 seconds.

1. From a Home screen, swipe up to access Apps.
2. Tap 🕒 Clock > Timer.
3. Use the keypad and tap Hours, Minutes, and Seconds to set the length of the Timer.
4. Tap Start to begin the Timer.
   - To temporarily stop the Timer, tap Pause. To continue timing after pausing, tap Resume.
   - To stop and reset the Timer, tap Cancel.
Contacts

Store and manage your contacts. You can synchronize with personal accounts added to your device. For more information, see “Add an Account” on page 130.

Add a Contact

Use the following procedure to add a new contact.

1. From a Home screen, swipe up to access Apps.

2. Tap Contacts > + Create contact, and then tap contact fields to enter information.
   - Choose a storage location for the contact. You can store the contact on the device or sync it with an account.
   - Tap Contact photo to assign a picture or an animated GIF to the new contact.

3. Tap Save.

   - Enter a name and other contact information.
     - Tap + Add field to enter additional entries.
     - Tap - Remove field to remove an entry.
     - Tap View more for additional fields.
     - Tap the label to the right of an entry to choose a label for the field (for example, Home or Work).
Edit a Contact

When editing a contact, you can tap a field and change or delete the information, or you can add more fields to the contact’s list of information.

1. From a Home screen, swipe up to access Apps.
2. Tap Contacts, tap a contact to select it, and then tap Edit.
3. Tap any of the fields to add, change, or delete information.
4. Tap Save.

Share a Contact

Share a contact by using various sharing methods.

1. From a Home screen, swipe up to access Apps.
2. Tap Contacts, tap a contact to select it, and then tap Share.
3. Tap either vCard file (VCF) or Text.
4. Choose a sharing method and follow the prompts.
Import Contacts
Your device can import contacts from an installed memory card (not included).

1. From a Home screen, swipe up to access Apps.
2. Tap Contacts > More options > Manage contacts.
3. Tap Import/Export contacts.
4. Tap Import and follow the prompts.

Export Contacts
Manually back up contacts to an installed memory card (not included).

1. From a Home screen, swipe up to access Apps.
2. Tap Contacts > More options > Manage contacts.
3. Tap Import/Export contacts.
4. Tap Export and follow the prompts.
**Link Contacts**

Consolidate contact information from multiple sources into one contact by linking entries into a single contact.

1. From a Home screen, swipe up to access **Apps**.
2. Tap **Contacts**, and tap a contact to select it.
3. Tap **More options** > **Link contacts**.
4. Tap contacts to choose them.
5. Tap **Link**.

**Unlink Contacts**

Unlink contact information that has been linked and restore it to multiple sources.

1. From a Home screen, swipe up to access **Apps**.
2. Tap **Contacts**, and tap a contact to select it.
3. Tap **More options** > **Manage linked contacts**.
4. Tap **Disconnect** beside contacts to unlink them from the main contact.
Delete Contacts
Delete a single contact or multiple contacts.
1. From a Home screen, swipe up to access Apps.
2. Tap 📞 Contacts, and then touch and hold a contact to select it.
   • You can also tap other contacts or tap the All checkbox at the top of the screen to select all contacts.
3. Tap Delete, and confirm when prompted.

Favorites
When you mark contacts as favorites, they are easily accessible from other apps.
1. From a Home screen, swipe up to access Apps.
2. Tap 📞 Contacts, and then tap a contact to select it.
3. Tap ⭐ Add to Favorites to mark contacts as Favorites and the star brightens ⭐.
   • To remove contacts from Favorites, tap ⭐ Remove from Favorites and the star dims ⭐.
Groups
Use groups to organize your contacts.

Create a Group
Create your own contact groups.

1. From a Home screen, swipe up to access Apps.
2. Tap Contacts > More options > Groups.
3. Tap Create, and then tap fields to enter information about the group:
   - **Group name**: Enter a name for the new group.
   - **Add member**: Select contacts to add to the new group, and then tap Done.
4. Tap Save.

Add or Remove Group Contacts
Add more contacts to a group, or remove contacts.

1. From a Home screen, swipe up to access Apps.
2. Tap Contacts > More options > Groups, and then tap a group.
3. Tap Edit.
   - To add a contact, tap Add member, and then tap the contacts you want to add. When finished, tap Done.
   - To remove a contact, tap Delete next to a contact.
4. Tap Save.
Send a Message to a Group
Send a text message to members of a group.

1. From a Home screen, swipe up to access Apps.
2. Tap 📞 Contacts > More options > Groups, and then tap a group.
3. Tap More options > Send message.

Send an Email to a Group
Send an email to members of a group.

1. From a Home screen, swipe up to access Apps.
2. Tap 📞 Contacts > More options > Groups, and then tap a group.
3. Tap More options > Send email.
4. Tap contacts to select them, or tap the All checkbox at the top of the screen to select all, and then tap Done.
   - Only group members that have an email address in their records are displayed.
5. Choose an email account and follow the prompts.

Delete a Group
Delete a group you created.

1. From a Home screen, swipe up to access Apps.
2. Tap 📞 Contacts > More options > Groups, and then tap a group.
3. Tap More options > Delete.
4. Tap Group only to only delete the group or tap Group and members to delete the group and the contacts in the group.
Contacts Settings
These settings allow you to modify settings associated with using the Contacts app.

1. From a Home screen, swipe up to access Apps.
2. Tap Contacts > More options > Settings.
3. Tap an option and follow the prompts.

Direct Share
Share content directly with your contacts from within any app. Once enabled, your frequent contacts are displayed in the Share window.

1. From a Home screen, swipe up to access Apps.
2. Tap Settings > Advanced features > Direct share, and tap On/Off to enable.
Email

View and manage all of your email accounts in one app.

To add an email account, see “Add an Email Account” on page 9.

Create and Send an Email

This section describes how to create and send an email using the Email app.

1. From a Home screen, swipe up to access Apps.

2. Tap ✉ Email > ☒ Compose new email.

3. Tap the To field to manually add an email address or tap 🗓️ Add from Contacts to select recipients from Contacts or Groups.

   • If manually entering recipients, enter additional recipients by separating each entry with a semicolon (;). More recipients can be added at any time before the message is sent.

   • If adding a recipient from your Contacts, tap the contact to place a checkmark, and then tap Done. The contact is displayed in the recipients field.

   • Tap ➔ Show additional fields to add Cc and Bcc fields.

4. Tap the Subject and Message fields to enter text.

   • Tap Attach to add an attachment to your email.

   • Tap ☰ More options for additional email options.

5. Review your message and tap Send.
Manage the Inbox
There are several tools available from the Inbox screen.

1. From a Home screen, swipe up to access Apps.
2. Tap Email.
   - Tap a message to read and reply or forward it.
   - Tap Search to search for key words in your email inbox.
   - Tap Edit for additional message options.
   - Tap Sort by to customize how messages display.

View Multiple Email Accounts
View email you receive for multiple accounts, or you can view email accounts individually.

1. From a Home screen, swipe up to access Apps.
2. Tap Email.
3. Tap Mailbox at the top left of the screen to choose a different view:
   - [Account name]: View email for only one email account.
   - All accounts: View all email in a combined inbox.
Remove an Email Account
To remove an email account:

1. From a Home screen, swipe up to access Apps.
2. Tap Email.
3. Tap Mailbox > Settings.
4. Tap the account you want to remove.
5. Tap Remove, and confirm when prompted.

Email Settings
These settings allow you to modify settings associated with using the Email app.

1. From a Home screen, swipe up to access Apps.
2. Tap Email.
3. Tap Mailbox > Settings.
   • Under General, tap an option, and then follow the prompts.
   • Tap an account to configure specific settings for only that account.
Galaxy Apps

Find and download premium apps that are exclusive to Galaxy devices. A Samsung account is required to download from Galaxy Apps.

1. From a Home screen, swipe up to access Apps.
2. Tap Galaxy Apps.
Gallery

View, edit, and manage pictures and videos. The following categories allow you to organize your content:

- **Pictures**: View pictures and videos in the order they were saved. Content is organized by date.
- **Albums**: Create custom albums to organize your pictures and videos.
- **Stories**: Create custom collections of related pictures and videos and share them with your contacts.

View Pictures

Pictures stored on your device are viewable in the Gallery app.

1. From a Home screen, swipe up to access Apps.
2. Tap Gallery > Pictures.
3. Tap a picture to view it. Swipe left or right to view other pictures or videos.
   - To mark the picture as a favorite, tap Favorite. The picture is added to Favorites under the Albums tab.
   - To access the following features, tap More options:
     - **Details**: View and edit information about the picture, including the date created, location, and properties.
     - **Set as wallpaper**: Set the picture as wallpaper.
     - **Print**: Send the picture to a connected printer.
     - **Open in Photo Editor Pro**: Edit the picture in Photo Editor Pro.
**Edit Pictures**

Edit pictures stored on your device.

