

## F/W Update Method by USB flash drive

### How to prepare F/W Update file via USB flash drive

1. Download the newest firmware file onto your computer from [www.samsung.com](http://www.samsung.com).
2. If the firmware file is compressed (\*.zip), the file should be uncompressed to RUF file (\*.ruf).
3. Connect a USB flash drive to your computer.
4. If there are previous versions of RUF file on USB flash drive, delete them.
5. Copy the new RUF file to USB flash drive.

### Warning

The following events may interrupt the upgrade process and MAY RESULT IN PERMANENT DAMAGE TO THE UNIT.

1. Unplugging the power cord
2. Power Outage

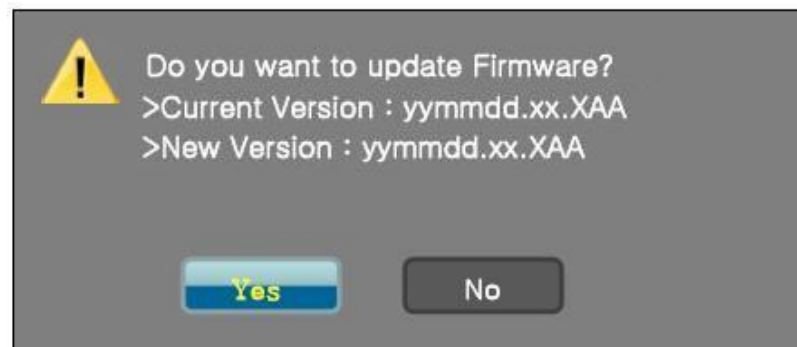

### How to upgrade the BD-P2500

1. Remove any Disc, the display should read "No Disc."
2. Insert USB flash drive into the USB Host jack.
3. Please wait while verifying.

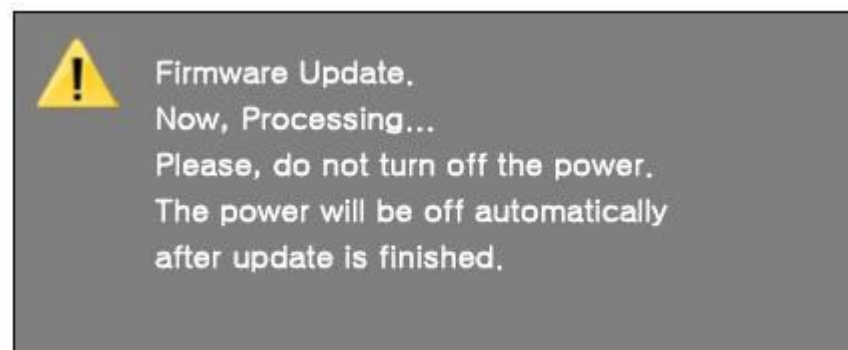

4. After sometime, you will see "Yes/No" menu.

5. Press the 'Enter' button to choose 'Yes' if the version is a later version than the current one.

6. Wait about 2~3 minutes.

When finished, the power will turn off automatically.

7. Remove the USB flash drive.
