Safety Information

Warning

**WARNING**

- To reduce the risk of fire or electric shock, do not expose this appliance to rain or moisture.

**FCC NOTES (for U.S.A)**

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on. If interference is present, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect this equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This Class B digital product meets all requirements of the Canadian Interference - Causing Equipment Regulations.

**CLASS 1 LASER PRODUCT**

This Compact Disc player is classified as a CLASS 1 LASER product. Use of controls, adjustments or performance of procedures other than those specified herein may result in hazardous radiation exposure. Complies with 21CFR 1040.10 except for deviations pursuant to Laser Notice No. 50, dated June 24, 2007.

**DANGER:**

- VISIBLE AND INVISIBLE LASER RADIATION WHEN OPEN. AVOID DIRECT EXPOSURE TO BEAM. (FDA 21 CFR)

**CAUTION:**

- CLASS 3B VISIBLE AND INVISIBLE LASER RADIATION WHEN OPEN. AVOID EXPOSURE TO THE BEAM (IEC 60825-1)
- THIS PRODUCT UTILIZES A LASER. USE OF CONTROLS OR ADJUSTMENTS OR PERFORMANCE OF PROCEDURES OTHER THAN THOSE SPECIFIED HEREIN MAY RESULT IN HAZARDOUS RADIATION EXPOSURE. DO NOT OPEN COVER AND DO NOT REPAIR YOURSELF. REFER SERVICING TO QUALIFIED PERSONNEL.
Precautions

Important Safety Instructions

Read these operating instructions carefully before using the unit. Follow all the safety instructions listed below. Keep these operating instructions handy for future reference.

1. Read these instructions.
2. Keep these instructions.
3. Heed all warnings.
4. Follow all instructions.
5. Do not use this apparatus near water.
6. Clean only with a dry cloth.
7. Do not block any ventilation openings. Install in accordance with the manufacturer's instructions.
8. Do not install near any heat sources such as radiators, heat registers, stoves, or other apparatus (including AV receivers) that produce heat.
9. Do not defeat the safety purpose of the polarized or grounding-type plug. A polarized plug has two blades with one wider than the other. A grounding type plug has two blades and a third grounding prong. The wide blade or the third prong are provided for your safety. If the provided plug does not fit into your outlet, consult an electrician for replacement of the obsolete outlet.
10. Protect the power cord from being walked on or pinched particularly at plugs, convenience receptacles, and the point where it exits the apparatus.
11. Only use attachments/accessories specified by the manufacturer.
12. Use only with the cart, stand, tripod, bracket, or table specified by the manufacturer, or sold with the apparatus. When a cart is used, use caution when moving the cart/apparatus combination to avoid injury from tip-over.
13. Unplug this apparatus during lightning storms or when unused for long periods of time.
14. Refer all servicing to qualified service personnel. Servicing is required when the apparatus has been damaged in any way, such as when the power-supply cord or plug is damaged, liquid has been spilled or objects have fallen into the apparatus, the apparatus has been exposed to rain or moisture, does not operate normally, or has been dropped.

Disc Storage & Management

- Holding Discs: - Fingertips or scratches on a disc may reduce sound and picture quality or cause skipping.
- Avoid touching the surface of a disc where data has been recorded.
- Hold the disc by the edges so that fingerprints will not get on the surface.
- Do not stick paper or tape on the disc.

- Cleaning Discs:
- If you get fingerprints or dirt on a disc, clean it with a mild detergent diluted in water and wipe with a soft cloth.
- When cleaning, wipe gently from the inside to the outside of the disc.

- Disc Storage:
  - Do not keep in direct sunlight.
  - Keep in a cool ventilated area.
  - Keep in a clean protection jacket and store vertically.

Handling Cautions

- Do not expose this apparatus to dripping or splashing. Do not put objects filled with liquids, such as vases, on the apparatus.
- To turn this apparatus off completely, you must pull the power plug out of the wall socket. Consequently, the power plug must be easily and readily accessible at all times.
- Do not touch the power plug with a wet hand. It can cause an electric shock.
- Do not plug multiple electric devices into the same wall socket. Overloading a socket can cause it to overheat, resulting in a fire.
- Before connecting other components to this product, be sure to turn them off.
- If you move your product suddenly from a cold place to a warm place, condensation may occur on the operating parts and lens and cause abnormal disc playback. If this occurs, unplug the product, wait for two hours, and then connect the plug to the power outlet. Then, insert the disc, and try to play back again.
- If the product makes an abnormal noise or produces a burning smell or smoke, turn off the power switch immediately and disconnect the power plug from the wall outlet. Then, contact the nearest customer service center for technical assistance. Do not use the product. Using the product as it is may cause a fire or an electric shock.
Safety Information

• To turn this apparatus off completely, you must pull the power plug out of the wall socket. Consequently, the power plug must be easily and readily accessible at all times.

Using the 3D Function

IMPORTANT HEALTH AND SAFETY INFORMATION FOR 3D PICTURES.
Read and understand the following safety information before using the 3D function.

• Some viewers may experience discomfort while viewing 3D TV such as dizziness, nausea, and headaches. If you experience any such symptom, stop viewing 3D TV, remove the 3D Active Glasses, and rest.

• Watching 3D images for an extended period of time may cause eye strain. If you feel eye strain, stop viewing 3D TV, remove your 3D Active Glasses, and rest.

• A responsible adult should frequently check on children who are using the 3D function. If there are any reports of tired eyes, headaches, dizziness, or nausea, have the child stop viewing 3D TV and rest.

• Do not use the 3D Active Glasses for other purposes (such as general eyeglasses, sunglasses, protective goggles, etc.)

• Do not use the 3D function or 3D Active Glasses while walking or moving around. Using the 3D function or 3D Active Glasses while moving around may cause you to bump into objects, trip, and/or fall, and cause serious injury.
• If you want to enjoy 3D content, connect a 3D device (3D compliant AV receiver or TV) to the product’s HDMI OUT port using a high-speed HDMI cable. Put on 3D glasses before playing the 3D content.
• The product outputs 3D signals only through HDMI cable connected to the HDMI OUT port.
• As the video resolution in 3D play mode is fixed according to the resolution of the original 3D video, you cannot change the resolution to your preference.
• Some functions such as BD Wise, screen size adjustment, and resolution adjustment may not operate properly in 3D play mode.
• You must use a high-speed HDMI cable for proper output of the 3D signal.
• Stay at least three times the width of the screen from the TV when watching 3D images. For example, if you have a 46 inch screen, stay 138 inches (11.5 feet) from the screen.
  - Place the 3D video screen at eye level for the best 3D picture.
• When the product is connected to some 3D devices, the 3D effect may not function properly.
• This product does not convert 2D content into 3D.
• “Blu-ray 3D” and “Blu-ray 3D” logo are trademarks of the Blu-ray Disc Association.

## Disk and Format Compatibility

### Disc Types and Contents Your Product Can Play

<table>
<thead>
<tr>
<th>Media</th>
<th>Disc Type</th>
<th>Details</th>
</tr>
</thead>
<tbody>
<tr>
<td>VIDEO</td>
<td>Blu-ray Disc 3D Bluray Disc</td>
<td>BD-ROM or BD-RE/-R disc recorded in the BD-RE format.</td>
</tr>
<tr>
<td></td>
<td>DVD-VIDEO, DVD-RW, DVD-R, DVD+RW, DVD+R</td>
<td>DVD-VIDEO, recorded DVD+RW/DVD-R/W(V)/DVD-R/+R discs that have been recorded and finalized, or a USB storage media containing MKV, MP4 contents.</td>
</tr>
<tr>
<td>MUSIC</td>
<td>CD-RW/-R, DVD-RW/-R, BD-RE/-R</td>
<td>Music recorded on CD-RW/-R, DVD-RW/-R, BD-RE/-R discs or a USB storage media containing MP3 or WMA contents.</td>
</tr>
</tbody>
</table>

### NOTES
- The product may not play certain CD-RW/-R and DVD-R because of the disc type or recording conditions.
- If a DVD-RW/-R disc has not been recorded properly in DVD video format, it will not be playable.
- Your product will not play content that has been recorded on a DVD-R at a bitrate that exceeds 10 Mbps.
- Your product will not play content that has been recorded on a BD-R or USB device at a bitrate that exceeds 30 Mbps.
- Playback may not work for some types of discs, or when you use specific operations, such as angle change and aspect ratio adjustment. Information about the discs is written in detail on the disc box. Please refer to this if necessary.
- When you play a BD title, loading may take longer than a normal title or some functions may perform slowly.

### Disc Types Your Product Cannot Play

- HD DVD
- DVD-ROM/PD/MV-Disc, etc
- DVD-RAM
- Super Audio CD (except CD layer)
- DVD-RW(VR mode)
- CVD/CD-ROM/CVD/ CD-G/CD-I/LD (CD-Gs play audio only, not graphics.)
- 3.9 GB DVD-R Disc for Authoring.

