**IMPORTANT WARRANTY INFORMATION REGARDING TELEVISION FORMAT VIEWING**

Work seen on a digital TV display may differ from the work originally produced by the artist or creator. The amount of detail and the manner in which the program is encoded can affect the quality of the digital display. For this reason, some programs, particularly those encoded in an analog format, may not be displayed as originally intended.

Additionally, many older digital images and all still images are not encoded with a horizontal scanning pattern, and will result in a generic display pattern on the digital TV. Although the TV is capable of displaying the image, this generic display pattern may not be the artist’s intended display of the image.

### Managing Channels

#### Channel List

**About the Channel List**

- **View Options**
  - **Normal View**: Displays the program’s channel number.
  - **Favorite**: Displays the favorite channel.
  - **Programmed**: Displays the program channel.
  - **Instant View**: Displays the channel name automatically.

**To select a channel in the Channel List**

1. Open the Channel List.
2. Select the source of your TV signal.
3. Press the OK button on your remote. The Channel List appears.
4. Use the arrow buttons to select a channel, and then press the OK button.

**To select a programmed channel**

- **Programmed Channels**
  - **Add/Remove Channels**: You can add or remove programmed channels.
  - **Fine Tune**: You can fine tune the channel.
  - **Status**: Displays the status of the channel.
  - **Select**: You can select the channel.

**To select an added channel**

- **Added Channels**
  - **Add/Remove Channels**: You can add or remove added channels.
  - **Change Order**: You can change the order of the channels.
  - **Status**: Displays the status of the channel.
  - **Select**: You can select the channel.

**To select a favorite channel**

- **Favorites**
  - **Add/Remove Channels**: You can add or remove favorite channels.
  - **Change Order**: You can change the order of the channels.
  - **Status**: Displays the status of the channel.
  - **Select**: You can select the channel.

**To select a channel using the Channel List**

1. Open the Channel List.
2. Select the source of your TV signal.
3. Press the OK button on your remote. The Channel List appears.
4. Use the arrow buttons to select a channel, and then press the OK button.

**To select a channel using the Antenna Source**

1. Open the Antenna Source.
2. Select the source of your TV signal.
3. Press the OK button on your remote. The Antenna Source appears.
4. Use the arrow buttons to select a channel, and then press the OK button.

**To select a channel using the Media Play**

1. Open the Media Play.
2. Select the Media Play.
3. Press the OK button on your remote. The Media Play appears.
4. Use the arrow buttons to select a channel, and then press the OK button.

**To select a channel using the Language**

1. Open the Language.
2. Select the Language.
3. Press the OK button on your remote. The Language appears.
4. Use the arrow buttons to select a channel, and then press the OK button.

**To select a channel using the Zoom**

1. Open the Zoom.
2. Select the Zoom.
3. Press the OK button on your remote. The Zoom appears.
4. Use the arrow buttons to select a channel, and then press the OK button.

**To select a channel using the Setting the Time**

1. Open the Setting the Time.
2. Select the Setting the Time.
3. Press the OK button on your remote. The Setting the Time appears.
4. Use the arrow buttons to select a channel, and then press the OK button.