1. From a Home screen, swipe up to access Apps.
2. Tap 📷 Gallery > Pictures.
3. Tap a picture to view it.
   - 📌 Transform: Rotate, flip, crop, or make other changes to the overall appearance of the picture.
   - 🎨 Effects: Add visual effects to the picture.
   - 🎖️ Stickers: Add illustrated stickers to the picture.
   - 🎨 Draw: Make drawings on the picture.
   - Tap More options > Open in Photo Editor Pro for more editing tools.
4. Tap Save, and confirm when prompted.

---

**Play Videos**

Play videos stored on your device.

1. From a Home screen, swipe up to access Apps.
2. Tap 📥 Gallery > Pictures.
3. Tap a video to view it. Swipe left or right to view other pictures or videos.
   - To mark the video as a favorite, tap ❤️ Favorite. The video is added to Favorites under the Albums tab.
   - To view and edit information about the video, including the date created, location, and properties, tap 📊 Details.

4. Tap ➤ Play video.
Share Pictures and Videos
Share pictures and videos from your Gallery app.
1. From a Home screen, swipe up to access Apps.
2. Tap 📷 Gallery > Pictures.
3. Tap ⚙️ More options > Share, and then tap pictures and videos to select them.
4. Tap Share, and then choose an app or connection to use for sharing your selection. Follow the prompts.

Delete Pictures and Videos
Delete pictures and videos stored on your device.
1. From a Home screen, swipe up to access Apps.
2. Tap 📷 Gallery > Pictures.
3. Tap ⚙️ More options > Edit.
4. Tap pictures and videos to select them, or tap the All checkbox at the top of the screen to select all pictures and videos.
5. Tap Delete, and confirm when prompted.
Take a Screenshot

Capture an image of your screen. A Screenshots album is automatically created in the Gallery app.

► From any screen, press and hold the Power and Volume down keys.

Screenshot Options

Other methods of taking screenshots can be enabled in Settings.

1. From a Home screen, swipe up to access Apps.
2. Tap Settings > Advanced features.
3. Tap On/Off to enable the following:
   - Palm swipe to capture: Capture an image of the screen by swiping the edge of your hand across it, from side to side, keeping your hand in contact with the screen.
Google Apps

The following apps from Google are preloaded on your device. Certain apps require a Google Account.

Chrome

Browse the Internet and bring your open tabs, bookmarks, and address bar data from your computer to your mobile device.

1. From a Home screen, swipe up to access Apps.
2. Tap Chrome.

Visit support.google.com/chrome to learn more about Chrome™.

Drive

Open, view, rename, and share files saved to your Google Drive™ cloud account.

1. From a Home screen, swipe up to access Apps.
2. Tap Drive.

Visit support.google.com/drive to learn more about Google Drive.

Gmail

Send and receive email messages with Google’s web-based email service.

1. From a Home screen, swipe up to access Apps.
2. Tap Gmail.

Visit support.google.com/mail to learn more.
Google
Find online content with tools that learn what interests you. Turn on your personalized feed to receive customized content.

1. From a Home screen, swipe up to access Apps.
2. Tap Google.
3. Follow the prompts to enable your feed.

Maps
Get directions and other location-based information. You must enable location services to use Google Maps. For more information, see “Location” on page 91.

1. From a Home screen, swipe up to access Apps.
2. Tap Maps.
Visit support.google.com/maps to learn more.

Hangouts
Meet friends and family online, share photos, host video calls, and send SMS and Hangouts messages.

1. From a Home screen, swipe up to access Apps.
2. Tap Hangouts.
Visit support.google.com/hangouts to learn more.

Photos
Store and back up your photos and videos automatically to your Google Account.

1. From a Home screen, swipe up to access Apps.
2. Tap Photos.
Visit support.google.com/photos to learn more about Google Photos™.
Play Movies & TV
Watch movies and TV shows purchased from Google Play. You can also view videos saved on your device.

1. From a Home screen, swipe up to access Apps.
2. Tap  Play Movies & TV.

Visit play.google.com/store/movies to learn more.

Play Music
Play music and audio files on your device.

1. From a Home screen, swipe up to access Apps.
2. Tap  Play Music.

Visit support.google.com/music to learn more.

Play Store
Find new apps, movies and TV shows, music, books, magazines, and games in Google Play store.

1. From a Home screen, swipe up to access Apps.
2. Tap  Play Store.

Visit support.google.com/play to learn more.

Voice Search
Use voice commands to search the web with Google.

1. From a Home screen, swipe up to access Apps.
2. Tap  Voice Search.
YouTube
Watch and upload YouTube™ videos right from your device.

1. From a Home screen, swipe up to access Apps.
2. Tap YouTube.

Visit support.google.com/youtube to learn more.
Access the Internet with a fully-featured web browser.

1. From a Home screen, swipe up to access Apps.
2. Tap 🌐 Internet.
3. Tap the address field, enter the web address, and then tap Go on the keyboard.

- ★ Add to Bookmarks: Add the current web page to bookmarks.
- 🔐 Page info: View the address and certificate for this page.
- ⌚️ Refresh: Refresh or reload the current web page.
- ⏪ Back or ⏪ Back: Return to the previous page.
- ⏳ Forward: Go forward to a recent page.
- ⌍ Home: Display your Internet home page.

- 📚 Bookmarks: Manage bookmarked pages, saved pages, and browsing history.

Quick Menu

Access commonly used features of your browser.

1. From a Home screen, swipe up to access Apps.
2. Tap 🌐 Internet.
3. Tap 📚 Quick menu for the following options:
   - ⌨️ Share: Share the web page with others.
   - ✅ New tab: Open a new tab.
   - ⏮ Web page text size: Change the text size.
   - ✗ Close: Close the Quick menu.
   - ⚙️ Settings: Change Quick menu options.
Browser Tabs
Use tabs to view multiple web pages at the same time.
1. From a Home screen, swipe up to access Apps.
2. Tap Internet > Add tab.
   - If all tabs are closed, tap New tab.
   - To close a tab, tap Close tab.

Bookmarks Page

Save a Bookmark
Bookmarking a web page saves the web address so that you can launch it quickly.
1. From a Home screen, swipe up to access Apps.
2. Tap Internet.
3. Tap Add to Bookmarks.

Open a Bookmark
Quickly launch a web page from the Bookmarks page.
1. From a Home screen, swipe up to access Apps.
2. Tap Internet.
3. Tap Bookmarks > Bookmarks.
4. Tap a bookmark entry.

Save a Web Page
Saving a web page stores its content on your device so that you can access it offline.
1. From a Home screen, swipe up to access Apps.
2. Tap Internet.
3. Tap More options > Save webpage.
Open a Saved Web Page
Saved web pages can be opened on your device even if your device is not connected to the Internet.

1. From a Home screen, swipe up to access Apps.
2. Tap 🌐 Internet.
3. Tap 📖 Bookmarks > Saved pages.
4. Tap a saved page to open it in the browser.

View History
You can launch recently visited web pages in History.

1. From a Home screen, swipe up to access Apps.
2. Tap 🌐 Internet.
3. Tap 📖 Bookmarks > History.
4. Tap an entry to launch the web page.

Share Pages
Web pages can be shared with your contacts.

1. From a Home screen, swipe up to access Apps.
2. Tap 🌐 Internet.
3. Tap 📖 More options > Share, and follow the prompts.
Secret Mode
Pages viewed in Secret mode are not listed in your browser history or search history, and leave no traces (such as cookies) on your device. Secret tabs are a darker shade than the normal tab windows. Any downloaded files remain on your device after you close the secret tab.

1. From a Home screen, swipe up to access Apps.
2. Tap Internet.
3. Tap More options > Turn on Secret mode.
4. Tap Set password to protect your Secret mode data with a password.
   – or –
   Tap Don’t use password.
5. Browse the Internet as usual.
   • To turn off secret mode, tap More options > Turn off Secret mode.

Internet Settings
These settings allow you to modify settings associated with using the Internet app.

1. From a Home screen, swipe up to access Apps.
2. Tap Internet.
3. Tap More options > Settings.
4. Tap an option and follow the prompts.
Memo

Write and save memos using the Samsung Memo app.

1. From a Home screen, swipe up to access **Apps**.
2. Tap 💬 **Memo > + Create memo**, and type a memo. The following tools are available:
   - **Category**: Add or change the category.
   - **Tasks**: Add tasks.
   - **Image**: Insert an image into the memo.
   - **Drawing**: Create a drawing and add it to the memo.
   - **Voice**: Use your voice to insert text into the memo.
3. Tap **Save** when finished.

Edit Memos

Make edits to memos you create.

1. From a Home screen, swipe up to access **Apps**.
2. Tap 💬 **Memo**, and tap a memo to view it.
3. Tap the content and make edits.
4. Tap **Save** when you are finished.

Browse Memos

Browse memos you create.

1. From a Home screen, swipe up to access **Apps**.
2. Tap 💬 **Memo**.
   - Browse memo entries by swiping up or down.
   - To search for a memo, tap **Search**.
Memo Options

Edit, share, or manage memos.