### NOTES
- This product may not respond to all operating commands because some Blu-ray Disc, DVD, and CD discs allow specific or limited operation and provide only certain features during playback. Please note that this is not a defect in the product.
- Samsung cannot guarantee that this product will play every disc bearing the Blu-ray Disc, DVD or CD logo because disc formats evolve, and problems and errors may occur during the creation of Blu-ray Disc, DVD, and CD software and/or the manufacture of discs.
- Please contact the SAMSUNG Customer Care Center at 1-800-726-7864 if you have questions or encounter difficulty when playing Blu-ray Disc, DVD, or CD discs in this product. Also, refer to rest of this user manual for additional information on playback restrictions.
- Some commercial discs and DVD discs purchased outside your region may not play on this product.
Region Code
Both products and discs are coded by region. These regional codes must match for a disc to play. If the codes do not match, the disc will not play.
The Region Number for this product is displayed on the rear panel of the product.

<table>

</table>

- **Limitations**
  - Even when a file is encoded by a supported codec listed above, the file might not be played if its content has a problem.
  - Normal playback is not guaranteed if the file's container information is wrong or the file itself is corrupted.
  - Files having a higher bitrate/frame rate than standard may stutter during sound/video playback.
  - The Seek (skip) function is not available if the file's index table is damaged.

- **Video decoder**
  - Supports up to H.264 Level 4.1 and AVCHD
  - Does not support H.264 FMO/ASO/RS and VC1 SP/MP/AP L4
  - MPEG4 SP, ASP:
    - Below 1280 x 720 : 60 frames max
    - Above 1280 x 720 : 30 frames max
  - Does not support GMC 2 or higher

- **Audio decoder**
  - Supports WMA 7, 8, 9 and STD
  - Does not support WMA sampling rate of 22050Hz mono.
  - AAC: Max sampling rate: 96Khz (8, 11, 12, 16, 22,24, 32,44,1, 48, 64, 88,2, 96) Max bitrate: 320kbps

**AVCHD (Advanced Video Codec High Definition)**

- This product can play back AVCHD format discs. These discs are normally recorded and used in camcorders.
- The AVCHD format is a high definition digital video camera format.
• The MPEG-4 AVC/H.264 format compresses images with greater efficiency than the conventional image compressing format.
• Some AVCHD discs use the “x.v.Color” format. This product can play back AVCHD discs that use “x.v.Color” format.
• “x.v.Color” is a trademark of Sony Corporation.
• “AVCHD” and the AVCHD logo are trademarks of Matsushita Electronic Industrial Co., Ltd. and Sony Corporation.

| NOTES |
- Some AVCHD format discs may not play, depending on the recording conditions.
- AVCHD format discs need to be finalized.
- “x.v.Color” offers a wider color range than normal DVD camcorder discs.
- Some MKV and MP4 format discs may not play, depending on their video resolution and frame rate.

Notes on the USB connection
• Your product supports USB storage media, MP3 players, digital cameras, and USB card readers.
• The product does not support folder or file names longer than 128 characters.
• Some USB/External HDD/digital camera devices may not be compatible with the product.
• Your product supports the FAT 16, FAT 32, and NTFS file systems.
• Connect USB devices directly to the product’s USB port. Connecting through a USB cable may cause compatibility problems.
• Inserting more than one memory device into a multi-card reader may cause the reader to operate improperly.
• The product does not support the PTP protocol.
• Do not disconnect a USB device during a “loading” process.
• The bigger the image resolution, the longer the image takes to display.
• This product cannot play MP3 files with DRM (Digital Rights Management) downloaded from commercial sites.
• Your product only supports video that is under 30fps (frame rate).
• You must remove the USB storage device safely (by performing the “Safely Remove USB” function) to prevent possible damage to the USB memory.

Press the HOME button to move to the home menu, press the YELLOW (C) button, and then press the button.
• SAMSUNG is not responsible for any data file damage or data loss.

Accessories

Getting Started

Front Panel

- PLAY/PAUSE
- STOP
- FUNCTION
- OPEN/CLOSE
- VOLUME CONTROL
- DISPLAY POWER
- DISC TRAY
- REMOTE CONTROL
- USB HOST
- POWER

**NOTES**
- To upgrade the product’s software through the USB Host jack, you must use a USB memory stick.
- When the product displays the Blu-ray Disc menu, you cannot start the movie by pressing the PLAY button on the remote or the product. To play the movie, you must select Play Movie or Start in the disc menu, and then press the ENTER button.
- If you use the Internet service or play the USB device contents on the TV, you cannot select the BD/DVD mode with the FUNCTION button. Stop the playing contents on the TV first to select the BD/DVD mode.

Rear Panel

- COOLING FAN
- AUX IN
- *FM ANT
- HDMI OUT
- POWER CORD
- SPEAKER OUTPUT CONNECTORS
- EXTERNAL DIGITAL AUDIO IN (OPTICAL)
- LAN

* Connecting the FM Antenna
1. Connect the FM antenna supplied to the FM ANTENNA Jack.
2. Slowly move the antenna wire around until you find a location where reception is good, then fasten it to a wall or other rigid surface.

**NOTES**
- Ensure a minimum of 4 inches of clear space on all sides of the home theater to ensure adequate ventilation. Do not obstruct the cooling fan or ventilation holes.
- This product does not receive AM broadcasts.
Remote Control

Tour of the Remote Control

- Turn the product on and off.
- Press to select Blu-ray’s mode. (BD/DVD, D. IN, AUX, etc.).
- Cut off the sound temporarily.
- Adjust the volume.
- To open and close the disc tray.
- Press numeric buttons to operate options.
- Use to enter the Popup menu/Title menu.
- Press to view the disc menu.
- Press to search backwards or forwards.
- Press to play a disc.
- Press to pause a disc.
- Press to stop a disc.
- Selects the disc subtitle language.
- Allows you to repeat a title, chapter, track or disc.
- Press to skip backwards or forwards.
- Press to move to the Home screen.
- Use to display the playback information when playing a Blu-ray/DVD disc.
- Press to use the Tools menu.
- Press to exit the menu.
- Select on-screen menu items and change menu value.
- Use to set a preset radio frequency.
- Return to the previous menu.
- Use to display the playback information when playing a Blu-ray/DVD disc.
- These buttons are used both for menus on the product and also several Blu-ray Disc functions.
- Press to exit the menu.
- Audio signal can output to home theater speaker or TV speaker. (See page 26)
- Selects MONO or STEREO for radio broadcasts.
- These buttons are used both for menus on the product and also several Blu-ray Disc functions.
- Search for active FM stations and to change channels.
- Select the desired DSP/EQ audio mode.

Installing batteries in the Remote Control

- Make sure to match the “+” and “−” ends of the batteries with the diagram inside the compartment.
- Assuming typical TV usage, the batteries last for about one year.
- The remote control can be used up to approximately 23 feet (7 meters) from the product in a straight line.

Battery size: AAA

Battery size: AAA
Connections

This section describes various methods of connecting the product to other external components. Before moving or installing the product, be sure to turn off the power and disconnect the power cord.

Connecting the Speakers

Position of the product
Place it on a stand or cabinet shelf, or under the TV stand.

Selecting the Listening Position
The listening position should be located about 2.5 to 3 times the size of the TV’s screen from the TV. For example, if you have a 46 inch screen, locate the listening position 115 to 138 inches (9.6 to 11.5 feet) from the screen.

Front (L)
Surround (L)

Front (R)
Surround (R)

Product

Subwoofer

Center

Front Speakers
Place these speakers in front of your listening position, facing inwards (about 45°) toward you. Place the front speakers so that their tweeters will be at the same height as your ear. Align the front face of the front speakers with the front face of the center speaker or place them slightly in front of the center speakers.

Center Speaker
It is best to install the Center Speaker at the same height as the front speakers. You can also install it directly over or under the TV.

Surround Speakers
Place these speakers to the side of your listening position. If there isn’t enough room, place these speakers so they face each other. Position them about 2 to 3 feet (60 to 90cm) above your ear, facing slightly downward.
* Unlike the front and center speakers, the surround speakers are used mainly for sound effects. Sound will not come from them all the time.

Subwoofer
The position of the subwoofer is not so critical. Place it anywhere you like.

Speaker Components

Front (L) (R)
Surround (L) (R)
Center
Subwoofer
Speaker Cable
Connecting The Speakers

1. Match each speaker cable bundle to the correct speaker by matching the color coded plug on each bundle to the colored sticker on the bottom of each speaker.

2. To attach speaker wire to each speaker:
   a. Press down the red tab on the back of the speaker, insert the red wire, and then release the tab.
   b. Press down the black tab on the back of the speaker, insert the black wire, and then release the tab.