1. From a Home screen, swipe up to access **Apps**.
2. Tap 📏**Memo**.
3. Tap 📏**More options** for the following options:
   - **Edit**: Select memos to delete or move.
   - **Manage categories**: Create and manage categories to organize your memos.
4. Tap a memo, and then tap one of the following options:
   - **Share**: Send the memo to others using a variety of sharing methods or social media.
   - **Delete**: Delete the memo.
   - ✾**Favorite**: Mark the memo as a favorite.

**More options:**
- **Pin to Home screen**: Place a shortcut to the memo on a Home screen.
- **Print**: Select a printer to print your memo.
My Files

View and manage files stored on your device, including images, videos, music, and sound clips.

1. From a Home screen, swipe up to access Apps.
2. Tap My Files.
3. Tap a category to view the relevant files or folders.
4. Tap a file or folder to open it.

File Groups

Files stored in the device are organized into the following groups:

- **Recent files**: View recently accessed files.
- **Categories**: View your files based on the file type.
- **Tablet**: View folders and files located on the device and/or optional memory card (not included).

My Files Options

Use My Files options to search, edit, clear file history, and more.

1. From a Home screen, swipe up to access Apps.
2. Tap My Files. The following options are available:
   - **Search**: Search for a file or folder.
   - **Grid**: Display files in a grid or a list
   - **More options**: Tap for the following options:
     - **Get more space**: View storage information for your device.
     - **Settings**: View settings for the My Files app.
3. Tap Recent files > Clear history to clear the Recent files category. This option only appears if files have been accessed recently.
Samsung Music

Volume

Song length

Playback controls

Devices and software are constantly evolving — the illustrations you see here are for reference only.
Listen to Music

1. From a Home screen, swipe up to access Apps.
2. Tap 🎧 Samsung Music.
3. Tap a library category at the top of the screen to view your music files.
4. Swipe through the list of songs and tap an entry to begin playback.
5. While playing music, use these controls:
   - Tap ⏸️ Pause to pause playback. To start playback again, tap ⏯️ Play.
   - Tap ⬅️ Rewind to move to the previous song. Touch and hold ⬅️ Rewind to rewind through the song. Tap ➤️ Fast-forward to move to the next song. Touch and hold ➤️ Fast-forward to move forward through the song.
   - Tap the repeat button to control playback. Choose ➔ Repeat off to play all songs once, ➔ Repeat all to repeat all songs, or ➔ Repeat 1 to repeat the current song.
   - Tap the shuffle button to control the order songs are played. Choose Shuffle off to play songs in the order they appear in the list or Shuffle on to play songs in random order.
   - Tap ❤️ Favorite to mark a song as a favorite. Whenever a song is a favorite, the star is gold. Favorite songs are included in the Favorites playlist.
   - Tap 🔊 Volume to set the volume. You can also set volume by pressing the Volume key on the side of the tablet.

Note: When you close the Music screen, playback continues in the background, allowing you to listen to music while using other features of your tablet. When music is playing in the background, you can access playback controls from the Notification panel.
Samsung+
Get live help, discover new features, and unlock promotions for your Samsung device.

1. From a Home screen, swipe up to access **Apps**.

2. Tap 🔄 **Samsung+**.

Video Player

Devices and software are constantly evolving — the illustrations you see here are for reference only.
Manage Videos

Once you have recorded and saved at least one video, the following options are available:

1. From a Home screen, swipe up to access Apps.

2. Tap 📱 Video.
   - Tap 📊 List to display videos in a list format, or tap 📱 Grid to display videos in a grid format.
   - Tap 🔍 Search to search for videos.
   - Tap ☀️ More options for the following options:
     - Edit: Select one or more videos to edit or delete.
     - Share: Share your videos.
     - Sort by: Sort your videos.
     - About Video: View version information about the Video app.

View and Play Videos

1. From a Home screen, swipe up to access Apps.

2. Tap 📱 Video, and scroll through the videos stored on your tablet.

3. Tap a video to view it.
   - Tap List to display all videos at the bottom of the screen. Tap a video to view it.
   - Tap ☀️ More options for the following options:
     - Delete: Delete the current video.
     - Share: Choose an app or connection to use for sharing the current video. Follow the prompts.
     - Subtitles (CC): Turn on available subtitles.
     - Details: View and edit information about the picture, including the date created, location, and properties.
     - Settings: Modify Video play settings.
Change the Video Screen Size

You can change the size of the video in several ways during video playback.

1. From a Home screen, swipe up to access Apps.
2. Tap Video.
3. Tap a video to view it.
4. Tap the screen ratio icon to cycle through the screen size options:
   - **Fit to screen**: The video is fit to fill the screen while keeping its original proportions.
   - **Stretch**: The entire screen is used, which may cause some minor distortion.
   - **Crop to fit**: The video is enlarged to fit the screen without becoming distorted.
Configure your device’s connections and settings.
Access Settings

There are a couple of ways to access your device settings.

► From a Home screen, swipe up to access Apps, and then tap Settings.

– or –

Drag down from the Status bar to display the Notification panel, and then tap Settings.

Search for Settings

If you are not sure exactly where to find a certain setting, you can use the Search feature.

1. From a Home screen, swipe up to access Apps, and then tap Settings.
2. Tap Search.
3. Enter a word or words in the Search field. As you type, settings that match are displayed on the screen.
4. Tap an entry to go to that setting.
Connections

Manage connections between your device and a variety of networks and other devices.
Wi-Fi

Connect your device to a Wi-Fi network.

1. From a Home screen, swipe up to access Apps.

2. Tap  

   Settings > Connections > Wi-Fi, and then tap On/Off to turn on Wi-Fi.

   - When Wi-Fi is turned on, your device automatically scans for available networks and displays them.

3. Tap the network you want to connect to.

   - When you select an open network, you are automatically connected to the network. Otherwise, enter a password to connect.

Manually Connect to a Wi-Fi Network

Connect your device to a Wi-Fi network that is hidden.

1. From a Home screen, swipe up to access Apps.

2. Tap  

   Settings > Connections > Wi-Fi, and then tap On/Off to turn on Wi-Fi.

3. Tap  

   Add network at the bottom of the list.

4. Enter information about the Wi-Fi network:

   - **Network name**: Enter the name of the Wi-Fi network.

   - **Security**: Select a security option and enter your password.

   - **Auto reconnect**: Connect to this network automatically whenever available.

   - **Show advanced options**: Add advanced options such as IP settings and Proxy settings.

5. Tap Connect to store the new information and connect.
Wi-Fi Preferences
Customize advanced Wi-Fi services.

1. From a Home screen, swipe up to access **Apps**.

2. Tap ✖️ **Settings** > **Connections** > **Wi-Fi**, and then tap **On/Off** to turn on Wi-Fi.

3. Tap **Advanced** for options:
   - **Adaptive Wi-Fi**: Automatically switch between Wi-Fi and mobile data and save frequently used Wi-Fi networks.
   - **Network notification**: Receive notifications when open networks in range are detected.
   - **Hotspot 2.0**: Connect automatically to public Wi-Fi access points that support Hotspot 2.0.
   - **Manage networks**: View your saved Wi-Fi networks.
   - **WPS push button**: Connect to a Wi-Fi network by pressing the WPS button on a router.
   - **WPS PIN entry**: Connect to a Wi-Fi network by entering your WPS PIN.
   - **Keep Wi-Fi on during sleep**: Specify whether to disconnect from Wi-Fi when the device is asleep.
   - **Install network certificates**: Install authentication certificates.
   - **Wi-Fi control history**: View devices that have turned your Wi-Fi on or off.
   - **MAC address**: View your device’s MAC address, which is required when connecting to some secured networks (not configurable).
   - **IP address**: View your device’s IP address (not configurable).
Wi-Fi Direct

Wi-Fi Direct uses Wi-Fi capability to share data between devices. A Wi-Fi network connection is not required.

1. From a Home screen, swipe up to access Apps.
2. Tap Settings > Connections > Wi-Fi, and then tap On/Off to turn on Wi-Fi.
3. Tap Wi-Fi Direct.
   - Your device scans for discoverable Wi-Fi Direct devices. To scan again, tap Scan.
4. Tap a device, and then follow the prompts to connect.

Share Data with Wi-Fi Direct

Share data with another device using Wi-Fi Direct.

1. From an app, tap Share or More options > Share.
2. Tap Wi-Fi Direct and follow the prompts.

Receive Data with Wi-Fi Direct

When another device attempts to send a file to your device using Wi-Fi Direct, you will see a request to accept the file.

1. Tap Accept.
2. To open the file, drag down the Notification panel and tap File received.

Disconnect from Wi-Fi Direct

Disconnect your device from a Wi-Fi Direct device.

1. From a Home screen, swipe up to access Apps.
2. Tap Settings > Connections > Wi-Fi > Wi-Fi Direct.
3. Tap a device to disconnect it.
Bluetooth

Bluetooth allows you to pair your device to another Bluetooth-enabled device. Once a pairing is created, the devices continue to recognize their partnership and exchange information without having to re-enter a passcode.

1. From a Home screen, swipe up to access Apps.
2. Tap Settings > Connections > Bluetooth, and then tap On/Off to turn on Bluetooth.
   • Your device scans for discoverable Bluetooth devices. To scan again, tap Scan.
3. Tap a device, and follow the prompts to connect.

Rename a Paired Device

Rename a paired device to make it easier to recognize.

1. From a Home screen, swipe up to access Apps.
2. Tap Settings > Connections > Bluetooth, and then tap On/Off to turn on Bluetooth.
3. Tap Settings next to the previously paired device, and then tap Rename.
4. Enter a new name, and tap Rename.

Share Data with Bluetooth

Use Bluetooth to transfer information to a paired device.

1. From an app, tap Share or More options > Share.
2. Tap Bluetooth and follow the prompts.
Receive Data with Bluetooth

When another device attempts to send a file to your device using Bluetooth, you will see a request to accept the file.

1. Tap Accept.
2. To open the file, drag down the Notification panel and tap File received.

Unpair from a Bluetooth Device

When you unpair from a Bluetooth device, the two devices no longer recognize each other.

1. From a Home screen, swipe up to access Apps.
2. Tap Settings > Connections > Bluetooth, and then tap On/Off to turn on Bluetooth.
3. Tap Settings next to the paired device, and then tap Unpair.

Data Usage

View your current mobile and Wi-Fi data usage.

1. From a Home screen, swipe up to access Apps.
2. Tap Settings > Connections > Data usage.

Enable Data Saver

Prevent selected apps from sending or receiving data in the background.

1. From a Home screen, swipe up to access Apps.
2. Tap Settings > Connections > Data usage > Data saver.
3. Tap On/Off to turn Data saver on.
   • To allow some apps to have unrestricted data usage, tap Allow app while Data saver on, and tap On/Off next to each app to specify restrictions.
Monitor Mobile Data
Enable mobile data to access the Internet through your mobile network.
1. From a Home screen, swipe up to access Apps.
2. Tap Settings > Connections > Data usage.
3. Tap Mobile data to enable. The following options are available:
   - Alert me about data usage: Receive alerts when mobile data use reaches a warning amount you set.
   - Mobile data usage: Monitor mobile data usage by app.
   - Billing cycle and data warning: Set the day of the month to start the bill cycle for your device.

Monitor Wi-Fi Data
View your Wi-Fi data usage and set restrictions for Wi-Fi networks.
1. From a Home screen, swipe up to access Apps.
2. Tap Settings > Connections > Data usage. The following options are available:
   - Wi-Fi data usage: View data usage over Wi-Fi connections.
   - Restrict networks: Select networks to prevent apps that are running in the background from using them.
Airplane Mode

Airplane mode disconnects your device from all networks and turns off connectivity features.

1. From a Home screen, swipe up to access Apps.
2. Tap 🎈 Settings > Connections > Airplane mode, and then tap On/Off to enable or disable the option.

Mobile Hotspot

Activate Mobile hotspot to allow other devices to use your device’s Internet connection.

1. From a Home screen, swipe up to access Apps.
2. Tap 🎈 Settings > Mobile hotspot and tethering > Mobile hotspot.
3. Tap On/Off to turn Mobile hotspot on or off.

Connect a Device to Your Mobile Hotspot

Use the other device’s Wi-Fi control to connect to Mobile hotspot.

1. From a Home screen, swipe up to access Apps.
2. Tap 🎈 Settings > Mobile hotspot and tethering > Mobile hotspot.
3. Tap On/Off to turn on Mobile hotspot.
4. Activate Wi-Fi on the target device.
5. Scan for Wi-Fi hotspots and select your device’s Mobile hotspot from the list.
6. Enter your device’s Mobile hotspot password on the target device.
Change the Mobile Hotspot Password

You can change your Mobile hotspot password.

1. From a Home screen, swipe up to access Apps.
2. Tap Settings > Mobile hotspot and tethering > Mobile hotspot.
3. Tap the password and enter a new password.
4. Tap Save.

Allowed Devices List

Control which devices can connect to your Mobile hotspot.

1. From a Home screen, swipe up to access Apps.
2. Tap Settings > Mobile hotspot and tethering > Mobile hotspot.
3. Tap More options > Allowed devices, and then tap Add to enter the other device’s Device name and MAC address.
4. Tap Add to add the device.
   - To restrict connections to your Allowed devices list, tap Allowed devices only.
Configure Mobile Hotspot Settings

Manage your Mobile hotspot security and connecting settings.

1. From a Home screen, swipe up to access Apps.
2. Tap Settings > Mobile hotspot and tethering > Mobile hotspot.
3. Tap More options > Configure hotspot for the following settings:
   - **Network name**: View and change the name of your Mobile hotspot.
   - **Hide my device**: Prevent your Mobile hotspot from being discoverable by other devices.
   - **Security**: Choose the security level for your Mobile hotspot.
   - **Password**: If you choose a security level that uses a password, you can view or change it.
   - **Show advanced options**: Configure additional Mobile hotspot settings, including channels and frequency.

Tethering

Use Bluetooth or USB tethering to share your device’s Internet connection with a computer.

1. From a Home screen, swipe up to access Apps.
2. Tap Settings > Hotspot and tethering.
   - Tap Bluetooth tethering to share your device’s Internet connection using Bluetooth. For more information, see “Bluetooth” on page 85.
   - Connect the computer to the device using the USB cable, and then tap USB tethering.
Mobile Networks

Control your device’s access to networks and mobile data service.

1. From a Home screen, swipe up to access Apps.
2. Tap Settings > Connections > Mobile networks for options:
   - **Roaming**: Enable or disable data while roaming on other mobile networks.
   - **Network mode**: Choose a preferred network mode.
   - **Access Point Names**: Choose or add APNs.
   - **Network operators**: Search for and select available mobile networks.

Location

Some apps may require one or more location services be turned on for full functionality.

1. From a Home screen, swipe up to access Apps.
2. Tap Settings > Connections > Location.
3. Tap On/Off to turn on Location services.
4. Tap Locating method to select how your location is determined:
   - **High accuracy**: Uses GPS, Wi-Fi, and mobile networks.
   - **Battery saving**: Uses Wi-Fi and mobile networks (no GPS).
   - **Tablet only**: Uses GPS only.
5. Tap **Improve accuracy** to use other connections for determining your location:

- **Wi-Fi scanning**: Allow apps and services to scan for Wi-Fi networks automatically, even when Wi-Fi is turned off.

- **Bluetooth scanning**: Allow apps to scan for and connect to nearby devices automatically through Bluetooth, even when Bluetooth is turned off.

### Recent Location Requests

Apps that have requested your location are listed under Recent location requests.

1. From a Home screen, swipe up to access **Apps**.

2. Tap **Settings > Connections > Location**.

3. Tap **On/Off** to turn on Location services.

4. Tap an entry under **Recent location requests** to view the app’s settings.

### Location Services

Location services store and use your device’s most recent location data. Google apps can use this data to improve your search results based on places that you have visited.

1. From a Home screen, swipe up to access **Apps**.

2. Tap **Settings > Connections > Location**.

3. Tap an entry under **Location services** to use a location service.
Nearby Device Scanning
Scan for nearby devices to connect to and set them up easily. You receive a notification when there are available devices to connect to.

1. From a Home screen, swipe up to access Apps.
2. Tap Settings > Connections > More connection settings > Nearby device scanning.
3. Tap On/Off to enable the feature.

Connect to a Printer
Connect your device to a printer on the same Wi-Fi network.

1. From a Home screen, swipe up to access Apps.
2. Tap Settings > Connections > More connection settings > Printing.
3. Tap Download plug-in, and follow the prompts to add a print service.
4. Tap the print service, and then tap More options > Add printer.
Virtual Private Networks

Set up and manage your Virtual Private Networks (VPNs). You must set a secured screen lock before setting up a VPN. For more information, see “Set a Secure Screen Lock” on page 122.

1. From a Home screen, swipe up to access Apps.
2. Tap Settings > Connections > More connection settings > VPN.
3. Tap Add VPN and follow the prompts to set up your VPN.

Manage a VPN

Use the VPN settings to edit or delete a VPN connection.

1. From a Home screen, swipe up to access Apps.
2. Tap Settings > Connections > More connection settings > VPN.
3. Tap Settings next to the VPN.
4. Edit the VPN and tap Save.
   – or –
   Tap Delete to delete the VPN.
Connect to a VPN

Once you have set up a VPN connection, connecting to and disconnecting from the VPN is easy.

1. From a Home screen, swipe up to access Apps.
2. Tap Settings > Connections > More connection settings > VPN.
3. Tap a VPN, enter your login information, and tap Connect.
   - To disconnect, tap the VPN, and then tap Disconnect.

Ethernet

Connect to a network using an Ethernet connection.

1. Connect an Ethernet cable to your device using an Ethernet adapter (not included).
2. From a Home screen, swipe up to access Apps.
3. Tap Settings > Connections > More connection settings.
4. Tap Ethernet, and follow the prompts.
Sounds and Vibration

Configure the sounds and vibrations used to indicate notifications, screen touches, and other interactions.
Sound Mode

Switch between sound modes, while preserving the individual sound settings you have made.