3. Connect the speaker wire plugs from each speaker to the back of the product by matching the colors of the speaker plugs to the colors of the speaker jacks.

| CAUTION |
- If you want to install the speakers on the wall, fasten screws or nails (not provided) firmly to the wall wherever you want to hang a speaker, and then, using the hole in the rear of each speaker, carefully hang each speaker on a screw or nail.
- Do not let children play with or near the speakers. They could get hurt if a speaker falls.
- When connecting the speaker wires to the speakers, make sure that the polarity (+/-) is correct.
- Keep the subwoofer speaker out of reach of children to prevent children from inserting their hands or alien substances into the duct (hole) of the subwoofer speaker.
- Do not hang the subwoofer on the wall through the duct (hole).

| NOTES |
- If you place a speaker near your TV set, the screen color may be distorted because of the magnetic field.

Connecting to a Network Router

| NOTES |
- Your router or your Internet Service Provider’s policies may prevent the product from accessing Samsung’s software update server. If this occurs, contact your Internet Service Provider (ISP) for more information.
- DSL users, please use a router to make a network connection.
- To use the DLNA function, you must connect a PC to the network as shown in the figure. The connection can be wired or wireless.
Connections

Connecting to TV/External Devices

Connecting to a TV

Connect an HDMI cable (not supplied) from the HDMI OUT jack on the back of the product to the HDMI IN jack on your TV. If the TV supports ARC, you can hear the audio from your TV through the home theater with only this cable connected. See page 18 in this manual and the section on ARC in your TV's user's manual for details.

Connecting to External Devices

To select the correct mode for an external device after you have connected the device, press the FUNCTION button. Each time you press the button, the mode changes in this order: BD/DVD → D. IN → AUX → FM

Two methods of connecting external devices to your home theater are explained below.

Method 1  AUX IN : Connecting an External Analog Component

Using an RCA audio cable (not supplied), connect the AUDIO In jack on the product to the AUDIO Out jack on the external analog component. Select the AUX mode.

• Be sure to match the colors on the cable plugs to the colors on the input and output jacks.

Method 2  OPTICAL : Connecting an External Digital Audio Component

Use to connect the digital audio output of digital signal components such as Cable Boxes and Satellite Receivers (Set-Top-Boxes).

Using a digital optical cable (not supplied), connect the Optical Digital Audio In jack on the product to the Digital Optical Out jack of the external digital device using a digital optical cable.

⇒ Select the D. IN mode.

| NOTES |

♦ To see video from your Cable Box/Satellite receiver, you must connect its video output directly to your TV.
♦ This system supports Digital sampling frequencies of 32 kHz or higher from external digital components.
♦ This system supports only DTS and Dolby Digital audio. MPEG audio, a bitstream format, is not supported.
The Initial Settings Procedure

- The Home menu will not appear if you do not configure the initial settings.
- The OSD (On Screen Display) may change in this product after you upgrade the software version.
- The access steps may differ depending on the menu you selected.

1. Turn on your TV after connecting the product, and then turn on the product. When you turn on the product for the first time, the product automatically displays the Initial Settings Language screen.

2. Press the ▲▼ buttons to select the desired language, and then press the button.

3. Press the button to start function setup.

4. The TV Aspect screen appears. Press the ▲▼ buttons to select a TV Aspect ratio, and then press the button.

   You have four choices:
   - **16:9 Original** - For widescreen TVs. Displays widescreen pictures in their original 16:9 format and 4:3 pictures (the old, standard format) in 4:3 pillar box format with black bars on the left and right.
   - **16:9 Full** - For widescreen TVs. Displays widescreen pictures in their original 16:9 format and expands 4:3 pictures to fill the 16:9 screen.
   - **4:3 Letter Box** - For older, standard screen, analog TVs. Displays 4:3 pictures in full screen and 16:9 pictures in letter box format that retains the 16:9 aspect ratio but puts black bars above and below the picture.
   - **4:3 Pan-Scan** - For older, standard screen, analog TVs. Displays 4:3 pictures in full screen and 16:9 pictures in Pan-Scan format that fills the screen, but cuts off the left and right sides of the picture and enlarges the middle vertically.

5. The Network - Wired screen appears.
   - If you have a network with dynamic IP addresses - and most people do - select Auto, press the button, and then go to Step 6.
   - If you have a network with static IP addresses, we suggest you select Skip by pressing the BLUE (D) button, and then go to "Configuring Your Network Connection" on page 19 after you have completed the initial setup. "Configuring Your Network Connection" provides a full explanation of how to configure your network connection manually.
   - If you have no network, select Skip by pressing the BLUE (D) button. The Initial Settings Complete screen appears, and then the Home screen appears.

<table>
<thead>
<tr>
<th>NOTES</th>
</tr>
</thead>
<tbody>
<tr>
<td>If you skip network setup here or the setup does not work correctly, you can go to &quot;Configuring Your Network Connection&quot; on page 19 to set up the product’s network connection later.</td>
</tr>
</tbody>
</table>

6. The product verifies the network connection and then connects to the network. When it is done, press the button. The Initial Settings Complete screen appears, and then the Home screen appears.
Settings

Initial Settings | Network - Wired

- MAC Address: 00:68:7b:dc:28:fc
- IP Address, Subnet Mask, Gateway, DNS Server
- Gateway Ping
- Internet Service Test

Your network is operating properly.
If you still have a network problem, contact your network service provider.

OK

NOTES
- If you want to display the Initial Setting screen again and make changes, select the Reset option. (See page 19)
- If you use an HDMI cable to connect the product to an Anynet+ (HDMI-CEC)-compliant Samsung TV and 1.) You have set the Anynet+ (HDMI-CEC) feature to ON in both the TV and the product and 2.) You have set the TV to a language supported by the product, the product will select that language as the preferred language automatically.

The Home Screen

1. Selects Photos.
2. Selects Videos.
4. Selects Settings.
5. Selects applications.
6. Displays the buttons you can use on the remote to access functions.

1. To select an option on the Home screen, move the cursor using the ▲▼◄► buttons until it highlights the option of your choice, and then press the Enter button.

NOTES
- To play or view video, photo, music files located on your PC, you must connect your home theater and PC to a home network and you must download, install, and configure the DLNA software on your PC. (See page 21.)

Accessing the Settings Screen

1. Select Settings on the Home screen, and then press the Enter button. The Settings screen appears.

| NOTES |
- To play or view video, photo, music files located on your PC, you must connect your home theater and PC to a home network and you must download, install, and configure the DLNA software on your PC. (See page 21.)

2. To access the menus, sub-menus, and options on the Settings screen, please refer to the remote control illustration below.

NOTES
- If you leave the product in the stop mode for more than 5 minutes without using it, a screen saver will appear on your TV. If the product is left in the screen saver mode for more than 20 minutes, the power automatically turns off.

Buttons on the Remote Control Used for the Settings Menu

1. HOME Button : Press to move to the Home screen.
**RETURN** (3) Button : Return to the previous menu.

**Enter** / **DIRECTION** Button :

- Press ▲▼◄► to move the cursor or select an item.
- Press the **Enter** button to activate the currently selected item or confirm a setting.

**EXIT** Button : Press to exit the current menu.

### NOTES
- The **Enter** button on the product’s front panel can be used for same purpose as the **Enter** button on the remote control.

#### Detailed Function Information

Each Settings function, menu item, and individual option is explained in detail on-screen. To view an explanation, use the ▲▼◄► buttons to select the function, menu item, or option. The explanation will usually appear on the bottom of the screen. A short description of each Settings function starts on this page. Additional information on some of the functions is also in the Appendix of this manual.