1. From a Home screen, swipe up to access Apps.
2. Tap Settings > Sounds and vibration > Sound mode, and then choose a mode:
   - **Sound**: Use the sounds, vibrations, and volume levels you have chosen in Sound settings for notifications and alerts.
   - **Vibrate**: Vibrate for notifications and alerts. This uses the Vibration intensity you choose in Sound settings.
   - **Mute**: Mute all sounds and notifications.

Easy Mute

Mute sounds and video by covering the screen or turning over the device.

1. From a Home screen, swipe up to access Apps.
2. Tap Settings > Advanced features > Easy mute, and tap On/Off to enable.

Volume

Set the system volume level and default volume for notifications and other audio.
Volume Keys for Media

Set the Volume key to control the media volume by default.

1. From a Home screen, swipe up to access Apps.
2. Tap 🎮 Settings > Sounds and vibration
3. Tap Use Volume keys for media to enable this feature.

Set the Volume

Set the volume from a Home screen by pressing the Volume key.

1. From a Home screen, swipe up to access Apps.
2. Tap 🎮 Settings > Sounds and vibration > Volume and drag the sliders to set the default volume for Notifications, Media, and System.

Media Volume Limiter

Limit the maximum output of the device’s volume. You can also set a PIN to prevent unauthorized users from changing this setting.

1. From a Home screen, swipe up to access Apps.
2. Tap 🎮 Settings > Sounds and vibration > Volume.
3. Tap More options > Media volume limiter.

- Tap On/Off to enable this feature.
- When enabled, drag the Custom volume limit slider to set the maximum output volume.
- Tap Set volume limit PIN to prevent changes to the volume setting.
Notification Sounds

Choose a sound for notifications, such as for new messages and event reminders.

1. From a Home screen, swipe up to access Apps.
2. Tap Settings > Sounds and vibration > Notification sounds and configure the following options:
   - Default notification sound: Choose a default sound for all notifications.
   - Calendar notifications: Choose a sound for calendar notifications, and enable or disable vibration alert.
   - Email notifications: Configure email account notifications.
     - An email account must be configured for this option to be available. For more information, see “Add an Email Account” on page 9.

Do Not Disturb

Use these options to determine which notifications can make sounds, and during which time periods you want to enter this mode.

To activate Do not disturb mode:

1. From a Home screen, swipe up to access Apps.
2. Tap Settings > Sounds and vibration > Do not disturb and configure the following:
   - Turn on now: Enable this option.
   - Turn on as scheduled: Configure Days, Start time, and End time to set up a do not disturb schedule.
   - Allow exceptions: Customize which notifications are allowed while your device is in Do not disturb mode.
• **App rules**: Manage rules set by apps.

• **Hide visual notifications**: Select options for preventing visual notifications for apps silenced by Do not disturb.

### System Sounds

Set various other system sound options.

1. From a Home screen, swipe up to access **Apps**.

2. Tap **Settings** > **Sounds and vibration**, and tap to enable each option:
   
   • **Touch sounds**: Play tones when you touch or tap the screen to make selections.
   
   • **Screen lock sounds**: Play a sound when you unlock the screen.
   
   • **Charging sound**: Play a sound when a charger is connected.

### Key-Tap Feedback

Play tones when the dialing keypad or the keyboard is tapped.

1. From a Home screen, swipe up to access **Apps**.

2. Tap **Settings** > **Sounds and vibration**, and then tap to enable the option:

   • **Keyboard sound**: Play a sound when the Samsung keyboard is tapped.
Sound Quality and Effects

You can enable sound effects when connected to a headset. Sound effects are only available when headphones or a compatible Bluetooth headset (not included) is connected.

Choose from advanced sound options to customize your audio experience.

1. From a Home screen, swipe up to access Apps.
2. Tap Settings > Sounds and vibration > Sound quality and effects.
3. Tap Equalizer and choose a setting, or tap Advanced or Basic to customize your sound settings.

4. Tap On/Off to enable each option:
   - **Surround**: Recreate the effects of rich surround sound.
   - **Tube Amp Pro**: Simulate the soft timbre of a tube amplifier.
   - **Concert hall**: Simulate the reverb of a concert hall.

5. Tap Adapt sound and follow the prompts to customize your sound settings.
Notifications

Select which apps you want to receive alerts from. Alerts include notifications, sounds, and vibrations.
Block App Notifications

Block notifications for apps.

1. From a Home screen, swipe up to access Apps.
2. Tap 🌞 Settings > Notifications.
3. Tap On/Off next to an app or All apps to enable or disable notifications.

Customize App Notifications

Customize notification settings for each application individually.

1. From a Home screen, swipe up to access Apps.
2. Tap 🌞 Settings > Notifications.
3. Tap an app, and select an option:
   - **Allow notifications**: Receive notifications from this app.
   - **Show silently**: Do not make a sound or vibrate, and block previews in pop-ups.
   - **On lock screen**: Show content from this app on the lock screen.
     - This option is only displayed when a lock screen is enabled. For more information, see “Set a Secure Screen Lock” on page 122.
   - **Set as priority**: Allow notifications from this app to sound and turn on the screen while Do not disturb is turned on.
Display

Configure your display’s brightness, screen timeout delay, and other display settings.
Screen Brightness
Adjust the screen brightness to suit your surroundings or personal preference. You may also want to adjust screen brightness to conserve battery power.

1. From a Home screen, swipe up to access Apps.
2. Tap Settings > Display.
3. Drag the slider for Brightness to set a custom brightness level.

Outdoor Mode
Adjust the screen brightness for easier viewing when outdoors.

1. From a Home screen, swipe up to access Apps.
2. Tap Settings > Display.
3. Tap On/Off next to Outdoor mode to turn on the feature. The screen brightness increases for 15 minutes for easier viewing outdoors.

Screen Mode
Choose a screen mode to match your type of viewing.

1. From a Home screen, swipe up to access Apps.
2. Tap Settings > Display > Screen mode and choose a screen mode:
   - Tap Adaptive display if you want your device to automatically optimize the display to match the type of image displayed and other criteria, such as battery level.
   - or –
   Choose a specific type of screen mode based on what you are viewing.
Screen Zoom and Font

Set the screen zoom level and the font size and style.

1. From a Home screen, swipe up to access Apps.

2. Tap 🏷️ Settings > Display > Screen zoom and font for the following options:
   - Drag the Screen zoom slider to adjust the zoom level.
   - Drag the Font size slider to adjust the size of text.
   - Tap a font to select it, or tap + Download fonts to find new fonts from Galaxy Apps.

3. Tap OK to set the screen zoom and font.

Icon Frames

You can show icons with shaded frames to make them stand out on the Home screen and Apps list screen.

1. From a Home screen, swipe up to access Apps.

2. Tap 🏷️ Settings > Display > Icon frames and choose one of the following options:
   - Icons only: Show icons only.
   - Icons with frames: Show icons with shaded frames.

3. Tap Done.
Status Bar
Configure display options for the Status bar.

1. From a Home screen, swipe up to access Apps.
2. Tap 🛠️ Settings > Display > Status bar.
   - Tap Show recent notifications only to display only the three most recent notification icons on the Status bar.
   - Tap Show battery percentage to display the battery charge percentage next to the battery icon on the Status bar.

Screen Timeout
Turn the screen off after a set amount of time.

1. From a Home screen, swipe up to access Apps.
2. Tap 🛠️ Settings > Display > Screen timeout and choose a time period.

Screen Saver
Screen saver controls what is displayed on the screen when the device is docked (dock not included) or while charging. You can choose to display colors or photos.

1. From a Home screen, swipe up to access Apps.
2. Tap 🛠️ Settings > Display > Screen saver.
3. Tap On/Off to enable Screen saver.
4. Configure options:
   - Colors: Tap the selector to display a changing screen of colors.
   - Photo table: Display pictures in a photo table. Tap 🛠️ Settings for options.
   - Photo frame: Display pictures in a photo frame. Tap 🛠️ Settings for options.
   - Photos: Display pictures from your Google Photos account. Tap 🛠️ Settings for options.
5. Tap Preview for a demonstration of Screen saver.
Smart Stay

Smart stay detects your face with the front camera so that the screen stays on while you are looking at it.

1. From a Home screen, swipe up to access Apps.

2. Tap Settings > Advanced features > Smart stay, and tap On/Off to turn the feature on.
Device Maintenance

View the status of your device’s battery, storage, and memory. You can also automatically optimize your device’s system resources.
Quick Optimization

The quick optimization feature improves device performance through the following actions:

- Identifying apps that use excessive battery power and clearing unneeded items from memory.
- Deleting unnecessary files and closing apps running in the background.
- Scanning for malware.

To use the quick optimization feature:

1. From a Home screen, swipe up to access Apps.
2. Tap Settings > Device maintenance.
3. Tap Optimize now.

Battery

View how battery power is used for device activities.

1. From a Home screen, swipe up to access Apps.
2. Tap Settings > Device maintenance > Battery for options:
   - Battery usage: View details of battery usage by item.
   - Power saving mode: Extend battery life by selecting a power saving mode level. Choose Off, Mid, or Max. Estimated remaining battery life for each mode is provided.
   - App power monitor: Put apps to sleep so that they do not use battery power when not in use. Tap Save power to enable.
   - Unmonitored apps: Select apps to exclude from being put to sleep by the App power monitor.
• **Always sleeping apps**: Select apps that will be put to sleep immediately when they are not being used.

• **More options > Advanced settings**: Configure advanced battery settings and notifications.

### Storage

View the device memory and usage. Mount, unmount, or format an optional memory card (not included).

#### Device Memory

View and manage the memory used by the device.

1. From a Home screen, swipe up to access **Apps**.
2. Tap **Settings > Device maintenance > Storage**.

To increase available memory:

1. From a Home screen, swipe up to access **Apps**.
2. Tap **Settings > Device maintenance > Storage**.
3. Tap **Clean now** and follow the prompts.

---

### Memory Card (SD Card)

Once an optional memory card (not included) has been installed in your device, the card memory is displayed in the Storage setting.

For more information, see “Install a Memory Card” on page 6.

#### Mount a Memory Card

When you install an optional memory card, it is automatically mounted (connected to the device) and prepared for use. However, should you unmount the card without removing it from the device, you need to mount it before it can be accessed.

1. From a Home screen, swipe up to access **Apps**.
2. Tap **Settings > Device maintenance > Storage**.
3. Tap **More options > Storage settings**.
4. Under **Portable storage**, tap your SD card, and then tap **Mount**.
Remove a Memory Card
To prevent damage to information stored on the memory card, unmount the card before removing it from the device.

1. From a Home screen, swipe up to access Apps.
2. Tap 🌐 Settings > Device maintenance > Storage.
4. Under Portable storage, tap your SD card, and then tap Unmount.
5. Remove the memory card from the device.

Format a Memory Card
When formatting an SD card, you should back up your music and photo files that are stored on the card because formatting the SD card deletes all the stored data.

1. From a Home screen, swipe up to access Apps.
2. Tap 🌐 Settings > Device maintenance > Storage.
4. Under Portable storage, tap your SD card, tap Format, and then follow the prompts.
Memory
Check the amount of available memory. You can close background apps and reduce the amount of memory you are using to speed up your device.

1. From a Home screen, swipe up to access Apps.
2. Tap 📘 Settings > Device maintenance > Memory.
   • The used and available memory are shown.
3. To free up as much memory as possible, tap Clean now and follow the prompts.
   • The selected apps and services in the list will be closed.

Language and Input
Configure your device’s language and input settings.

Change the Device Language
You can add languages to your list and organize them according to preference. If an app does not support your default language then it will move to the next supported language in your list.

1. From a Home screen, swipe up to access Apps.
2. Tap 📘 Settings > General management > Language and input > Language.
3. Tap + Add language, and select a language from the list.
4. Touch and hold ⬆️ Move next to a language, and drag it to the top of the list to set it as the device language.
5. Tap Done.
**Default Keyboard**

Select a default keyboard for your device’s menus and keyboards. Additional keyboards can be downloaded from the Google Play store.

1. From a Home screen, swipe up to access **Apps**.
2. Tap **Settings** > **General management** > **Language and input**.
3. Tap **Default keyboard**, and select a keyboard.

**Manage On-Screen Keyboards**

Enable or disable on-screen keyboards.

1. From a Home screen, swipe up to access **Apps**.
2. Tap **Settings** > **General management** > **Language and input**.
3. Tap **On-screen keyboard** > **Manage keyboards**.
4. Tap each keyboard to enable or disable.

**Physical Keyboards**

Customize options when you have a physical keyboard connected to your device (sold separately).

1. From a Home screen, swipe up to access **Apps**.
2. Tap **Settings** > **General management** > **Language and input**.
3. Tap **Physical keyboard**, and select an option:
   - **Show on-screen keyboard**: Show the on-screen keyboard while a physical keyboard is also being used.
   - **Keyboard shortcuts**: Show explanations of the keyboard shortcuts on the screen.
Text-to-Speech Options

Configure your Text-to-Speech (TTS) options. TTS is used for various accessibility features, such as Voice Assistant.

1. From a Home screen, swipe up to access Apps.

2. Tap Settings > General management > Language and input > Text-to-speech for options:

   - **Preferred TTS engine**: Choose either the Samsung or Google Text-to-speech engine. Tap Settings next to each TTS engine for options.

   - **Speech rate**: Set the speed at which the text is spoken.

   - **Pitch**: Set the pitch of the speech.

   - **Reset speech rate**: Reset the speech rate.

   - **Reset pitch**: Reset the speech pitch.

   - **Listen to an example**: Tap to play a short demonstration of speech synthesis.

   - **Default language status**: Display the default language in use.

Pointer Speed

Configure pointer speed for an optional mouse or trackpad (not included).

1. From a Home screen, swipe up to access Apps.

2. Tap Settings > General management > Language and input.

3. Under **Pointer speed**, drag the slider to the right to go faster or to the left to go slower.
**Date and Time**

By default, your device receives date and time information from the wireless network. When you are outside network coverage, you can set date and time information manually using the date and time settings.

1. From a Home screen, swipe up to access **Apps**.
2. Tap **Settings** > **General management** > **Date and time**. The following options are available:
   - **Automatic date and time**: Receive date and time updates from the wireless network. When Automatic date and time is disabled, the following options are available:
     - **Set date**: Enter the current date.
     - **Set time**: Enter the current time.
     - **Select time zone**: Choose your local time zone.
   - **Use 24-hour format**: Set the format for displaying time.

**Report Diagnostic Information**

This feature sends diagnostic information about your device when you are having technical problems.

1. From a Home screen, swipe up to access **Apps**.
2. Tap **Settings** > **General management** > **Report diagnostic information**.
3. Read and accept the consent information to enable this feature.
Reset

Reset device and network settings. You can also reset your device to its factory defaults.

Reset Settings

You can reset your device to its factory default settings, which resets everything except the security, language, and account settings. Personal data is not affected.

1. From a Home screen, swipe up to access Apps.
2. Tap Settings > General management > Reset > Reset settings.
3. Tap Reset settings, and confirm when prompted.

Reset Network Settings

You can reset Wi-Fi, Mobile data, and Bluetooth settings with Reset network settings.

1. From a Home screen, swipe up to access Apps.
2. Tap Settings > General management > Reset > Reset network settings.
3. Tap Reset settings, and confirm when prompted.
**Factory Data Reset**

You can reset your device to factory defaults, erasing all data from your device.

This action permanently erases ALL data from the device, including Google or other account settings, system and application data and settings, downloaded applications, as well as your music, photos, videos, and other files. Any data stored on an external SD card is not affected.

Before resetting your device:

1. Verify that the information you want to keep has transferred to your storage area.
2. Log in to your Google Account and confirm your user name and password.

To reset your device:

1. From a Home screen, swipe up to access Apps.
2. Tap 📱 Settings > General management > Reset > Factory data reset.
3. Tap Reset and follow the prompts to perform the reset.
4. When the device restarts, follow the prompts to set up your device.
Factory Reset Protection

When you sign in to a Google Account on your device, Factory Reset Protection (FRP) is activated. FRP prevents other people from using your device if it is reset to factory settings without your permission. For example, if your device is lost or stolen and a factory data reset is performed, only someone with your Google Account username and password can use the device. For more information, visit samsung.com/us/support/frp.

You will not be able to access the device after a factory data reset if you do not have your Google Account username and password.

Auto Restart

Optimize your device by restarting it automatically at set times. Any unsaved data is lost when the device restarts.

1. From a Home screen, swipe up to access Apps.
2. Tap Settings > General management > Reset > Auto restart.
3. Tap On/Off to activate Auto restart, and then set the following parameters:
   - **Time**: Set the time of day to restart your device.
   - **Day**: Select the day of the week to automatically restart your device.
System Updates

Check for and install available software updates for your device.

1. From a Home screen, swipe up to access **Apps**.

2. Tap **Settings > System updates** for the following options:
   
   - **Download updates manually**: Check for software updates.
   
   - **Download updates automatically**: Download software updates automatically when connected to a Wi-Fi network.
   
   - **Update PRL**: Automatically update the Preferred Roaming List (PRL).
   
   - **Update Profile**: Automatically update your online user profile information.
   
   - **UICC Unlock**: Unlock your device’s Universal Integrated Circuit Card.
Lock Screen and Security

Secure your device and protect your data with Lock Screen and Security settings.
Screen Lock Types

The various Screen lock types offer high, medium, or no security. Choose from the following: Swipe, Pattern, PIN, Password, and None.

Set a Secure Screen Lock

It is recommended that you secure your device using a secure screen lock (Pattern, PIN, or Password).