### Settings Menu Functions

<table>
<thead>
<tr>
<th>Settings Menu Functions</th>
<th>Display</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>3D Settings</strong></td>
<td>Set up the 3D related functions.</td>
</tr>
<tr>
<td>✓ <strong>3D Blu-ray Playback Mode</strong></td>
<td>Select whether to play a Blu-ray Disc with 3D contents in 3D Mode. If you move to the Home or Smart Hub Home menu while in 3D mode, the product will switch to 2D automatically.</td>
</tr>
<tr>
<td>✓ <strong>Screen Size</strong></td>
<td>Enter the size of the TV attached to the product. The product will automatically adjust the 3D output to the screen size of the TV.</td>
</tr>
</tbody>
</table>

| **TV Aspect Ratio** | Lets you adjust the output of the product to the screen size of your TV. See page 15, Step 4 for a description of the screen size options. |

| **3D Settings** | BD Wise is Samsung’s latest inter-connectivity feature. When you connect a Samsung product and a Samsung TV with BD Wise to each other via HDMI, and BD Wise is on in both the product and TV, the product outputs video at the video resolution and frame rate of the Blu-ray/DVD Disc. |
| **Resolution** | Lets you set the output resolution of the HDMI video signal to BD Wise, Auto, 1080p, 1080i, 720p, 480p. The number indicates the number of lines of video per frame. The i and p indicate interlaced and progressive scan, respectively. The more lines, the higher quality. |
| **Movie Frame (24 Fs)** | Setting the Movie Frame (24 Fs) feature to Auto lets the product adjust its HDMI output to 24 frames per second automatically for improved picture quality if attached to a 24Fs compatible TV. |
| ✓ **Movie Frame (24 Fs)** | You can enjoy the Movie Frame (24 Fs) feature only on a TV supporting this frame rate. |
| ✓ **Movie Frame (24 Fs)** | Movie Frame is only available when the product is in the HDMI 1080i or 1080p output resolution modes. |
| **HDMI Color Format** | Lets you set the color space format for the HDMI output to match the capabilities of the connected device (TV, monitor, etc). |
| **HDMI Deep Color** | Lets you set the product to output video from the HDMI OUT jack with deep color. Deep color provides more accurate color reproduction with greater color depth. |
| **Progressive Mode** | Lets you improve picture quality when viewing DVDs. |
| **Audio** | Lets you adjust the following speaker settings and turn the test tone on and off so you can test the speakers. |
| **Speaker Settings** | |
Speaker Settings

- **Level**: Lets you adjust the relative loudness of each speaker from 6db to -6db. For example, if you like deep bass, you can increase the loudness of the subwoofer by 6db.

- **Distance**: Lets you adjust the relative distance of each speaker from the listening position up to 30 feet. The farther the distance, the louder the speaker will be.

- **Test Tone**: Lets you run the test tone function so you can test your adjustments. Setting Test Tone to **On** turns the Test Tone on. Setting it to **Off** turns it off.

Speaker Selection

Lets you select which speakers you want active, either the TV’s speakers or the home theater’s speakers.

Audio Return Channel

Lets you direct the sound from the TV to the home theater speakers. Requires an HDMI connection and an Audio Return Channel (ARC) compatible TV.

- When Audio Return Channel is set to Auto, the home theater automatically selects either ARC or optical input as the audio source, depending on your connections. If Audio Return Channel is active, optical input does not work.

Digital Output

Lets you set the Digital Output to match the capabilities of the AV receiver you’ve connected to the product. For more details, please refer to the digital output selection table. (See page 33)

Dynamic Range Control

Lets you apply dynamic range control to Dolby Digital, Dolby Digital Plus, and Dolby TrueHD audio.

- **Auto**: Automatically controls the dynamic range of Dolby TrueHD audio, based on information in the Dolby TrueHD soundtrack. Also turns dynamic range control off for Dolby Digital and Dolby Digital Plus.

- **Off**: Leaves the dynamic range uncompressed, letting you hear the original sound.

- **On**: Turns dynamic range control on for all three Dolby formats. Quieter sounds are made louder and the volume of loud sounds is reduced.

Audio Sync

When the product is attached to a digital TV, lets you adjust the audio delay so that the audio syncs with the video. You can set the delay between 0 and 300 milliseconds.

Downmixing Mode

Lets you select the multi-channel downmix method that is compatible with your stereo system. You can choose to have the product downmix to normal stereo or to surround compatible stereo.

Network

- **Wired Network Settings**: For more information about Network Settings and network functions, see "Networks and the Internet" starting on page 19.

- **Network Test**: Lets you test the Internet Protocol setup to see if it is working correctly.

- **Network Status**: Lets you check whether a connection to the network and the Internet have been established.

- **BD-Live Internet Connection**: Lets you allow or prohibit an Internet connection for the BD-Live service.

System

- **Initial Settings**: Lets you re-run the Initial Settings procedure. See page 15 for details.

- **Anynet+ (HDMI-CEC)**: Anynet+ is a convenient function that offers linked operations with other Samsung products that have the Anynet+ feature and lets you control those products with one Samsung TV remote. To operate this function, you must connect this product to an Anynet+ Samsung TV using a HDMI cable.

- **BD Data Management**: Lets you manage the contents you downloaded through a Blu-ray disc that supports the BD-Live service. You can view the information about the USB device you are using for BD Live data storage including the storage space. You can also delete BD Live data and change the device.
### Language

You can select the language you prefer for the On-Screen Menu, disc menu, etc.
- The selected language will only appear if it is supported on the disc.

### Security

The default PIN is 0000. Enter the default PIN to access the security function if you haven’t created your own PIN.

- **BD Parental Rating**: Prevents playback of Blu-ray Discs with a rating equal to or above a specific age rating unless the PIN is entered.
- **DVD Parental Rating**: Prevents playback of DVDs with a rating above a specific numerical rating unless the PIN is entered.
- **Change PIN**: Changes the 4-digit PIN used to access security functions.

### General

- **Time Zone**: You can specify the time zone that is applicable to your area.

### Support

- **Software Upgrade**: For more information about the Software Upgrade function, see “Upgrading Software” on page 20.
- **Contact Samsung**: Provides contact information for assistance with your product.
- **Terms of Service Agreement**: View the general disclaimer regarding third party contents and services.
- **Reset**: All settings will revert to the default except for the network settings. The default security password is 0000.

### Networks and the Internet

When you connect this product to a network, you can use network based applications and functions such as BD-LIVE and upgrade the product’s software through the network connection.

### Configuring Your Network Connection

If you skipped network setup during the Initial Setup, follow the instructions below to configure the home theater’s network connection.

Before you begin, contact your ISP to find out if your IP address is static or dynamic. If it is dynamic, we recommend you use the automatic procedure below. If it is static, you must use the manual procedure that follows.

- Before you begin, confirm that the product is connected to your router with a network cable.

#### Automatic

To start the configuration process, follow these steps:

1. In the Home menu, select **Settings**, and then press the E button.
2. Select **Network**, and then press the E button.
3. Select **Wired Network Settings**, and then press the E button.
   - The Wired Network Settings screen appears.
4. Press the ▶ button on the Internet Protocol Setup menu.
   - Use ▲▼ button to select Auto, and then press the E button.

   ![Wired Network Settings](image)

5. The Network function acquires and fills in the values for IP Address, Subnet Mask, etc., automatically.
6. After the Network function has acquired the network values, press the RETURN ( MaterialApp) button.
7. Select **Network Test**, and then press E. The home theater validates the network connection. When it is done, press the RETURN button.

#### Manual

If you have a static IP address or the Automatic procedure does not work, you’ll need to set the Network Settings values manually. You can get the Network Settings from your Internet Service Provider (ISP).
Settings

1. Follow the first four steps in the Automatic procedure, but select Manual instead of Auto in Step 4.
2. Press the ▼ button to go to the first entry field (IP Address).
3. Use the number buttons on your remote to enter numbers.
4. When done with each field, use the ► button to move successively to the next field.
   You can also use the other arrow buttons to move up, down, and back.
5. Enter the IP Address, Subnet Mask, and Gateway values.
6. Press the ▼ button to go to DNS.
7. Press the ▼ button to go to the first DNS entry field.
   Enter the numbers as above.
8. Press the RETURN (၁) button on your remote.
9. Select Network Test, and then press ◄. When the test is completed, press the RETURN (၁) button to exit to the previous screen.
10. Select Network Status, and then press ◄.
11. The Network Status screen appears.
   The product verifies the network connection and then connects to the network. When it is done, highlight OK, and then press ◄.

Upgrading Software

The Software Upgrade menu allows you to upgrade the product's software for performance improvements or additional services.

- Never turn the product off or back on manually during the update process.

1. In the Home menu, select Settings, and then press the ◄ button.
2. Select Support, and then press the ◄ button.
3. Select Software Upgrade, and then press the ◄ button.
4. Select one of the following methods:
   - By Online
   - By USB
   - Auto Upgrade Notification
5. Press the ◄ button.
   Directions for each method begin below.

<table>
<thead>
<tr>
<th>NOTES</th>
</tr>
</thead>
</table>
| The update is complete when the product turns off after restarting. Press the POWER button to turn on the updated product for your use. Never turn the product on or off manually during the update process.
| Samsung Electronics takes no legal responsibility for product malfunction caused by an unstable Internet connection or consumer negligence during a software upgrade.
| If you want to cancel the upgrade while the upgrade software is downloading, press the ◄ button.

By Online

Your product must be connected to the Internet to use the By Online function. Remove all discs before you begin.

1. Select By Online, and then press the ◄ button.
   The Connecting to Server message appears.
2. If an update is available, a popup message appears asking if you want to upgrade. If you select Yes, the product turns off automatically, turns on, and then begins the upgrade.

<table>
<thead>
<tr>
<th>IMPORTANT</th>
</tr>
</thead>
</table>
| Never turn the home theater on or off manually during a software upgrade.
| The update progress popup appears. When the update is completed, the product turns off automatically again.
3. Press the POWER button to turn on the product.

<table>
<thead>
<tr>
<th>NOTES</th>
</tr>
</thead>
</table>
| The update is complete when the product turns off after restarting. Press the POWER button to turn on the updated product for your use.
| Never turn the product on or off manually during the update process.
| Samsung Electronics takes no legal responsibility for a product malfunction caused by an unstable internet connection or consumer negligence during software upgrade.

By USB

2. Click SUPPORT on the top right of the page.
3. Enter the product’s model number into the search field. As you enter the model number, a drop down will display products that match the model number.

4. Left click your product’s model number in the drop down list.

5. On the page that appears, scroll down to and then click Firmware Manuals & Downloads.

6. Click Firmware in the center of the page.

7. Click the ZIP icon in the File column on the right side of the page.

8. Click Send in the first pop-up that appears. Click OK in the second pop-up to download and save the firmware file to your PC.

9. Unzip the zip archive to your computer. You should have a single folder with the same name as the zip file.

10. Copy the folder to a USB flash drive.

11. Make sure no disc is inserted in the product, and then insert the USB flash drive into the USB port of the product.

12. In the product’s menu, go to Settings > Support > Software Upgrade.

13. Select By USB.

| NOTES |
- There should be no disc in the product when you upgrade the software using the USB Host jack.
- Never turn the product off or on manually during the update process.
- When the software upgrade is done, check the software details in the Software Upgrade menu.

### Auto Upgrade Notification

If your product is connected to the network and you set Auto Upgrade Notification on, the product will notify you if a new software version is available with a pop-up message.

1. Turn on the product.

2. In the Software Upgrade menu, set Auto Upgrade Notification to On.
   - If there is a new software version available, the product will notify you with a pop-up message.

3. To upgrade the firmware, select Yes. The product turns off automatically, turns on, and then begins the upgrade.

4. The update progress popup will appear. When the update is complete, the product will turn off automatically again.

5. Press the POWER button to turn on the product.

| NOTES |
- The update is complete when the product turns off after restarting. Press the POWER button to turn on the updated product for your use. Never turn the product on or off manually during the update process.
- Samsung Electronics takes no legal responsibility for a product malfunction caused by an unstable Internet connection or consumer negligence during software upgrade.

### Setting Up DLNA

DLNA enables you to play music, video and photo files located in your PC using this product. To use DLNA, you must connect the product to your PC via the network (See page 13) and install the SAMSUNG PC Share Manager on the PC.

### To Download the DLNA Software

To use DLNA with your PC, you must install DLNA software on your PC. You can download the PC software and get detailed instructions for using DLNA from the Samsung.com website.

2. Click SUPPORT at the top of the page.

3. Enter the product’s model number into the search field. As you enter the model number, a drop down will display products that match the model number.

4. Left click your product’s model number in the drop down list.

5. On the page that appears, scroll down to and then click Firmware Manuals & Downloads.

6. Click the Software tab.

7. In the software tab, click the EXE icon on the right side of the DLNA line.

8. In the first pop-up that appears, click Send. In the second pop-up, click Save File.

9. Find the DLNA install file on your disk, and then double click the file.

10. In the pop-up that appears, click Run, and then follow the directions that appear on your screen.

Download the DLNA Installation/Instruction manual from the same Software Tab by clicking the corresponding PDF file symbol in the File column on the right. The file, in PDF format, will download and open. Follow the directions to install and setup DLNA. You can view and/or save the file.

| NOTES |
- To use DLNA with your smartphone, you need to connect your set & smartphone to the same router.
Playing Files on a USB Device

You can play multimedia files located on a connected USB device.

1. Move to the Home menu.
2. In Stop mode, connect the USB storage device to the USB port on the front panel of the product. The message “Do you want to access the device?” is displayed.
3. Press the ►◄ button to select Yes, then press the E button.
4. Press the RED (A) button.

5. Press the ▲▼ buttons to select USB Flash Memory or USB Flash Disc, and then press the E button.
6. Press the ◄► buttons to select Videos, Photos or Music, then press the E button.
7. If files appear on the screen go to Step 8. If file folders appear on the screen, use the ▲▼◄► buttons to select a folder, press E, and then go to Step 8.
8. Use the ▲▼◄► buttons to select a file to play or view, and then press the E button.

OR

4. Press the BLUE (D) button.

NOTES

3D file playback is not supported.
To prevent possible damage to the USB memory, you must remove the USB storage device safely using the “Safely Remove USB” function. Press the HOME button to move to the Home menu, select the YELLOW (C) button, and then press the E button.

Playing a Disc with User Recorded Content

You can play multimedia files you have recorded on DVD or CD discs.

1. Turn on the home theater.
2. Open the disc tray, place a user recorded disc into the disc tray with the disc’s label facing up, and then close the tray.
3. After the disc loads, press the RED (A) button.
4. Press the ▲▼◄► buttons to select CD or DVD, and then press the E button.
5. Press the ▲▼ buttons to select Videos, Photos or Music, and then press the E button.
6. If files appear on the screen, go to Step 7. If file folders appear on the screen, use the ▲▼◄► buttons to select a folder, press E, and then go to Step 7.
7. Use the ▲▼◄► buttons to select a file to play or view, and then press the E button.

OR

3. After the disc loads, press the BLUE (D) button.
4. Press the ◄ ► buttons to select CD or DVD, and then press the E button.
5. Press the ▲▼ buttons to select Videos, Photos or Music, and then press the E button.
6. If files appear on the screen go to Step 7. If file folders appear on the screen, use the ▲▼◄► buttons to select a folder, press E, and then go to Step 7.
7. Use the ▲▼◄► buttons to select a file to play or view, and then press the E button.
Playing a Commercial Video Disc

Place a disc into the disc tray with the disc’s label facing up and then close the disc tray. Playback starts automatically. If it does not playback automatically, move to Videos in the Home menu and press the (E) button. In most cases, commercial videos will display a disc menu. To play the movie on the disc, select Play on the disc menu, and then press (E).

| NOTES |
- For more information about playing videos, go to "Controlling Video Playback" on this page.

Controlling Video Playback

You can control the playback of video files located on Blu-ray, DVD, and CD discs, and on USB storage devices. Depending on the media, some of the functions described in this manual may not be available.

Creating a Video Playlist

You can create a playlist of video files in a way that is nearly identical to the way you create a playlist of music files. For instructions, see “Creating a Music Playlist” on page 25.

Playing a Pre-Recorded Commercial Audio Disc

1. Insert an Audio CD (CD-DA) or an MP3 Disc into the disc tray.
   - For an Audio CD (CD-DA), the first track will be played automatically. Tracks on a disc are played in the order in which they were recorded on the disc.
   - For an MP3 disc, press the ▲▼ buttons to select Music, then press the ◄► button.

2. To play a particular track, use the ▲▼ buttons on the remote to select the track, and then press the ◄ button.

<table>
<thead>
<tr>

<tr>
<td>◄ button : Plays the currently selected track.</td>
</tr>
</tbody>
</table>

Repeating Tracks

You can set the product to repeat tracks.

1. During music playback, press the TOOLS button.
2. Use ◄► button to select Off, Track or One, All or Shuffle in Repeat Mode, and then press the ◄ button.
Creating a Music Playlist

1. If playing music from a commercial CD or DVD, press the  or RETURN ( ) button. The Music List Screen appears. If you are creating a playlist from music on a user created disk or USB device, access the Music list as described in "Playing Files on a USB Device" on page 22 or "Playing a Disc with User Recorded Content" on page 22.

2. Press the ▲▼◄► buttons to move to the desired file, and then press the YELLOW ( ) button to select it. Repeat this procedure to select additional files.

3. To remove a file from the Playlist, move to the file, and then press the YELLOW ( ) button.

4. Press the  button to play the selected files. The Playlist screen appears.

5. To go to the Music List, press the  or RETURN ( ) button.

6. To go back to the Playlist, press the  button.

| NOTES |

- You can create a playlist with up to 99 tracks on Audio CDs (CD-DA).
- If you go to the Music List from the Playlist, and then return to the Playlist, the Playlist will start playing again from the beginning.

Controlling Photo Playback

You can control the playback of photos located on DVDs, CDs, and USB storage devices.

Using the Tools Menu

During playback, press the TOOLS button.

<table>
<thead>
<tr>
<th>Start / Stop Slide Show</th>
<th>Select to play/pause the slide show.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Slide Show Speed</td>
<td>Select to adjust the slide show speed.</td>

</tr>
<tr>
<td>Information</td>
<td>Shows the picture information including the name and size, etc.</td>
</tr>
</tbody>
</table>

| NOTES |

- Depending on the disc or storage device, the Tools menu may differ. All options may not be displayed.
- To enable the background music function, the photo file must be in the same storage media as the music file. However, the sound quality can be affected by the bitrate of the MP3 file, the size of the photo, and the encoding method.