To set a secure screen lock:

1. From a Home screen, swipe up to access Apps.
2. Tap Settings > Lock screen and security > Screen lock type and tap a secure screen lock (Pattern, PIN, or Password).
3. Tap On/Off to enable showing notifications on the lock screen. The following options are available:
   - **Hide content**: Enable to hide the content of notifications.
   - **Notification icons only**: Enable to hide notification details and show only the icon.
4. Tap Done when finished.
5. Configure the following screen lock options:
   - **Smart Lock**: Unlock your device automatically when trusted locations or other devices have been detected. A secure screen lock is required for this feature.
   - **Secure lock settings**: Customize your secure lock settings. A secure screen lock is required for this feature.
Lock Screen Settings
Configure display settings for the Lock screen.

1. From a Home screen, swipe up to access Apps.
2. Tap ⚙ Settings > Lock screen and security for options:
   - **Information and FaceWidgets**: Set a roaming clock, FaceWidgets, or Contact information to display on the Lock screen.
   - **Notifications**: Select which notifications to display on the Lock screen.
   - **App shortcuts**: Select which apps to open from the Lock screen.

Unknown Sources
Enable installation of non-Google Play applications.

1. From a Home screen, swipe up to access Apps.
2. Tap ⚙ Settings > Lock screen and security > Unknown sources to enable this option.
Private Mode

Hide personal content from being accessed by anyone else using your device. Private mode is only available for certain applications.

A secure screen lock (Pattern, PIN, or Password) is required to use Private mode.

1. From a Home screen, swipe up to access Apps.
2. Tap Settings > Lock screen and security > Private mode.
3. Tap On/Off to enable Private mode.

Follow the prompts to learn about and set up Private mode.

Encrypt Device

Protect your device by encrypting its data.

1. From a Home screen, swipe up to access Apps.
2. Tap Settings > Lock screen and security > Encrypt device.
3. Tap Encrypt device and follow the prompts to encrypt all data on your device.

Encrypt SD Card

Protect your SD card by encrypting its data.

1. From a Home screen, swipe up to access Apps.
2. Tap Settings > Lock screen and security > Encrypt SD card.
3. Tap Encrypt SD card and follow the prompts to encrypt all data on your memory card.
View Passwords
Display password characters briefly as you type them.

1. From a Home screen, swipe up to access Apps.
2. Tap Settings > Lock screen and security > Other security settings > Make passwords visible to turn the feature on.

Security Update Service
Automatically receive security updates.

1. From a Home screen, swipe up to access Apps.
2. Tap Settings > Lock screen and security > Other security settings for the following Security update service options:

- **Security policy updates**: Automatically or manually check for security policy updates.
  - Automatic updates can also be limited to only when your device is connected to a Wi-Fi network.

- **Send security reports**: Use Wi-Fi to send security reports to Samsung for threat analysis.
**Device Administration**

Manage your device administrators and application installation privileges.

1. From a Home screen, swipe up to access **Apps**.
2. Tap **Settings > Lock screen and security > Other security settings > Device administrators**.
3. Tap an option to enable it as a device administrator.

**Credential Storage**

Manage your security certificates. If a certificate authority (CA) certificate gets compromised or for some other reason you do not trust it, you can disable or remove it.

1. From a Home screen, swipe up to access **Apps**.
2. Tap **Settings > Lock screen and security > Other security settings** for the following options:
   - **Storage type**: Select a storage location for credential contents.
   - **View security certificates**: Display certificates in your device’s ROM and other certificates you have installed.
   - **User certificates**: View user certificates.
   - **Install from device storage**: Install a new certificate from storage.
   - **Clear credentials**: Erase the credential contents from the device and reset the password.
Knox Active Protection

Protect your device from cyber attacks.

1. From a Home screen, swipe up to access Apps.
2. Tap 🖱️ Settings > Lock screen and security > Other security settings > Knox active protection.

Advanced Security Settings

Use these options to configure advanced security settings.

1. From a Home screen, swipe up to access Apps.
2. Tap 🖱️ Settings > Lock screen and security > Other security settings for the following advanced options:

- **Trust agents**: Perform selected actions when trusted devices are connected.
  - This option is only displayed when a lock screen is enabled. For more information, see “Set a Secure Screen Lock” on page 122.
- **Pin windows**: Pin an app on your device screen, preventing access to other features of your device.
- **Usage data access**: View the applications that can access your device’s usage history.
- **Notification access**: View the applications that can access notifications you receive on your device.
- **Do not disturb permission**: View which apps have permission to change the Do not disturb settings.
Accounts

Set up and manage accounts, including your Google Account, Samsung account, email, and social networking accounts.
Samsung Cloud

Keep your data safe by backing up and restoring your device. You can also sync your data from multiple devices.

1. From a Home screen, swipe up to access Apps.

2. Tap Settings > Cloud and accounts > Samsung Cloud.
   - If a Samsung account has not been added, follow the prompts to add one.

3. Once a Samsung account is configured, the following options are available:
   - Manage cloud storage: View how much cloud storage your data is using.
   - Backup settings: Configure backup for supported apps using your Samsung Cloud account.
   - Restore: Download any stored backup information to your device.

   • Data to sync: Tap the following items to enable or disable syncing:
     - Contacts (Samsung account): Sync contact info.
     - Calendar (Samsung account): Sync your events and tasks.
     - Memo: Sync your memos and categories.
     - Samsung Internet: Sync bookmarks, saved pages, and opened tabs from your browser.
     - Keyboard data: Sync predictive text data.
     - Gallery: Sync your images and videos.

   • More options:
     - Sync now: Sync all selected settings for your Samsung account.
     - Sync information: Read more information on what can be synced with your Samsung Cloud account.
- **Settings**: Configure Sync, notifications, or remove your Samsung account.
- **FAQ**: Launch the Samsung help web site to view additional information based on frequently asked questions.
- **Contact us**: Contact Samsung.

**My Profile**
Manage your personal information and Samsung account details.

1. From a Home screen, swipe up to access **Apps**.
2. Tap **Settings > Cloud and accounts > My Profile**.
   - If a Samsung account has not been added, follow the prompts to add one.

**Add an Account**
You can add and manage all your email, social networking, and picture and video sharing accounts.

1. From a Home screen, swipe up to access **Apps**.
2. Tap **Settings > Cloud and accounts > Accounts > Add account**.
3. Tap one of the account types.
4. Follow the prompts to enter your credentials and set up the account.
Synchronize Accounts

Synchronize your calendar, contacts, and other types of accounts.

1. From a Home screen, swipe up to access Apps.
2. Tap Settings > Cloud and accounts > Accounts > [Account type].
3. Tap an account to view the sync settings for that account.
4. Tap individual data items to sync.
5. Tap More options > Sync now to synchronize the account.

Account Settings

Each account has its own set of settings. In addition, you can configure common settings for all accounts of the same type.

Account settings and available features vary between account types and service providers. Contact your service provider for more information on your account’s settings.

1. From a Home screen, swipe up to access Apps.
2. Tap Settings > Cloud and accounts > Accounts > [Account type].
3. Tap an account to configure that account’s sync settings.
4. Tap other available options for the account type.
Remove an Account
You can remove accounts from your device.

1. From a Home screen, swipe up to access **Apps**.
2. Tap **Settings** > **Cloud and accounts** > **Accounts** > [Account type].
3. Tap the account and then tap **More options** > **Remove account**.

Users
Share this tablet with multiple people by creating User accounts.

Users have their own space, which they can customize with their own apps, wallpaper, and settings. Users can also adjust tablet settings that affect everyone, such as Wi-Fi.

Restricted profiles allow only limited access to apps and content.

Set Up User Profiles
Set up user profiles and then select one when unlocking the device to use personalized settings.

1. From a Home screen, swipe up to access **Apps**.
2. Tap **Settings** > **Cloud and accounts** > **Users**.
3. Tap **Add user or profile** and follow the prompts to set up a new user or profile.

Switch User Profiles
To access the device with a user profile:

► From a Lock screen, tap **Manage users** for the user or profile.
Change User Account Nicknames and Photo IDs

The photo and name each user uses in their personal Contact entry (listed under My profile at the top of their Contacts list) is used as their User ID and name.

To change their ID photo and name, each user can edit their personal Contact entry. For more information, see “Edit a Contact” on page 47.

Delete a User or Profile

To delete a user or profile:

1. From a Home screen, swipe up to access Apps.
2. Tap Settings > Cloud and accounts > Users.
3. For a restricted account, tap Settings next to the user profile.
4. Tap Delete, and then confirm when prompted.

Note: Only the device owner can delete other users or profiles. Deleting a user’s profile removes the user account from the device entirely. This includes the user’s Google Account, Samsung account, and any other local accounts associated with the user.
Backup and Restore

Back up your data to your Samsung or Google Accounts.

Samsung Account

Enable backup of your information to your Samsung account.

1. From a Home screen, swipe up to access Apps.
2. Tap Settings > Cloud and accounts > Backup and restore for options:
   - Backup settings: Configure your Samsung account to back up your data.
   - Restore: Use your Samsung account to restore your backup data.

Google Account

Enable backup of your information to your Google Account.