Creating a Photo Playlist

You can create a playlist of photos in a way that is nearly identical to the way you create a playlist of music files. For instructions, see "Creating a Music Playlist" on this page.
Listening to Radio

Using Buttons on the Remote Control

1. Press the FUNCTION button to select FM.
2. Tune in to the desired station.
   - Preset Tuning 1: Press the button to select PRESET and then press the TUNING UP, DOWN button to select the preset station.
   - Before you can tune to preset stations, you must add preset stations to the product's memory. See Presetting Stations below.
   - Manual Tuning: Press the button to select MANUAL and then press the TUNING UP, DOWN button to tune in to a lower or higher frequency.
   - Automatic Tuning: Press the button to select MANUAL and then press and hold the TUNING UP, DOWN button to automatically search the band.

Setting Mono/Stereo

Press the MO/ST button.
- Each time you press the button, the sound switches between STEREO and MONO.
- In a poor reception area, select MONO for a clear, interference-free broadcast.

Presetting Stations

Example: Presetting FM 89.10 into memory.
1. Press the FUNCTION button to select FM.
2. Press the TUNING UP, DOWN button to select <89.10>.
3. Press the TUNER MEMORY button.
   - NUMBER flashes on the display.
4. Press the TUNER MEMORY button again.
   - Press the TUNER MEMORY button before NUMBER disappears from the display on its own.
   - After you press the TUNER MEMORY button, NUMBER disappears from the display and the station is stored in memory.
5. To preset another station, repeat steps 2 to 4.
   - To tune in to a preset station, press the TUNING UP, DOWN button.

Using the TV SOUND Button on the Remote Control

If you have a TV that supports Anynet+ (HDMI-CEC), the TV SOUND button lets you direct the TV’s audio to the Home Theater Speakers or the TV Speakers. To use, follow these steps:

1. Connect an HDMI cable to the TV and home theater. (See page 14.)
2. Set Anynet+ (HDMI-CEC) On in the home theater and TV.
3. Press the TV SOUND button on the remote control. TV SOUND ON flashes on the display on the front panel, and then changes to D. IN.
   - When TV SOUND is on, TV audio outputs through the Home Theater speakers.
4. Press the TV SOUND button again to turn TV SOUND off.
   - When TV SOUND is off, TV audio outputs through the speakers of the connected Anynet+ TV.

Use TV SOUND:
1) When you want to listen to the TV’s audio through the home theater speakers.
2) When you want to listen to the audio from a USB device plugged into the TV through the home theater speakers.

Network Services

Using BD-LIVE™

1. Connect the product to the network. (See page 13)
2. Configure the network settings. (See pages 19~20)

Once the product is connected to your network, you can enjoy various movie-related service contents available on BD-LIVE compliant discs.

1. Attach a USB memory stick to the USB jack on the front of the product, and then use BD Data Management to check its remaining memory. The memory device must have at least 1GB of free space to accommodate the BD-LIVE services.
2. Select Settings on the Home screen, and then press the E button.
3. Select System, and then press the E button.
4. Select BD Data Management, and then press the E button.
5. Select Change Device, and then press the E button.
6. Select USB Flash Disk, and then press the E button.
7. Insert a Blu-ray Disc that supports BD-LIVE.
8. Select an item from the list of BD-LIVE service contents provided by the disc manufacturer.

</tr>
</tbody>
</table>

Using DLNA

DLNA lets you access and play files located on your PC through your home theater.
Follow the directions in the DLNA user’s guide to setup DLNA on your PC and to tag folders and files you want to share with the home theater.

To access and play files located on your PC after you have setup DLNA, follow these steps:

1. Turn on your PC, your TV, and the home theater.
2. Make sure the DLNA Shared server is running on your PC.
3. On your home theater, press the BLUE (D) button (View Devices).
4. Use the ▲▼◄► button to select your PC in the Device List.
5. Select the kind of file you want to view or play, Videos, Photos, or Music, and then press E.
6. Use the ▲▼◄► button to select the folder with the kind of files you selected, and then press E. The File List is displayed.
7. Select the file you want to view or play, and then press E.

Netflix, Vudu, CinemaNow, Pandora, Rhapsody, Twitter, Flickr, and Facebook require you to create accounts before you can use them. Although you can create an account at most of these sites through your home theater, it is easier and quicker to create an account by visiting the sites online using a PC, laptop, or tablet with Internet access. Note that in some cases, you will need to use the home theater and a PC, laptop, or tablet to establish an account. On the following pages are instructions for three apps - Netflix, Pandora, and YouTube - that work somewhat differently than their on-line versions.

English 27
Network Services

NOTES
- To exit these applications, press the EXIT button on your remote.

Using Netflix

You can use your home theater to stream movies, TV shows, and other video content from Netflix. To stream content from Netflix, you must connect your home theater to your network. See pages 13 and 19.

Starting Netflix for the First Time

1. On the Home screen, select Netflix and then press the E button.

NOTES
- If this is the first time you start any of the apps at the bottom of the screen, you will be asked to read and agree to the Terms of Service Agreement and the Samsung Service Privacy Policy. You must agree to both to continue. After you have agreed to both, go to Step 2.

2. If you already have a Netflix account, select Member Sign In, and then press the E button. Go to Step 3. If you do not have a Netflix account, select Start Your Free Trial, and then press the E button. Go to Step 9.

3. Select the E-mail field, and then press the E button.

4. Enter your e-mail address by selecting character, number, or symbol keys on the screen using the ▲▼◄► buttons, and then pressing the E button. When done, move the cursor to Enter at the bottom of the screen, and then press the E button. Go to Step 6.

5. Repeat the same process for the Password field.

6. After you have entered your password, select Continue at the bottom of the screen, and then press the E button.

7. If the E-mail and Password are correct, the product will log onto Netflix and present a choice of regular Netflix (a red rectangle) or Just for Kids. Select either, and then press the E button. Netflix is now activated. For instructions about selecting a movie or video to watch, go to Selecting a Movie or Video.

8. You can also search for movies and videos by keywords - title, director’s name, actor’s name, etc. To search, follow these steps:

   1. Select the Search field at the top of the movie/video list screen, and then press the E button.

   2. Using the ▲▼◄► buttons, select a letter or number, and then press the E button. The character you selected appears at the top of the field on the right. If you selected Start Your Free Trial, select the First Name field, and then press the E button.

   3. Select the Search field at the top of the movie/video list screen, and then press the E button.

   4. As you add more letters, Netflix will start to display matches in the field on the right.

   5. To move to the list of matches, press the ▼ button one or more times.

   6. To select a movie or video, highlight it and then press the E button.

   7. Select Clear at the top of the screen to clear all entered characters.

   8. Repeat the same process for the all the fields displayed (Last Name, E-mail, etc.).

   9. After you have entered your password confirmation, select Continue at the bottom of the screen, and then press the E button.

10. On the Your Payment Information page, fill in the fields in the same manner as the previous page.

NOTES
- The only exception is the Expiration Date field where you select the Expiration month and year.

11. After you have entered all the required information, select the I agree check box, and then press the E button.

12. Select Start Membership, and then press the E button. The Blu-ray product logs onto Netflix and presents a choice of regular Netflix (a red rectangle) or Just for Kids. Select either, and then press the E button.

NOTES
- To return to the previous page, press the Return button on your remote.

- To exit Just for Kids, select Exit Just for Kids at the top of the Just for Kids page, and then press the E button.

- To exit Netflix, press the Exit button on your remote.

Selecting a Movie or Video

Movies and videos on Netflix are displayed in rows by category. To scroll through a row, use the ◄► buttons. To move up or down, from one row to another, use the ▲▼ buttons. To select a movie or video, highlight it, and then press the E button.

1. Select the Search field at the top of the movie/video list screen, and then press the E button.

2. Using the ▲▼◄► buttons, select a letter or number, and then press the E button. The character you selected appears at the top of the field on the right.

3. Repeat Step 2 to select more letters or numbers.

4. As you add more letters, Netflix will start to display matches in the field on the right.

5. To move to the list of matches, press the ▼ button one or more times.

6. To select a movie or video, highlight it and then press the E button.

NOTE
- Select Clear at the top of the screen to clear all entered characters.
Select the **Delete** button (with an X) at the top of the screen to delete the last character you entered.

Just for Kids does not have a Search function.

---

**Using Pandora**

You can use your home theater to stream music from Pandora, free of charge. To stream music from Pandora, you must connect your home theater product to your network. See pages 13 and 19.

### Starting Pandora for the First Time

1. On the Home screen, select **Pandora**, and then press the **E** button.

   **NOTES**
   - If this is the first time you start any of the apps at the bottom of the screen (Netflix, Pandora, or YouTube), you will be asked to read and agree to the **Terms of Service Agreement** and the **Samsung Service Privacy Policy**. You must agree to both to continue. After you have agreed to both, go to Step 2.

2. On the Pandora welcome screen, select **Activate Pandora**, and then press the **E** button.

3. If you have a Pandora account already, select **Yes** in the pop-up that appears, press the **E** button, and then go to Step 4. If you do not have a Pandora account, select **No** in the pop-up that appears, and then press the **E** button. Record the activation code that appears, and then go to Step 9.

4. Enter your e-mail address. Use the ▲▼◄► buttons to select a character, and then press the **E** button.

5. Repeat Step 4 to enter all the characters in your e-mail address.

6. When done, select **Enter** at the bottom of the screen, and then press the **E** button.

7. Repeat Steps 4 and 5 to enter your Password.

8. When done, select **Enter** at the bottom of the screen, and then press the **E** button. The Blu-ray product launches Pandora. Activation is complete. Stop here.

10. Enter the activation code you recorded in Step 3 into the appropriate fields on the Pandora web page.

11. Follow the instructions on the Pandora web pages to create a new account.

12. When done, return to the Activation Code screen, select **Continue**, and then press the **E** button. Pandora launches.

---

**Using YouTube**

You can use your home theater to stream video content from YouTube. To stream content from YouTube, you must connect your Blu-ray product to your network. See page 11.

### Starting YouTube for the First Time

1. On the Home screen, select **YouTube**, and then press the **E** button.

   **NOTES**
   - If this is the first time you start any of the apps at the bottom of the screen (Netflix, Pandora, or YouTube), you will be asked to read and agree to the **Terms of Service Agreement** and the **Samsung Service Privacy Policy**. You must agree to both to continue. After you have agreed to both, go to Step 2.

2. On the YouTube screen, use the ▲▼ buttons, to select **Discover Channels**, **Search**, **My YouTube**, or **Featured**, and then press the **E** button.
   - **Discover Channels** lets you see the channels that are available and lets you select a channel.
   - **Search** lets you search for videos using key words or names.
   - **My YouTube** lets you access your YouTube account and send videos from your tablet or smartphone to your TV.
   - **Featured** displays the currently featured videos by category and lets you select a category.

### Playing and Controlling Videos

1. To begin, select either **Discover Channels** or **Featured**, and then press the **E** button.

2. Use the ◄► buttons to select a category you want, and then press the **E** button. YouTube automatically starts the first video in that category.

3. After the video starts, press the **E** button. The Control Panel appears. On the Control Panel you can Stop, Rewind, Fast Forward, and perform other operations on the running video by using the ◄► buttons on your remote to select the appropriate button on the Control Panel, and then pressing the **E** button on the remote.

### Finding and Selecting Other Videos

#### Related Videos

1. With a video running and the Control Panel displayed, press the ▼ button once. The Information screen appears.
Network Services

2. In the Information screen, press the ▼ button once. The Related Videos category appears displaying individual related videos.

3. Use the ◄► buttons to select a video, and then press the E button. The first video stops and the video you selected plays.

4. If you do not find a video you want, press the Return or ▲ button to return to previous screens.

Current Play List Videos
1. With a video running and the Control Panel displayed, press the ▼ button once. The Information screen appears.

2. In the Information screen, press the ▼ button once. The Related Videos category appears displaying individual related videos.

4. Use the ◄► buttons to select a video, and then press the E button. The first video stops and the video you selected plays.

5. If you do not find a video you want, press the Return or ▲ button to return to previous screens.

Using Search
1. On the YouTube Home screen, select Search, and then press the E button.

2. On the Search screen, use the ▲▼◄► buttons to select a character, and then press the E button. The character you selected appears in the field at the top.

3. Repeat Step 2 to select more letters or numbers.

4. As you add more characters, YouTube will start to display matches in the field on the right. This may take some time.

5. To move to the list of matches, press the △ button one or more times.

6. To select a video, use the ▲▼◄► buttons to highlight it, and then press the E button. YouTube plays the video.

NOTES |
- Select Clear at the top of the screen to clear all entered characters.
- Select the Delete button (with an :) at the top of the screen to delete the last character you entered.

My YouTube
My YouTube lets you access your YouTube account and send videos from your tablet or smart phone to your TV.

Using My YouTube
To use My YouTube, follow these steps:
1. On the YouTube Home page, select My YouTube, and then press the E button.

2. On the My YouTube page, use the ◄► buttons to select either Sign In or Pair, and then press the E button.

3. Follow the directions on the screen.

The Other Apps
The other apps either work much more like their on-line versions (Vudu, Cinema Now, Rhapsody, Flickr, Twitter, and Facebook) or are easy to use (LaunchPad and AccuWeather). The main difference between the regular on-line versions and the versions you can access through your home theater is that with the home theater versions you use your remote to enter letters and numbers as opposed to a keyboard.

Review the instructions for Netflix, Pandora, or YouTube to get a sense of how the other apps work and how to use your remote to navigate and enter letters and numbers.
Additional Information

Notes

Connections

HDMI OUT

- Certain HDMI output resolutions may not work, depending on your TV.
- You must have an HDMI connection to enjoy videos with 3D technology.
- A long HDMI cable may cause screen noise. If this occurs, set HDMI Deep Color to Off in the menu.

Settings

3D Settings

- For some 3D discs, to stop a movie during 3D playback, press the  button once. The movie stops and the 3D mode option is de-activated. To change a 3D option selection when you are playing a 3D movie, press the  button once. The Blu-ray menu appears. Press the  button again, then select 3D Settings in the Blu-ray menu.
- Depending on the content and the position of the picture on your TV screen, you may see vertical black bars on the left side, right side, or both sides.

TV Aspect Ratio

- Depending on the disc type, some aspect ratios may not be available.
- If you select an aspect ratio and option which is different than the aspect ratio of your TV screen, the picture might appear to be distorted.
- If you select the 16:9 Original, your TV may display 4:3 Pillarbox (black bars on sides of picture).

BD Wise (Samsung Products only)

- When BD Wise is on, the Resolution setting automatically defaults to BD Wise and BD Wise appears in the Resolution menu.
- If the product is connected to a device that does not support BD Wise, you can not use the BD Wise function.
- For proper operation of BD Wise, set the BD Wise option in both the product and the TV to On.

Digital Output

- Be sure to select the correct Digital Output or you will hear no sound or just loud noise.
- If the HDMI device (AV receiver, TV) is not compatible with compressed formats (Dolby Digital, DTS), the audio signal outputs as PCM.
- Regular DVDs do not have BONUSVIEW audio and Navigation Sound Effects.
- Some Blu-ray Discs do not have BONUSVIEW audio and Navigation Sound Effects.
- This Digital Output setup does not affect the analog (L/R) audio or HDMI audio output to your TV. It affects the optical and HDMI audio output when your product is connected to an AV receiver.
- If you play MPEG audio soundtracks, the audio signal outputs as PCM regardless of your Digital Output selections (PCM or Bitstream).
- Digital Output can be activated when Speaker Selection is set to TV Speaker.

BD-Live Internet Connection

- The Internet connection may be restricted while you are using BD-LIVE contents.

Anynet+ (HDMI-CEC)

- Depending on your TV, certain HDMI output resolutions may not work. Please refer to the user manual of your TV.
- This function is not available if the HDMI cable does not support CEC.
- If your Samsung TV has an Anynet+ logo, then it supports the Anynet+ function.

BD Data Management

- In the external memory mode, disc playback may be stopped if you disconnect the USB device in the middle of playback.
- Only those USB devices formatted in the FAT file system (DOS 8.3 volume label) are supported. We recommend you use USB devices that support the USB 2.0 protocol with 4 MB/sec or faster read/write speeds.
- The Resume Play function may not work after you format the storage device.
- The total memory available to BD Data Management may differ, depending on conditions.

Speaker Settings

- When Speaker Selection is set to TV Speaker, audio is produced through the TV speakers.

HDMI audio

- When HDMI audio is outputted to the TV speaker, it is automatically down-mixed to 2 channels.
Appendix

Audio Return Channel

• When Anynet+ (HDMI-CEC) is Off, the Audio Return Channel function is not available.
• Using an HDMI cable not certified for ARC (Audio Return Channel) may cause a compatibility problem.
• The ARC function is only available if an ARC-compliant TV is connected.

Playback

Playing a Video file

• Video files with high bitrates of 20Mbps or more strain the product’s capabilities and may stop playing during playback.

Selecting the Audio Language

• The ► indicator will not appear on the screen if the BONUSVIEW section does not contain any BONUSVIEW audio settings.
• The languages available through the Audio Language function depend on the languages that are encoded on the disc. This function or certain languages may not be available.
• Some Blu-ray Discs may allow you to select either the PCM or Dolby Digital audio English soundtrack.