1. From a Home screen, swipe up to access Apps.
2. Tap Settings > Cloud and accounts > Backup and restore for options:
   - Back up my data: Enable back up of application data, Wi-Fi passwords, and other settings to Google servers.
   - Backup account: Select a Google Account to be used as your backup account.
   - Automatic restore: Enable automatic restoration of settings from Google servers. When enabled, backed-up settings are restored when you reinstall an application.
Google Settings
Configure your device’s Google settings. Available options depend on your Google Account.

1. From a Home screen, swipe up to access Apps.

2. Tap Settings > Google, and select an option to customize.
Accessibility

Accessibility services are special features that make using the device easier for those with certain physical disabilities.

For more information about Accessibility for Samsung products, please contact us at accessibility@sea.samsung.com.
Vision

Turn on Accessibility features to assist with visual aspects of the device.

1. From a Home screen, swipe up to access Apps.

2. Tap 🔄 Settings > Accessibility > Vision, and tap an option:

   - **Voice Assistant**: Give spoken feedback to assist blind and low-vision users.
     - Voice Assistant can collect all of the text you enter, except passwords, including personal data and credit card numbers. It may also log your user interface interactions with the device.
   
   - **Voice Assistant help**: View help on using Voice Assistant.
   
   - **Dark screen**: Keep the screen turned off at all times for privacy.

   - **Rapid key input**: Release your finger to enter selection instead of double tapping.
   
   - **Speak passwords**: Read the characters aloud as you enter your passwords.
   
   - **Accessibility shortcut**: Quickly enable accessibility features in two quick steps.

   - **Screen zoom and font**: Configure the screen zoom level and font size and style.

   - **High contrast fonts**: Adjust the color and outline of fonts to increase the contrast with the background.

   - **High contrast keyboard**: Adjust the size of the Samsung keyboard and change its colors to increase the contrast between the keys and the background.

   - **Show button shapes**: Show buttons with shaded backgrounds to make them stand out.
• **Magnifier window**: Magnify content shown on the screen.

• **Magnification gestures**: Use exaggerated gestures such as triple-tapping, double pinching, and dragging two fingers across the screen.

• **Large mouse/touchpad pointer**: Enable a large pointer for a connected mouse or touchpad (not included).

• **Grayscale**: Enable grayscale mode instead of using colors.

• **Negative colors**: Reverse the display of colors from white text on a black background to black text on a white background.

• **Color adjustment**: Adjust the color of the screen if you are color blind or have difficulty reading the display because of the screen color.

---

**Hearing**

Turn on Accessibility features to assist with audio aspects of the device.

1. From a Home screen, swipe up to access **Apps**.

2. Tap **Settings > Accessibility > Hearing**, and tap an option:
   - **Mute all sounds**: Turn off all notifications and audio for privacy.
   - **Samsung subtitles (CC)**: Use Samsung subtitles with multimedia files when available.
   - **Google subtitles (CC)**: Use Google subtitles with multimedia files when available.
   - **Left/right sound balance**: Use the slider to set the left and right balance when using a stereo device.
   - **Mono audio**: Switch audio from stereo to mono for use with one earphone.
Dexterity and Interaction

Turn on Accessibility features to assist with dexterity and interaction aspects of the device.

1. From a Home screen, swipe up to access Apps.
2. Tap 📱 Settings > Accessibility > Dexterity and interaction, and tap an option:
   - **Universal switch**: Control your device with your customized switches.
   - **Assistant menu**: Improve the device accessibility for users with reduced dexterity.
   - **Press and hold delay**: Select a time interval for this action.

- **Click after pointer stops**: Automatically click on an item after the pointer stops over it.
- **Interaction control**: Customize interactable or non-interactable areas, hardkeys, and the keyboard.

More Accessibility Settings

Customize additional accessibility features for your device.

1. From a Home screen, swipe up to access Apps.
2. Tap 📱 Settings > Accessibility, and tap an option:
   - **Text-to-speech**: Set your preferred TTS engine and options. For more information, see “Text-to-Speech Options” on page 115.
• **Direction lock**: Unlock the screen by swiping in a series of directions.

• **Direct access**: Open your accessibility settings by pressing the **Volume up** key and the **Power** key together.

• **Notification reminder**: Beep at set intervals to remind you of any unread notifications.

• **Single tap mode**: Dismiss or snooze alarms and calendar events.

• **Accessibility settings backup**: Import and export your accessibility settings, or share them with other devices.

---

## Accessibility Services

Additional accessibility apps may be downloaded from the Google Play store.

1. From a Home screen, swipe up to access **Apps**.

2. Tap ☰️ **Settings** > **Accessibility**.

3. Tap an accessibility service.
Other Settings

Configure features on your device that make it easier to use.
About Tablet

View information about your device, including current status, legal information, hardware and software versions, and more.

1. From a Home screen, swipe up to access Apps.
2. Tap 📱 Settings > About tablet, and then tap items for more details:
   - **My phone number**: View your phone number.
   - **Status**: View the status of the battery, network, and other information about your device.
   - **Legal information**: View legal notices and other legal information, including your embedded Samsung legal information.
   - **Device name**: View and change your device’s name.
   - Additional device information includes the Model number, Android version, Build number, and more.

Help

View help topics on your device.

1. From a Home screen, swipe up to access Apps.
2. Tap 📱 Settings > Help.
3. Tap Sort by to sort the topics by category or alphabetically.
4. Tap Search to search for a topic.
Activate This Device

This option lets you activate a new tablet or use additional self-service options such as checking the status of an in-service tablet.

1. From a Home screen, swipe up to access Apps.

2. Tap Settings > Activate this device.

3. Follow the prompts to activate your tablet or review your summary.
   - Your tablet activates. If already activated on an account, you will see a usage and plan summary.

Find Legal Information on the Mobile Device

The full Arbitration Agreement, Standard Limited Warranty, End User License Agreement (EULA) and Health & Safety Information are also available on the device, in the Samsung legal section of Settings. The location depends on the device, and is usually in the “About device” or “About phone” section, for example:

- Settings > About phone or About device or About tablet > Legal information > Samsung legal
- Or, use the Search feature to search for “Legal”.

Intellectual Property

All Intellectual Property, as defined below, owned by or which is otherwise the property of Samsung or its respective suppliers relating to the SAMSUNG mobile device, including but not limited to, accessories, parts, or software relating thereto (the “mobile device”), is proprietary to Samsung and protected under federal laws, state laws, and international treaty provisions. Intellectual Property includes, but is not limited to, inventions (patentable or unpatentable), patents, trade secrets, copyrights, software, computer programs, and related documentation and other works of authorship.

You may not infringe or otherwise violate the rights secured by the Intellectual Property. Moreover, you agree that you will not (and will not attempt to) modify, prepare derivative works of, reverse engineer, decompile, disassemble, or otherwise attempt to create source code from the software. No title to or ownership in the Intellectual Property is transferred to you. All applicable rights of the Intellectual Property shall remain with SAMSUNG and its suppliers.
Open Source Software

Some software components of this product, including but not limited to ‘PowerTOP’ and ‘e2fsprogs’, incorporate source code covered under GNU General Public License (GPL), GNU Lesser General Public License (LGPL), OpenSSL License, BSD License and other open source licenses. To obtain the source code covered under the open source licenses, please visit: opensource.samsung.com

Disclaimer of Warranties; Exclusion of Liability

The information below explains that a user accepts this Product as sold, including the hardware and software components as created and packaged for sale. If the user changes these parameters through a unique modification, Samsung will not be held responsible for damages or issues that result from these end-user changes.

Except as set forth in the Standard Limited Warranty that accompanies the Product, the purchaser takes the product “as is”, and Samsung makes no express or implied warranty of any kind whatsoever with respect to the product, including but not limited to the:

- merchantability of the product or its fitness for any particular purpose or use;
- design, condition or quality of the product;
- performance of the product;
- workmanship of the product or the components contained therein; or
- compliance of the product with the requirements of any law, rule, specification or contract pertaining thereto.
Nothing contained in the User Manual shall be construed to create an express or implied warranty of any kind whatsoever with respect to the Product. In addition, Samsung shall not be liable for any damages of any kind resulting from the purchase or use of the product or arising from the breach of the express warranty, including incidental, special or consequential damages, or loss of anticipated profits or benefits.

Modification of Software
Samsung is not liable for performance issues or incompatibilities caused by your editing of registry settings, or your modification of Operating System (OS) software.

Using custom OS software may cause your device and applications to work improperly. Your carrier may not permit users to download certain software, such as custom OS.

Samsung Knox
Samsung Knox is Samsung’s security platform and is a mark for a Samsung device tested for security with enterprise use in mind. Additional licensing fee may be required. For more information about Knox, please refer to: samsung.com/us/knox
Restricting Children’s Access to Your Mobile Device

Your device is not a toy. Do not allow children to play with it because they could hurt themselves and others, damage the device, or make calls that increase your device bill. Keep the device and all its parts and accessories out of the reach of small children.

Samsung Electronics America, Inc.