Selecting the Subtitle Language

• Depending on the Blu-ray Disc / DVD, you may be able to change the subtitle language in the Disc Menu. Press the DISC MENU button.
• This function depends on the selection of subtitles that are encoded on the disc and may not be available on all Blu-ray Discs/DVDs.
• Information about the main feature BONUSVIEW mode will also appear if the Blu-ray Disc has a BONUSVIEW section.
• This function changes both the primary and secondary subtitles at the same time.
• The total number of primary and secondary subtitles are displayed respectively.

Playing a JPEG file

• You can’t enlarge the subtitle and PG graphic in the full screen mode.

Media Play

Using the TOOLS button while playing pictures

• If the system is connected to a BD Wise compliant TV that has set BD Wise to On, the Picture Settings menu will not appear.
• The Background Music function will not work unless the music file and the photo file are located on the same storage media. Also, sound quality can be impacted by the bitrate of the MP3 music file, the size of the photos, and the encoding method.

Playing back a USB Storage Device

• You must remove the USB storage device safely by performing the “Safe Remove USB” function to prevent possible damage to the USB memory. Press the HOME button to move to the Home menu, select the YELLOW (C) button, and then press the E button.

<tr>
<td>Audio language and subtitles do not work.</td>
<td>• Audio language and subtitles will not work if the disc does not contain them.</td>
</tr>
<tr>
<td>The menu screen does not appear even when the menu function is selected.</td>
<td>• Are you using a disc that does not contain menus?</td>
</tr>
<tr>
<td>The aspect ratio cannot be changed.</td>
<td>• You can play 16:9 Blu-ray/DVD discs in 16:9 Full mode, 4:3 Letter Box mode, or 4:3 Pan-Scan mode, but 4:3 Blu-ray/DVD discs are played in 4:3 ratio only. Refer to the Blu-ray Disc jacket and then select the appropriate function.</td>
</tr>
<tr>
<td>The product is not working.</td>
<td>• Press and hold the remote control’s 5 button for 5 seconds in NO DISC mode. This will reset the unit.</td>
</tr>
<tr>
<td></td>
<td>- Using the RESET function will erase all stored settings.</td>
</tr>
<tr>
<td></td>
<td>- Do not use this function unless necessary.</td>
</tr>
<tr>
<td>You have forgotten the rating level password.</td>
<td>• With no disc in the product, press and hold the product’s 5 button for longer than 5 seconds. INIT appears on the display and all settings will return to the default values. Then, press the POWER button.</td>
</tr>
<tr>
<td></td>
<td>• Using the RESET function will erase all stored settings.</td>
</tr>
<tr>
<td></td>
<td>• Do not use this function unless necessary.</td>
</tr>
<tr>
<td>Can't receive radio broadcasts.</td>
<td>• Is the antenna connected properly?</td>
</tr>
<tr>
<td></td>
<td>• If the antenna’s input signal is weak, install an external FM antenna in an area with good reception.</td>
</tr>
<tr>
<td>While listening to TV audio through the Product, no sound is heard.</td>
<td>• If you press the OPEN/CLOSE button while listening to TV audio using the D. IN or AUX functions, the Blu-ray/DVD disc functions are turned on and the TV audio is muted.</td>
</tr>
<tr>
<td>&quot;Not Available&quot; appears on screen.</td>
<td>• The features or action cannot be completed at this time because: 1. The Blu-ray/DVD disc’s software restricts it. 2. The Blu-ray/DVD disc’s software doesn’t support the feature (e.g., angles) 3. The feature is not available at the moment. 4. You’ve requested a title or chapter number or search time that is out of range.</td>
</tr>

**NOTES**
- When the factory default settings are restored, all stored user BD data is deleted.

**Repairs**

If you contact us to repair your product, an administration fee may be charged if either:

1. An engineer is called out to your home at your request and there is no defect in the product.
2. You bring the unit to a repair center and there is no defect in the product.

We will provide you with the amount of the administration fee before we make a home visit or begin any work on your product.

We recommend you read this manually thoroughly, search for a solution on line at www.samsung.com, or contact Samsung Customer Care at 1-800-SAMSUNG (726-7864) before seeking to repair your product.

LIMITED WARRANTY TO ORIGINAL PURCHASER

This SAMSUNG brand product, as supplied and distributed by SAMSUNG and delivered new, in the original carton to the original consumer purchaser, is warranted by SAMSUNG against manufacturing defects in materials and workmanship for a limited warranty period of:

One (1) Year Parts and Labor*
(*90 Days Parts and Labor for Commercial Use)

This limited warranty begins on the original date of purchase, and is valid only on products purchased and used in the United States. To receive warranty service, the purchaser must contact SAMSUNG for problem determination and service procedures. Warranty service can only be performed by a SAMSUNG authorized service center. The original dated bill of sale must be presented upon request as proof of purchase to SAMSUNG or SAMSUNG’s authorized service center. Transportation of the product to and from the service center is the responsibility of the purchaser.

SAMSUNG will repair or replace this product, at our option and at no charge as stipulated herein, with new or reconditioned parts or products if found to be defective during the limited warranty period specified above. All replaced parts and products become the property of SAMSUNG and must be returned to SAMSUNG. Replacement parts and products assume the remaining original warranty, or ninety (90) days, whichever is longer.

SAMSUNG’s obligations with respect to software products distributed by SAMSUNG under the SAMSUNG brand name are set forth in the applicable end user license agreement. Non-SAMSUNG hardware and software products, if provided, are on an “AS IS” basis.

Non-SAMSUNG manufacturers, suppliers, publishers, and service providers may provide their own warranties.

This limited warranty covers manufacturing defects in materials and workmanship encountered in normal, and except to the extent otherwise expressly provided for in this statement, noncommercial use of this product, and shall not apply to the following, including, but not limited to: damage which occurs in shipment; delivery and installation; applications and uses for which this product was not intended; altered product or serial numbers; cosmetic damage or exterior finish; accidents, abuse, neglect, fire, water, lightning or other acts of nature; use of products, equipment, systems, utilities, services, parts, supplies, accessories, applications, installations, repairs, external wiring or connectors not supplied and authorized by SAMSUNG, or which damage this product or result in service problems; incorrect electrical line voltage, fluctuations and surges; customer adjustments and failure to follow operating instructions, cleaning, maintenance and environmental instructions that are covered and prescribed in the instruction book; product removal or reinstallation; reception problems and distortion related to noise, echo, interference or other signal transmission and delivery problems. SAMSUNG does not warrant uninterrupted or error-free operation of the product.

THERE ARE NO EXPRESS WARRANTIES OTHER THAN THOSE LISTED AND DESCRIBED ABOVE, AND NO WARRANTIES WHETHER EXPRESS OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, ANY IMPLIED WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, SHALL APPLY AFTER THE EXPRESS WARRANTY PERIODS STATED ABOVE, AND NO OTHER EXPRESS WARRANTY OR GUARANTY GIVEN BY ANY PERSON, FIRM OR CORPORATION WITH RESPECT TO THIS PRODUCT SHALL BE BINDING ON SAMSUNG. SAMSUNG SHALL NOT BE LIABLE FOR LOSS OF REVENUE OR PROFITS, FAILURE TO REALIZE SAVINGS OR OTHER BENEFITS, OR ANY OTHER SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES CAUSED BY THE USE, MISUSE OR INABILITY TO USE THIS PRODUCT, REGARDLESS OF THE LEGAL THEORY ON WHICH THE CLAIM IS BASED, AND EVEN IF SAMSUNG HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES. NOR SHALL RECOVERY OF ANY KIND AGAINST SAMSUNG BE GREATER IN AMOUNT THAN THE PURCHASE PRICE OF THE PRODUCT SOLD BY SAMSUNG AND CAUSING THE ALLEGED DAMAGE. WITHOUT LIMITING THE FOREGOING, PURCHASER ASSUMES ALL RISK AND LIABILITY FOR LOSS, DAMAGE OR INJURY TO PURCHASER AND OTHERS AND THEIR PROPERTY ARISING OUT OF THE USE, MISUSE OR INABILITY TO USE THIS PRODUCT SOLD BY SAMSUNG NOT CAUSED DIRECTLY BY THE NEGLIGENCE OF SAMSUNG. THIS LIMITED WARRANTY SHALL NOT EXTEND TO ANYONE OTHER THAN THE ORIGINAL PURCHASER OF THIS PRODUCT, IS NONTRANSFERABLE AND STATES YOUR EXCLUSIVE REMEDY.

Some states do not allow limitations on how long an implied warranty lasts, or the exclusion or limitation of incidental or consequential damages, so the above limitations or exclusions may not apply to you. This warranty gives you specific legal rights, and you may also have other rights which vary from state to state.

To obtain warranty service, please contact SAMSUNG customer care center.
